KENTUCKY NEIGHBORS.

Hazard, Ky., March 12.—Bunyon Barnett was found guilty of manslaughter by a jury to-day after a trial lasting but one day. This is the first of several murder cases set for this term. Barnett killed John Shepherd in a drunken row some three miles from Hazard last Sept. The verdict meets with the approval of the court and the majority of Perry county citizens. Circuit Court has been in session seven days. The first six days were taken up in discharging of the excise cases. The defendants in almost every one of the fifty cases tried were found guilty and fined from \$35 to \$100. In many instances a jail penalty was added of from ten to twenty days.

Hazard, Ky., March 15.—Felix Hagley, postmaster here for ten years before it became a presidential office, and whose confirmation was held up with other appointments of President Taft, to-day sent in his resignation, to take effect as soon as his successor is appointed.

The news is reported to us from Kelly that Bruce Terrill was Sunday shot and fatally wounded by Monroe Hatton and that Terrill died Monday morning. The particulars, as far as we have been able to gather there, are that just as he was about to be shot, hitting him in the hand and about the neck. Kelly, coupled with a grudge of long standing, prompted Hatton on Sunday to go to Terrill's home, call him out and shoot him. He used a shotgun and the lead entered his victim's body right at the pit of the stomach and inflicted the wound from which he died Monday morning.—Salyersville Mountaineer.

County Court Clerk Paul C. Hagan has received from the State Treasurer the sum of \$550 which goes to pay claims for sheep killed by dogs in this county for the past year. The amount will be divided between the farmers of the county who have lost sheep by dogs killing them. The money for this fund is derived from the tax on dogs.—Faintville Herald.

Last Saturday the court house was visited by a large crowd of women who were anxious to see the result of the trials before county Judge Sawyer. Sanford Fletcher was fined \$125 and put under a \$200 peace bond. Ben Trusty, who is now out of the county was fined \$150. Will T. Grace fined \$100 and a

number of cases pending. Will T. Grace was placed in jail Tuesday to pay his \$100 fine. Last we be misunderstood, let us say that warrants were issued for John D. Conley and John Salyer (Morg's son) for procuring liquor for another and John Salyer testified as to where he purchased his Saturday. Last Sunday John Gardner stepped on a few toes when he addressed the Association on lawlessness. He showed the organization how detrimental to the country it was to permit swindling of all sorts to go on. He said that some of our people swindled anything from stock pens to threshing machines. He showed how our titles were questioned and our lands were a drug on the market because the outside world had been fought by our land swindlers or "wild cat" land dealers.—Salyersville Mountaineer.

Whitesburg.—John M. Smith, manager of the Consolidated Coal company's operations at Jenkins and McRoberts, has been promoted and will leave Jenkins to-day for Fairmont, W. Va., his old home, to take up his new work. E. Drennon, who has been superintendent of the power and mechanical department at Jenkins, becomes manager.

The preliminary work for the installation of a big coal operation at the mouth of Pond creek has been completed by Harvey Williams, chief engineer for William Leckie and his associates.

The property to be developed contains 1,000 acres on which there are five marketable seams of coal. The plans of the owners have not been announced in detail but it is stated that the N. & W. has contracted for a great deal of the output and that a modern coaling plant will be erected in the local yards.

The tract being developed is just across the river from the yards and it is said to be the intention to carry the coal across the river with the bucket system now used in a great many places.

The development of this tract will add considerably to the volume of business in Williamson and the city will benefit in many ways although it is likely that most of the men will be housed on the Kentucky side of the river.

Last week the NEWS contained a brief mention of the following horrible accident, particulars of which are here given: Grayson, Ky., March 12.—In the entire history of Carter-co., there is no record of any more tragic occurrence than that which occurred near Grayson late this afternoon when, by laying a train of powder from a room where ten kegs of explosive used for blasting were stored, the 7-

year-old son of A. J. Alexander blew the home to atoms and dealt death in sudden and terrible form to himself, his mother and baby sister who were home alone at the time. Alexander is a miner and had stored the powder in his home to keep it dry. The door to the room where the explosive was kept had been left unlocked. The children had played there occasionally, but had never touched the dangerous explosive, and no thought of the danger had ever come to the parents.

