FIGHT TO A FINISH.

All the Allied Trades Unions With the Exception of Two Quit Work.

THE TEAMSTERS AND ENGINEERS.

What Promises to Be One of the Hottest Fights Between Capital and Labor is Now On.

Efforts of Teamsters' Union to Settle the Trouble Failed and They and the Stationary Engineers Will Join the Strikers.

Chicago, July 26.—With all peace negotiations broken off and with all the allied trades unions employed at the different plants, with the exception of the teamsters and the stationary engineers, out on strike in sympathy with the butcher workmen who quit work two weeks ago, the stock yards strike Monday night had settled down to what promises to be one of the bitterest fights between capital and labor in the history of America. As has been threatened for some time, the allied trades employed in the packing industry quit work, when called on Monday to assist the striking butchers in their efforts to bring the packers to terms. In several instances the men did not wait for the official notification from their leaders to go on strike, but threw down their tools and quit work of their own accord.

At 10 o'clock Monday night the statement was made by Michael J. Donnelly, president of the Butchers' union, that every union man employed at the stock yards with the exception of the teamsters and engineers, had responded to orders for a general sympathetic strike. The engineers, he declared, would join the strikers Tuesday morning, and unless there was speedy settlement of the difficulty, he said the teamsters would undoubtedly join their brother workmen in their struggle for supremacy. According to Mr. Donnelly, Monday's strike swelled the number of men who have quit work at the stock yards in Chicago alone to nearly 20,000 persons. Both sides to the controversy declared Monday night that they were perfectly satisfied with the present state of affairs and that they were willing to make a fight to a finish to determine who shall dictate the terms of a settlement.

A new phase of the strike situation developed late Monday afternoon when notices were given by the unions to the independent packers at the stock yards that their men would not be allowed to handle animals which had been brought into the yards or handled in any way by non-union men. It is necessary for these independent concerns to take all of their live stock into their yards over Union stock yards runways, where the stock must be handled by non-union men, since the union-men employed by the stock yards company in this line of work were among the employees who joined the sympathetic strike Monday. The ultimatum of the unions leaves the independent packers no alternative but to receive their live stock direct from the country or else close down business entirely. A meeting of the independent packers was held Monday night to map out some plan of action, but no definite conclusion was reported. Another meeting will be held Tuesday to further consider the matter.

Before peace negotiations had been entirely broken off Monday, representatives of the teamsters' union, as had been agreed on Sunday night, were in conference with the packers in an effort to arrange some sort of a settlement which would prevent a spread of the strike. At this meeting the packers were asked to concede that the first peace agreement signed last Wednesday, and which was later repudiated by the strikers when a second strike was called, be considered null and void and that the packers submit a new proposition for peace terms. The committee also notified the packers that the striking butchers would stand by last Saturday's demand, which was that all men be reinstated within ten days or their cases be submitted to immediate arbitration; all butchers and casing men to be taken back within 15 hours after work was resumed. No progress toward a settlement was made at the conference and the teamsters committee retired to consider a new proposition.

Immediately upon the return of the teamsters committee to union headquarters they entered into a conference with the representatives of the allied trades to consider a proposition submitted to the unions by the representatives of the packers. In the meeting between the teamsters and the packers, the latter offered to change the time of reinstating all the strikers from 45 to 35 days. They made no concessions other than this and the proposition was submitted to the allied trades committee. President Donnelly, of the Butchers' union, however, refused to consider the proposal and all hope of an immediate settlement was lost.

A CONTINENTAL STRAIN.

Many men and women are constantly subjected to what they commonly term "a continental strain" because of some physical or family trouble. It wears and distresses them, both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with its attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continental strain," but they can remedy its health-destroying effects by taking frequent doses of Green's August Flower. It tones up the liver, stimulates the kidneys, invigorates bodily functions, gives vim and spirit to one's whole being, and eventually dispels the physical or mental distress caused by that "continental strain." Trial bottle of August Flower, 25c; regular size, 75c. At all druggists, Louisa Drug Co.

I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by A. M. Hughes.
