

DAILY REVIEW OF GENERAL NEWS

SATURDAY.

Carranza troops are threatening the American border, it was revealed in Congress when Senators and the Governor of Texas protested demobilization of the air service.

On account of the sugar shortage the United States Government has been compelled to refuse to furnish sugar to meet the French demand, and France, which at one time tried to obtain release from a contract to purchase American-controlled supplies, now finds herself facing the prospect of paying 25 cents a pound for her supply.

Nineteen forest fires are raging in Montana and Idaho. Many towns are threatened and 30,000 acres of timber have been laid to waste.

The New Era Oil Company filed articles of incorporation. The concern has a capital stock of \$100,000 and is backed by Louisville men. They will engage in development in the Kentucky fields.

Five hundred and fifty American army officers and volunteers, all sanitary experts, will leave Paris in a few days for Poland, where they will start a campaign to stamp out typhus in that country and to prevent it from becoming epidemic in Central Europe this winter.

Germany wants loans or credit from the United States with which to purchase raw materials and food necessary to meet obligations imposed by the treaty.

SUNDAY.

A boatload of American sailors from the United States steamer Cheyenne were held up in the Tamesi river by Mexicans July 6 in miles from the city of Tampico and robbed. The American flag was flying from the boat at the time. This is considered the most serious of the growing list of attacks on Americans which have come to light. Secretary Daniels asked for a full report of the affair and a note has been sent to the Carranza Government by the United States. It was an incident in Tampico in 1914 which brought about the occupation of Vera Cruz.

I. W. W. agitators are blamed by an investigator for the forest fires raging over Montana, Idaho and Washington. He declared it was part of a plan to hamper industry. Great forests are being destroyed and a number of towns are threatened as the flames are spreading before high winds. The Governor of Idaho may ask for troops to help protect the threatened cities.

Headed by thirty destroyers, the new Pacific fleet, the first powerful battle force this country has assembled to guard the West coast and marking a new naval policy for the United States, left Hampton Roads for its home waters.

Construction of Jackson Highway, which will follow the old stage coach route from Louisville through Kentucky counties into Tennessee, is made certain by definite assurances that Barren and Hart counties will be able to finance their part.

MONDAY.

The American Pacific fleet, commanded by Admiral Hugh Rodman, a Kentuckian, and composed of 200 vessels, has been ordered to steam to Mexico, anchor in several harbors and demand satisfaction for outrages against United States citizens and their property. More than 300 Americans have been slain and millions of dollars' damage done to their property by Mexicans, and Washington fears an invasion will be the only means of restoring order and making the country

safe for foreigners. The situation is regarded as critical.

Labor leaders of the world already have begun to reach Amsterdam for the convention of the International Trade Union Federation July 25, when reconstruction problems will be considered. German delegates will attend. Samuel Gompers will seek to have headquarters of the federation changed to Washington.

TUESDAY.

Eleven persons were killed outright and approximately twenty-five were injured when a dirigible balloon used in making exhibition flights near an amusement park in Chicago caught fire while flying above the "Loop" of the business section and plunged 500 feet through the plateglass roof of an office building. Most of the dead were employees in the building, who were trapped and burned to death in the rain of fire. The fire was caused by the explosion of the balloon's gasoline tank.

Two German prisoners, who are said to have betrayed the German High Command to Americans just before the United States offensive in 1918, arrived in New York. They are said to have held high position under Von Hindenburg and to have been brought here to escape the ire of German officers who had threatened them. They are said to have supplied the intelligence department of the United States army with information, which led to the Argonne drive.

Negroes in Washington attacked soldiers and sailors, precipitating grave disorders. Policemen, soldiers, sailors and marines were called to quell the disorders. Shots were fired by the blacks near the White House, and in many other parts of the city. It is reported that more than thirty persons were injured and several killed.

Coal from the Eastern Kentucky fields will be exported to Europe to meet the deficiency there if the request of operators for rates to Atlantic coast ports that will enable them to compete with Virginia and Pennsylvania mines are granted by the United States Railroad Administration.

