

Local Department.

Three Cans of Corn for 25 cts. at Spigelmyer's.

Town was unusually lively last Saturday. Main Street was thronged with people, horses and wagons.

Spigelmyer beats the town for low prices. Best White Sugar—10 cts., Good Green Coffee—11 cts.

Ex-Gov. Curtin has our thanks for a volume of the Agricultural Report of 1880 and other documents.

The Ladies' Mite Society of the Lutheran Church in this place will meet at Mrs. H. H. Tomlinson's house next Monday evening.

A large assortment of cream colored and black Bantings, cream and black Granadines, and a nice Black Velvet for 50 cts per yard at Spigelmyer's.

Another property is being improved on Penn Street. Mr. A. A. Frank made various changes at his residence and is now adorning it by several coats of paint. At this rate our town will soon look fresh and bright.

STILL ANOTHER.—Dr. D. H. Mingle is also beautifying his residence on Main Street by a liberal application of paint and brass.

The Millheim Foundry was sold last Saturday to D. A. Musser at \$900. The sale of John D. Foote's estate is still going on and draws a fair amount of people to town every week. It will be continued next Saturday.

The administrator's sale of the estate of John D. Foote, deceased, will be continued next Saturday. Stoves, plows, plow shares, horse, buggy, store goods, and a variety of other articles will be sold. Bargains for all.

FASHIONABLE DRESS CUTTING.—Miss Alice R. Bollinger, of Aaronsburg, will give instructions in dress cutting according to the most approved rules. Her long experience in the business enables her to give full satisfaction. Terms moderate.

The excitement among our little boys was at fever-heat last Saturday afternoon, when the large posters of the coming show were stuck up. "Can I shape my way in?" was the question you could read in every little fellow's face.

J. A. Limbert, the mail contractor on the route between Coburn and Woodward, is prepared to carry express packages and other goods to all points along the route at reasonable charges. All business entrusted to him will be punctually attended to.

Last week we received our new and fast job press and are now prepared to do all kinds of job work in the best style, at short notice and at reasonable prices. Come and give us your orders and we will execute the work satisfactorily.

The cold and blustering weather is at last succeeded by warmer days and people are now very busy planting and sowing. The high price at which potatoes and other eatables have sold makes them think it will pay to plant. The prospects are now favorable for good crops.

No better place to buy boots and shoes in the county than Doll & Mingle's, in Bellefonte. They sell a lady's dress shoe for \$2.00; a fine button walking shoe for \$1.00; carpet slippers for 25 cents; men's brogans for \$1.00, and others in proportion. Try Doll & Mingle's shoes.

Miss Puella E. Dornblaser and Miss White, two Nittany Valley ladies, were taking a look at our village last week. They were on their way to Aaronsburg to attend the Woman's Missionary meeting, which came off in the Lutheran Church at that place on Friday evening.

Last Sunday night a thief gained entrance into Mr. A. Walter's cellar and helped himself to a well sized ham. This is the second instance of the kind, a ham and a lot of lard having been stolen there two weeks ago. The villain will try that trick once too often and if caught he won't steal any more meat for a while.

The Central Mfg. Co. of Lewisburg are doing an immense business this year. They have been in business for twenty-two years and are building more machines than ever before. The Buckeye mowers, so well known in this county, is still kept at the head of the list. The Bates Harvester introduced in 1880 at once took the lead, the sale in our county being 2 in '80, 6 in '81 and 46 last year. Their agents in this county, Jno. DeLong & S. Strohecker, sold last year 49 machines. Farmers should remember that these machines are not yankee grimy-cracks, but made on the line of our railroad. The shops can be reached twice a day, making it very convenient for repairs. Their machines are all put out on their merits, warranted durable, well made, of good material and run light, and as the record proves will outlast any other machine in the market. Machines built by this company 22 years ago are still running in this county.

Two large Wooden Buckets for 25 cts. at Spigelmyer's.

Frank Knarr and Denis Luse have taken charge of the Millheim Foundry and will continue the business in all its branches at the old stand. Both these men are well known throughout this section as practical and experienced mechanics. We wish them abundant success.

Decorations day was observed in this town by the band only who marched up to the cemetery about dusk, decorated the graves, played a dirge and returned. A lot of little girls and boys had gathered and forming a line followed the band's example and strewed flowers on the graves.

A DISCLAIMER.—I much regret the appearance in our columns of an advertisement for a circus show, and hereby disclaim all responsibility for it. I believe these institutions to be demoralizing in their tendency and influence, differing perhaps in degree but not in kind. The advertisement was accepted and its publication contracted for while I was absent from home, by my partner, Mr. Bumiller, whose views on the matter differ radically from my own. B. O. D.

