

Table listing Democratic County Committee members for 1886, including names like Belmont, N. W., and various township representatives.

DAY by day the political sky grows darker for Matthew S. Quay. Some time ago we told our readers that the independent republican element was by no means pleased with the nomination of Boss Quay for state treasurer.

The President's Brother-in-Law in Office. From the Phila. Times. WASHINGTON, Sept. 18.—The President to day appointed N. B. Bacon to be Superintendent of Public Buildings at Toledo, O. Bacon was a candidate some time ago for Supervising Architect of the Treasury, but it was said at the time that the President refused the appointment because Bacon was his brother-in-law.

A Theological Treasury Clerk. WASHINGTON, D. C., Sept. —The brightest preacher in Washington is a Treasury clerk by the name of Wright. He is a Doctor of Divinity and a graduate also of the Columbia Law School of this city.

THE fair of the State Agricultural Society, which began at Philadelphia yesterday, according to press reports is a grand exhibition of the most valuable cattle in the country, a large collection of imported horses, about 700 dogs, and a fine display of fruit and flowers.

EVERY day the daily papers contain large lists of newly appointed postmasters all over the United States. And there is wailing and teeth gnashing among the "retired partisans."

Business Reviving. The following encouraging paragraphs from an editorial in Saturday's Philadelphia Times should inspire all business men with hope and give clear reasons why we may look for better times in the near future:

The general revival of business is visible on every side. It is no speculative boom whose ebb is ever as sudden as its flow. It is not in any degree the effect of combination to force the temporary advance of values. It is not the birth of Third street or of Wall street. It is the natural, logical returning tide of business prosperity that has its fountain in the productive wealth, the enforced frugality and the general solvency of the country.

In all the many seasons of honest prosperity of the past, this country has never been as universally prosperous as it is to-day. The balance of trade is well maintained in our favor; the crops of the North and West furnish an immense surplus for the markets of the world; the staples of the South score up in the hundreds of millions in excess of the average yield; the mines and mills are quickened by the steadily increased de-

mand for their products; industry is slowly but surely commanding better wages and is increasing its consumption; the general and crushing indebtedness that prevailed among the people of all conditions of life ten years ago, has been reduced to the minimum; money is called for to enter into the productive enterprises of life and commands solvent and prudent borrowers, and there is not a channel of industry, commerce or trade that is not to-day sensibly affected by the general and healthy improvement of the times.

There will be no return to what is often thoughtlessly called the prosperous times which prevailed from 1861 to 1873. They were the inflated fevers of a diseased system, and could be followed only by fearful prostration. The standard of money was degraded by the necessities of war; inflation ran riot in all channels of business; speculation reached a flood-tide and swept all classes into its fatal whirlpool; profligacy debauched society, politics, religion and business, and integrity and economy were shamed by speculation and shoddy. The inevitable return to honest business landmarks was tedious and costly, but it has come at last. Tens of thousands are left behind as the wrecks of inflation and business demoralization; but the survivors have the lessons of experience, and nearly ten years of business depression have schooled all in the safe methods which are the only sources of prosperity. Money will never again command more than half the income it commanded twenty years ago; fortunes can no longer be made in a year or a dozen years in legitimate business, and only legitimate business can now promise success; stocks can no longer be watered or bonds multiplied in speculative conceals, to tax the producing industry of the land, and the old channels of our fathers, brightened and quickened by our intelligent and honest progress, are to become the fountains of fortune and of the greater wealth of content. Legitimate business with its thousands of channels of enterprise, will make each the channel of thrift, and employer and employed, producer and consumer, will enjoy alike the blessings of a revived prosperity that promises to be as substantial and enduring as it is welcome.

The President's Brother-in-Law in Office. From the Phila. Times.

WASHINGTON, Sept. 18.—The President to day appointed N. B. Bacon to be Superintendent of Public Buildings at Toledo, O. Bacon was a candidate some time ago for Supervising Architect of the Treasury, but it was said at the time that the President refused the appointment because Bacon was his brother-in-law.

