

PUBLIC DEBT OF THE U. STATES.

From the Washington Union. We now lay before our readers an official account from the books of the Treasury, by the Register of the Treasury, Mr. Gillett, of the 1st of March, 1845. It is the public debt due on the 4th of March, 1845, before this administration came into power, was \$17,788,799.62, a part of which has been paid by this administration. Deduct this from the amount as above stated now due, it leaves the amount as follows: Public debt now due \$45,122,423.93 Public debt due 4th March, 1845 \$17,788,799.62

Increase of debt since March 4, 1845 \$27,333,624.31 In about eighteen months the debt has amounted to about \$27,000,000—being at the rate of about eighteen millions per annum. From this, however, in future, we must deduct the increase of revenue flowing in under the new tariff, and whatever sum we can obtain hereafter from military contributions on Mexico, which we hope, under the orders lately issued may be considerable.

Statement of the Debt of the United States on the 1st of November, 1847.

Table with columns for debt types and amounts. Includes Treasury notes issued during the war of 1812, Certificates of Mississippi shipp stock, Debt of the corporate cities of the District of Columbia, Loan of 1842 at 6 per cent, etc.

DOMESTIC MARKETS.

BOSTON—week preceding Nov. 27. [We have but a meagre report to present to our readers this week. The transactions in merchandise, of all kinds, have been extremely limited, it being a broken week, Thanksgiving day intervening, and very few goods having been received, which prevented out of door operations. The stringency in the Money Market, together with the continued depressing accounts received by the steamer, are causes for a dull week.]—Daily Advertiser.

Coffee.—The sales are confined to small lots, for home trade; 300 bags fair Rio Grande 7 cts.; Sumatra, 6 cts.; Government Java, 10 1/2 cts.; 400 St. Domingo, 6 1/2 cts. per lb., 6 mos. TO OWNERS AND MASTERS OF VESSELS.

IN order to facilitate and improve the mode of Communication at Sea, by Ships of War with each other, and with vessels of the Revenue, Marine and Merchant service, the Signals patented by the undersigned have been adopted by the Government as the standard code of the United States:—The following are the advantages to be derived from their use, viz:—

1. Vessels meeting at sea in any part of the world, if provided with one Flag and Signal Book, may, as long as they are in sight of each other, without altering their course, communicate any intelligence, either their names, from what port they sailed, what passage they have had, what vessels they left in port, or that preceded them; particulars relative to vessels they have fallen in with, if in want of stores, provisions, assistance, or information; their latitude and longitude; casualties or any aberrations they may have made; or any other circumstances which may be of service to the Government, or in company of other vessels.

2. Testimonials from officers of the Navy, Revenue, Marine, &c., in favor of the system, can be had free of charge at our office, where we are prepared to furnish Signals and give any information in regard to the business.
