## Louisville Business Men to Bring World War General Here With Them

When Louisville business men come to this city on their Heads of Houses excursion into the Cumberland mountain section, June 7 to 11, they will bring with them, General Charles P. Summerall, who commanded the famous First Division of the United States Army in the final Argonne drive, which broke the German lines and won the world war.

The visitors will travel on a special train composed of five Pullmans, two diners, observation car and baggage car. There will be 125 persons in the party.

In every city they visit, it is expected, the Mayor or commercial club will name a reception committee to meet them when the train arrives, and will select a speaker to deliver an address of welcome, to which a member of the Louisville party will respond. A place for holding the reception will also be selected.

The Heads of Houses, it is stated, come as representatives of the Louisville Board of Trade and of wholesale and industrial interests that do an annual business of almost one billion dollars.

Says President Joseph Burge, of the Board of Trade: "Louisville Board of Trade manufacturers and wholesalers are very happy to get into the Cumberland

mountain cities. There is no place where on previous trips we have been received more graciously and where we have had a better time.

"We like the people, we like the scenery and we like the many evidences of progress we see on every side."

"No section of the country we truly feel has a brighter future than the Cumberland mountain section of Kentucky and Virginia. The way you are developing your marvelous resources of coal and timber and oil augurs wonderful things for the future, and the rapid construction of highways and of other means of transportation is hastening that day.

"Louisville during recent years has come more and more to appreciate the marvelous possibilities of the mountain section and our development tours have probably taken us in recent years just as often there as to any other part of the country.

"And last year when members of the Louisville Board of Trade authorized a fund of \$25,000 and used the money subscribed to send State and Government experts in the solution of problems of rural life to conduct Farmers' Community meetings in forty-two sections, the Cumberland mountain section was one of the first remembered.

"We look forward with unusual enthusiasm to our coming tour of the mountains."

### Sid Hatfield Marries Widow of Matewan Mayor

Sid Hatfield, age 27, chief of police of Matewan, and Mrs. Jessie Testerman, 23, widow of the Mayor of Matewan, (who was killed May 19), were arrested at a hotel in Huntington Tuesday night and locked up. The next day they were married.

Thos. Felts, detective, whose brothers were killed at Matewan on May 19th, said he has a warrant for Hatfield charging him with robbing the dead bodies of his brothers. Also, he says he is informed that Hatfield shot Mayor Testerman to get him out of the way, because of improper relations then existing with Mrs. Testerman.

Mrs. Testerman says her husband had told her if anything happened to him that he wanted her to marry Hatfield. How lovely!

### World's Oil Resources

Drifting into British Hands, President Advises Congress.

Washington.—Interest of the United States in the race for the oil supply of the world, as embodied in the report of the State Department submitted by President Wilson to the Senate, has arisen from the alarming depletion of oil reserves in the United States.

While this country contributes 69 per cent of the oil supply of the world 40 per cent of its producing fields have been exhausted, and according to official estimates, oil reserves remaining in the United States are not expected to last 20 years.

Of the reserve in this country foreign interests control but 4 per cent, despite the fact that the United States is the only oil producing country in which citizens and foreigners are permitted to participate in oil production on equal terms.

In the face of this "open door" oil policy pursued in this country, officials said, American interests are excluded in Australia, Barbadoes, British East Africa, British Guiana, Burmah, Dutch East Indies, Egypt, France, Algeria, India, Japan, Mesopotamia, Palestine, Persia, Trinidad and the United Kingdom.

In Mexico, which ranks second in oil production in the world, and thereby controls the "balance of power" according to official estimates, American concerns hold controlling interests in 60 per cent of producing fields.

Potential interests of the British, however, have shown a steady increase throughout the world since 1914. At the beginning of the war British control was estimated at only 2 per cent, while today the British Admiralty is said to reckon it at 53 per cent.

President Wilson promptly vetoed the unconstitutional peace resolution passed by Congress, and an effort to re-pass it over his veto failed.

## RESIGNATION OF LOUISA POSTMASTER

MR. DIXON RETIRES AFTER AN INCUMBENCY OF SIX YEARS.

Robert Dixon has resigned as postmaster at Louisa, to become effective upon the appointment of a successor. He has held the office six years. Within that time the work of the office has doubled. Not only has the local work increased heavily, but as a distributing point Louisa has grown immensely. The parcels post development has added a great deal of work.

So heavy and exacting have the duties become that Mr. Dixon has grown tired of the office. For several months he has been seriously considering the matter of resigning.

We see posted in the office a notice of a civil service examination to be held at Catlettsburg on the 16th for examination of applicants for the office of postmaster at Louisa. We also learn that Mr. G. B. Carter is making application for the appointment and will take the examination. He has been a deputy in the office for awhile and has had experience in postoffice work at other places. He is a brother of A. O. Carter.

The wonderful old mahogany table, which carries with it an interesting history, was lace covered, and had for a central ornament a silver vase filled with Killarney roses and ferns. This was placed on a large silver waiter and was surrounded by silver candelabra holding unadorned Mrs. Young, No. 10 Centre Hill, Wilson Dam. The attractive bungalow was most artistically decorated with snowballs, white locust, and Southern smilax. In the dining room, a pink, white and green color scheme was charmingly carried out in the delicious leas, cake, and bonbons, as well as the floral decorations.
