

The Republicans in Virginia.—Do they hold the balance of power? In a letter from Washington City, published in the New York Post, of Wednesday, we find the following paragraph: "It may seem somewhat singular with you, but I believe the Republicans in Virginia hold the balance of power between the two great parties to-day. This is the opinion of a shrewd Virginia politician. There are thousands of Northern freemen already in Virginia. In a town not a dozen miles from Washington there are over fifty voters who come from the North, and are Republican in sentiment. They proposed a month ago voting for Goggin, but his abuse of the Republicans lately disgusted them, and they agreed in a body to stay away from the polls. By another gubernatorial election in Virginia the Republicans in the State will make themselves felt as a power."

The Union—1860. The Allegation man goes into ecstatic raptures over Mr. Buchanan's reception speech at Frankfort, where a demonstration was made in his honor during his literary trip to North Carolina. A "patriotic passage occurs" in it which our neighbor-fancier would find it difficult to overlook for all time, who shall attempt to break up this glorious conference? Was not that involving the direct course of heaven upon the leaders of the Democratic party? Who but the rampant sectional leaders of the southern Democracy have ever attempted to demolish this fair fabric of human government? None, but these have entered into leagues, and conspiracies to dismember the Union, and thus destroy the hopes of Freedom forever.

Failed in their attempts to accomplish this darling object, they still persist in their course with a zeal worthy of a better cause. In the same paper we find a selected article, the whole scope and tenor of which is to show that the issue in the approaching Presidential election of 1860 will be "Slavery propagandism on the one hand, as advocated by the Democracy, and resistance to Slavery extension, as promulgated by the Republicans. By exciting such a sectional contest, they hope to compass the success of the Democracy, or create a pretext for a severance of the Union, and the erection of a Southern Republic which they imagine, it will be their prerogative to govern as they please. Rubor rubor in their motto and practice.

Board of Public Works. It will be seen by reference to another column, that the Board of Public Works of this State, met in Washington on last Saturday, and re-elected the State's portion of Directors in the Baltimore and Ohio Railroad, with the exception of Mr. Bartlett, of Baltimore, and Dr. Orr, of this city. What motive prompted them in the invidious distinction they have made is not yet apparent. One thing, however, is certain, and that is, the policy being pursued by this Board is contrary to what we were led to expect, and meets with the unqualified condemnation of the party in this country. We believe that a majority of them are solid body and breeches to that Money King, John Garrett, a leading Locofoco—that they are traitors to their party—dishonest and corrupt men—and that if the American party does not out them, they will seriously damage it. Only one reason can be assigned for dismissing Dr. Orr, and that is, he would not bow the knee to John Garrett. All honor to the man! We would rather be Dr. Orr out of the Board, than the traitors in it. Want of space this week prevents our saying on this subject what we intended, but we announce it as our purpose to expose the doings, both of the Board of Public Works, and the Directors of the Baltimore and Ohio Railroad company.

We have heard it repeatedly surmised that gross corruption existed in both these Boards, and we intend to ferret it out.

Mr. Buchanan has an ungrateful pack to deal with, not to be confided. He lately appointed John P. Barnes, of Alabama, one of the visitors to the West Point Academy, and the fellow writes a letter declining the honor. He says: "I am well, and thank you for your kind regards. I have no objection to your sending me a copy of the report of the Academy, but I cannot accept of the honor. I have no objection to your sending me a copy of the report of the Academy, but I cannot accept of the honor. I have no objection to your sending me a copy of the report of the Academy, but I cannot accept of the honor."

THE SCOTTISH QUESTION.—S. A. Douglas, the great advocate of Supter Sovereignty, arrived here yesterday by the evening train, and went down in the steamer in the afternoon. A few persons hunted him up to look at him, as they would at a grizzly bear, but there was no welcome. Why should there be of the great assassin of the South?

AMERICAN MASS MEETING.—A MASS MEETING of Americans was held at Cincinnati on Friday evening, at which a preamble and resolutions were adopted declaring it to be the duty of the American party (disavowing all sympathy or cooperation with any other parties, to assume its proper and legitimate position of independence, and recommending that a mass convention of all the conservative citizens of Ohio, be held in Cincinnati on Wednesday, the 6th of July, next, to nominate a State ticket. Mr. Scott Harrison was one of the speakers at the meeting.

SCIENTIFIC AMERICAN.—What shall we call it? This magnificent Journal—that is the proper title—is about to enter upon another year of its popular pilgrimage, and we are sure it will meet with an increased number of friends. It is a credit to our country and to its publishers, and we feel proud every time we look upon it. It is unequalled in every sense by any other Journal in the world.

