R. B. Hartman has the boss fence in town—all cast in his own foundry and painted a beautiful green with his own hands. Yes it is "just splendid."

The brick makers are busy at work at Snook's brick yard, in converting the native soil into brick. *Buce, macht sie recht gut un schec.*

It is estimated by competent judges that the West Branch valley will be pretty well stripped of its best timber in about five years.

Wm. R. Henney, John H. Maize, Daniel Ulrich, Jr., and Wm. S. Maize, have all planted shade trees along their fronts.

FOR TENDER FEET.—The Journal store sells the celebrated Nelson Seamless Stocking, just the thing for tender feet. Call and see them.

NEW ENTERPRISE.—Michael Ulrich, Jr., and Wm. S. Maize are building a new pottery at the west end of town.

Purge out the morbid humors of the blood, by a dose or two of Ayer's Pills, and you will have clearer heads as well as healthier bodies.

Mr. Austin Curtin, with a force of men, has commenced work repairing the Mill Hall furnace. It is given out that a Southern firm intend putting it in operation.

J. Merrill Linn, of Lewisburg and Samuel H. Orwig, of Millheim, are both spoken of as candidates for President Judge of their district. Either would make a splendid judge.

The safe in W. N. Baker's flour and feed store in Lewisburg was blown open and robbed of \$100. It is thought to have been the work of experts.

Dr. John F. Harter, Dentist, has removed his office to the second floor of Tomlinson's grocery, where he will be happy to receive his personal and professional friends.

Joseph Cantner, Jr., one of our Millheim boys who has for some years been engaged in the Bradford oil region was here on a short visit. Joe looks well and gives a good account of himself.

Neighbor F. P. Musser is grading and fixing up around his fine mansion. He will have a beautiful yard when graded and sodded. "Cuff" Alter manages the job and he is tip top on such work.

The Grand Lodge of Odd Fellows of Pennsylvania will hold their annual sessions in Harrisburg, on the seventh, eighth and nineteenth days of May. It is expected that from seven hundred to one thousand representatives will be in attendance.

Probably the youngest soldier that served in the Union Army during the rebellion is C. P. Harter, of Danville. He enlisted in the First Battalion, P. V. at the age of eleven years, served until the close of the rebellion, and is now the head roller in the Glendower iron works.

THE EXCELSIOR DYE WORKS at Lewisburg turns out first class work. Shawls, dresses and men's garments will be colored and pressed in best style. Mr. Jacob Wolf is agent for Centre county. Goods left at the Journal office will be attended to, satisfaction guaranteed.

Our Town Council has levied a borough tax of two mills and appointed High Constable Weiser collector. Our borough taxes should be paid up a trifle more promptly than has been the case thus far, in order that our obligations may be met without asking claimants to carry orders for months without being paid.

VENDOR'S PREDICTIONS FOR MAY AND JUNE.—May will enter cold, with snow in some localities. Very hot weather between the 5th and 15th, with thunder showers. Frosts are probable on the 25th and 26th. June will enter cool and wet. Stormy and wet, 5th and 6th. Frosts, 7th and 8th. Each month of the year will bear frosts.

If you want an extra fine article in the line of tooth powder—and every body should use such an article—Dr. John F. Harter is the man to supply you. We have tried it and know whereof we speak.

In reading over the Journal don't by any means skip Mrs. Anna M. Weaver's advertisement. Mrs. Weaver is always up to the time with her millinery business and can suit you as well and as cheaply as anybody, and besides she understands the value of a little printer's ink. Just call and examine her splendid stock of Spring and Summer Hats and Bonnets.

Thomas N. Magee was re-elected County Superintendent of Clinton county on the 3rd inst. on the first ballot. The vote stood as follows:

Thomas N. Magee had 93 votes  
Isaac A. Harvey 17  
Martin W. Herr 12  
Isaac L. McCloskey 6

Mr. Magee has held the office for the past three years, and proved himself a faithful, efficient and competent officer.

The queerest election we ever heard of is to come off at Lewisburg on the 11th of June. The voters are called upon to vote whether or not cows shall be allowed to run at large and parade the streets and sidewalks at will. The tickets will be "For Cows" and "Against Cows." And thus has the council decided to settle a question that has shaken the steady old burg from centre to circumference for some time past.

Hon. and Mrs. W. K. Alexander are off to New York at this writing, but will be here again by the time this reaches our readers. They may have other business there and elsewhere for aught we know, but the special business and occasion of their going is to bring such a stock of Spring Hats, Bonnets, and Millinery Goods generally as will astonish the natives. They respectfully solicit the patronage of the public.

It is well known to the World that the United States is more liberal to its soldiers than any other country on the face of the globe. Every soldier who served ninety days or more in the Union Army during the Rebellion, and who has an honorable discharge, is entitled to one hundred and sixty acres of land, under the homestead laws.