A Theological Treasury Clerk. WASHINGTON, D. C., Sept. —The brightest preacher in Washington is a Treasury clerk by the name of Wright. He is a Doctor of Divinity and a graduate also of the Columbia Law School of this city.

Dr. Swope Renominated for Congress.

MECHANICSBURG, Sept. 16.—The democratic confederates of Cumberland, Adams and York counties met to day at Mount Holly Springs, this county. They organized with Dr. B. F. Porter, of York as Chairman, and A. J. Beltzel, of Cumberland, as Secretary, and unanimously renominated Dr. John A. Swope for congress, to fill the term to which the late William A. Duncan was elected last November.

Malcolm Hay Very Feeble. From the Phila. Times. PITTSBURGH, Sept. 18.—Malcolm Hay, late First Assistant Postmaster General, returned to this city this evening from Cresson Springs in a very feeble condition of health. He was removed to his home in an ambulance, being too weak to make the journey in an ordinary conveyance. Dr. Fleming is his attendant physician, and it is his opinion that his recovery is not possible.

Miscellaneous News. There is a match factory at Curwensville, Clearfield County, that makes 8,000,000 sticks a day. Abram Brabunder, the dishonest president of the wrecked Erie savings bank was sentenced to two years at hard labor in the penitentiary.

A TERRIBLE DEATH RATE.

MONTREAL, Sept. 17.—According to the returns at the Health Office to-day, there were 35 deaths from small-pox yesterday.

Suspected Arson in Altoona.

ALTOONA, Pa., Sept. 20.—The large planing mill and lumber yard of S. I. Fries, and five dwelling houses in this city, were burned to the ground this morning. Loss, \$40,000, insurance, \$12,000. James Prigley, a dissolute character, has been arrested on suspicion of setting fire to the lumber.

Barnum's Elephant Jumbo Dead.

ST. THOMAS, Ont., Sept. 16.—Jumbo, the \$300,000 elephant, was killed on the Grand Trunk Air Line track, half a mile east of here, last night. His keeper was leading him along the track, when a fright train came up behind, unnoticed, and ran him down. He was injured so badly that he died in 30 minutes. The trick elephant Tom Thumb was also injured, his leg being broken.

Livery stable keepers should always keep Arniea & Oil Liniment in the stable. Nothing like it for horses. In

Huntingdon's Car-Works Sold by the Sheriff.

HUNTINGDON, Sept. 18.—The Huntingdon Car and Wheel Works, lately owned by Blair Bros., were sold at Sheriff's sale this afternoon to Colonel Wm. Dorris, trustee for the bondholders, for \$7,000. The works are computed to be worth \$80,000. The bonded debt is \$35,000. The bondholders, therefore, in effect bid \$42,000. The intention of the purchasers is to protect themselves and dispose of the works advantageously to other parties.

Hazed and Killed by his School-mates.

HAZLETON, Pa., Sept. 20.—A young son of Edward Turnbach died here to-day from the effects of a hazing received last Wednesday at the hands of several of his schoolmates. The scholars of a public school to which young Turnbach had just been admitted, make a practice of initiating new scholars by making them run the gauntlet through two lines of ten to twenty boys on each side, they punching the victim with their fists as he passes through. They injured the little fellow so badly in the region of the kidneys that he died to-day in great agony.

A Bold Bank Robbery.

A daring burglar entered the banking house of J. H. Looms & Son, in Alliea, a small village in New York, at one of the rear windows, in the morning at half-past eight o'clock, while the cashier was sweeping the banking room. The cashier had taken \$1000 from the safe and placed it in the cash drawer under his desk. The robber after jumping in the room, knocked the surprised cashier senseless, and filled the drawer of its contents. He fired one shot at the prostrate cashier, and the report gave the alarm to the postmaster, next door, who with the assistance of the citizens captured and bound the robber and shipped him off to the nearest prison. The cashier soon recovered from his injuries.

Thousands walk the earth to-day who would be sleeping in its bosom but for the timely use of Down's Elixir.

A Terrible Prairie Fire in Dakota.

