Letter From The Philippines.

At Holo, Panay, P. I. on the 20th of Sept. a prisoner was killed. He was a soldier of the 9th Cavalry, and they say that he was a bad man. He was trying to make his escape from three sentinels who were in charge of him, who were armed with Springfield rifles and were ready to shoot at any time. The prisoner was under arrest for sitting and sleeping while on post which is a serious offense in the Army. He was put under arrest at St. Augustin barracks on or about the 14th day of August. While in confinement he broke away from the Guard and took to the mountains where he stayed about 20 days, then he came to the town by the name of Jaro, while there the soldiers got track of him and put him under arrest and then they brought him to this post, and before they had time to report him to the Commanding Officer he broke away the second time and ran through the Hospital, and the sentries fired three shots at him while he was going through. They were not very far from the guard house at this post, the guard fell in and went after him. They had orders to get him dead or alive. The guard was under the command of Sergeant William Begley military man. He was a soldier in the 2nd Infantry, U. S. A. His home is in Pineville Ky. He gave his guard the commands and they obeyed them as he gave them. The prisoner was running all around the houses and the Guard could not get a shot at him until he headed him off from getting in amongst the natives who were scared almost to death. They would run in the road of the Guard so they could not get to their man. In the mean while the Sergeant ran to a street by the name of Calle de Raia where he was standing waiting for some of the Guard. He saw the prisoner running down the street and loaded his gun and knelt down and took deliberate aim and then fired, and hit the prisoner in the left kidney. The prisoner still was running after he was shot, the Sergeant then took another shot at him, this time the shot taking effect in the left side just above the heart. The Sergeant was not in the least excited as he was used to hearing the guns fired, for he was in the battle of San Juan Hill in Cuba. The prisoner was taken to the general Hospital and was treated, but died in a short time after arriving there. He was buried today the 21st of September. The Sergeant that shot him was counted the best marksman in the Company and I think he showed some of his fine shooting for there were about 30 shots fired at the prisoner without taking effect, while the Sergeant only shot two shots and brought his man to the ground.

Very Respectfully,
B. F. Roberts,
Co. H, 29th Inf. U. S. A.