We advise our friends one and all to send \$2 to Munro and Co., 37 Park Row New York, and thus secure it, in its enlarged form, for the ensuing year.

THE LONDON QUARTERLY REVIEW APRIL 1859.—This ever welcome Review is on our Table. It has eight articles of sterling interest. Carlyle's Frederick the Great—The Ministry of Scotland—National Galleries—Bursens' Egypt and the Chronology of the Bible—Derouville—Geo. 3rd and Charles James Fox—Lord Brougham and Law Home Italy. This last article is invested with peculiar interest because of scenes which are just now transpiring.

State News. Organization of the Baltimore City Democratic Convention.—The newly elected delegates to the city Democratic Convention for the year 1859 assembled at Reheath Hall, for the purpose of organization. The meeting was temporarily organized by calling Alfred Braton, of the 19th ward, to the chair, and electing D. A. Manzoni, T. T. Hutchins, secretaries. A committee of one from each ward was appointed, who examined the credentials of the several delegates and reported them all correct. The first business then was the election of prominent officers, and Col. Henry Snyder, of the 20th, Thomas M. Lanhan, of the 11th ward were put in nomination. On the call of the wards there were 60 votes for Snyder, and 22 for Lanhan, whereupon Col. Snyder was declared elected.

The following were then elected vice-presidents: Wm. P. Lighter, of the 6th ward; Alfred Braton, of the 19th ward; Dr. John P. Monnomer, of the 3d ward; A. L. King, of the 18th ward; and Wm. Garrison, of the 8th ward. Wm. H. Slater and Kennedy Campbell were then nominated and unanimously elected secretaries of the convention. For treasurer George Evans and James Donaldson were put in nomination when Mr. Evans received 65 votes and Mr. Donaldson 24 votes. Geo. Evans was then declared elected. A committee of five was appointed to inform Col. Snyder of his election, after which the convention adjourned.

Collection of Taxes.—From the first of May to the first of June inclusive there was paid into the office of the city collector (Baltimore) amount of taxes of the present year, \$331,210.33. By the act of Assembly a discount of five per cent. is allowed on all State taxes paid before the first of September, and all taxes of the present year, have deferred the payment of their State taxes, so that the usual delinquency of ten per cent. from the gross receipts, for the use of the State is not to be made in the collections of the past month. The number of tax payers is said to be much larger than ever before, and those who pay the smaller amounts have been very prompt. The largest receipts for one day was \$48,000.

REGRADUATION.—The dwelling of Lewis L. Bauman, on the Reisterstown road, was robbed on Friday night or Saturday morning last. A pocket-book containing \$200 in Virginia bank notes, a gold watch, and a lot of silver were taken. The pocket-book was taken from an apartment occupied by some of the family.—Baltimore County Ad.ocate.

WESTERN MARYLAND RAILROAD.—The work on the Western railroad is now progressing, and it is said will be pushed forward as rapidly as practicable. About one mile of track has been laid, running from the Bay Line House on the Northern Central railway Baltimore County Ad.ocate.

FATAL RESULT.—Some three weeks ago, Mr. Samuel Hall, residing on the Harford road, near the one-mile stone, had his right leg amputated, in the hope to escape the effects of a cancer with which he had been afflicted for about 20 years. At first it was thought that he would recover, but he subsequently grew worse and died on Sunday afternoon. He was 57 years of age.—Baltimore County Ad.ocate.

ST. MARY'S COLLEGE.—The Bazaar given for the following items: REST IN WHEAT.—The rest has been made its appearance in the wheat in this vicinity, and notwithstanding the favorable state of the weather at present, its ravages are fearfully on the increase. The fields of Mrs. J. C. Combs, B. G. Harris, Geo. Fred. Maddox, Geo. Combs and H. G. S. Key, have been attacked by it, and a gentleman who inspected the large field of the latter gentleman, which runs parallel with our village, informs us that it will not be worth cutting, unless the progress of the rust is soon arrested. We have not heard from other sections of our county, but we are apprehensive that the whole wheat crop of our county will be more or less affected by the rust, as its appearance in this section is generally attributed to the rust which fell during last Fall and Winter and the unusual dampness of the present Spring.