By reference to another column it will be seen that Prothonotary Harper announces himself as a candidate for re-election, to which he is clearly entitled if the customary usages of the party are followed. Mr. Harper has been a most excellent officer, fully competent as well as courteous and obliging to all. The records of County, as far as the Prothonotary office are concerned were never in better order and system.

UNCLE TOM.

A HANDSOME PAPER.

The Illustrated Scientific News for May is before us, looking handsome, if possible, than any of the preceding issues. Since its change of publishers last January, this magazine has improved with each succeeding number. The present issue of the Illustrated Scientific News is overflowing with handsome engravings and interesting and instructive matter.

Among the various subjects illustrated in this issue is a superb specimen of cut glass ware; an exhaustive article on asphaltum and its use in streets and pavements; a new and ingenious hand-car, shown in operation; a new steam boiler for use in shallow rivers; the new Jobert telescope, and an interesting paper on physics without apparatus, also fully illustrated.

Every number contains thirty-two pages full of engravings of novelties in science and the useful arts. To be had of all news dealers, or by mail of the publishers, MUNN & CO., 37 Park Row, New York, at \$1.50 per annum; single copies 15 cents.

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them to be the best and most effective purgative yet. They are perfectly safe and can be used by the most delicate and infirm. They are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ in all cases of constipation, and are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. News Miscellany.

The New York World's Fair for 1883 is dead as a door nail. It seems that the country had enough of "Centennial" for a long time.

A chestnut tree was recently cut down in Sullivan county, out of which eighteen hundred fence rails of the best quality were manufactured. The number of rings at the butt of the tree indicated that it was two thousand years old.—Potter Enterprise.

Mr. John L. Reichenbach's boy aged about five years, was crushed to death in Point township, on Wednesday, by a hand-roller running over him. He was left in charge of the roller while his father went to the house to assist in shaking carpet, and when he returned to the field he found his boy under the roller crushed to death.—Northville Press.

Moses Dawsey, a citizen of Downingtown, was attacked near that place on Saturday evening by six or eight men, who knocked him down four times, kicking and punching him until scarcely an uninjured spot can be found on his person. It is feared he is also injured internally. He was unable to recognize his assailants, but thinks they are laborers employed at Valley Creek bridge.

Investigation developed the fact that no legal jury has been drawn in Erie county for ten years, owing to the custom of sealing the wheel with muckilage instead of wax. Judge Galbraith made the rule absolute and discharged all the jurors. The May term has thus burst up. Intense excitement prevails, owing to prisoners having to wait until September for trial.

Samuel Moyer of Centre township Snyder Co., died suddenly in the field while plowing. Geo. Klime, his son-in-law, was plowing in the next field, and seeing Mr. Moyer's horses standing idle a long time he went to see the cause of it, and found Mr. Moyer lying on his back in the furrow dead, with his left hand upon his heart.

Martin Snyder of Union county shot at a rat sitting on the feed box in his stable, but he missed the rat and killed one of his cows.

BURGLARY.—Burglars entered the R. R. depot on last Friday night and blew up the safe and very nearly demolished the building. They got \$3.00 for their trouble, time, expense and risk of the penitentiary a mighty poor haul that.—Sellingrove Times.

Nearly 150 Men Killed.

LONDON, May 4.—Later advices from Montevideo state that the British sloop-of-war Doterel, which was blown up in the Strait of Magellan on the 26th ult., was totally destroyed and sunk. The explosion occurred in the forward magazine at ten o'clock in the morning. It is supposed the boiler burst and exploded the magazine. The victims of the explosion number eight officers and one hundred and thirty-five men killed. Three officers and fourteen others were saved.

CURING THROUGH FAITH.

A Remarkable Instance of Answer to Prayer—Miss Ludwig's Restoration.

DAMASCUS, Pa., May 3.—A short time ago a dispatch to THE TIMES from this place announced the cure, through faith, of Miss Lillie Tyler, a relative of Mr. William W. Tyler, the postmaster here. Another case still more remarkable is now reported from Canaan township, Wayne county, not many miles from here. Miss Etta Ludwig has been a sufferer from a white swelling on her hip, pronounced by all the physicians who have examined her to be incurable. She has been treated by some of the most noted medical men in the country, who gave up all hopes of her recovery, and she has tried all kinds of patent medicines, with no relief whatever from her painful malady. About a month ago she heard of the remarkable cure of Miss Tyler by prayer, and, believing that her cure could be effected by the same means, she procured of Miss Tyler the address of the woman in Connecticut who had officiated in Miss Tyler's case and received an answer appointing the hour and day when Miss Etta's friends should engage in prayer for her restoration to health. Sunday, April 24 was the time appointed, and on that day her friends gathered around her bedside and prayers were offered. Within an hour Miss Ludwig noticed a great change in her condition, and she is now so fully recovered as to be able to walk. She has not, until this time, in many years walked a step, and her recovery is at least wonderful.
