One of our esteemed correspondents writes of the apple "pealings" of his neighborhood. Why not? The apples were probably Bell-flowers.

"Uncle John" Snell, of Gaesay Creek, Harlan county, has celebrated his 19th birthday.—Harlan paper.

That's a mighty fine record for Greasy Creek. On Friday night last a gang of 25 night riders set fire to two large stacks of wheat belonging to Mrs. Struve, a widow, because she refused to sign the tobacco pledge.

Governor Wilson has made some statements, the correctness of which are doubted, but when he publicly declared the other day that the negroes elected him Governor he made a mistake.

There is to be a barbecue at Jackson August 27 and 28, and it is announced that "There will be something doing every hour of the day." There is not the slightest doubt of it. The blind tiger's lair will be found and—well, there'll be something doing.

Caleb Powers has announced as a Republican candidate for Congress from the Eleventh district. Congressman Edwards professes not to be scared, but he had better be. If Powers' army votes as it shot, Edwards will be bored full of holes.—Cynthiana Democrat.

Lucinda Davis, colored, of Louisville, may have never won a cake, but she certainly gained distinction as a consumer of melons. At a watermelon eating contest she ate four large luscious melons and captured the prize. The prize was a big watermelon. Lucinda ate this one also and drifted to the other world.

In a few days official announcement will be made that Edwin Hawley has at last secured control of the Chicago, Cincinnati and Louisville railroad, and will take possession of it before the end of the year. This will complete Hawley's trunk line from Tidewater at Chesapeake Bay to Chicago, and will open the way to greater developments which he has under consideration. Negotiations for the purchase of this line have been carried on continuously since March, and more than once have been so far advanced as to warrant the announcement that the deal was practically consummated, but hitches over one point or another have arisen from time to time, making it necessary to begin all over again.

It may be stated that in the agreement finally reached Edwin Hawley carried practically every point for which he contended. He gets the property substantially at the figure he first bid for it, and the delay in the acceptance of this bid, by turning his thoughts in another direction, has tended to strengthen the very important system he is rapidly piecing together.

## Fly Precautions.

Keep the flies away from the sick, especially those ill with contagious diseases. Kill every fly that strays into the sick room. His body is covered with disease germs.

Do not allow decaying material of any sort to accumulate on or near your premises.

All refuse which tends in any way to fermentation, such as bedding, straw, paper waste and vegetable matter should be disposed of or covered with lime or kerosene oil.

Screen all food.

Keep all receptacles for garbage carefully covered and the cans cleaned or sprinkled with oil or lime.

Keep all stable manure in vault or pit, screened or sprinkled with lime, oil or other cheap preparation.

Cover food after a meal; burn or bury all table refuse.

Screen all food exposed for sale.

Screen all windows and doors, especially the kitchen and dining room.

Don't forget, if you see flies, their breeding place is in nearby filth. It may be behind the door, under the table or in the cuspidor.

If there is no dirt and filth there will be no flies.

If there is a nuisance in the neighborhood write at once to the Health Department.

Flies are the most dangerous insects we have. They are much more dangerous than bees or hornets; these may sting you, and the sting is painful, but you soon get over the pain. Flies do much more harm than this. They walk over filthy places like sewers and garbage cans, and after eating the filthy food which they find there, they come into your house and walk on the food you eat, carrying on their feet the tiny germs which live in filth just as you live in a house.

## ANSWER IT HONESTLY.

Are the Statements of Louisa Citizens Not More Reliable Than Those of Utter Strangers?

This is a vital question. It is fraught with interest to Louisa.

It permits of only one answer. It cannot be evaded or ignored. A Louisa citizen speaks here. Speaks for the welfare of Louisa. A citizen's statement is reliable. An utter stranger's doubtful. Home proof is the best proof.

William G. Shannon, Maple street, Louisa, Ky., says: "It gives me the greatest pleasure to recommend Doan's Kidney Pills. My kidneys annoyed me and a heavy cold which settled on them caused intense pains across the small of my back. The kidney secretions passed irregularly and were scanty and full of sediment. Learning of Doan's Kidney Pills, I used them and the contents of two boxes relieved me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
