The proceeds of the Measuring Social, at the residence of Dr. J. M. Boland, next Tuesday evening, are to go towards putting a new roof on the parsonage. Every body is invited to be present at the social.

Mrs. E. B. Hager was brought to the home of her parents, Mr. and Mrs. R. J. Pritchard, Tuesday evening, from Ashville, N. C. The trip down there did not bring the relief hoped for, but since reaching home she shows some improvement.

FIVE YEARS.

James Gleaton Gets a Long Sentence for Robbery of Louisa Postoffice.

Judge Cochran, of the United States Court, has sentenced James Gleaton, or Gleason, to the penitentiary for five years and fined him \$500. It will be remembered that he was convicted in that court about two weeks ago for complicity in the robbery of the postoffice at Louisa. The robbery was committed last December by three or four men, all crooks well known in criminal and police circles. They secured about \$500 in money and stamps, and wrecked the postoffice safe. The other guilty parties are at large.

Prichard Elected.

The Senatorial Race Was Very Close, But Temple Loses.

The result of the official count in the counties composing this senatorial district is as follows: FOR PRICHARD: Elliott county 779 Lawrence county 90 869

FOR TEMPLE: Boyd county 318 Greenup county 475 793

Prichard's majority, 78 Normal precinct, in Boyd county, which has not yet been counted, is said to have given Temple about 40 majority. So it will be seen that the result will not be changed by this precinct, if it is finally counted.

To Non-resident Taxpayers.

All taxes due on property of non-resident taxpayers not paid on or before Nov. 28th 1901, will be collected by law. I will levy on all such property immediately after that time and sell the property to satisfy said taxes. J. L. VAUGHAN, S. L. C.

Election Results.

The big fight over the county offices in Pike county resulted in the entire Democratic ticket being elected. Following are the majorities:

Judge W. O. B. Hatfield, 156 Clerk, James Hatcher, 242 Sheriff, W. M. Smith, 232 Attorney, John Auxler, 75 Supt. Schools, L. J. Williamson, 219 Representative, L. H. Lawson, 214 Jailer, Thos. Bales.

A considerable amount of money was spent, but the sum is said to have been greatly exaggerated in the reports that have gone around.

Meteoritic Display.

The people of this section will be interested in knowing that the great meteoritic display which has been looked for during the past two or three years is likely to take place on Friday night, the 15th inst. The last appearance of these meteors was in 1867, at which time the shower was exceedingly fine.

Leonids, by which name they are known in scientific circles, were looked for in 1869, and their failure to appear disappointed many astronomers. It is now explained that a mistake was made in computing the time of their appearance and that they may be expected with reasonable certainty next Friday night.

Last Thursday evening Misses Emma and Matilda Wallace gave an "old fashioned" party in honor of their cousin, Miss Voss McClure. Every feature of the evening had been carefully planned and was fully in keeping with the name. The spacious lawn of Highland Home was lighted with grotesque Jack-o'-lanterns. The costumes were varied, representing the fashions of long ago, some being more than half a century old. Many of the young ladies wore their mothers' wedding dresses. The guest of honor in a quaint colonial costume of pink and white, with powdered hair looked as if she had just stepped down from some old picture. The games of the evening were also old fashioned and a stranger peeping through the window and seeing a lady in a polonaise dodging a blind-folded Catalpa dame would have wondered if he were dreaming. The refreshments were nuts, apples, pop corn, and taffy, and were served to guests seated around a large crackling wood fire. Riddles, anecdotes and ghost stories helped to make the evening pleasant and brought to memory many a grandmother's stories of her girlhood. It was quite late when the hay wagon, which conveyed the guests to and from the "festive scene", drove up and the friends of the hostesses bade them good night with genuine regret and truthfully thanked them for one of the most pleasant evenings ever spent.

Conley has just received a nice line of testaments and bibles.

K. B. V.

"Kentucky Big Vein," Col. Northup's New Mine, Attracting Attention.

