Up Go The Cows.

City Council met Tuesday night, with Mayor Augustus Snyder presiding and Messrs. Robt. Vinson, Robt. Bickel, Dan Blankenship and William Wilson present.

The most interesting piece of legislation that has been enacted for a long time is the passage of an ordinance making it an offense to permit cows to run at large within the corporate limits of the city.

The ordinance makes it punishable by a fine of not less than one nor more than five dollars, and each day the cow runs at large shall be considered a separate offense.

The law takes effect fifteen days from the publication of the ordinance. Another important thing done was to direct Mayor Snyder as Commissioner to purchase one thousand feet of first class fire hose for the use of the city.

Two new street crossings were ordered to be built, one from the old Drake building to the opposite Billings' corner, and the other from Junior Order Hall to Milt-Barns' corner.

An excellent thing done was to order the Water Works Company to repair and put in good condition the streets along which the mains run and which now present rather a ragged appearance.

It was settled that the entire amount to be paid manner Cox, of the waterworks company is \$750 annually. Several small bills were ordered paid and some business of minor importance was transacted and Council then adjourned.

And now let the Council appoint a smelling committee and do something to abate that horrible odor which poisons the atmosphere in the neighborhood of the jail.

All who live in that vicinity are complaining of the sickening stench, and passers-by hold their noses until they are out of reach of the smell.

The council has ordered all sidewalks repaired that are in bad condition.

Burglary.

The bad, bold burglar was abroad Tuesday night and the grocery store of Boyd Wellman, on Madison, was visited by him, with disastrous results to Wellman.

Entrance was made through the front door and was effected by prying the door with something like a pinch-bar, as the marks on the edge of the door plainly show.

The raged looking, diminished stock the next morning also plainly showed that the burglar fully embraced the chance for laying in his winter stock of family supplies.

Flour, sugar, coffee, bacon, tobacco, and many other grocery staples were carried away, and up to this time no trace of them has been found.

The robber took spice and starch, probably to add pungency to the adventure and to stiffen them up for another raid.

The burglary must have been done at a very late hour, or at an early hour Wednesday morning, for that part of town was alive with people up to 11 o'clock, and detection would have been unavoidable up to that time.

CHAMBERLAIN'S COUGH REMEDY IS PLEASANT TO TAKE

The finest quality of granulated loaf sugar is used in the manufacture of Chamberlain's Cough Remedy, and the roots used in its preparation give it a flavor similar to maple syrup, making it quite pleasant to take.

Mr. W. L. Roderick, of Poolsville, Md., in speaking of this remedy, says: "I have used Chamberlain's Cough Remedy with my children for several years and can truthfully say it is the best preparation of the kind I know of."

The children like to take it and it has no injurious after effect. For sale by A. M. Hughes.

F. K. Johnson, of Ashland, has moved for this territory for the Hancock Packing Co. of Chicago, has decided to make this city his headquarters.

He has taken rooms at the Brunswick, where he and his wife and son will remain at least during the winter. Mr. Johnson is a cousin of Walter Johnston, well known here, and both seem well endowed with geniality and good vim.

Bids will be received during the next few days for painting the parsonage of the South Methodist Church. An approved grade of ready-mixed paint or the best grade of lead and oil must be used and the bids should be made on this basis, stating what will be used. Aug. Snyder, Com.

A man named Pentz, who lives on Greasy creek, Johnson county, while intoxicated put his foot in front of a car wheel in order, so he said, to stop the car. The effort was not a success but Pentz is minus part of both feet. The accident occurred at Whitesboro Tuesday. Dr. Wroten went up Thursday to look after him.

Mrs. Oscar Adams has smallpox at Whitesboro, caught from moving into a house that had not been properly disinfected after the epidemic of last year.

River Improvement.

A Call to the Louisa People to Show Proper Interest.

To the Labor and Business Interests of Louisa:

A call was published last week for the annual meeting of the Big Sandy River Improvement Association at Huntington on Nov. 15th.

Fearing that you will pass over the reading of the call without giving it due attention and thought, we desire to ask you to think what has been done up to date.

Dam No. 1 at Catlettsburg is completed. Dam No. 2 at Kavanaugh almost done. Dam No. 3 at our own door completed with the exception of raising its height four and a half feet more for which \$50,000 has been appropriated and is available for the work.

Dam No. 1 in Tug fork, located not more than four miles from Louisa, has been secured and money secured sufficient to put in the lock. Dam No. 1 on Lewis fork, not to exceed eight miles from us, the site already secured, and sufficient money appropriated to build the lock.

