DISEASES OF IMPUDENCE. When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it often happens that an ill-timed sense shame or dread of discovery deters him from applying to those who, from education and respectability can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, rich his pecuniary substance, keep him trifling use after use, until he has lost the smallest hope can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment, or, by the use of that deadly poison, Mercury, mark the fatal end of his miserable existence.