The mother was at work in the kitchen and the two children were in the room adjoining which opened into the one where the powder was stored. The little boy crept into the powder room and taking both little hands full of the explosive trailed it across the room to the fireplace. In a flash the end came. The fire caught the chain of powder, blazed across the floor, over the all into the room where the ten kegs of powder rested and the whole was exploded at once.

The mother heard the hiss of the powder as the fire followed it to the room, saw the flash and rushed wildly toward her children in an effort to save them but before she could even reach the door the powder went off hurling her backward and out through a gap in the wall, rent by the force of the explosion, injuring her so that she lived just long enough to tell the story. The boy, Dan, 7, was killed instantly and the baby, Mary, 4, was so terribly hurt that she lived but a short time.

The force of the explosion was so terrific that the house was literally demolished and the report of the concussion heard for a distance of five miles back in the country.

Roanoke, Va.—Levi White a merchant of this city, and Miss Nanie Virginia Rapp, of Huntington, W. Va., were married at Cattedulburg, Ky., in April last year, according to announcement made by them for the first time to-day. The couple left this afternoon for Huntington to visit Mrs. White's relatives, and the announcement was made just before they left.

Whitesburg, Ky.—During the absence of its parents from home, the clothes of the 4-year-old child of Noah Holbrook, a Thornton creek farmer, caught fire from an open grate and the child was burned to death.

Owingsville, Ky., March 10.—City Marshal J. W. Emmons, aged 64 years, committed suicide by shooting himself through the head with a pistol in the County Clerk's office about 2 o'clock this afternoon. Emmons had said to friends that he was tired of life and would kill himself before night.

From forty to fifty men were killed and sixty more injured and more than \$600,000 of property was destroyed when 300 tons of dynamite on board the steamer Alum Chine exploded in Baltimore harbor, annihilating the vessel and a loading scow. The tug Atlantic was set on fire and many were killed while she was rescuing men. The U. S. Collier Jason, two miles away, was riddled with pieces of the Alum Chine and the shock was felt for a great distance.

THE NEW COIN.
The new nickel five cent piece is now in general circulation and comes in for its share of adverse criticism. It is not a thing of beauty but it is surely an ideal American coin. The profile of the Indian is simply perfect, and the bison or American buffalo on the reverse side is correct to the minutest detail.

AGRICULTURAL EXTENSION.

Soil Fertility and Farm Management Problems.

Two things which probably hinder the success of farmers more than any others are the economical maintenance of soil fertility, and right farm management. Only by building up and by keeping up the fertility of the soil can large yields be continuously produced, but after this has been accomplished good farm management must be practiced in order to realize a good net profit upon one's investment.

Every farmer should know, to begin with, what amounts of the plant food elements nitrogen, phosphorus and potassium are in his soil. All the other essential plant food elements are present in Kentucky soils in sufficient quantities for maximum yields of crops. These data can be furnished by the Kentucky Agricultural Experiment Station. The analyses of the typical soil areas of Kentucky are now on file at the Experiment Station, and if relatively accurate data cannot be furnished for any particular farm of this State, instructions for the collection of soil for analysis will be furnished upon application to Dr. A. M. Peter, Head of the Division of Soil Chemistry of the Experiment Station, and free report will follow. Samples of soil to be analyzed should always be taken according to instructions. Whether or not lime is needed to correct soil acidity can be very readily determined by experiment upon a small plot in connection with the sowing of red clover. The plowed surface of a soil should contain not less than 8,000 pounds of nitrogen, 2,500 pounds of phosphorus, and 16,000 pounds of potassium in order that, in a favorable season and under good tillage, it may be made to produce a maximum crop of corn, wheat or oats. The soils of Kentucky, except in river bottoms and peat swamps, contain an abundance of potassium. If soil does not show an analysis of phosphorus and potassium, steps should be taken to add, economically, these elements to a content necessary for large production, and raw ground limestone should be applied if experiment with red clover shows that the soil needs limestone.

