STEVENSON ON RURAL CREDITS

Mr. W. F. Stevenson, candidate for congress from this district, calls attention to the fact that the Democratic, the Republican and the Progressive parties all endorsed RURAL CREDITS in their platforms in 1912. Congress has passed a general banking bill for mercantile purposes and boasts that it is the greatest in the world. Why did they forget the party pledge of all of the parties to take care of the farmer? Is the law now proposed calculated, if passed, to relieve the need? He will have more to say later about this proposed law.—(Adv.) 51-3ts

BOYS PIG AND CORN CLUBS

Important Information Given By County Agent

The following letters received from Mr. C. L. McManue, county farm demonstration agent, contains very valuable information for the "boys pig and corn clubs:"

Editor Lancaster News: Can I speak to the "boys corn club" through your paper? and ask them to prepare their land as I have instructed them, by plowing it up deep and using the harrow freely? And to those who have upland that will make from fifteen to twenty-five bushels to the acre, without any fertilizer, I would lay the rows off five feet and bed out with two-horse plow, and after it is bedded, put on a large grab plow or small shovel and a fourteen or sixteen-inch scrape, the plow that will do the best work, and run in the water furrow of the bed just as deep as the horse can well pull it; and if the corn is to be planted deep down in the clay, I would put from 100 to 150 pounds of 8-3 fertilizer and then run a grab plow so as to mix it thoroughly. If corn is to be planted by hand, plant in this furrow; put plenty of good seed to get two or three stands, and if you fail to get a good stand, plow up and plant over. Never depend on replanting.

To corn that is to be planted with planter, use the same grab and make a small ridge, but plow deep and flat on this ridge. To those who have rich bottom land put the rows four to five and one-half feet wide, owing to the fertility of the soil. If the land is well drained, would use the same preparation and use 209 pounds, 16 per cent acid under corn at planting time. If land is inclined to be wet, would plant on the ridge. Use the section harrow or weeder as soon as corn gets out of the ground. If any of you boys need any special information which I have not already given you, call me over the phone or write me, and I will give you the desired information over the phone or either visit you. As I have over 100 boys enrolled in the boys corn club it will be impossible for me to visit you all as often as I would like to.

Now to parents of these corn club boys: I have the largest enrollment of corn club boys in the state and our success depends largely on your co-operation. Give us the land and time to prepare it and we will give you as large a yield of corn as the land will produce—and we are not going to ask you for any more fertilizer than the land can use at a profit.

Trusting that you will give us this co-operation, I am,

Yours very truly, C. L. McManue, County Agent U. S. Dept. of Agriculture, Lancaster, S. C.

Editor Lancaster News:

I want to say to the "boys and girls pig club" of Lancaster county, through your paper, to those who have enrolled, and have not secured their pig or hog yet (as the case may be) to please let me hear from them at once and I will help them to secure their pig. Trusting to hear from you soon, if necessary, I am,

Yours very truly, C. L. McManue, County Agent U. S. Dept. of Agriculture, Lancaster, S. C.

LANCASTER PEOPLE GET INSTANT ACTION.

Those who have used it in Lancaster are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-i-ka relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. Lancaster Pharmacy.

"Vaporize" Croup or Cold Troubles

Vapor treatments for cold troubles are better than internal medicines, as the vapors carry the medication direct to the lungs and air passages without disturbing the stomach. When Vick's "Vap-O-Rub" Salve is applied over the throat and chest, these vapors, released by the heat of the body, are inhaled with each breath. 25c. to \$1.00. VICK'S VAPOR SALVE
