The Louisa Graded School closes to-day after a term of five months. The shortness of the term was due to a lack of money. The smallest edition printed by the Big Sandy News in any week of the past year was one thousand copies, which, on the accepted basis, means five thousand readers. We furnish a sworn statement of circulation to advertisers who desire it. We don't ask them to take an "off hand" statement, which usually exaggerates considerably.

NOTICE—Desiring to make some improvements in its plant the News will be compelled to press collections. Our patrons are not greeted every week with an announcement of this kind; in fact, it is very seldom that anything of this nature appears in our columns. We hope to meet with a liberal response, and to return the News will give you the greatest improvement possible in its service.

A PREMIUM TAKER. Lawrence County Tobacco. The Pension Agency. The papers stated very positively for a few days that Mat Adams would be appointed Pension Agent for Kentucky, and it seemed that there was not much room to doubt that such action had been decided upon. The latest, however, is the following from the Courier-Journal and it again places the situation in doubt in the public mind: "The President, contrary to expectation, did not send in the name of Capt. Adams to-day for Pension Agent for Kentucky. This leads to a report that the President takes umbrage at the newspaper reports to the effect that his intention to appoint Adams was due to the fact that Senator Lindsay was working hard for the confirmation of Peckham. The President resents this imputation, and it may have the effect of defeating the appointment of Adams. The friends of the latter, however, appear confident that the appointment will go in this week. It is quite certain that the President had almost made up his mind to appoint Adams, but whether these reports have changed his intention is a question that only subsequent events will solve. That the President does sometimes change his mind about appointments on what newspapers say there is no doubt, for only a few weeks since a case of that kind occurred where a commission was revoked after it had been signed."

ONECA. A Great Many Children have been cured of scrofula and other skin diseases—such as eczema, psoriasis, etc.—as well as thousands of grown persons, by taking Dr. Pierce's Golden Medical Discovery. Every disorder that can be cured through the blood, yields to its purifying qualities. It cures the blood in the system, and strength; not merely for the skin, but for the whole system. A scrofulous condition of the blood invites Catarrhs, Rheumatism and Consumption. We will not expect to cure the scrofula of consumption, grip, or any other disease, but only the weak ones. When you're weak, tired out, and debilitated, or when pimples and blotches appear—heed the warning in time. The "Discovery" cures all the organs into healthy action—especially the liver, for that is the point of entrance for these poisons, then if the blood is pure, they'll be thrown off. There's no risk. If it fails, you'll get your money back. If it cures, you'll get your money back.

Warranted cures by Dr. Pierce's Discovery.

Commissioner's Sale. Mrs. P. D. HALL, 217 Genesee St., Lockport, N. Y., says: "Over thirty years ago, I remember hearing my father describe the wonderful curative effects of Ayer's Cherry Pectoral. During a recent attack of La Grippe, which assumed the form of a serious soreness of the lungs, accompanied by an aggravating cough, I used various remedies and prescriptions. While some of these medicines partially alleviated the coughing during the day, none of them afforded me any relief from that spasmodic action of the lungs which would seize me the moment I attempted to lie down at night. After ten or twelve such nights, I was

Nearly in Despair, and had about decided to sit up all night in my easy chair, and procure what sleep I could in that way. It then occurred to me that I had a bottle of Ayer's Cherry Pectoral. I took a spoonful of it, and in a few moments I fell asleep, and awoke in the morning greatly refreshed and feeling much better. I took a teaspoonful of the Pectoral every night for a week, then I gradually decreased the dose, and in two weeks my cough was cured."

The peach trees which have been growing for several years in this altitude have never missed a year bearing abundantly since they have been old enough to bear.—Courier Journal.

There is no claim made for Ayer's Sarsaparilla which cannot be endorsed by scores of testimonials. This fact plainly proves that the blood is the source of most disorders and that Ayer's Sarsaparilla is the best of blood purifiers. Try it this month.
