GRAND RALLY! TREMENDOUS MASS MEETING!

BELL & EVERETT. The Union candidates for President and Vice-President.

On Tuesday, 18th September, 1860 at 11 o'clock, a great Mass Meeting of the friends of the Union, and BELL and EVERETT, will be held in CUMBERLAND.

Able & Distinguished Speakers from abroad will be present and address the meeting.

Ample preparation will be made to MEET THE WANTS OF ALL FROM A DISTANCE.

Let there be a universal turnout of all who are in favor of the CONSTITUTION, THE UNION, and the LAWS.

C. M. THRUSTON, Chairman of Com. of Arrangements.

Union Club. This Club met on Saturday night at Boliviere Hall, and after the transaction of ordinary business was addressed by Mr. Pearce, in a brief and eloquent speech, the editor of this paper also made a few remarks. Meeting on next Saturday night at the same place.

Come one, Come all! And help to roll the Union ball.

It will be remembered that Gen. McKaig in a speech, made at the opening of a Breckinridge Hall in Baltimore, stated that the South and West of this country, would cast their votes in the presidential election for Abraham Lincoln, the Republican candidate for the Presidency.

By reference to the proceedings of a meeting held at Lonaconing, on last Saturday, and published in another column of this paper, it will be seen that the Gen. had not been correctly informed. So far from their being any fixed purpose upon the part of that class of citizens to vote for Mr. Lincoln, it will be seen that they intend to stand by and vote for Bell and Everett.

We are not ignorant of the fact that there exists in this country a very warm sympathy for the election of Mr. Lincoln in preference to any democrat, not only upon the part of the naturalized citizens, but also among the native born who are opposed to the democracy. This sympathy might lead them to vote the Republican ticket, if by so doing, the free trade democracy could be beaten in the State, but knowing this cannot be effected, they intend to vote for Bell and Everett, for the great—the predominant—the ruling and controlling sentiment of our people is for the Union, and every where, for the sake of preserving the Union, while it will not secure the election of Mr. Bell.

The Republicans are with us in regard to the Tariff, a subject of vital interest to our prosperity—they are with us for the purity of the ballot box—they are with us for an economical administration of the General Government and, perhaps the exception of their views on the extension of slavery, in all essentials we are one. Why then should we hand with free trade men, simply to defeat Mr. Lincoln? We protest against all such alliances.

Some of our friends of the Union press have been very denunciatory of the policy we have deemed it proper to pursue in this canvass, and their course has so soured the minds of many of our party, as to render it difficult to induce them to maintain their allegiance, yet we believe, notwithstanding the damaging effect of their course, we shall be able to carry the county for Bell and Everett by such a majority as will make it the banner county of the State, and hence we beseech our friends if they wish to see redemption from Loco-focism to cease their railing. If they prefer democracy as their second choice, surely we have an equal right to take Mr. Lincoln as ours. While we are all honestly engaged for the promotion of the interests of the Union party, our course must be dictated by our surroundings and the convictions of our judgment, instructed by all the lights to which we have access if we would not damage the cause we wish to promote.

The Douglas men held a meeting in Springfield, Ill, the other day, and in the course of the entertainment a new feature was introduced. About thirty barbed-iron rods about the town in a wagon, displaying a banner on which was written this device: "The barbed-iron rod for Douglas and Johnson!"

Organize! Organize!

That Maryland is certain to cast her electoral vote for the Union candidates, Bell and Everett, is beyond a peradventure. But the question is, what shall be the majority, which should be given for these men, who are the representatives of that sentiment of Maryland, the Union, now and forever. In proportion to the majority which they shall receive, will be the position which Maryland shall maintain among her sister States, as a Union loving, and Union adhering Commonwealth. If the majority should be small, hopes may be entertained of denying her from her position,—the enemies of the Union may be encouraged to put forth strong efforts to seduce her from her allegiance, but should the vote be overwhelming, as it ought to be, and as it will be, if prudent councils shall prevail, and proper efforts are put forth, all hope of ever inducing Maryland to enter a disunion league will have forever fled. How this vote shall be secured is a question of much moment, and we answer, by such an organization as will wake up an interest among the people and bring them out to vote on the day of election.

Shall this be done in Allegany county? In Cumberland, an organization has been effected. Let every other election district in the county follow the example,—let it be done without delay, so that every voter's name may be enrolled before the day of election comes on, and let this thing be done at once. Will our friends heed our advice? Will they rally to the Union standard? If so the majority that old Allegany will roll up will gladden the hearts of all true Union loving men everywhere. Organize then—Organize friends without delay.

