PIKE COUNTY NEWS

ROBERSON GETS JUDICIAL APPOINTMENT.

It was learned here last Saturday that Gov. McCreary had handed to Judge J. M. Roberson the commission as Circuit Judge of the Letcher-Pike district, to succeed Judge J. F. Butler, who has been serving on the bench since 1912. The appointment was the result of the annulling, through contest proceedings, of the Circuit Judge's race in 1912. Butler was the republican nominee, and Roberson the democratic nominee. According to the returns Butler was elected. Judge Roberson filed contest proceedings, alleging fraud, intimidation, etc., in the Pike Circuit Court, and special Judge Layman, of Elizabethtown, presided at the hearing in December, 1913. The circuit court annulled the election, saying fraudulent means had been employed by both sides in the election. The Court of Appeals at Frankfort upheld this opinion last week, and the Governor's appointment followed Saturday. This is the second time Gov. McCreary has favored Judge Roberson with an appointment to this office, he having served the remainder of Judge A. J. Kirk's term when the district was divided.

ADMITTED TO BAIL.

Will (Big Windy) Coleman, who was tried on examination before Police Judge Miller last Saturday charged with the killing of Monroe Hackney on Marrowbone creek last Monday, was admitted to bail in the sum of \$500. Hackney, it was alleged, had Coleman down and was beating him in the head with a hatchet when Coleman shot him to death with a revolver.

REVIVAL CLOSES.

The two-weeks revival which has been in progress at the First Methodist Church under the direction of Dr. C. W. Butler, of Michigan, closed on Thursday evening of this week. The evangelist was assisted by Miss Clendening, a trained singer, also of Michigan, and the daily attendance was very large.

GOOD ROADS AID EDUCATION.

(I. B. Sanders in Pike County News.) I believe to improve the roads in our rural districts would greatly increase the attendance at school, improve our country system, and make it possible to consolidate our schools and establish graded schools in our rural districts so as to accommodate all the children in a radius of several miles around, and induce better school buildings, better facilities, and better teachers.

There are at the present time about 2,000 consolidated schools in the United States, Massachusetts, Ohio and Indiana have made the most rapid progress along these lines and it will be noticed that these States have made the greatest improvements on their roads. According to the statistics of the agricultural department, there was expended in 1899, \$22,116 for the conveyance of pupils to the consolidated schools, but in 1908 the expenditures amounted to \$292,213. In Indiana the expenditure for this purpose in 1904 amounted to \$56,000, while in 1908 \$59,000 was expended for this purpose.

It must not be understood that this is an additional burden on the people as more than this amount is saved by the decrease in the number of schools, and economy in their operations. In these States wagons are sent out every day to gather up the children and take them home again in the evening.

Why is it that Kentucky cannot have equal facilities by demanding and insisting that we have better roads?

I make these suggestions hoping that some one may become interested that has power to take proper steps in a way to better the attendance in the common schools of our State, as non-attendance is the greatest obstacle that we have to overcome in our present system.

COOPER-VANOVER.

At the home of Rev. G. J. Daniels in West Pikeville last Monday evening Miss Marcella, daughter of Attorney Roscoe Vanover, was united in marriage to Attorney R. H. Cooper, member of the recent law firm of Roberson & Cooper. Rev. Daniels officiated at the wedding, which was witnessed by only a few intimate friends. Mr. Cooper was called to Maysville on business Wednesday, and he and his bride left for a honeymoon visit to Cincinnati, Maysville and Mt. Sterling.

CIRCUS DAY.

Last Tuesday Sun Bros. circus exhibited in the Dills bottom, just south of Pikeville. Large crowds of country people gathered in from every corner of the county for the performance, and the day was very quiet. In the afternoon the police undertook to arrest three of the Charles boys, who live on Coon creek, and in an attempt to take a revolver from Dick Charles, who, it is said, was intoxicated, officer Dye accidentally shot him through the left hand. The three were taken into custody and landed in the cell-house, where they spent the night, but obtained their release Wednesday morning under bond.