The money required to build the dams has yet to be appropriated, and it behooves us to give some time and attention to assisting the Improvement Association and our members of Congress to secure the necessary appropriations.

Our members of Congress tell us they can work better and with better prospects of success if our organization shows enough interest to be present at the hearings before the Rivers and Harbors Committee. What is true as to them is also true as to the Big Sandy Improvement Association. Encourage it by your presence.

The work to be done next should commend itself especially to us, as during the next two years if we all work faithfully at least five hundred thousand dollars, a sum larger than the receipts of all the stores in Louisa, will be expended right in our midst.

And in closing, let us urge upon you the necessity for prompt action that will send a good delegation to Huntington; and also be prepared with sufficient funds to pay the assessment of \$25 as dues from the Lawrence County Auxiliary Association.

Mr. T. S. McClure and Miss Alice Moore, a popular and attractive young lady, were married on Wednesday last week at the latter's home in Martin county.

They came down to Gallup on Saturday and remained over Sunday with Mr. and Mrs. G. C. McClure, parents of the groom. Mr. McClure is well known throughout the Big Sandy valley as one of our most successful and prominent business men.

He has a large boundary of timber in Martin county upon which he has been at work for four or five years in getting the product to market. The NEWS extends its congratulations and best wishes.

We have never deceived our customers by advertising through the dull months of July and August with the promise that we would sell goods at cost and quit the business if we would trade with us through said months, but we will offer for the next 30 days the following goods at cost or wholesale prices:

Men's and boys' heavy Men's Women's and children's Heavy Shoes. Clothing for men and boys all go in this sale. Now is the time for you to get good shoes and warm clothing for your family at cost.

THOUSANDS CURED.

WDEWITT'S WITCH HAZEL SALVE has cured thousands of cases of piles. "I bought a box of DeWitt's Witch Hazel Salve on the recommendation of our druggist," so writes C. H. LaCroix, of Zavalla, Texas, "and used it for astuborn case of piles. It cured me permanently." Sold by Louisa Drug Co.

Two Strangers. The already fine appearance of the Bank Block has been greatly improved by several coats of paint. The coat ensemble, as we say in Ireland, is very handsome indeed.

An Elegant Affair.

To extend professional courtesies; to meet in social garb and gathering; to eat, drink and be merry, and to "chase the glowing hours with flying feet"—all this and more was accomplished by the "engineers on this side", and others, when they gave their very recherche entertainment to the "engineers on the other side", and others last Saturday night.

By engineers on this side is meant the engineer corps of the C. & O., and those of and near Louisa, and rest of the other side compose part of the engineer corps of the N. & W. These gentlemen have made Louisa and the Brunswick headquarters for a year or more, fraternizing amicably and pleasantly. Many of the N. & W. boys will leave shortly for other fields, and the C. & O. boys conceived and successfully executed ways and means of testifying to their regard. The affair was also elegant in all the world implies. The dining room had been especially prepared for the occasion.

Chrysanthemums and gorgeous-hued autumn leaves tastefully decorated the festal hall, and the tables glowed and shone with spotless linen, glistening silver and beautiful china. Lord Adams and his wife are at home in preparing for an event of this sort, and the occasion of Saturday night was without a flaw. Here's only a part of what the guests saw and enjoyed to the limit: oysters, turkey and "trimmings", various salads, creams, cakes, coffee, fruits and cigars. These were served in four appropriate courses, and with story, joke and toast it was a good length of time from start to finish. Those who sat down to this well prepared, well served feast were J. L. Richmond, J. L. McCormack, C. W. Veach, and Harold McCormack, P. C. Turner, George Burgess, Harry Wellman, Mac Turner, Toke Rule, John Hall, H. G. Barrett and W. O. Tracy. The latter part of the evening was spent in dancing, participated in by the above-named and Mr. and Mrs. J. W. Mayo, and Miss Moore, of Ashland, Miss Jean Adams and the Misses Lattie Yates, Emma Carey and Jane O'Brien. It was altogether a delightful occasion and will be treasured in the memory of all who were so fortunate as to be guests.

Oil Development.