The following complimentary mention of Col. Jay H. Northup's new coal mine, two miles above Whitehouse, is taken from The Black Diamond, the leading coal publication of the country:

"Kentucky Big Vein coal is becoming quite popular with dealers who have given an order for a trial car of K. B. V. This coal is mined at Hammond, Ky., on the Chesapeake & Ohio railroad, from an eleven-foot vein. The coal has a white clay wash from mining which gives it a dull appearance, but when broken it shows a bright clean fracture. It is a fine splint coal, burns with an intensely hot flame, a light gray smoke, almost smokeless, and is cinderless, makes a soot and burns to a clean white ash. It mines in large lumps, is a magnificent domestic coal, and handles as good as hard coal, absolutely free from slate and fine coal. L. M. Hammond, 303 Dearborn street, Chicago, is general sale agent for this coal, and W. B. Hubbs, Spitzer building, Toledo, for northern Ohio, is sole agent in Michigan, northern Indiana and northern Ohio."

KELLEY IN THE ARMY.

Noah Kelley, who killed Lafa Hicks at Cherokee, this county, about two weeks ago, enlisted in the U. S. army at the recruiting station in Ashland the next day after the murder was committed, and it is thought he was sent to Columbus. An effort will be made to bring him back.

Mr. John L. Hubbard, school teacher at Peach Orchard, taught school at that place last Friday, and wishing to come to Louisa on that day and there being no train, he walked down, arriving here at 6:10 p. m., having walked from the depot at Peach Orchard to the depot here in three hours and fifty minutes and about twenty seconds. The distance by rail is 22 miles.

MEASURING SOCIAL.

You are cordially invited to attend a Measuring Social at the parsonage of M. E. Church, South, Tuesday, November nineteenth, nineteen hundred and one, seven-thirty, p. m. Louisa, Kentucky.

Come ye one, come ye all; Come ye short and ye tall. But, if your presence ye can't lend, Please measure and your money send. One foot, six and-a-half cents will do. Pignias and grants admitted free.

PERSONALS.

Dr. Watson was in Ashland Tuesday.

A. O. Carter was in Catlettsburg Tuesday.

F. L. Stewart was in Ashland last week.

Mrs. Ernest Menor, of Fallsburg, was here Monday.

Mrs. J. J. Johnson was in Ashland Wednesday.

Miss Ida Smith has returned from a visit in Portsmouth.

Miss Neva Stewart returned Friday from a visit in Huntington.

Mrs. John Conley returned Wednesday from a visit to Ohio relatives.

Miss Bertha Riffe, of Vessie, is the guest of her sister, Mrs. C. Arthur.

John Murray, traveling salesman, of Portsmouth, spent Sunday in Louisa.

Mr. and Mrs. H. G. Burchett returned Monday, from a visit in Huntington.

Mrs. S. J. W. M. Stewart of Ashland, was the guest of Louisa relatives this week.

S. J. Justice has moved into the property recently vacated by W. W. Cordell's family.

Mr. and Mrs. H. C. Sullivan spent Sunday at the Wm. Moore home near Lockwood.

Capt. T. D. Marcum of Catlettsburg, was here the first of the week, on his way up Sandy.

Mrs. Jas. Vinson has returned from a visit to her daughter, Mrs. John B. Vinson, at Catlettsburg.

Mrs. O. P. Wellman returned Monday from Huntington where she had spent a few days with her husband.

Mrs. Wat Davis and Miss Mary Muncy have returned to their home at Grayson, after a visit to J. I. Muncy near here.

Miss Vessie McClure left Wednesday for Washington City, where she will spend the winter. Mr. and Mrs. F. T. D. Wallace accompanied her as far as Catlettsburg.

Don't forget to ask for Dill pickles at Sullivan & Fulkerson.

OUR NEIGHBORS.

The pension of Tandy Stratton, Coal Run, has been increased to \$5.

Thieves broke into the postoffice at Riverton, Greenup county, and took six registered letters.

Mr. G. E. Staley and Miss Bertie Ford were married last week at the home of the bride's mother, Mrs. Mary Ford, at Pikeville.

Attorney G. V. Sagraves, of Whitehouse, has been appointed special judge in the Pod Cassady case to be tried at Eden the first of December.

C. Breck Hill, Secretary of State, who has been looking after some coal lands in the Big Sandy valley in which he is interested, was in Ashland yesterday enroute to his home in Winchester.—Ashland Independent.

Mrs. Jacob Ohlinger received a check for \$3,000 from the Knights of the Maccabees, the amount of her late husband's insurance. He died Oct. 14, and the payment was made in two weeks thereafter.—Ashland Independent.

