The Republicans Tired of Hayes.

From the Toledo Journal.

WASHINGTON, Feb. 28.—It is useless longer to conceal the fact that the Republicans are getting very tired of Hayes. It is conceded that his course is sapping the life and wearing away the energy of the Republican party. It is a solemn fact to-day that in Washington a majority of Republican Senators and Representatives would rather see Tilden in the White House than Hayes. There are but five or six Republican Senators (so called) who sustain the Administration, and there are not twenty all told in the House, so that in an emergency Hayes would be almost utterly without any support.

Having obtained special rates on Coal, Oil, and Corn, the new prepared to sell by the barrel to dealers of the same price, they will be charged either at Sunbury or Williamsport.

The Greer backers held a regular county convention at Bellefonte, the other day, appointed delegates to a state convention and named Senatorial conferees. Speeches were made by Robert McKnight and Gen. Blair. The principal actors were Mr. McKnight, John C. Hoover, W. H. Miller, and J. W. Deisinger. W. H. Miller, Jacob V. Thomas, Michael Grove and others. What the convention was exactly good for or what the thing means, has not yet fully developed itself; but Tuten of the Republican, pointed delegates to it for his party. He makes the significant note that only strongly Republican townships were represented, and infers, we presume, that the new party will draw its strength mainly from the Republican towns. He winds up by saying that "no quantity of words that could be multiplied would induce certain members of our party to act sensibly." Just so, Edward, just so.

The Editor of the Bellefonte Republican has the rare faculty of dividing up and placing himself on both sides of a question. He is "pleased" that the President vetoed the silver bill, and "glad" at the same time that Congress passed the bill over the veto. Of course small editors with small journals can't do this, as they are not in a position to make two fair sized halves. Tuten does it after this fashion:

For the present we go with the majority and are glad that the bill has become a law, while at the same time we are highly pleased with the course of the President, courage, consistency and honor. We see no objection to either the President or the Legislative body.

THE LECTURE.

The Lecture on Friday evening was certainly a grand affair in every way. We never had the pleasure of listening to a speaker that has such a ready and full command of beautiful, figurative language. Dr. Keys carries his hearers—those who can understand it—upward into the highest regions of thought. He becomes so absorbed in his subject and is himself so much at home in these high, idealistic fields that he seems almost to forget that he has a human audience, with common capacities before him. Herein is just where the lecture suffered in practical value, for we doubt very much whether one fourth of those present were able to follow the lecturer's sublime ideas and language.

The power of a fixed and determined purpose were indeed most eloquently portrayed, but Dr. Keys confined himself too much to the brilliant, shimmering lights of history and legends, that so seldom but so powerfully dazzle the world as they sweep with majesty and power through infinity. It is true, the whole world bows with reverent awe before such an exalted character as Columbus—a man so nearly approaching the image of the Creator, but the world produced but one Columbus, and ages may pass before another is needed.

What we particularly mean is that the Doctor's treatment would have been of more practical benefit, had he led his audience more in the ordinary walks of life. For example it requires a very firm purpose for a young man with nothing to start with, to acquire an education. It requires a strong purpose to pursue successfully any common mercantile or mechanical calling—to say nothing of the learned professions. It requires a very determined, untiring purpose to achieve a fair and progressive degree of mental culture, or of growing moral excellence. On these and kindred paths the world needs teaching, needs leadership, needs example.

Again, the Doctor assumed a position throughout his entire discourse from which we most decidedly differ. He gave all the credit of great achievements to purpose alone—none to genius. The human mind is endowed with multifarious talents. These talents differ widely, both in degree and in kind, in different persons. For instance one has a natural gift for music, while another is unable to distinguish between the different tones. Some persons really seem to be natural born artists, composers, artisans, lawyers, mechanics or professional men, while others may plod a life time in the same avocations and barely attain mediocrity. Great achievements are not due to the power of purpose only, but rather to a combination of purpose and talent.

