REVIEW OF THE BALTIMORE MARKET,

(AND INCIDENTS CONNECTED THEREWITH.) For the Week ending last evening.

REMARKS.—Since our last publication, two British steamers have arrived—the first, the *Guadalquivir*, (new) at New York on the morning of the 29th, having left the 14th; and the other, the *Caledonia*, at Boston on Thursday noon, having left 19th ult., both from Liverpool. The accounts by these media are confirmatory of those received by all the late previous steamer, viz. fine weather and the prospect of a generally abundant European harvest. This prospect and these accounts had continued further to depress the market for Breadstuffs on that side of the water, insomuch that great arrangements had taken place, and to such an extent as to have caused several heavy failures in London. And the receipt of such advices in this country has contributed further to put down prices in our own and other markets. But acting from the particular incident here referred to, we would observe, also, that the general transactions of the week have been on a very limited scale, (as will be better understood by reference to the articles below) and at no point, or with any one class of business, men, has there been presented any new improving feature safely to justify a departure from this supposition.

The following is a comparative statement of the prices current for Breadstuffs in Liverpool on the 3d and 13th August, (viz.)

Table with columns for August 3 and August 13, listing prices for various commodities like American Wheat, Indian Corn, and Flour.

Other articles of American Produce, particularly Cotton, Provisional and Tobacco, remained quiet, inasmuch as they were when the Cambria left, on the 4th August.

AMERICAN DRY GOODS.—The demand is only moderate, but prices remain pretty steady.

WHEAT.—The supply of Market is much reduced, about 2000 lbs., mostly at 25 cts. per lb., cash.

BREAD.—Bakers and Crackers continue to command attention, and sales are making for export at full prices.

COFFEE.—The market remains much as for some few weeks past, with a fair moderate demand and no great activity in prices.

COPPER.—We note sales of Old at 17 1/2 cts. per lb., cash.

COTTON.—The market has been without a transaction of moment to characterize it—one small lot of Upland only reported. [The accounts from the growing crop, particularly that of Louisiana, are more favorable than previously.]

FEATHERS.—There have no sales come to our knowledge this week.

FISH.—The market is poorly supplied with Dry Codfish, and the supply of Market is much reduced, about 2000 lbs., mostly at 25 cts. per lb., cash.

FLOUR AND MEAL.—The market for Howard street Flour, at the close of the week, was at \$3.62 per barrel, and that was the rate current on Saturday. On Monday morning the *Guadalquivir's* accounts were promulgated, and in the course of the day sales were made at a decline of 12 cts., to \$3.50 per barrel, and the market remained at that following day for several hundred bbls, including City Mills at the same price. On Thursday a fraction less was accepted for Howard street, although some sellers were enabled to obtain the former rate, while in the case of the *Caledonia's* arrival at Boston, and accounts were telegraphed, showing a further decline in the English market—after which we heard of no transactions. Yesterday, the advance in a better arrangement of flour having come to hand, although still in the shape of a letter, two cargoes announce their features; but still from the light receipts and the low stage of the streams for grinding, there was not much disposition to accept lower rates either for Howard street or City Mills, and the market closed at \$3.50, but no buyers that we could learn at that price; we quote \$3.47 1/2 for Howard street, and \$3.45 for City Mills, at \$3.25—no Baltimore manufactured in market. Inspected this week:

Table listing various flour and meal products with their respective prices and grades.

For abstracts of the Markets generally, see next page; the following presents the only new features during three days subsequent to those dates:

At Boston: Coffee was in fair demand. With a knowledge of the *Guadalquivir's* advices, a steady business was doing in Corn at 80 cts. for yellow flat. Flour was more flat at \$5.74 to \$6.12 for Western.

Provisions steady.—Sugar in fair demand. At New York: Coffee was in fair demand. With a knowledge of the *Guadalquivir's* advices, a steady business was doing in Corn at 80 cts. for yellow flat. Flour was more flat at \$5.74 to \$6.12 for Western.

Beef.—This article, as we have frequently noted on previous occasions, continues in limited demand, and is chiefly taken for the better qualities re-packed in smaller packages the better to adapt it for a specific office. Mess may be quoted \$14, and No. 1, \$12 per bbl., at which small sales have been made.

Pork.—There have been sales of Prime and Mess to the extent of some 200,000 lbs. in lots, the former supposed at \$12, and the latter at \$15, including 25 cts. of the latter at \$15.50 per bbl.

Butter.—The market for butter has become much reduced, and prices for the better qualities have further advanced to 8 1/2 cts., at which a very considerable sale has been made, while 80 1/2, with very little if any for sale under the latter, are the current rates. This supply is taken up proportionally for less, and prices firmer; and for the better, or more suitable sized, are required to subservise the present demand, the range is 10c 1/2 cts., although there are lots of less salable description going off at 9c 1/2.

Lard.—The demand has been less active, the large operations last week having brought about a calm in the market. It holds on, as usual, at 10 1/2 cts. for best, and 10 cts. for inferior. The market is not particularly active, but as wanted at 9c 1/2 cts., in small or large lots.

Wool.—The demand has been less active, the large operations last week having brought about a calm in the market. It holds on, as usual, at 10 1/2 cts. for best, and 10 cts. for inferior. The market is not particularly active, but as wanted at 9c 1/2 cts., in small or large lots.