Further reports to Washington of outrages committed in Mexico tended further to strain the relationship between that republic and the United States, and the opinion is expressed that the crisis is near. The latest report told of the theft of \$10,000 from an oil company in Tampico.

ROCKY VALLEY

Luther Workman returned home Saturday. He has been overseas for the past year. We are glad to have him back.

Robt. Cartmel was a Louisa caller Monday.

Commercial printing promptly and neat done at this office. Our prices are cheaper than most places. A trial will convince you.

SNOW DROP.

Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

Swift & Company, U. S. A.

SMOKY VALLEY

Rev. L. S. Alley filled his appointment at this place Sunday morning. Miss Shelda Diamond is on the sick list.

Opal Hinkle entertained a number of young folks Sunday afternoon.

THE TERRIBLE TWINS.

MAIL FOR GERMANY STARTED LAST TUESDAY

New York.—The resumption of trade relations with Germany and restoration of the mail service to that country has resulted in a flood of business to steamship companies connecting with Germany via Scandinavian countries and Holland. The New York postoffice reports heavy mail receipts for Germany.

The first vessel to leave America with mail for Germany was the Scandinavian-American liner, United States. She sailed for Copenhagen Tuesday.

Normal Weight

Perhaps you are worried because your child does not pick up in weight? Better try

Scott's Emulsion

and watch how it helps make a thin child grow and put on weight. There is nothing quite so strengthening as Scott's Emulsion for a child of any age.

Scott & Bowne, Bloomfield, N. J. 19-5

PEACE PARADE LED BY YANKS

London.—Great Britain's celebration of peace officially culminated at 9 o'clock Saturday night, but at that hour it was not even abated. Great crowds filled the streets, the parks, the cafes and the theaters.

Demonstrations were held throughout the empire, but the greatest interest centered in the parade here. Nineteen thousand allied veterans, representing twelve nations, marched through the heart of the city between lines of wildly enthusiastic civilians. Their ranks extended six miles and a half.

With Gen. Pershing at their head, a composite regiment of 5,500 Americans led the procession. Field Marshal Haig headed the British forces, which were followed by colonial troops. Others in line included 800 French and Italians, 400 Belgians and detachments from Serbia, Rumania, Japan, Portugal, Poland, Czechoslovakia, Greece, China and Siam.

Behind the soldiers marched 4,000 sailors and marines and 1,000 merchant seamen, led by Admiral Beatty. Six hundred women war workers also were in line.

King George, from the Victoria Memorial, took the salute at Buckingham Palace. He was surrounded by his staff in brilliant uniforms and by high officials.

The city was decorated with flags and pennants and at night many of the streets were illuminated with colored lights.

There were pageants and choruses in all the city parks. One chorus of 10,000 voices was directed by Dr. Charles Harries, Santa Barbara, Calif.

DONITHON.

Rev. Peters began a revival at this place Thursday evening.

Mr. and Mrs. Luther Chapman of Louisa are the guests of relatives here.

Albert Elkins returned home Saturday evening after spending several months overseas.

A large crowd attended the communion meeting at the Baptist church Sunday.

PALESTINE IS TO BE JEW'S MECCA

New York.—More than 1,000,000 Jews from every part of the globe are preparing to migrate to Palestine as soon as its political status is fixed, according to surveys by the International Zionist organization made public here.

Emigration committees have been formed in many countries, it was said, while tens of thousands of young men from every occupation have organized groups for agricultural training and study of technical and scientific questions bearing on settlement of the Jewish homeland.

From Russia reports have been received that whole Jewish communities have "prepared to strike their tents" and strong protests have been made against the proposed limitation of immigration to 50,000 a year. In Odessa preparations are reported already under way for handling the vast throngs expected to pass through as soon as traveling is safe.

Not only in Poland, Hungary, Holland, Germany and other European countries are thousands of Jews said to be liquidating their property preparatory to migrating, but Jewish residents of Canada and Central and South American countries are making ready, while England and the United States are expected to contribute their quota of manpower.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.