The Frederick Herald. The moonstruck editor of this Union-Douglas Journal, gives his usual monthly indications of hatred to Republicanism and all who do not join with him in his foolish warfare on that party. He admits that the Republican party is daily and hourly gaining ground even in Frederick city, and in its immediate presence, and that men fearlessly avow their preference for it before Democracy. New does not the editor, or J. Mortimer Killgour (who is charged here with being the writer of these insane articles, will the Herald inform us if this rumor is correct) know that the course he is pursuing is the very one to make Republicans who we know it to be so. A gentleman who was in our office a few days ago declared his intention to vote for Mr. Lincoln,—we endeavored to dissuade him from his purpose, whereupon he said before he read the Clipper and Herald, he intended to vote for Bell, but now he would most certainly vote for Mr. Lincoln. If we had speeches made throughout this county in the same tone and temper with which the Herald's articles are written we don't believe that Bell would get one hundred votes in November. It is a fortunate thing for the Union party that the Clipper and Herald have a very limited circulation in this county or we might have serious fears that Bell would not carry the county.

Mr. BRECKINRIDGE'S SECOND ACCEPTANCE. It has been a matter of comment in the public press, that no account of Mr. Breckinridge's acceptance of his nomination by the disunion convention, which met in Richmond, had been made public. We now find in the Alabama journals the following communication from Mr. Breckinridge, written, it will be seen, in reply to a letter addressed to him by Mr. Erwin, the President of the Richmond Convention. The letter of Mr. Erwin, to which Mr. Breckinridge was called to respond is not given.

LEXINGTON, July 26, 1860. DEAR SIR:—In answer to a letter of the 26th inst., containing official notification of my nomination for the Presidency of the United States by the Democratic Convention assembled at Richmond, I have to say that I accept the nomination, and shall strive to merit the confidence implied by the action of the Convention.

I trust that a full discussion of existing issues will result in establishing the Constitution and Union of the States upon inviolable foundations.

With good wishes, I am your friend, Hon. John Erwin, President of the Richmond Democratic Convention, Greensborough, Ala.

Elections. The returns that have been received from the elections recently had show a growing power upon the part of the Union party, and that the Breckinridge or disunion men are in a very great minority, almost as small, as a witty friend of ours said to us, "as the little end of nothing beat out."

In Kentucky, the Union candidate, L. Combs has been elected by some 25 or 30,000 majority. In Iowa, for the Union, the Constitution and the Laws.

Sambo, what are you worth? Don't know massa. Don't know why you are not half as sensible as massa is I suppose? Ye, he! he! I guess massa, about twice as much as the Bulletin man.

Douglas Electors. The Douglas Convention which assembled in Baltimore last Thursday presented the following electoral ticket to the voters of this State:

Electors at Large—Western Shore Col. Wm. P. Maubly, of Frederick county. Eastern Shore, John B. Rowen, of Cecil county.

District Electors—First District, G. W. P. Smith, of Worcester. Second District, Wm. B. Stephenson, of Harford. Third District, Milton N. Taylor. Fourth District, Henry May. Fifth District, Wm. Walsh. Allegany, Sixth District, Henry E. Wootton, of Howard.

Notices. RURAL REGISTER for 15th AUGUST.—The semi monthly number of the Rural for August, has come to hand. Every farmer would do well to have the Rural.

PETERSON'S LADIES MAGAZINE.—Peterson for September has come to hand. A splendid number. Every lady should have Peterson. Only 25¢ per annum.

ELECTIC MAGAZINE.—The Electric for September is out of our table. We recognize the

Electric as the most valuable periodical with which we have an acquaintance, and recommend it in the most unqualified terms to all our friends.

THE EDINBURGH REVIEW FOR JULY, Re-published by L. Scott & Co., 64 Gold Street, New York. Price \$3 per annum.—The present number contains an unusual variety of articles—no less than twelve—on the subjects of the most striking interest in the literary and political world. Our readers cannot be too often reminded of the practice of this and other leading reviews of giving prompt attention to the topics of the day, and by their deliberation and research of correcting the hasty impulses of the moment. The mere titles of the principal articles in this number of the Edinburgh are sufficiently attractive, and need no comment from us to indicate their scope or purport. It is enough to say that they are all subjects on which information by a competent authority is very acceptable, and if any one wishes to make further research he will generally find numerous indications of authorities by reference to which he may verify or correct the statements and arguments of the reviewer. The titles referred to are as follows: Chevalier on the probable Fall in the Value of Gold; Latest Geological Discoveries; The Patrimony of St. Peter, Mrs. Grote's Memoir of Arty Scheller; Prince Dolgoronok on Russia and Serf Emancipation; Correspondence of Humboldt and Varnhagen von Ense; Cardinal Mar's Edition of the Vatican Catech. It may be well to remark that this number contains a valuable and though each as perfect in itself, and subscriptions may be made at any time, yet there is nothing so convenient and convenient in securing complete volumes.

Price of one Review, \$3 a year. Price of the four Reviews, \$8, "Blackwood" and the four Reviews, \$10.

