TERMS:—One dollar per year, in advance.

ADVERTISING RATES furnished upon application.

Friday, August 16th, 1907.

DEMOCRATIC TICKET.

- For Governor, S. W. HAGER, of Boyd.
- Lieutenant Governor, SOUTH TRIMBLE.
- Attorney General, JOHN K. KENDRICK.
- Auditor, H. M. BOSWORTH.
- Treasurer, RUBY LAFFOON.
- Supt. Public Instruction, M. O. WINFREY.
- Secretary of State, HUBERT VREELAND.
- United States Senator, J. C. W. BECKHAM.
- Circuit Judge, J. B. HANNAH.
- For Commonwealth's Attorney, J. M. WAUGH.

The Republicans of the Ninety-first Legislative district named Samuel Patton as their candidate for Representative. Mr. Patton is from Maysville county.

The news that the nomination of John Sharp Williams to be Senator from Mississippi, after the expiration of the term of Mr. Money, will be received with general satisfaction.

Republicans are making great preparations for the opening of the State campaign at Maysville, and it is expected by those in charge of the arrangements that 20,000 people will be in Maysville on August 19. A. E. Wilson will make his opening speech at that time.

The Democratic members of Congress have received proffers of other Democrats of national repute to spend one or two days in each State. As Kentucky is evidently to be made an oratorical battleground between William H. Taft, Vice-President Fairbanks and other Republican aspirants this fall, the Democratic State Committee is disposed to accept proffers of national Democratic celebrities to visit Kentucky and speak during the State campaign of this fall.

To not only the school children, but to those not in the schools has Democratic administration of public affairs in this state been of great material benefit. A child labor law is upon the Statute books, a Juvenile Court for the care of delinquent children has been provided in every county in the state, an Inspector of all plants wherein children are employed has been provided for, and the Kentucky Children's Home Society has been made a state institution to the better care for the children of the state whose parents leave them dependent upon a public for support, either because of death or inability to properly care for them.

NOTICE. Assignee's Sitting.

Creditors of Gault Bros., Louisa, Ky., will take notice that on Tuesday, September 3rd, 1907, I will, at the office of Sullivan & Stewart, Main street, Louisa, Ky., sit to receive and file claims against said firm, assignee. Claims should be presented at that time, properly proven, as required by law for allowance so that the matter may be closed up.

F. L. STEWART, Assignee Gault Bros.

August 5, 1907.

Does Not Color Hair

Ayer's Hair Vigor, as now made from our new improved formula, does not stain or color the hair even to the slightest degree. Gray hair, white hair, blonde hair is not made a shade darker. But it certainly does stop falling hair. No question about that.

Indeed, we believe it will stop every case of falling hair unless there is some very unusual complication, there is some very unusual complication, something greatly affecting the general health. Then you should consult your physician. Also ask him about the new Ayer's Hair Vigor.

COUNTY FAIR

Will Be Held This Year On October 14, 15 and 16.

The date of the Lawrence and Wayne county Fair at Louisa has been fixed for Oct. 14th to 16th of this year. A list of the products on which premiums will be paid is being prepared and will be announced as soon as completed.

Let everybody work to make the fair a success. Preparations are being started earlier than usual by the local committees, and a better system than ever before will be used in handling the exhibits and awards.

A Horrible Story.

The News has learned through a prominent citizen of Louisa who has just returned from Pike county the particulars, lacking names, of a horrible affair which occurred at the Henry Clay Mines near Marrowbone, on Wednesday of last week. Two men, both from Dickinson county, Va., went to the home of a miner where there were several people, and while one of the brutes stood off the whole crowd, the other criminally assaulted the miner's wife. The villains then shot the house full of holes and left. The one who committed the horrible crime fled back into Virginia, and although a posse has been endeavoring to effect his capture and lynch him he has not, so far as can be learned, been captured.

The man, who pistol in hand, held the crowd still while the other committed this dastardly outrage, was arrested the next day and carried to Hellier for trial. The mines closed down and great excitement prevailed. One man placed the muzzle of a shot gun at the breast of the culprit and pulled the trigger, but some one had unfortunately withdrawn the cartridge and his good intention was foiled.

Reminiscent.

Mrs. Helen Smith and Mrs. Pherbe Kilgore, of Anderson, Ind., were guests of Mr. and Mrs. F. F. Freese last Tuesday. It would not be gallant to these ladies nor comfortable, perhaps, to their hosts to say how long ago these ladies were among the belles of this region. The "Smith girls," seven pretty and attractive girls reigned as society queens of "Uncle Ed's," and not far away their cousin Helen held court, quite as popular and attractive. Uncle Ed, and his good wife and uncle Lindsay have long since gone from earth, and Catalpa is in the care of stranger but the memory of the hospitality and good times at both the homes will long abide.

Killed at Prestonsburg.

King Burchett killed his great uncle, Dick Burchett, at Prestonsburg yesterday over a land deal. The murdered man was 84 years old. King escaped, but sons of the dead man are pursuing him. Murder is rampant in Floyd county of late.

Philadelphia capitalists are planning to erect a \$1,500,000 hotel in Yokohama, Japan, from plans designed by Philadelphia architects. It is to be eight stories in height, will contain about 400 bedrooms and suites and many baths, with a garden courtyard in the center. It is to be called the Grand hotel, and appears to be wholly an American investment.

A great deal has been said about the facility of the Japanese in adopting and adapting western methods. Even our language appears to gain something from their use of it. It is told of one of Gen. Kuroki's party that when his opinion of America was asked, he replied: "Your country is full of remarkable things, but I find the weather curseworthy." Two noteworthy new words in a single breath!