The Mason-Yarger debate will take place in Sankey's Hall, Saturday evening of this week. Subject—"Which will lead a man to the greatest evil—the love of money or the love of woman?" Turn out—Millheim Telegraph.

Seems to us we heard this question disputed before.

It is rumored that Hon. L. A. Mackey is a candidate for reelection to Congress. Whether he will be honored with a third term or not he certainly has the respect of all parties and classes for the able and fearless manner in which he discharged his duties as a representative of the people.

Best Machine Spool Cotton, only 5 cents—or a dozen for 50 cents at Stam's store.

Rumor says that the Woodward distillery has been rented by Fees & Snook. We do not vouch for the correctness of the report.

Smith & Co. have employed Mr. Shook as their general business manager at the grain and warehouse at Coburn.

The old Republican War Horse, Ex-Senator B. F. Wade, died at his home, Jefferson, Ohio, on the 2nd inst., in his 78th year.

Mr. J. D. Murray bought Rev. J. K. Miller's store building at Centre Hall, for \$1700. Mr. Murray is going into the drug business.

FOR SALE.—A cabinet organ of superior quality, excellent tone, nearly new, by one of the best makers in the country, for sale very cheap. Call and see it at the residence of C. F. Deisinger, Millheim.

The silverware delivered by the National Silver-Plating Co., No. 704 Chestnut street, Philadelphia, is giving entire satisfaction. All orders are promptly filled, and no one need hesitate about sending them money.—Lutheran Observer.

Having obtained special rates on Coal, Oil, and Corn, the new prepared to sell by the barrel to dealers of the same price, they will be charged either at Sunbury or Williamsport.

The road from Millheim to Coburn Station is in a wretched condition at some places, especially the new part along Pine Creek. Mud and ruts make it almost impossible at some points. We hope there may be some thorough work done on this road next summer.

We actually saw John Eber walk home the other day with a rake on his back, and that is about the nearest he intends to get to making a garden. He is far too sharp an old bear to be caught at such hard work when the weather is so blazing hot.

The elegant Royal Casket sent out by the Franklin Jewelry Company, of 703 Bennett Street, Philadelphia, is anything but brilliant. It is not as though the prospective purchaser had been directed to Bellefonte, is not even alluded to by the Board.

The outlay upon the branch roads was required to complete the Columbia and the South West, which was completed on or about July 1st, 1877, to extend the line from Uniontown to Spring Mills, a distance of 4.5 miles, and the Lewisburg, Centre and Aronsburg, from Lewisburg to Spring Mills, a distance of 2.8 miles, 42 miles in all. The new lines are now completed, and are ready for use.

Virginia has only \$103 in her state treasury and can not raise anything on loans. It is not that the mother of states is just so poor as the state of her treasury would indicate, but her proposed legislation shows that her people are not so rich as she would have us believe.

The oyster business of H. H. Tolson & Co., is played out, and they are looking for a new market. Fresh fish next in order. Hurry then up Harry. Think our weak editorial stomach could digest several, but of course you must take it out in printing.

In naming the improvements in prospect for next summer, we skipped a two story carpenter shop, by Israel Confer, with store room on first floor, and a wagon maker shop, by Thomas Hookman, and a salider shop by Wash. Kroyer and John Kerstetter, Jr., also bought a lot and expects to build thereon.

Ladies who for years have depended on all manner of powders and cosmetics for giving the artificial complexion, now find that GLENN'S SUIPER SOAP supplies them with pearly skins and rosy cheeks, elicited by the gentle stimulation of nature. Sold by all Druggists. Hair & Whisker Dye, black or brown, 50 cents. 9-4W.

SEWING MACHINES, like all other machines, sometimes get out of order, and out few people are inclined to look properly where the difficulty lies. If there is anything wrong with your machine, you better not try too much to mend it, but take it to the Sewing Machine Repairer, and get it fixed. Dan is a mechanic and a good one, and he will charge you but a moderate price.

