

WILL IT CURE ME?

That's the personal question a woman asks herself when she reads of the cure of womanly ills by the use of Dr. Fenner's Favorite Prescription.

Why shouldn't it cure her?

It is a complicated case. Thousands of such cases have been cured by "Favorite Prescription." It is a condition which local doctors have declared incurable for the hundreds of thousands of sick women cured by the use of Dr. Fenner's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularly menstruating drags, inflammation, ulceration and female weakness. It always helps. It almost always cures.

"I commenced taking your medicine, Favorite Prescription," nearly a year ago for chronic inflammation of womb and on truly say it is the only relief I have had since. After taking six bottles of your Favorite Prescription I feel I can walk about as usual and am greatly benefited in general health. Would advise all suffering women to use Dr. Fenner's medicine."

IMPOVERISHED SOIL.

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no fat food that is so easily digested and assimilated as
