

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

GLENWOOD.

G. B. Belcher has just returned from the Blue Grass regions of Kentucky with some shorthorn cows and calves. They are very large and beautiful, and all registered. He and his father, Isaac Belcher, will in the near future start a herd of shorthorns, and will show that there can be just as fine shorthorn cattle raised in the mountain counties as there is in Central Kentucky.

Lawrence county is coming to the front. East Fork hills will soon be graced by beautiful shorthorns, as there are several head already here now for breeding purposes. In the event Lawrence county has a fair the coming fall the shorthorns will make us sit up and take notice. G. B.

The Cherry Tree and Hatchet.

On Monday night last Mrs. Brad Chaffin handsomely entertained the Gne Wes Club. It being not far from the anniversary of the birthday of the hero of the mythical story of the hatchet and the cherry tree, the occasion was made to serve as a celebration of that auspicious event. The decorations of the rooms were very Washingtonian in character, and the "inside" furnishings partly consisted of cherry ice, with a tiny American flag stuck in each cherry. It is reasonable to wager, however, that the stars and stripes were removed before the ice was eaten. The function was a most enjoyable one.

THE BEST CLIMATE IN U. S.

Come to Yuma, Arizona, the land of sunshine, no floods, no blizzards, no cyclones, sunshine 365 days in the year, 12 months' growing season and having in January; 12 tons of alfalfa hay per acre annually; the greatest cotton country on earth; oranges, lemons, grapefruit, peaches, grapes, apricots, dates figs and other fruits and melons produce more bountifully and reach the markets earlier and consequently bring better returns than from any other section of the United States. Fruits are not grown anywhere else in the world with the quality of flavor of the Yuma fruits. Crops will bring annual returns of from \$100 to \$1200 per acre annually. You may live here in comfort and happiness, surrounded upon every side by smiling prosperity. Ten acres here is better than a life-time salary of \$125 per month; twenty acres will in a short time make a large family independent, while forty acres, if properly handled, will bring a good fortune in a few years. Our water supply is unlimited, being diverted from the Great Colorado by the U. S. Government's \$8,000,000 irrigation project. Why live in the land of floods, snow, sleet and ice, cyclones and blizzards and eke out a mere existence when there is open to you the lands of the wonderful Yuma Valley; where exists perpetual sunshine, prosperity and happiness, where life is worth living. Having gtri, sell your holdings or mortgage for all you are able and come NOW. For literature address MCCLURE REALTY, LOAN AND TRUST CO., 352 2nd St., Yuma, Arizona. 2-20-3t-pd.
