

PERUNA in Your Home

A housewife must give the first aid in colds, coughs and other ailments. Her promptness in applying the remedy often saves a serious illness. Her experience with remedies has led her to know that PERUNA is always reliable, that she should have it on hand for the immediate treatment of coughs and colds, and that it is always to her

Mrs. George Parker, 419 Water St., Memphis, Wis., writes: "We have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It soon fits the system of any trace of a cold, and prevents serious consequences. I began using it for catarrh, which I suffered with a good many years, since I have taken Peruna the dropping in my throat has discontinued, and my head and nose are not so stopped up in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of catarrh. I heartily recommend it as an honest medicine. What it does for her it is ready to do for you."

The Family Safeguard

The experience of one woman, given herewith, is typical of thousands of letters that reach the Peruna Company from grateful friends who have found their homes incomplete, and their family safety in danger without PERUNA.

Colds and Catarrh
The great weight of testimony that has accumulated in the 44 years that PERUNA has been on the market proves it, beyond question, to be the reliable family remedy, ever ready to take, preventing the serious effects of colds, coughs, grip and derangements of the digestive organs. This proof is published from time to time and many families have profited by it.
Remember you can obtain PERUNA in tablet form for your convenience. Carry it with you and be fortified against sudden attacks.

LETCHER COUNTY

Whitesburg, Ky., Jan. 15.—Weather conditions continue remarkable throughout this section, Saturday being a record breaker owing to the high cold north winds blowing a gale. Due to the severe weather practically all development, railroad grade work and building activity in this section has been suspended. As a result many people are out of employment. Coal companies starting development work are suffering great damage.

The regular term of the circuit court will convene here today with Judge John F. Butler, Pikeville, presiding. A large number of important murder cases have been set down for a hearing at this term, and Judge Butler will do everything possible to rid the docket of its congested condition. J. H. Frazier will be tried for the assassination of William Banks on the streets of Whitesburg November 9. The trial will be watched with much interest.

The West Virginia and Kentucky Coal company recently organized by Huntington, W. Va., people will develop 1500 acres of fine coal lands lying along Smoot creek below here. Leitcher county where a first class coal development will spring up. This will be reached by a short line branch of the Louisville & Nashville.

Revenue officers made a moonshiner raid through the Cumberland Mountain section late Saturday and cut and destroyed two good sized stills with complete equipment. Two moonshiners were arrested and are being held for trial. Moonshining is rapidly decreasing in the border mountains.

The murder of John V. Lang which occurred at McRoberts in the coal fields a week ago is a deeply regrettable affair. It appears that Lang was walking with a party of friends at night when two shots fired by an assassin took effect in his body. A negro suspect arrested was found over while the grand jury sitting here will make a thorough probe into the murder.

SELECTIVE DRAFT.

On Saturday of last week the Local Board, Selective Draft Law, completed its work of sending out Questionnaires to all registrants and it is important that these shall be filled out and returned to Local Board, Louisa, Ky., within seven days from date of mailing, Sundays and legal holidays excepted.
The registrant who fails will automatically go in class one and may be at once inducted into the military service and tried by a courtmartial. Registrants who have for any reason failed to fill out and return same to Local Board, Louisa, Ky., should at once go before the board and file affidavit, showing any reasonable excuse for not attending to this within the time limit of "seven days" and ask for a duplicate and fill it out and file it at once.
It is no excuse that Questionnaire was not received, notice of the sending out of these blanks was posted in the office of the Local Board each day, and also publicly posted on Main Cross-st. each day, and this of itself is notice. Whether Questionnaire was received or not, and charged each registrant and all concerned with notice of the day upon which such duty was to be performed, or such privilege might be claimed, regardless of whether or no a mailed notice or Questionnaire was actually received by registrant or other person.
Card notice of the classification of registrants will be mailed out in the next few days, will probably be commenced this week.

It is further understood that in many cases registrants have failed to properly fill out their Questionnaires. No Questionnaire once filed may be returned for correction, and the Adjutant General has notified the Local Board that where mistakes have been made in the claiming of exemption or deferred classification or the waiving of such exemption or deferred classification, registrants must call in person at the office of the Local Board and correct such errors.
The War Department furnished a Legal Advisory Board in every county in the United States to assist registrants, without cost, and if registrants fail to avail themselves of the benefit of such legal assistance thus offered, it is no fault of the government if these mistakes were made, and registrants may not now be heard to complain if they have made mistakes and have to go to the office of Local Board and correct same.

FROM CAMP TAYLOR.

Editor Big Sandy News.
Dear Sir:—As it is snowing this morning and there isn't much doing shall write a few lines to the NEWS.
Our company has been split up and only about a dozen of the Lawrence county boys are now in the 8th Co., the others having been transferred to the 5th. However we're still pretty near each other.
We are having plenty of winter. There has been snow on the ground nearly all the time since about the middle of December. It is snowing now as if it means to continue. All seem to agree that the latter part of last week was the coldest they ever experienced. So we can't do much work outside of quarters. Just a day now and then.
We are getting some new men along, volunteers I think. Don't believe any more of the men will be called for a while yet, perhaps not before the middle of February.

