HOME CIRCLE COLUMN

TO THE BOYS.

You'll never discover new lands my boys, If you always follow the beaten track. You'll never stand firm on the mountain height If you're always halting and gazing back. Strike out for yourself, but be sure the path Is not grit with the noxious weeds of sin. That no sharp edged rocks of some deadly vice Or pitfall of folly be found therein. Choose the path of honor and virtue, boys, And let no one tempt you to swerve aside; Its guide boards—temperance, purity, truth Who follows their guidance few dangers betide. There may not be wealth and fame at the end, But wealth and fame do not constitute bliss. A pure, perfect manhood, and noble life— There's nothing worth striving for, boys, but this.

It's an old, old saying that nothing is so bad but that it could be worse. However, it's a good thought to bear constantly in mind.

Too many girls are the pink of perfection so far as their grooming is concerned before marriage but after the knot is tied they seem to think that any old dress will do. Queer logic they use.

These so-called reformers should learn that if they would keep quiet and set an example of happy, attractive, morality and usefulness they would be much more successful than with their present aggressive and disagreeable meddling.

Don't let circumstances down you or put a damper on your spirits. Sometimes it's hard to keep your head above water, but for your own sake you should make the effort and win out for no one is more miserable than yourself when you are down and out.

Sometimes we hear a growl or a grumble because some loved one demands too much time and attention. Don't grow impatient or feel that the burden is too heavy. Some day you will be glad and thankful for every little thing you did to make the life of that loved one happier and easier.

The henpecked husband has been the subject for many a joke but he is a pitiful creature, nevertheless. The outside of the house is the only side which really belongs to him. But sorry a creature as he is, his wife is even more to be pitied. She has turned her life and her home into a vinegar press and is surprised that this husband whom she caught with honey cannot be held with vinegar. If it is not too late let her stop now and realize that if this constant scolding continues she can never hope to create the sunny, cheerful fireside that men love better than all the world beside, and the memory of which children tenderly cling to as long as life lasts.

The time many people give to worry over the depravity of the world might better be given to self analysis and meditation. You cannot live another's life but you can live your own and live it well. Resolve to do and be what you want others to do and be. It is more important to be than to do, remember, if you do something worth while you are sure to be something worth while.

A temper is not a trait to be cultivated but there are different kinds of temper and some are more agreeable to live with than others. Better a thousand times a quick fiery temper that spits out its grievance and is over in ten minutes, even though that ten minutes may be tempestuous, than one that sulks and nurses its grievance for days. Half the time a sulky person has nothing to sulk over and if he would let people know what's the matter with him he would find this out.

How few people are contented with their lot! The carpenter wants to be anything but a carpenter, and the mason anything but a mason, and the editor anything but an editor and everyone would be happy if he were only something else. The violet wants to be a sun flower, and the apple orchard throw down their blossoms because they are not tall cedars. Parents have the worst children that ever were born, and each one has the greatest misfortune, and everything is upside down, or going to be. Now, gentle reader, you will never make any advance through such a spirit. You cannot fret yourself up but you can fret yourself down. We brought nothing into the world and it is certain we can carry nothing out. If we live the right kind of lives, whatever our circumstances may now be, we are going to have a glorious vacation. As in summer we put off our garments and go down into the cool sea to bathe, so we put off our garments of flesh and step into the cool garden of eternity.

Mrs. Bowen Tells How Rats Almost Burned Her House Down.

"For two months I never went in our cellar, fearing a rat. One night in bed I smelled fire. Sure enough the rat had been nibbling at the matches. If I hadn't acted promptly my house would have been burned. Later we found the dead rat. RAT-SNAP killed it. It's great stuff." Three sizes, 25c, 50c, \$1.00. TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 125 lbs., and fell off until he weighed 110 lbs., in two weeks."

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theford's Black-Draught. Theford's Black-Draught will help you to keep fit, ready for the day's work. Try it!
