Prince Henry of Prussia sailed for Germany.

As the vessel moved away from the pier the cheering was continuous—the voices of the sailors and crew.

New York, March 12.—Prince Henry of Prussia sailed for Germany on board the Hamburg American liner Deutschland Tuesday afternoon. His last day in America was spent entirely on board the Deutschland, but it was well filled with pleasing incidents.

The prince breakfasted early and about 10 o'clock began to receive an official farewell. He was accompanied by representatives of the United States government.

Immediately after luncheon at the prince's invitation the official party went to the commanders of the Deutschland and was there photographed.

An incident of the forenoon was the exit of the committee of 45 of New York letter carriers, representing the New York branch of the National Letter Carriers' association.

Shortly before the Deutschland sailed the United States flag was hoisted on the ship.

When the ship sailed all approaches and the pier were crowded. The first cabin section of the Deutschland was packed all afternoon with passengers and their friends.