Our friend "Jack" is sick in the hospital and asked me to inform his friends in this way so they would know the reason for his not writing. But he will be out in a few days and he will tell us all about it.
Several of the other boys are there too, but none of them seriously ill.
The Y. M. C. A. there are seven or eight in camp, are doing a great deal for the boys in camp. And while there are many of us who do not appreciate as much as we should all that is being done for us, yet I think all realize that they are one of the best features of camp life.
Religious services are held twice a week by some of the camp workers or ministers from the city.
There are movies, musical programs, etc. every night of the week. So there is something to fit the taste of every fellow here.
If this escapes shall write again. And later, if things continue shall give some of our experiences with the Huns. Success to the NEWS and all the home folks.

LAWRENCE COUNTY BOY IN SOUTHERN CAMP

Lake Charles, La.
I will write you a few lines as I am thinking of my Lawrence-co friends. I always thought Louisa was the most patriotic town in our country, but I find it equal at Lake Charles, Louisiana, a town of about 20,000 population.
On new years day the boys from Gerstner field were invited to dinner at the expense of the good people of this place. About 1000 of us accepted the invitation and were permitted to leave the camp by our officers. We had the best dinner of our lives furnished to us, everything from turkey to nuts was on the tables, and plenty of it, too. Of course it was in private homes and after dinner those that had machines took the boys auto riding and showed them every point of interest in town.
Now my object in writing to you is this: to let the people of Lawrence county know that army life is fine.
I want to say that the girls of Lake Charles and elsewhere, salute the boys in uniform, but I find no girls to make the girls of Lawrence county.
I am in the 176 Aero Squadron, Grestner field Lake Charles, La.
Success to the Big Sandy News.
Yours truly,
GARLAND WEBB.

U. S. ARMY CLEANEST IN EUROPE, SAYS EDUCATOR

Chicago January 10.—That the United States army is the cleanest now in Europe was the assurance given American parents by Dr. W. T. Foster, president of Reed College, Portland, Ore., who stated the entire French front as the representative of the war council of the Red Cross, in an address delivered here today.
"I visited every camp in France where American soldiers are quartered," said Dr. Foster, "and I never saw any drunkenness, the morals of the American soldiers are good, too."

Savagery of the Germans.

"If Americans would but review the history of the last few months and recall what has happened in all of the country conquered by the armies of the Prussians and the allies they would appreciate what would happen should any part of this country come under the German heel. It has been a ghastly record of the murder and slaughter of persons of both sexes, all ages and rank, deportations by the thousands, enslavement and oppression, women and girls being treated merely as the chattel of their conquerors, plunder looted, starvation, spoliation and destruction of everything from art and machinery to stock and the forests, tributes, extortion and the deliberate mutilation of the wounded in a manner more savage than ever shown by the Sioux Indians. The limbs of men slightly wounded were amputated by the German ambulance surgeons that they would be unable to take part in the next war."
"The authentic stories of German ferocity—I will not use the word 'brutality'—fer no brute would act as the Germans—run into the hundreds of thousands and give the key to the true Prussian character. History has just a few of the records of German crimes in Belgium and Northern France, the truth of which has been sworn to by the Mayors of 26 towns:
"Madame Maupont, aged 75, was kicked to death by soldiers ransacking her cupboards; looking at Creil and Baccarat was directed by German officers, who ordered natives killed because they would not show them the houses of the wealthiest inhabitants; a Captain, whose men had captured a wounded French physician, was ordered to shoot the physician with his own hands and then ordered him shot. Prof. Volpatis, a well known German scientist of Heidelberg University, personally directed the searching of the clothing of French physicians who were brought before him and appropriated all the funds taken from them for his own use."
"When the German soldiers were looting towns in Lorraine, at Duveville, Luxembourg and elsewhere, German women arrived in their motor cars and selected those things in the homes of the conquered which they wished stolen for themselves. Houses and business structures were burned everywhere, often with persons in them, and murders of persons, from babies to arms up were almost constant occurrence. In one place two women and the babe one carried were ordered from their houses, and the women were shot by a firing squad. The officer in command then directed that the infant be killed that it might not be left alone in the world."
"At Embermenil, Madame Masson was shot for having in absolute good faith, given some wrong information. She was obviously in a state of pregnancy, and was made to sit on a bench to meet her fate. At Elbe two priests were shot for ministering to fugitives; a Jesuit father named Doppierrea was killed for having in a notebook a statement that the churches and library of Leuvalin had been fired by soldiers, and his fellow priests were forced to bury him; a parish priest named Dergent was taken to Aerschot, stripped and died of a cross in front of the church, and his fingers and toes crushed with the butt of a rifle; at Tampines members of the German army Red Cross went among the inhabitants who had been shot down in a general massacre and beat to death with clubs all who survived and German soldiers, when attacking, repeatedly used captured prisoners as shields. Throughout Belgium the German soldiers were especially severe in their treatment of Catholic priests, accusing them of every conceivable crime. Many of these clergy men were stripped and thrown into the pig pens, and more than a hundred were deliberately massacred.

"The outrages against women were the acme of frightfulness. At Louppy a mother and her daughters, the latter aged 12 and 8, were outraged until they died. At Niny the martyrdom of a six-year-old girl lasted until death. Her father and mother were shot for attempting to come to her rescue."
"New that Russia is playing into the hands of the Germans, now that the socialists, anarchists, atheists and pacifists are assisting to further the immoral scheme of the Prussians, every genuine American must be on his guard at all times to do everything in his or her power to assist the war aims of the United States. Otherwise the mighty struggle for liberty, honor, mercy, mortality, christianity and humanity may be lost. There is but one way out Germany must be conquered by the Allies."—New York Evening Telegram