When Secretary Root is at the department it is next to impossible to see him. He is closeted with his secretary and stenographer, or else working by himself, but in either event he is as inaccessible as the czar. On diplomatic day he has to let himself be seen, but on other occasions it is so much a waste of time to try to get at him that most men who know the ropes do not make the attempt. It is at all possible to get their ends by seeing Bacon.

Balloon accidents are frequent, and they furnish a hint as to some of the possibilities should aerial navigation become common. Three aeronauts, all military officers, fell from a balloon near Debrouzin, Hungary, and all were killed. Passants who attempted to capture the balloon approached it with a light, and the result was the explosion of gas, which killed ten of their number. The operators of the balloon being dead it may not be possible to learn the cause of the fatality, but emphasizes anew the perils of navigating the air.

What this country needs is de-natured automobiles.

Alfonso may visit South America. Is that a sign the baby is crying a-sichte?

Social maneuvers are sometimes important in army life as well as military tactics.

A Massachusetts man has eloped with his mother-in-law. Or has been eloped with by, more probably.

Germany is rapidly catching up. They have had over 1,500 automobile accidents over there during the past six months.

No more injunction can stop a free American from remarking that the suit against the snuff trust is nothing to be sneezed at.

It was only right that the New York policeman who is worth only \$500,000 should retire from the force and give others a chance.

Russia is reported now to be trying to divert emigration to eastern Siberia. There is a popular impression that she has been doing this for some time.

A Massachusetts man started on his wedding trip without knowing where he was going to land. That is the way most men start when they get married.

Emperor William and his partner were beaten by two girls in a recent game of tennis. Doesn't this come dangerously near putting William in the mollycoddle class?

The man who has been following Dr. Wiley's advice about swallowing his food without chewing is understood now to be taking indigestion tablets in the same manner.

Announcement that a theatrical trust has been formed which covers the principal cities of the world shows that the combination movement has reached a new stage of development.

A New Jersey horticulturist claims to have produced a strawberry nearly as large as a potato. He might have been a little more explicit and described it as being almost as large as a lump of coal.

Goat lymph may cure locomotor ataxia, as the medical department of the state university hopes it will, remarks the Detroit Free Press, but there should be a lot of powerful motor in mule lymph.

We discover the age of a horse, if we are wise in such things, by looking at his teeth, but who is wise enough to fix the price of a dental bill by looking at the patches on the molars of a fair patient?

Should he enter the race for the mean man championship of the earth, the Arkansas undertaker who has a habit of stealing the shrouds from corpses that he meets in the line of business would win easily.

Gen. Smute, a Boer war veteran, reports an interesting explanation of the agricultural depression in South Africa. In a recent speech he said that an old man remarked to him that "the fault of the Transvaal is that the ground is too low; you have to bend your back to work."

A Buffalo paper says the vacation habit undoubtedly makes America better. That may be true on the whole, but doesn't it encourage otherwise truthful persons to magnify three-inch fish into three-foot monsters when they come back with a coat of tan thick enough to hide their blushes?

Mexico is falling into line with the centennial celebration procession. President Diaz is arranging to commemorate the one hundredth anniversary of the beginning of the revolt against Spain which led ultimately to the independence of the republic. The celebration will begin on September 15, 1910.

A Tribune correspondent has discovered that housework is the most attractive employment for women, but that, nevertheless, they shun it. Not being a woman, the correspondent should know. A committee of hired girls might view him carelessly and decide that shoveling sand was a more congenial occupation than writing, but that would not drive him to manual labor.

The first honorary degree of doctor of medicine which Oxford university has ever granted has just been conferred upon a man who had looked forward to the practice of medicine in London. He gave up the idea years ago to devote his knowledge and his life to the poor fisherfolk of Labrador. The recipient of the degree is Dr. Wilfred T. Grenfell, and the degree itself is, with peculiar significance in this case, "honoris causa."

So many thefts and embezzlements by employes have been committed in New York banks and other fiduciary institutions within the past few months that alarm has been caused and several of these establishments have, says the Indianapolis Star, decided to demand that every clerk give bond whether his duties call for the handling of cash or not. If he does not handle funds a bond of \$5,000 is to be required, and the amount is increased in accordance with the responsibility.

For School Days Ahead.

By securing our fall stock of suits and other new ready-to-wear apparel we are in position to supply the needs of the girl who is now contemplating a college course for this season better than we have ever been before. We have just received our new conceits in stylish suits for fall wear, new Millinery for the coming season and a number of other items that are essential to the college girls wardrobe. Our styles are the most exclusive, the showing of new things for fall wear are authoritative in style and finish and every department contributes a share to the comfort and convenience of those who are away from the home for the fall and winter. One of the essentials is a good trunk; these we have in great variety of design; all the newest models of convenience and they make the best place to keep ones valuables as they are all carefully fitted with good strong locks and are reinforced for heavy usage. If you are contemplating taking a course in school this season you cannot well afford to overlook our stock in selecting the needful wearing apparel for the term.

County Treasurer.

I will pay all County Claims on Common fund for the year 1906 down to and including No. 128, and all claims for the year 1903, regardless of number. Robert Dixon, Treasurer Lawrence County.

Job Printing

Some of you are paying more for your job printing than the Big Sandy News office charges, and getting a poorer class of work for a cheaper grade of stock. It is your while to investigate.

RUBBER STAMPS

Rubber stamps are a great convenience for certain purposes. They are not suitable for printing letter heads and envelopes. No printed stationery looks better like and is cheaper, all things considered, than buying blank and stamping it yourself. However, we furnish rubber stamps 1 cent for a single line 3 inches less in length. 25 cents for 1 1/2 3 inches or less.

Seals, Stock Certificates,

OFFICERS' AND NOTARY SEALS \$1.50 to \$2.00 Dates.