General Clark, of Pittsburg, of whom the NEWS has spoken several times in connection with the oil and mineral development of this section, is now or at least will be shortly, actively at work on the ground chosen by him after a very rigid search and examination of various territories, is on the east side of Big Blaine creek, not far from the Carter bridge. The land on which the first well will be drilled is part of the land owned by the estate of Alexander Lackey, deceased. Gen. Clark has leased 200 acres in one body, including these tracts, and here at least two wells will be drilled. The first, at least, will be sunk to a depth of 1800 feet, deep enough, certainly, to ascertain beyond doubt the presence or absence of paying quantities of oil. The machinery is up-to-date and the work will be in the hands of the most expert and experienced drillers. Gen. Clark is a veteran oil man, entirely familiar with all the ins and outs, ups and downs—no pun intended—of arrangements and complications usually attendant upon the boring of wells. He is fully prepared for any and all of these things, and with his very evident intelligence and energy success in this latest enterprise in Lawrence county seems assured.

EAST POINT.

The marriage of Mr. A. A. Luck, of Unionville, Va., to Miss Emma T. Auxler, daughter of Mr. and Mrs. J. C. B. Auxler, occurred at this place on Wednesday night, Oct. 26. It was a most enjoyable affair and was attended by relatives and friends from far and near. Mr. Luck has for some time been employed by Pitts & Hankins, railroad contractors, near this place, and is held in high esteem by his employers and associates. Everybody knows wise Miss Emma, a sweet, lovable, gentle girl, one of Big Sandy's fairest daughters. They were attended by Mr. George Donnelly, of Lewisburg, W. Va., and Miss Margaret Kelly, a cousin of the bride, a popular and handsome young lady of this place. It was remarked by the many guests that they made the handsomest bridal party they had ever seen. Mrs. G. W. Pinson and Mrs. Jas. Sowards, of Pikeville, remained a few days to visit relatives in this vicinity. Mr. Luck and bride left Monday on the down train for Washington, D. C., and other points east.

May life hold them much joy and little sorrow. XX.

A large number of friends bade away, leaving a wife and several children. He was a loving husband, a good father and a good citizen, and had been a deacon in the Baptist Church for 35 years. That church here lost its stay when he passed away. The funeral was largely attended. Judge Woods got the contract on both bridges, one at Charley Planney's across Dry Fork at \$310, and one across Dry Fork at Bennie Webb's at \$283 which is very cheap. The estimate for the latter at Fiscal Court was \$700. The work on the foundation is progressing nicely. Smallpox has made its appearance in Willard again. It was taken from a house that had not been properly fumigated. It is thought to be under control. Oneta Austin spent Sunday with home folks. Mrs. George McCarty, of Louisa, and Mrs. Jada Collinsworth, of this place, called on Mrs. George Crawford Sunda, Ralsch Blankenship and Theodore Johnson were in Catlettsburg on business Monday. S. P. DISASTROUS WRECKS.

Carelessness is responsible for many a railway wreck and the same cause are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds, even the worst cases can be cured, and hopeless stragglers are no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by A. M. Hughes, Druggist. Price 50c, and \$1.00 Trial bottles free.

Mrs. George McCarty, of Louisa, and Mrs. Jada Collinsworth, of this place, called on Mrs. George Crawford Sunda, Ralsch Blankenship and Theodore Johnson were in Catlettsburg on business Monday. S. P. WEBBVILLE.

Uncle Tip returned Sunday after an absence of two weeks from Webbville, and found everything prosperous. Ties are being loaded out on the railroad here, the first since last April. The railroad treats the people just as it pleases, there being no opposition and it is very hard on the merchants in the county as they are not able to carry one or two thousand dollars worth of ties for 8 to 12 months. Uncle John Pennington has passed away, leaving a wife and several children. He was a loving husband, a good father and a good citizen, and had been a deacon in the Baptist Church for 35 years. That church here lost its stay when he passed away. The funeral was largely attended. Judge Woods got the contract on both bridges, one at Charley Planney's across Dry Fork at \$310, and one across Dry Fork at Bennie Webb's at \$283 which is very cheap. The estimate for the latter at Fiscal Court was \$700. The work on the foundation is progressing nicely. Smallpox has made its appearance in Willard again. It was taken from a house that had not been properly fumigated. It is thought to be under control. Oneta Austin spent Sunday with home folks. Va., November 15th, the closing day of the meeting of the Ohio Valley Improvement Association. "Which I Now Hold"

The man who wrote these words couldn't have expressed the sense of possession more forcibly. The holding was a paid-up fifteen-payment life, fifteen-year distribution policy in The Mutual Life Insurance Company of New York and Mr. Ebe Walter, of Clarksville, Del., had just received a dividend of \$100.00 in cash. He was evidently very happy over it for he says (besides acknowledging the dividend)— "I am one of the paid-up policy of \$100 which