Dick Charles was the same who engaged in a fight with Tom Collins in Dago Preston's pool room two months ago.

LEFT JAIL.

Three prisoners made their way to freedom from their temporary jail in the jury room of the court house last Tuesday night at 3 o'clock a. m. They were, Dan Stevenson, charged with moonshining; Amos West, charged with seduction; and Charles Henderson, negro, charged with shooting to kill. Deputy Look Coleman has been guarding the prisoners every night during their temporary incarceration, while the new jail is being built, and he was on guard in the public square just a few moments before the escape. The prisoners drew a staple which locks a trap door leading from the jury room out through a garret to the roof of the court house. At 2:30 a. m. a heavy rainfall drove the deputy into the sheriff's office, and the prisoners who had been watching for this opportunity, made their way out onto the roof, and by means of a rope, which they had made from their bed-clothing they swung down from the roof to the ground.

Officers throughout the county were notified of the escape of the three men, but up to the present time they have not been re-taken.

LETCHE COUNTY AND WHITESBURG.

What is Happening in this Rich Coal Territory of Kentucky.

Whitesburg, Ky., May 6.—Robert Oaks has entered suit against The Consolidation Coal Co. for \$50,000 damages for an injury received in the company's electric sub-station in McRoberts about a year ago. Attorneys James P. Adams, Ed C. O'Rear and E. C. Holliday have been employed by the Oaks in the case.

Oaks lives in Breathitt county and was employed by the company at the time he received the injury. The case will be vigorously prosecuted.

Owing to the dry weather that has been prevalent here and throughout the county for the past ten or twelve days farm work, especially plowing, has been delayed considerably, and not more than one-fourth of the crop is planted at this date, and very little plowing has been done. Farmers report ground so hard that it is impossible to further prosecute the work. Thus from present indications farmers are going to get in a mighty small acreage.

Sunday mail service was instituted Sunday along the Lexington & Eastern whereby every important postoffice will be supplied with Sunday mail. Among the list in the county to be supplied are: Whitesburg, Indian Bottom, Mayking, Sergeant, Craftsville, Chip, and Fleming. McRoberts was already supplied with Sunday mail. There was a new schedule that became effective that day which leaves McRoberts about forty minutes later in the morning and arrives back the same time earlier. This will be a great improvement over the old service.

After only a few days illness Andy Brown, aged about 45, one of Letcher county's best citizens, died at his home on Beehive Creek east of here of pneumonia and a complication of diseases. He was a brother-in-law of James M. Wright, of Boone's Fork, and was a member of a good family.

It is said that no less than six thousand people took in Sun Bros. circus at Jenkins Saturday, coming largely from nearly every section of the county. A large number of people from the rural districts of Wise and Dickenson counties, Va., came. There was some drinking, a number of disturbances and officers made twenty or more arrests. Six or eight automobiles plied between the business section of the city and the show grounds carrying people and doing a good business. The whole country has an eye on the push and energy of the city of Jenkins.

The NEWS correspondent was informed by Mr. Black the new operator for the Western Union in Jenkins, that the telegraph company is doing a wonderful business there. The Consolidation Coal Co. and the other companies surrounding finds the service a great convenience over the old way—that of telephoning their Western Union business via Pikeville. The progressiveness of the W. U. is to be complimented.

A few days ago Jenkins' Y. M. C. A. work was moved from the large temporary building, erected during Jenkins' pioneer days, into the splendid, modern, new, massive building just completed at a cost of between \$60,000 and \$70,000. This building is perhaps the best arranged building in the city, thoroughly modern in every respect, and every visitor into the city is attracted by the building. The pretty new city hospital building, a beauty indeed, situated on an eminence overlooking the giant power plant, is par excellence. It, too, is being highly complimented.

There is a rumor going the rounds that a negro named Henry Johnson was shot and killed a few days ago near Jenkins by Henry Wilson, another colored man, though little is known about the particulars of the tragedy.