COMMISSIONERS OF PUBLIC WORKS AND CHESAPEAKE AND OHIO CANALS.—The Commissioners of Public Works of Maryland assembled at the National Hotel, in Washington, on Saturday morning, when the following gentlemen were elected directors on the part of the State in the Baltimore and Ohio Railroad Company: Benjamin F. Hightsh, S. H. C. Brown, George W. Whitaker, Wm. A. Johnston, John M. Smith, P. Fowler, and Geo. W. Robinson.

The stockholders of the Chesapeake and Ohio Canal Company met in Washington on Saturday, pursuant to adjournment on the 6th inst.

Mr. Schley, from the committee appointed at the last meeting, made a report on the accounts of the Company for the year ending the 31st of May, 1858, whereupon, on motion, it was ordered that the report of the committee be accepted, and that the order recommended by it be adopted.

J. J. Bremle, Esq., President of the Company, then appeared before the meeting, and read, in behalf of the President and Directors, the thirty-first annual report of the Company, and the report of the President and Directors presented this day, with the accompanying statement referred to a committee, to be reported on at a future meeting. The meeting then adjourned.

Dr. J. H. Robinson American Farmer TRAPPING GROUNDS!! Nick Whiffles "in the Pison Newspapers ag'in by Mighty!"

New York Mercury For Saturday, June 25, 1859, (NOT READY AT ALL THE NEWS DEPOSITS AND BOOK STORES.)

Will contain the initial chapters of a new Western tale, from the graceful and flutest pen of DR. J. H. ROBINSON,

who has been engaged to write EXCLUSIVELY for that journal for a number of years. This story is entitled "Pathway;

OR, THE MOUNTAIN OUTLAWS. A TALE OF THE NORTHERN TRAPPING GROUNDS;

And is considered by the author to be the very best work which his talent has yet produced.

Those who know the dramatic power and ELEGANT STYLE, the interesting situations and BEAUTY OF INCIDENT which have rendered famous all the writings of the

AUTHOR OF "BUCK BISON," cannot but hail with delight this new emanation from his pen.

THE TRAPPING GROUNDS OF THE NORTH AND WEST form a peculiarly favorable field for the location and working out of a romance, and the characters that roam through that FLOWERY WILDERNESS are especially fitted for introduction into its pages. The readers and admirers of

DR. ROBINSON'S WRITINGS will remember with pleasure the character of "NICK WHIFFLES,"

in a story of that name, recently published, and will be glad to learn that the same personage will figure in the

"PATHWAY,"

surrounded, as ever, by many "Dramatic" and leading to the romance of a vein of sympathetic humor and quiet drollery that will afford it irresistible to the lover of fun and the student of human nature. In addition to this attraction, the plot will be found more intricate and mysterious, and the situations more impressive, and more varied, than in any other story the author has yet written. It is full of

Wild Life and Action, crowded with stirring incident and Perilous Adventure,

and through the whole story runs an underplot which intertwaves a GOLDEN-THREADED WOOF of sentiment, flitting all the while in the light of THE GENTLE CHARM OF LOVE.

The most exciting and picturesque scenes of PATHWAY will be chosen as the themes for a series of Beautiful Illustrations,

from a pencil of the most celebrated of American artists, FELIX O. C. DARLEY

whose drawings have made the NEW YORK MERCURY

such a favorite with all who appreciate true artistic excellence. The clear and vivid style of DR. ROBINSON'S descriptions will give credit to the heart can seize upon his creations without difficulty, and thus the best powers of

PEN AND PENCIL are brought to bear with great a manifold as if both were wielded by one person.

The proprietors of the MERCURY are proud of the popularity which their Journal has attained, and cannot but take some credit to themselves for the good which they believe they have done in carrying out their first intention, that of making the

NEW YORK MERCURY a medium for the familiarization of the reading public with the best works of the most

DISTINGUISHED AMERICAN AUTHORS.

To secure this end they have spared no expense, and whatever they have thought could gratify the taste of their THOUSANDS OF READERS they have done without questioning either the labor or expenditure required.

For the extensive merit to the works of DR. J. H. ROBINSON

they pay a larger sum than any American publisher has ever before received from any new publisher, and the public are already aware of the reward offered necessary for the engagement of

BAYARD TAYLOR, FELIX O. C. DARLEY, GEORGE ALBANY, and others. Yet it is believed the increasing Refinement of the Popular Mind demands such merit and the MERCURY is contented to keep up with the progress of the Age.

A series of BRILLIANT NOVELTIES will appear in the columns of this JOURNAL

Of American Literature in rapid succession, and while the proprietors are eminently satisfied with the share of popularity hitherto accorded them, they are determined to deserve still more by using every means possible to increase the attractions of their paper.