STEELE, Dak., Sept. 18.—A terrible prairie fire raged north and west of here all day yesterday. Reports from Sterling, eighteen miles west, are that farmers in that region lost everything. Passengers on last night's east-bound train report seeing numberless stacks of wheat on fire at the same time near here. The losses in grain range from 1,000 to 3,000 bushels to each farmer. Mrs. W. L. Badford, living seven miles from here, inhaled the flames while "fighting fire," and is in a critical condition. The fire is still raging. At Buffalo, Dakota, the fire destroyed 200 stacks of wheat on Wm. Howden's farm, 150 acres belonging to Wylie, three harvesters and binders of Mr. Aldrus, and did great damage elsewhere.

An Organ Factory in Flames.

BOSTON, Sept. 18.—Shortly before 7 o'clock to-night a fire broke out in the manufactory of the Smith American Organ Company, corner Montgomery and Clarendon streets. The building is a five-story brick structure, 150 feet on Montgomery street, with an L running back some 75 feet on Clarendon street. The fire originated on the third floor. The fire spread to the fourth and fifth stories very rapidly. Numerous streams were brought to bear on the fire and the flames on the third floor were soon subdued. In the meantime, however, the fire had reached the varnish room, on the fifth room, and soon the entire upper floor was a mass of flames, burning with the greatest fierceness in the L. The fire at this writing (8.45 p. m.) is still burning fiercely. There is no danger of the fire communicating to the surrounding buildings and the peculiar situation of the burning building is most favorable to the firemen. The loss will probably be heavy.

APPLICATIONS FOR SPACE.

Advices from New Orleans state that applications for spaces in the various buildings of the American Exposition, to open on November 10th, are daily pouring in from States, cities and large business farms in all parts of the United States; while the countries of Mexico, Central and South America, as

well as important places in Europe, are sending in a large quota, in fact, where at the outset, the filling of the oceans vacant space caused the promoters of the enterprise no inconsiderable amount of anxiety, the situation has in the past few months been entirely reversed and the management deem it their duty to inform those intending exhibitors who have not yet applied for space to do so at once, ere it be too late. While this is, of course, a very gratifying state of affairs, that the management is able to announce, still it shows the necessity of city and individual exhibitors who have thus far failed to make applications for space doing so immediately. There is no longer any question of the success of the American Exposition; it has been constructed upon sound business principles; it is operated by business men, to solve the commercial problem of the day—the securing of an outlet for our surplus manufactured products. The non-manufacturing countries of Spanish and Portuguese America are looked for the relief needed. At the coming Exposition they will contrast their resources with ours, and afford the opportunity of reaching an early understanding for the establishment of business relations of mutual advantage. This question of new trade relations for merchants of the United States necessitates prompt action on the part of our manufacturers and business men, in order that they shall be represented in the magnificent Exposition to take place in New Orleans, this winter.

MULTUM IN PARVO.—McDonald's Great Blood Purifier or Sarsaparilla Alterative is the most highly concentrated, most harmoniously and skillfully combined of all the blood medicines offered the public. Many certificates from well-known and worthy persons could be furnished to substantiate the virtues claimed for this great medicine, but the manufacturer prefers simply to let any purchaser feeling the benefit derived from the use of a bottle not equivalent to the seventy-five cents invested in the purchase can have their money returned. JOHNSTON, HOLLOWAY & CO., Philadelphia Agents. Sold by J. Eisenhuth, Millheim, Pa.

CONSTITIATION!

There is no medium through which disease so often attacks the system as by Constipation, and there is no other ill flesh is heir to more apt to be neglected, from the fact material inconvenience may not be immediately felt from irregular action of the bowels. When there is not regular action the retention of decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing piles, fistula, headache, impure blood and many other serious affections. BURDOCK BLOOD BITTERS will immediately relieve, and one bottle positively cure or relieve any case of Constipation. "Was troubled for a year with torpid liver and indigestion, and after trying everything imaginable used BURDOCK BLOOD BITTERS. The first bottle revived me and the second cured me entirely."—J. S. Williamson, Rochester, N. Y.