WILL "one of the original members of the Young Men's Christian Association" inform us, if skillfulness and persistency in living is one of the principal qualifications for membership in said society?

Hancock County. The Wheeling Intelligencer (Republican) exults over the prospects of its party in Hancock county. It declares that there are glorious fellows up there at work for Lincoln and getting subscribers for the Intelligencer. It also informs us that the Presiding Justice of that county was elected to that office because he is for Lincoln! We quote:

"The Republicans had elected two out of sixteen Justices, and there seemed to be a desire to organize the Court on a representative basis, in order that if Dred Scott or anything of the kind came up for adjudication, such a bungle as Taney and his confederates made of it might be avoided. Finally, after several ballots, Wm. L. Crawford, a good, true-blue Republican, was elected."

Bell and Everett in the South. GEORGIA.—The Savannah Republican urges the necessity of calling a State Convention immediately to nominate Bell and Everett Electors.

A majority of the whole number of votes cast in Georgia to elect Presidential Electors, by the people, and about 105,000 votes in that State, and the last gubernatorial election, the American candidate received over 42,000, the Millhollerville Southern Recorder "thinks it is not calculated to be accurately, under the present state of things, to calculate on obtaining for the Bell and Everett ticket a majority of the whole vote of the State.

MISSOURI.—Every opposition paper in the State, and some of those hitherto neutral, have raised the Bell and Everett flag.

DELAWARE.—The Wilmington Commonwealth. A business meeting of the Constitutional Union Club, of that city, was held on Friday last, and that the Water Witch Hall was filled on the occasion with an enthusiastic and zealous crowd. A resolution was adopted, to attend on mass the State Convention on the 17th, and the meeting adjourned with cheers for Bell and Everett."

ALABAMA.—The Huntsville Independent says that Bell and Everett are making great gains among the Democracy of Alabama and that all the old Whigs are coming back to them also.

FOUR more papers have hoisted the Bell and Everett flag, viz: the Greenville Messenger, Troy American, Tuskegee Republican, and Lafayette Sentinel.

The Union State Convention was held at Selma, on the 28th ult., and at night a rousing Bell and Everett Raffle meeting was held. The best spirit prevailed among the Union men of the State.

LOUISIANA.—A grand Union State Convention was held at Baton Rouge, on the 4th inst., to select an electoral ticket. As yet no result of the Convention has come to hand, but there was an immense Bell and Everett Raffle Meeting at Ouachita on the 23rd ult., at which strong and encouraging resolutions were passed.

The N. O. Crescent, heretofore neutral, has hoisted the Bell and Everett flag. It is an influential journal.

FLORIDA.—The Union State Electoral Convention will be held at Quincy on the 27th inst. The movement is growing in popularity, and the people begin to discover that the democratic party is powerless to save the Union. Meanwhile the Union party has been organized at Tallahassee, and other meetings are following.

WASHINGTON, D. C.—A "Central Bell and Everett Club" was organized at Temperance Hall on Thursday night. The Star (dem.) says "The Hall was jammed with people and the greatest enthusiasm prevailed."

The Douglas men of Alabama are making a war-to-the-knife fight against Breck and Lane. They charge them openly with being in favor of Yaney's threatened scheme of dissolving the Union. Yaney replies and says, it was only a figure of speech that he used, when he spoke of precipitating the Cotton States into a revolution! We guess the Douglasites will make mince-meat of the Breckites before they are done with them.

THE newspapers are publishing the very wise and proper caution "Beware of eating unripe fruit." Especially should children be attended to in this matter.

From the Cincinnati Commercial. Great Republican Meeting in Illinois. Lincoln Makes a speech. Springfield, Ill., Aug. 8.—The great mass convention, at the home of Lincoln, comes to day. The city is crowded to overflowing with people. The latest estimate of the crowd in attendance is twenty thousand. This is made by Douglas democrats. The estimates run from this up to forty thousand. The great Republican wigwag was dedicated last night. Speeches were made by Senators Trumbull and Doolittle, and Judd, of Chicago.

The procession, Wednesday morning numbered six thousand by actual count, and occupied two hours in passing Lincoln's residence. Popular enthusiasm is unbounded. Good judges say it is a second Chicago Convention with additions. The great meeting at the Fair Grounds numbered 15,000 people. Mr. Lincoln appeared on the ground, and spoke as follows: "My fellow citizens—I have appeared among you on this occasion with no intention of making a speech. It has been my purpose since I have been placed in my present position, to make no speeches. This assemblage having been drawn together at the place of my residence, it appeared to be the wish of those constituting the vast assembly to see me. As it is certainly my wish to see all of you, I appear upon the ground at this time, only for the purpose of seeing you, and enabling you to see me. I confess, with gratitude, that I did not suppose my appearance among you would create the tumult which I now witness. I am profoundly grateful for this manifestation of your feelings. I am gratified because it is a tribute which can be paid to no man. It is a testimony which, four years hence, you will pay to the next man who is the representative of the truth on the question which now agitates the public mind. (Cheers.) It is an evidence of your fight for this cause then, as you now fight for it, and even stronger than you now fight, though I may be dead and gone. (Cheers.) I most profoundly and sincerely thank you. Having said this much to me no doubt, that you will hear the public denunciation of others of our friends, which will create the tumult which I now witness, and let me be silent. (Immense applause.)

