We are reliably informed that Coburn is to have new depot buildings—something very much needed indeed. He is ready for any call he may receive in that line. See card elsewhere.

BUSIER THAN EVER.—L. H. Gettig of the meat market is as full of work as an industrious man could want to be. That is a constant demand for fresh meat at Gettig & Kremer's shop, and they have quite a number of orders in for porkers to be slaughtered and dressed for private families. Law is a No. 1 butcher and an accommodating business man. That accounts for the large and lucrative custom. Give him a call.

A horse dealer from Indiana county while riding along a lonely road near Phillipsburg on Thursday was stopped by two masked men armed with rifles, who demanded his money. He replied that he had no money, but as that did not satisfy them they requested him to fork over the cash. After hesitating he did so, handing them his wallet containing exactly \$21. Fortunately for him he had just sent all but the \$21 home the same day. He says the robbers were hunters.—Tyrone Herald.

Mr. Samuel Otto, of Oriskany, Pa., whose he makes his home with one of his sons, arrived in town last Friday to spend a week with relatives and to look after his business affairs. In fact he has not changed one whit since he left here. Of course his old acquaintances were all glad to meet him.

Governor Beaver has granted a respite to Johnson, the murderer of John Sharpless, who was to be executed in Media last week, until February 8th, 1888. By the postponement of Johnson's execution Sheriff Matthews, whose term of office expires on the first of January next, will be spared the disagreeable job of hanging the murderer. It is believed that the counsel for defendant will yet succeed in proving Johnson's innocence.

The Turnpike Question.

EDITOR JOURNAL.—Permit me to make use of a small space in your worthy columns this week. I noticed in some of the county papers of last week, that some of the citizens along the Bellefonte & Lewisville Turnpike are trying to convince that place and convert it into a township road. Will this not be a wise act for the people through Penns Valley who are using the Old Fort, Aaronburg & Youngstown turnpike, and who are paying tolls which are not at all burdensome, but extravagant. The tolls that are paid by citizens of this valley alone are amply sufficient to put the pike in much better condition than it has been kept in for a number of years. For the last two years, and especially for this summer, the manager who has control of said pike between Aaronburg and Woodward has scarcely expended \$25. And the people who travel the road are obliged to pay the full limit of toll and drive a road that is in a worse condition than any township road. If the citizens who pay toll, would expend that money on the road themselves they would have a much better road to travel. I would be pleased to hear from some of my fellow citizens through the columns of the Journal who I know are equally as fair as I am.

ONE WHO PAYS TOLLS.—A lot of Pure Drugs and Patent Medicines just received at Stover's grocery.

Musser & Alexander have lately received another carload of marble in the rough and of finished monuments. Their business is increasing rapidly, which is easily accounted for when one considers the fact that Musser's reputation as a marble cutter was not made in a day but in many years of successful dealing in first-class work, while his partner Mr. Alexander, who acts as salesman for the firm, by his gentlemanly bearing and strictly upright business methods was the confidence of everybody. Integrity, enterprise and satisfactory work are bound to win.

A town clock is a great convenience if it may be relied upon for correctness of time, but when a town clock is continually wrong, either from 20 to 30 minutes ahead of time or the reverse it becomes just as great a nuisance. This is the case with the Millheim clock. For the last half year it has been at least twenty minutes too fast and as the teachers and church sextons seem to be regulated by that time the schools and church meetings are as a general thing taken up much too early. We would suggest that the party who has the clock in charge be governed by railroad time which may easily be gotten from Coburn every day and thus keep in time with the rest of the world.

Recorder-elect J. F. Harter gave the band boys a warm reception on the occasion of their serenade to him last Saturday evening. The band enjoyed the ice cream very much and took it all in coolly. Mr. Harter had given a special invitation to the organization of which he is leader to celebrate the event of his election at his residence. After a few minutes had been played he responded with a neat little speech in which he returned his thanks to the band and citizens of Millheim for their kind support at the recent election. The removal of Shady to Bellefonte will rob the Millheim band of its best musician and the borough will lose a useful and respected citizen.

TRESPASSING ON PROPERTY.—Some persons think that the sign boards forbidding hunting, fishing, net gathering or trespassing upon private lands are of little account and they may be regarded with impunity. This is a mistake, as the law makes it an act of trespass to go upon any cultivated or enclosed land for any purpose without permission from the owner, even if there is no sign board, and the owner is entitled to recover actual damage for such trespass. When the sign boards are properly erected, any person who trespasses upon land so guarded is not only liable to pay the actual damages, but also a penalty not exceeding \$25. If, however, the land owner wishes to avail himself of the provisions of the law he must comply with the requirements. There must be at least one sign, not less than a foot square to every fifty acres of land, upon the lot lines, upon the shoreward banks of the lake, stream or pond which it is intended to protect. Any person who defaces, injures or destroys such a sign board is guilty of a misdemeanor and liable to a penalty of \$25.

NEGLECTING DISEASE.—One reason that cases terminate fatally that at first were not believed to be serious is because patients neglect disease in its first or faint attack. They wait until the enemy is well into the citadel, and then they find it very difficult to dislodge him. It is the height of folly to treat illness as a matter of small importance, for we know not what may be developed. A man who has a family to support; a woman who has children and a house to care for—in fact, no one who thinks life is worth living yields to sickness until they find that it is going to get the best of them, and then it is the time for a prompt, thorough and effective medicine. With Simmon's Liver Regulator you can always relieve and never do harm. Little may be needed, but still when you have a simple and prompt assistance many dangerous forms of disease may be arrested and removed at the outset, for this is the time or chance. Simmon's Liver Regulator should be kept in every home ready for every emergency. No home should be without it to arrest disorders promptly, which if not taken in season, often develop into serious diseases. It stimulates the torpid liver, strengthens the digestive organs, regulates the bowels and is unequalled as an anti-bilious remedy. Give it a fair trial and it will not only relieve but permanently cure.