FIRE.—On Thursday last a house on the line of the L. C. & S. C. R. R., six miles west of Laurelton, occupied by two families, the owner, Mr. George Kestetter, and John L. Goodlander, was destroyed by fire, with most of its contents. All that was saved from destruction was through the commendable efforts of Messrs. Fury, Benson, Stoughton and Hartman, whose train arrived at the scene just as the fire was breaking through the roof. Cause of fire—pipe projecting through the roof.—Millburg Telegraph.

If we can rightly interpret the following table, the Annual Report of the Board of Directors of the Pennsylvania R. R. Co., the prospects of an early completion of the L. C. & S. C. Rail Road to Tyrone, are anything but brilliant. It is not as though the prospective purchaser had been directed to Bellefonte, is not even alluded to by the Board.

Yesterday morning James D. Losh shot a white weasel at Foot's Stable. The skins of these little animals are said to be valuable for medicinal purposes for horses.

S. K. Faust, the enterprising coach maker, has commenced to manufacture the celebrated Whitney Side Bar Buggy. This is something quite new and just as good as it is new. In fact the Whitney Side Bar stands at the head of the list. Sammy is always up to time in new improvements in his line of business, and the result is that his enterprise reaps its rich reward.

SPRING MILLS ITEMS.

R. D. Musser accidentally cut his head and smashed to smithereens a fine pair of boots. He is now in bed, and the wound is not very serious. W. B. Krape also cut himself in the knee, and it is rather a bad wound.

T. J. Greoble sold his splendid driving horse to Mr. Houseman, of Boalsburg.

Capt. Hasenpflug was the first one at making garden—others followed suit.

The young men in town called around the other evening serenading people with singing "John Brown's body lies moldering in the grave." The "hoys" are almost ready for Danville.

After the convert on Saturday evening some of the boys and lasses refused to dance with the outsiders. A. E. Miller's. A is a good, clever fellow, but should advertise in the JOURNAL.

YONEY. Croaking is not confined to the Frog Ponds. At this season almost everybody croaks. The croaking of distressed lungs is heard in every household. When Hales' Honey of Wildwood and The Golden Rule are used, the croaking ceases in 48 hours. Sold by all Druggists. Pike's Toothache Drops cure in 1 minute.

The penetrating winds incident to this season of the year are a severe ordeal for the lungs. The neglect of a hard cough generally leads to weakness of the lungs, which, not infrequently, results in Consumption.

SCARF'S PULMONIC SYRUP will at once relieve and loosen a tight cough and is such an agreeable remedy that children will take it without being coaxed. A cold on the lungs, if consumption is not already developed, may be easily mastered by the use of the Pulmonic Syrup, together with SCARF'S MANAGE PILLS to clear the system of the accumulated mucus.

In more serious cases, where the disease has become deeply seated, and the patient suffers from loss of appetite, weakness and emaciation, SCARF'S SEA WEDD Tonic should be used in connection with the mentioned remedies, to stimulate the appetite and bring the digestive powers into healthy action, thereby sustaining the strength of the patient and enabling him to resist the progress of the disease until the use of SCARF'S MANAGE PILLS to clear the system and cleanse the blood.

The use of these standard remedies according to the directions which accompany them, cannot fail to produce most satisfactory results. A letter addressed to Dr. Schenk, cor. Sixth and Arch Sts., Philadelphia, will promptly receive a circular containing the full particulars of the Doctor's personal attention, free of charge.

Schenk's Medicines are for sale by all Druggists.

A Wonderful Invention (From the N. Y. Daily Graphic.) An invention all right which will appreciate in fact, an article that even rivals the sewing machine in usefulness is now on exhibition at the Broadway Exhibition. It is the Sewing Machine Company's new invention, a machine which is so simple that it can be operated by a child, and it is so simple that it can be operated by a child, and it is so simple that it can be operated by a child.