The oldest inmate of the Kentucky penitentiary, Joe Johnson, of Pike county, aged 76 years, sent up for life for murder, was released last Friday afternoon on parole.

For several months he has been unable to perform work of any kind.

John Shumate, who was stabbed in the election fight in Pine Grove precinct, Rowan county, is now improving, and his chances for recovery are thought to be good.

Two of the four Hogs who were shot in the same fight are paralyzed and are in a very serious condition.

Mrs. Frank Powers was elected delegate-at-large from the state W. C. T. U. to the national convention which meets at Ft. Worth, Texas. She will attend. She was also one of the prominent speakers before the state association.—Grayson Tribune.

All the Republican candidates for county offices in Greenup county won by majorities ranging from 175 to 400. The names of the successful ones are: County Judge, J. B. Bennett. Attorney, E. E. Fullerton. Clerk, Geo. A. Corum. Sheriff, Sam Bailey. Jailer, Nicholas Doran. Supt. of Schools, J. M. Littler. Assessor, Alvy Cochran. Legislature, W. J. Worthington.

Capt. W. L. Thomas, of Augusta, owner now of the steamer W. O. Hughart, which is being used as ferry boat here in place of the Bonne, is expecting to place the Hughart in the trade between this city and Louisa as soon as the river opens. Capt. Thomas is an old steamboat man and will give the patrons between these two towns the best of service.—Catlettsburg Press.

In Floyd county G. R. Davidson was defeated for County Clerk by Mail Hall. The majority was over 200. Davidson had been clerk for twenty years. The Republicans also elected the jailer, James Layne.

The race for Representative in the district composed of Floyd, Knott and Letcher was won by Herford, Democrat, by 28 majority.

Inez, Ky., Nov. 7.—G. W. Eisepp, 40, a prominent minister in the United Baptist Church, was fatally stabbed here last night by Marlon Daniels.

Asa Williamson, Democratic nominee for Sheriff, engaged in a scrap with Estep as the result of a dispute over the election. During the fight Daniels sprang on Estep with a knife and inflicted a probably mortal wound.

In the United States court at Covington the big damage suit of Alfred Stewart's administrator against the C. & O. railroad was decided in favor of the railroad. The amount asked for by the plaintiff was \$10,000. After the testimony for the plaintiff was heard, Judge Cochran gave peremptory instruction to render a verdict in favor of the defendant.

Alfred Stewart was killed at F. K. Junction in 1897, and this suit was the result.

Official Majorities in Lawrence.

L. C. Prichard 90 J. J. Byrne 75 R. F. Vinson 105 G. E. Fugitt 8 Add. Skens 148 Josse Cardo 196 Allen Hayes 223 Ralph Holbrook 60 Charles B. Peters 86 J. C. Marcum 68 H. B. Highberger 59

The Democratic Magistrates elected were as follows: B. F. Diamond, Smith Jobe, Tandy Giles, John Compton, James N. Sparks.

REPUBLICAN MAGISTRATES: James Perry, J. M. Berry, Lewis Swan.

REPUBLICAN CONSTABLES: Lewis Dillon, B. K. Moore, John D. Young.

WONDREUL MACHINE.

Farms, Fodder and Food and How to Save Them.

The object of this article is to call attention to wasteful methods of feeding stock on farms, the amount of valuable food material utterly lost, and a remedy. One need but pass along any public road in the county to get a fair idea of what is being wasted. The ground near almost every stable and barn is thickly strewn with cornstalks from which hungry and gaunt cattle have with difficulty stripped the blades—only 11 per cent, by the way, of the digestible matter—and trampled the remainder in the filth and mire. If the owner of the place is reasonably thrifty he has perhaps several tons of timothy hay in his barn, not knowing that the fodder from one acre yields as much digestible matter as two tons of timothy hay. If it has been a good crop (corn) year he has gathered and carefully stored his corn, leaving whole acres thick with stalks, not knowing that there is more digestible matter in corn fodder than in the corn ears. This same farmer will probably give a "shucking" party some day or night. The big ears are thrown into a crib, but the shucks (husks) are thrown out with the rejected stalk. Mr. Farmer having no idea that nearly 67 per cent of it is digestible matter; and digestible matter is food. Our farmer friend will probably be amazed when he learns that there is enough digestible matter produced by the corn fodder, the whole stalk minus the ear, grown in the Southern States to winter all the live stock existing in those States, if it was properly preserved and prepared in a palatable form. We leave it to the farmer himself to say how much of this valuable food is entirely wasted.