Mr. Lewin of the Philadelphia Branch Clothing Store at Bellefonte, has given away hundreds of whips but the demand still continues; and the same may be said of his immense and excellent stock of clothing and gentlemen's furnishing goods. Mr. Lewin understands his business thoroughly—knows how to buy and how to sell—knows exactly what the people want—and last but not least, he knows that free, judicious advertising pays, and that he enjoys the benefit of printers ink. Rah for Lewin.

We call the attention of our readers to the advertisement in another column of the new hotel at Spring Mills under the management of Mr. Nash. This new house is located on one of the most pleasant and healthiest points in the county and promises to be a popular summer resort. Mr. Nash is an experienced landlord and guests stopping at his hotel will at once feel at home. The rates are as low as any and boarders get full return for their money.

SPRING MILLS ITEMS.

Dr. J. B. Leitzell is off to Kansas, Missouri and other parts in the west, expecting to stay a month. His son, Dr. C. P. Leitzell, a promising young physician, attends to the practice in the mean time.

Ambrose Gentzel, a son of George Gentzel, a student in our Academy, went with others to try Grenoble's grain elevator, and was thrown off and pretty severely jured. Boys will live and learn.

David Burrell sold his property to James Crape, of Pine Grove, for \$1200 cash, and gives possession Aug. 1st. David thinks of emigrating to Union county. Sorry to lose so good a citizen and neighbor. But David how is this? Do we not read that "Westward the Star of Empire takes its way?"

W. B. Krape, our live livery man, is excavating his cellar near the depot. William is bound to be up to the times. SAM PATCH.

THE GREAT INTERNATIONAL SHOW.

Coming with a Larger List of Attractions than Ever Before.

Main's Mammoth International Coliseum will pitch its tents in Millheim Friday, June 9th giving two entertainments, at 1 1/2 and 7 1/2 P. M. This grand amusement aggregation is now on its fourth year of successful business and is everywhere received with larger audiences at each successive visit. Judging from the numerous complimentary press notices in the leading journals of the country, the show seems to have carried the people by storm at each place of exhibition. Its entertainments are new and original in many features, presenting a variety which cannot fail to delight all, while having nothing to offend the most fastidious. The especially notable features are: A school of trained horses, ponies and dogs; Denier's funniest of all funny Humpty Dumpty troups; a royal troupe of English gymnasts, including the Herculean Fisher Brothers, in their feat of dexterity and strength; Young Victor, the boneless wonder; Prof. Wilton, the American Blondin; Pettit and White, comedians and song and dance men, a whole minstrel show in themselves; Mons, and Madame D'Alma, in their thrilling feats upon the high trapeze; John D'Alma, the modern Hercules, who will at each exhibition lift with his teeth a cask containing forty-two gallons of water; Sam Ladig and Miss Dolly Sharpe in their German character acts and Miss Sharpe in her champion Skipping Rope Jig; Retlow and Alton, Kings of the Double Horizontal Bar; Prof. Dougherty's Silver Cornet Band, and a score of other attractions which go to make up the best aggregation of talent now on the road. The public will find everything exactly as advertised and will see a 50 cent show for the small sum of only 25 cents. Grand free exhibition of tight rope walking by Little Maud D'Alma, previous to the opening of the afternoon performance. No gorgeous street exhibition is advertised and none is given, the band only making a parade. For particulars read the advertisement elsewhere and see the bills, lithographs, pictorials, &c., so freely distributed by the company.

News Miscellany.

The Lancaster nickle mines are now running with a full force of hands.

Long afflicted Bethlehem is gradually getting rid of the smallpox scourge.

The Columbia fishermen are making very heavy catches of shad at present.

A circular saw deprived an Allentown man of all the fingers of one hand.

14 per cent. of the hands employed in the P. R. R. shop at Harrisburg were discharged recently.

All the wires of the Mutual Union Telegraph Company between New York and New England were cut last week by unknown persons. An investigation will be made.

The new bridge at Sonbury will be 2550 feet long, and there will be 13 piers which will be about 35 feet high from the bed of the river. The spans will be 160 feet apart.

A Terrible Death on the Railroad.

A terrible accident resulting in the instant death of Charles Benz, thirty years of age, occurred at Reading last week on the Reading railroad. Benz was on his way to work, and while crossing the networks of rails was run over by a shifting engine. His body was dragged a distance of fifty feet and was frightfully mangled, having been doubled up under the pilot of the engine, which with several cars passed over it. No blame is attached to the engineer as he did not see the man in time to prevent the accident.

