Representative Cullop, of Indiana, will spring some new statistics on the House in a speech he will make this week. "I have been doing some figuring," said he, "and I find that the annual appropriations made by Congress amount to \$1 a minute for

### IN MEMORY.

On Saturday, January 23, death visited the home of Mr. and Mrs. John I. Roberts, of Donithon and took from them their darling boy, Charley. He was employed as fireman on the N. & W. and was returning to duty when he was run over by a passing engine. He was taken to the hospital at Portsmouth. All was done that loving hands and medical skill could do, but all to no avail. The summons had come to Charley answered ready. He was a bright and intelligent young man, only 18 years old, and had many friends. Charley was loved by all who knew him and was an industrious boy.

He leaves a father, mother, two sisters and two brothers, and many friends to mourn his death. Weep not, dear parents and brothers, for Charley, for he is in that bright world where there will be no more harsh words spoken, no more pains nor death, but prepare to meet him in that better world. The remains were brought to his father's burial ground on the mouth of Donithon and were laid to rest by the side of his brother and sister to await the resurrection. His Cousin.

Collector of Internal Revenue Sam J. Roberts has been directed to give notice to corporations, insurance companies, joint stock companies and associations in the Seventh district, using the press so far as it can be done without expense to the government, that the returns of gross and net income for the calendar year 1909 required under the corporation excise tax must be made on the first day of March, 1910, under penalties for neglect or refusal to render such return, or for making a false or fraudulent return.

As there may be unintentional inaccuracies in these returns as at first made, it may be well to send them to the Collectors early in order that they may be returned for the correction of such informalities before the expiration of the limit fixed by law.

Blank forms have been sent out to all corporations whose names and offices are known to the Collector, but a failure to receive such blanks and to make the required return will not relieve any corporation, joint stock company, insurance company or association from the penalties imposed for a failure to make such return. Application should be made at once for blank forms if they have not been received.

In all cases in which the prescribed forms are received by the Collector after March 1, 1910, he is instructed by the Honorable Commissioner of Internal Revenue to preserve the envelopes bearing the postmarks showing the time of mailing, each attached to the return contained therein and forwarded as a part thereof to Washington.

It will be well for all classes of business corporations to promptly comply with the special excise tax law, as no discretion is given to the Internal Revenue officials in its enforcement.