There is no question as to the digestibility of this rejected material. Its value as a food is not a theory—it is a fact beyond any question. Carefully conducted and repeated experiments have fully established it. "But," says the man who throws an armful of cut corn on the muddy ground about his barn and sees 99 per cent of it trampled under foot, "the darn things won't eat it". Here, my friend, is where you have a theory and not a fact. They will eat it and, if they could talk, would ask for more, if it were properly prepared. You (sometimes) properly prepare your own food, and the result is a minimum of waste and an increase of health and strength. This would also be the result of your stock if the food you offer them was put before them in a proper condition. Experiment and invention have produced machines by the use of which every particle of a stalk of corn is converted into palatable, digestible, fat and strength making food. And it's cheap. Can you ask or expect a cornstalk to do more? We saw one of the best of the machines at work the other day, and we simply marvelled at the process and the results. Of course it was at the Eloise Improvement Company's farm 14 miles above Louisa. We were so amazed at the wonderful work of the machine that we forgot to ask its maker's name. But if you are interested in what we have tried to say just ask Col. Northup, who bought it, or Snyder Brothers, who sold it, and you will get all the information you want. The machine was a thing of knives, wheels, springs and wind, run by steam. You put into its capacious mouth an armful of cut up corn. There is a rumble, a whirl and a rattle, and over an endless iron carries the clean ears of corn go rapidly into a waiting wagon, to be carried away when full, and up into the barn, into the silo, or anywhere it may be wanted, is blown a mass of sweet, tender, juicy food. The dejected shuck and the rejected stalk have been cut and shredded into a mass almost silky in its softness and blown through a huge funnel into a suitable place, and not a particle has been wasted. How long will it take you and your two boys, working from sun to sun, to "shuck" three hundred bushels of corn, 1 1/2 bushels, of course, going to waste? Of course we don't know, but this concern us at The Farm does it in one day, and makes good food of the stalk and husks into the bargain. As we said a moment ago this husker and shredder—and cheller, if necessary—is run by steam. The engine is not a big one. One man carried the corn to a platform in front of the machine and another fed it. This was the running force, ridiculously small compared with the results obtained. There seems nothing complicated about the shredder, and nothing easily broken. The product is an ideal food—cheap, palatable, nutritious. It does not easily spoil and can be baled and transported as easily as hay. Of course this food is not the only provender needed by cattle. If the animals are fed for the purpose of producing any material growth, or for the production of milk or butter, it will be necessary to supplement it with some feeding stuff which will make good any deficiency. It will amply repay any farmer his trouble to make a visit

Ladies and Misses Jackets.

Many Women run hither and thither and think they are buying jackets. But they are not

They are Simply Buying Experience.

They Will Have Discovered

That Jackets in advertisements are one thing, but Jackets they can see, try on and examine are another.

Our Jackets are the Handsomest this Season that we have ever known them.

They are elegant in construction, superior in quality, and, yet, modest in price. They fit the form to perfection, and in this respect are unapproached. All styles and all colors.

In colors—Tan, Grays, Castors, Blacks and Blues. In prices as follows: \$2.50, \$3.00, \$3.50, \$4.50, 5.00, 6.00, 10.00, 12.50, and 18.00. In the finest grades we have no two exactly alike. Ladies plush capes from 1.25 to 8.00. Call and see them.

G. W. Gunnell

to the Eloise farm. The operation of the shredder alone is a valuable object lesson, and there are many other things there to interest and instruct.

Sermon week, Mrs. N. Y., writes: "I had been troubled with my kidneys for 25 years and had tried several physicians but received no relief until I bought a bottle of Foley's Kidney cure. After using two bottles I was completely cured. I earnestly recommend Foley's Kidney cure. Take only today's. A. Hughes"

Some representatives of Berea College were here last week giving stereopticon entertainments and lectures. They are making a tour of the mountains to advertise their college. This is a mixed school located at Berea, Madison county, Ky., which was established soon after the war with funds appropriated by some misguided and fanatical northerners.

WANTED—500 bushels of new corn delivered at our stable. FULKERSON BROS. [2-1]