Mr. Lincoln retired from the grounds amid the wildest enthusiasm, being seized upon and carried hither and thither by the immense crowd, and filled the grounds to overflowing. No such demonstration has ever been witnessed in Illinois.

Springfield, Illinois, Aug. 9.—The Republican demonstration, this evening, surpasses the expectations of the most sanguine. The square about the State House resembles a sea of fire, through which solid ranks of Wide Awakes march and counter-march by thousands. Passage through the city is difficult, owing to the blockade of the immense crowd.

The United States greatest political carnival ever witnessed in Illinois. The city is a sea of fire, through which solid ranks of Wide Awakes march and counter-march by thousands. Passage through the city is difficult, owing to the blockade of the immense crowd.

Lincoln's speech this afternoon was totally unintended. He was seized upon by the crowd, pulled out of a carriage, and forced to respond by a throng wild with enthusiasm.

DOMESTIC.—TWO REMARKABLE MEN.—The Democratic party, on its rival tickets for the Presidential struggle, presents the names of two candidates for the Vice-Presidency of whose intellectual qualities we have seen very peculiar descriptions. Thus for instance, the people of Dubuque, Iowa, urge the following objections against Gen. Joe Lane:

First—He spells God with a little g. Second—He spells barracks, bar-rax. Third—He spells dirt with two t's. Fourth—When in Mexico, he dated a letter "V. Y. Cross."

Of Mr. Hercules V. Johnson, we find in a friendly newspaper published in Eatonton, Georgia, the following very graphic account of his eloquence in addressing his fellow-citizens at a recent public meeting:

"Johnson rushed upon his foes with the clangor of the trumpet and the dash of lightning. Like Richard Coeur de Lion among the senators of S. Ladin, he strode on, right on, dealing his straight blows right and left, and everything was borne down by his ponderous arm. Like the sleeping lion aroused from his lair by some careless intruder, he sprang upon his victims, tore their flesh, crushed their bones, and bent their bodies to jelly by his lightning arm against the earth. He trembled to the infirmitas of his howls. Like the mad bull in the arena, he rushed upon those who pricked him with their spears, gored into their vitals, tossed them into the air, and trampled them under his feet."

A SAD AND AFFECTING INCIDENT.—The Ohio State Journal relates a sad incident which may be new to many of our readers. It is the case of a young man, the Central Ohio railroad, who recently followed a band of musie that was going to a picnic, and walking into a meadow swamp, could not get out, and died from exhaustion and exposure. As a gentleman was in the meadow, his dog strayed on a marshy spot, and when about the middle of it he commenced barking. The gentleman on going to the spot, discovered the body of the poor little boy. A colored man, living a short distance from where the body was found, said that during that night, which was dark, stormy and dismal, he heard the voice of a child crying, "Mama mama" but was unable to discover from whence it came, and soon it ceased altogether.

In the last issue of the Lynchburg Republican, we find the very frank admission that there is no such thing as a national Democracy now." The Republican maintains that "the course which a portion of the leading friends of Breckinridge and Lane are pursuing is fraught with much danger to the Democratic party and the country. It says—"We verily believe that every vote which Breckinridge and Lane receive at the North, will be virtually a vote for Lincoln."

FEVER and AGUE. Is caused by the miasm or exhalation exhaled from decayed and decaying vegetation in moist soils. When absorbed into the circulation it becomes an irritating virus in the blood, which does not destroy the vitality of the whole system. We have long sought, and have at length found an antidote, Ayer's Ague Cure, which neutralizes this malarious poison in the blood, and prevents it from being expelled from the body. Its action upon the system is invariably sure, and its cure of Fever and Ague, and kindred complaints, certain. Such cases as are attended with Biliousness, or Bilious Fevers, Headache, Colic, Dyspepsia, and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermitting type. This "Ague Cure" removes the cause of these derangements, and cures the disease. This it accomplishes by stimulating the excretory organs to expel the virus from the system, and these organs by degrees become habituated to do this their office of their own accord. Hence arises that true acclimation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "Ague Cure" does not. It is a safe and certain remedy for the malarious infection, than any other which has been discovered; and it has still another important advantage to recommend it, which is that it is cheap as well as good. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by J. B. CAMPBELL, and HEALEY & SHRIVER, Cumberland, and by all Druggists and dealers in medicine everywhere. July 26, 1859.
