

### A "Helping Hand" Extended to the Middle Aged Woman

THERE comes a time in every woman's life when her organism undergoes an important change. This is a critical period. It is a time when a woman needs her full health and strength. For your own sake you should anticipate this turning point.

### Dr. Pierce's Favorite Prescription

has been recommended for over forty years as a tonic for women who are about to experience "the turn of life." It is helpful in the equalization of the circulation of the blood and in regulating the action of the bowels. Nervousness and low spirits disappear. Happiness and contentment take their place.

The latest in medical science is contained in Dr. Pierce's Common Sense Medical Adviser—new and revised edition of 1000 pages, only 21c. Address Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

### LACK OF ENTERPRISE CAUSES LONDON COMMENT.

London, Oct. 24.—The failure of American manufacturers to take advantage of the war situation has already caused them the loss of large orders. The other week the War Department searched London for agents of American mills to supply a half million pairs of blankets to Lord Kitchener's new army. No agents were found and the orders went to British mills, which are unable to give guarantee as to when the order would be fulfilled.

Not only the British Government, but also the French and Russian, are now calling wildly for supplies of all kinds, camp equipment and accoutrements, but the Americans, by which is considered here a surprising lack of enterprise, have not been on hand. It is not a question of seeking business, but of having it thrust at them. There is likely to be a continuous demand for blankets, cotton uniforms, which are now manufactured for the American army, canvas cooking utensils, army shoes and material which the United States has never heretofore exported to England.

General trade opportunities are also offered to America, since England, Germany and France have largely supplied Spain and Italy and the lesser countries of Europe, to say nothing of the trade with Africa, the Orient and South America.

### FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

### BUSINESS THIS WAY RAPIDLY.

States of the Leading Manufacturers of the United States.

Johnson, President of the National Register Company, of Dayton, Ohio, says for the week-end, "I have been idling my time while the war has not only been very many cash register branches in New York and Brooklyn over the business generally, but he has gone about the bankers, financiers and busy, and his summary is here in his own language: "War adds up to keep the progress of the United States no more can keep a squirrel on the nut. I have traveled considerably the country within the last year and have investigated corn myself, and therefore should speak. The depression hereof I speak. The depression is entirely superficial. The alarmist it about a whole lot. I jumped to the conclusion that a war had suddenly broke Europe our country would. Not at all, man. The United from an agricultural industrial, civil and financial viewpoint, or better.

"Yes," Mr. Patterson, "I never was static as to the future of our as at present, and I might as well credit it due to President Wilson the splendid manner in which he handled the affairs of state, in our diplomatic relations with. In the amicable adjust that controversy alone Mr. Wilson showed himself to be a pastmaster."

Asked for the effect of the European war on industrial conditions of this Mr. Patterson declared that he saw nothing but good growing.

"That is, indeed, out of the present war in the Eastern Hemisphere I see prosperity according to the United States. It is inevitable. Wrong man, if this destruction through longer, devastating the capitals of continental Europe all their art and treasure, who to rehabilitate them but the States—and we have the matter.

"I remember, as of the Civil War in our own country," said Mr. Patterson, "and recall that all the stay-at-homes got rich. The sacrifices were by the people at the front. Present war crisis in Europe we need, the stay-at-homes and armchair, in the same position as were they people during our little war, and I am, therefore, absolutely that regardless of tette setbacks and inconveniences in the United States must not now or become more than it has ever been.

### ANNIVERSARY OF ERIC LIGHT.

Thirty-five years ago this month Thomas A. Edison filed the first successful incandescent lamp in his laboratory at Park, N. J. In 1880 an employe the Edison factory carried all incandescent electric lamps in the from Menlo Park to New York in a market basket on his arm. Later it was considered a world feat when the small factory (larger a thousand a day) of the great Edison lamp factory at Menlo Park turned out 20,000 lamps a day and has made more than 500,000,000.

Edison's work, and particularly the invention of the incandescent lamp, must forever remain an inspiration to mankind; and Waldemar Kaempfert, editor of Scientific American, "The long-looked-for, and months of tedious experimenting, the countless failures that were wrought out after each minor defeat, and the resourcefulness that turned even failure to account; perhaps never been equaled and rarely never surpassed, in the history of human achievement. No wonder this man enriched his time with out its most precious inventions, the incandescent lamp with a form of blindingly so wonderfully cheap and efficient that it has enabled the teacher and teacher to extend the influence of civilization where it has never been felt before.