The Oldest Postmaster in America.

Maryland can lay claim to the oldest postmaster in the country. It is not often that an officer who has served under Andrew Jackson can be found holding the same place to which he had been appointed by "Old Hickory," but the case of Mr. Edward Stabler is an illustration perhaps without its parallel in the United States. Mr. Stabler, half a century ago, was appointed postmaster of Sandy Springs by Andrew Jackson, and is still serving in that capacity, having held the office uninterruptedly, with the exception of a few years when he was in the service of another branch of the Postal Department.

LANCASTER'S LOSS.

Fifteen Convicts Cut a Hole in a Partition and Escape From Prison.

LANCASTER, May 24.—A general jail delivery occurred at the county prison about noon. Fifteen long term convicts who were working at cigar making in cell No. 39 cut a hole in the partition and through the wall and ten of them emerged into the ice house. They escaped thence through a window into the yard and scaled the wall. Five of them refused to go. The escaped prisoners are John Frankford, a noted horse thief, in for nineteen years; Abe and Ike Buzzard, of the Welsh mountain gang, ten years' sentence; Joseph Groves, five years for burglary; Andrew Ehaman, five years for burglary; John Lippincott, ten years for burglary; Morris Beckler, five years for burglary; Paul Quigley, in for burglary; George McAlpin, five years for felonious assault, and Mike Lentz, five years for horse stealing.

A Shower of Stones in Indiana.

From the Indianapolis Sentinel. The storm at Bedford, Ind., on the night of the 6th was a strange one. The strangest thing that took place was at the farm of Abraham Smith, who lives four miles south of town, where a real, genuine shower of stones fell, mixed with what seems to be plaster. The stones are of various sizes some really as large as a man's fist, while others are quite small. The most of them are white flint, a stone that is not found in this part of Indiana. Many of Mr. Smith's windows were broken and several shingles knocked off his roof. In the immediate vicinity of the house more than a barrel of these stones can be gathered. A great many persons have visited the Smith farm to satisfy themselves in regard to the matter.

ACCIDENT TO HON. RUSSELL ERRETT.

The Pennsylvania Congressman Thrown from a Herdic Coach.

WASHINGTON, May 26.—Hon. Russell Errett, of Pennsylvania, met with quite a serious accident this morning, by being thrown from a Herdic passenger coach. It appears that upon a lighting from the coach at the entrance to the house of representatives, the driver of the coach started the horse suddenly, causing Mr. Errett to lose his balance, and he was thrown head first against the granite steps under the archway, receiving a very severe cut across his nose and cheeks. It is thought that his nose is broken. Mr. Errett is lying in the room of the committee on ways and means, where a physician has been summoned.

TAKES THE FIRST LIEN.—The attention of the township authorities, collectors and county commissioners is called to an act of assembly passed during the last days of the Legislature. This act can be found on page 45 of the general laws of 1881. It makes taxes assessed upon real estate a first lien upon which they are levied; provides for a lien docket to be kept in the commissioner's office, which is to be a notice to the world. In case a judicial sale takes place, the lien docket is to be satisfied before any money goes to the creditors. The commissioners will want a new set of books, as the act covers all townships and boroughs as well as state and county taxes. Collectors should study the act carefully and not get caught by the penalties of section three.

He Got the Desired Information.

It was in the smoking car on the New York Central. There was one chap who was blustering a great deal and telling how many duels he had fought, and behind him sat a small man reading a magazine.

"Sir!" said the big man, as he wheeled around, "what would you do if challenged?"

"Refuse," was the quiet reply.

"Ah! I thought as much. Refuse and be branded a coward! What if a gentleman offered you the choice of a duel or a public horse-whipping—then what?"

"I'd take the whipping."

"Ah! I thought so; thought so from the looks of you. Suppose, sir, you had foully slandered me?"

"I never slander."

"Then, sir, suppose I had coolly and deliberately insulted you. What would you do?"

"I'd rise up this way, put down my book this way, and reach over like this and take him by the nose as I take you, and give it a three-quarter twist—just so!"

When the little man let go of the big man's nose, the man with the white hat on began to crouch down to get away from billets, but there was no shooting. The big man turned red, then pale, then looked the little man over and remarked:

"Certainly—of course—that's it exactly!"

And then the conversation turned on the general prosperity of the country.

Table with 2 columns: Commodity and Price. Includes items like Wheat, Corn, Oats, etc.