After normal fertility has been secured, it should be maintained, and one great factor in this maintenance is good crop rotation. Crop rotations may vary in grain farming from those used in live stock farming, but in either case legume crops such as clover, alfalfa, cow peas, soy beans, and sweet clover must be used to maintain the supply of nitrogen. In stock farming about every third crop should be a legume crop, and in grain farming, about every second crop. By establishing crop rotations as above indicated and by turning under sufficient manure and green crops to keep up the nitrogen content, the fertility of the soil can be kept up, if in addition phosphorus in some form be added from time to time in quantities corresponding to those removed from the soil in cereal and forage crops and live stock. The basis for such computation will be furnished upon application to the Experiment Station.

The location of farm buildings with reference to various parts of the farm and to each other, the laying out of fields and fences, the establishing of drainage systems, the working out of crop rotations, forms for farm accounting, etc., are among the problems of farm management which bear a strong relation to the success or the failure of the owner of a farm.

The Division of Extension of the Kentucky Agricultural Experiment Station has decided to offer assistance, as far as may be possible, to farmers of the State in solving problems of soil fertility, in establishing cropping systems upon the whole or a part of farms, in the production of legume crops, and in working out farm management problems. The assistance will be offered through correspondence, or when possible by visitation, without expense to owners. Applications for such assistance may be made to T. R. Bryant, Supt. of the Division of Extension. H. B. HENDRICK, Assistant Agronomist.

John B. Chilton has demonstrated his efficiency as warden of the Eddyville prison. During the first six months of his administration the records show \$3,700 excess in receipts for prison labor over the corresponding period last year. And in addition to this, his expense account for the same period was \$8,200 less.—Hopkinsville Kentuckian.

FINANCIAL STATEMENT.

To the Hon. Mayor and City Council of Louisa, the following is a financial statement of the city for the last six months ending December 31, 1912.

Receipts.	
Bal. in Treas. Aug. 6.	\$288.22
Dog Tax	1.00
Fines	161.99
Taxes	3204.60
Licenses	65.00
Total	\$3710.81

Do You Feel This Way?

Backache or Headache
Dragging-Down Sensations
Nervous—Drains—
Tenderness Low Down.

It is because of some derangement or disease distinctly feminine. Write Dr. R. V. Pierce's Faculty at Invalids' Hotel, Buffalo, N. Y. Consultation is free and advice is strictly in confidence.

Dr. Pierce's Favorite Prescription

restores the health and spirits and removes those painful symptoms mentioned above. It has been sold by druggists for over 40 years, in fluid form, at \$1.00 per bottle, giving general satisfaction. It can now be had in tablet form, as modified by R. V. Pierce, M. D.

Sold by Medicine Dealers or trial box by mail on receipt of 50c in stamps

The Suffragette.
There was an old lady of Nice,
Whose home was a heaven of peace,
Till they all got so warm—
Over the votes and reform—
She just had to call in the police.

Will Make The Season 1913 At
G. C. Swetnam's Barn, Wilbur, Ky.

\$8.00 TO INSURE A LIVING COLT

Money due when colt is foaled, repaid with or bred elsewhere without consent.

DESCRIPTION AND PEDIGREE.
MAX LEDGER, JR., is a fine black, 16 hands high, heavy mane and tail, fine style and action. He is very fine form and finish, and for disposition and style I challenge competition. For saddle and harness he is unsurpassed by any horse in Kentucky. The public is invited to call and see Max Ledger, Jr., as all will be pleased, and will readily see the advantage of breeding to a horse possessing all the valuable qualities.

MAX LEDGER, JR., sired by Max Ledger, he by Ledger 12358, Vol. 9, sire of Bell K. 2:28 1/2, fourth week with six weeks handling, Ledger E., pacer, 2:24 at 3 years old, Kentucky Prince 2:15; he by Crown Chief 4089, sire of Roland 2:28; by Millford Mambrino; he by Mambrino Chief 11, sire of Lady Thorne 1:18 1/2, Woodford Mambrino 2:21 1/2, and many others. Ledger's dam, squire Livington, by Forest Temple 1:36; by Edwin Forest; second dam Madam Temple, dam of Flora Temple 3:19 1/2, third dam by Tom Crowder; fourth dam by Bellfounder; fifth dam by Beesinger. Max Jr.'s dam was Maude by Ericson Wilkes; he by Lyle Wilk us; he by George Wilkes.

GREATLAND No. 147.
A great Show Jack and a great Breeder, will be found at my barn during the season of 1913. \$8.00 to insure a living colt.

G. C. Swetnam, Wilbur, Ky.

Dr. Friedrich F. Friedmann has treated seventeen patients with his vaccine which, he says, will cure tuberculosis. The treatments were made in the private office of physicians after the Berlin physician had announced a postponement of the clinic at People's Hospital.

FARMS FOR SALE.

404 A, 200 A, level, bal. rolling, 13 A. orchard, school on farm, 10 good houses, good barns, two main routes, 89 A. what goes with farm. This farm makes a profit of \$2000 per year. Price \$8500.00, \$4000.00 cash, bal. to suit purchaser.

405 A, 100 A, level, bal. rolling and hill, some good timber, fine room house, two fine barns, fine poultry houses, nice orchard, well watered, 1-2 miles to school and church, owner very old and must sell. Price \$7500.00, \$4000.00 cash, bal. easy payments.

155 A, 50 A, level bal. rolling, two houses, two barns and stock house, one mile off the pike. Price \$2400.00, \$1200 cash, bal. easy payments.

137 A, house, barn and orchard, needs some repair. Price \$1000.00, \$500 cash, bal. easy payments.

78 A, nice smooth land, house, barn and orchard, on good pike, in sight of school and church. Price \$2500, \$200 cash, bal. \$100.00 per year.

111 A, 35 A, rich bottom, bal. rolling and hill, some timber, 4 miles from town and R. R. station. Price \$2500.00.

90 A, mostly light bottom, 6-room house, fine barn, young orchard, close to school and church, 5 miles from Scotoville, O. Price \$8500.00, \$5500 cash, bal. payments.

89 A, house and barn, needs some repair. Price \$2500.00.

187 A, all Big Bottom bottom, 25 A, rolling, not an acre of bring less than 50 bu. corn, nearly all will bring 75 to 80 bu. to acre, new 6-room house, 20 bu. barn, everything up-to-date, 1 1/2 miles to R. R. and good little town on the R. and W. Close to school and church. Price \$75.00 per acre one half cash, bal. easy payments.

150 A, 35 A, rich bottom, bal. rolling and hill, some timber, 5 A, wheat, 3 good horses, 2 cows, one heifer, 1 wagon, 1 express, 1 horse, 250 bu. corn, plenty of feeding, 75 chickens, all farming tools, school on farm, nice house 4 1/2 miles from Scotoville. Price for all \$2500.

These are a few of my bargains, all these farms have perfect titles and are in a good country all at easy reach of Portsmouth, O., the best market in the country and a number of them lay on the way to Portsmouth, O., to Jackson, O. Work begins April 1, 1913. Write me a line and say how you wish to be paid, day of month, 1913 on up to 15 N. and W. I will pay your R. R. Fare if you buy! test trip.

F. B. LYNCH,
R. D. No. 1. Scotoville, O.

PRINCE FORREST, 3492

In offering the services of Prince Forrest, 3492, to the public, we do so with the belief that as good a horse, considering breeding and individual merit, has never stood in Lawrence County, on such liberal terms as those we offer for this season.

Prince Forrest was sired by Montgomery Prince, 2723, and Montgomery Prince by Forrest Denmark, 168, the sire of the gelding Comus that sold for \$3,500, and gelding Eckersall that sold for \$2,000; also the sire of the Chancellor and the Cardinal, and he sired fifty colts that sold for an average of \$850.00. The dam was a full sister to Roseco, sold for \$1,800. Sire of Albion, sold as a three-year-old for \$2,500.

Prince Forrest possesses great natural style, extreme action and finish. Color, dark chestnut; three white feet, and stripe in face. Weighs 1100 pounds.

TERMS: \$15.00 TO INSURE A LIVING COLT. MONEY DUE AS SOON AS COLT COMES, MARE BARED WITH OR BRED TO ANOTHER HORSE. EVERY PRECAUTION WILL BE TAKEN TO PREVENT ACCIDENTS AND ESCAPES, BUT WILL NOT BE RESPONSIBLE FOR THOSE THAT OCCUR. WILL MAKE THE SEASON OF 1913 AT OUR PLACE OF BUSINESS IN LOUISA, KY.
