

Recreation and Visiting among Farmers. This may seem to some a very unsuitable topic for this busy time of the year. On the contrary, it is especially reasonable. Most farmers make life too much a drudgery for themselves and for their children. By working hard from morning until night, and from week to week, with no recreation, they become dull and do not accomplish as much as they would with a little timely relaxation, "all work and no play makes Jack a dull boy." Nor do they enjoy life near so well. They would say to their sons, "I must work hard now, and lay up money against a time of need or against old age; then I will rest and enjoy myself." They forget that they are meanwhile wearing out their faculties of enjoyment and are acquiring habits which will shut them out for anything but an old age of continued toil. Let farmers bear in mind, too, the effect of such a life on their children.

As to the way in which farmers shall get recreation, we are not disposed to be particular. Some will choose to get it in one way, and some in another. One very good method is to make up an occasional picnic. Fix on a pleasant afternoon, and take the whole family to some neighboring grove, where the children can romp, where the older folks can rest, and all have a good supper. If several families can unite, it will be all the better. Another way is to make short visits to the neighbors. To do this, it will be needful to consume a whole day; this would be an unnecessary loss to you and here your neighbor. But seize on the broken, half days, or even the hour or two after tea, and ride over to neighbor A's, or neighbor D's. He will be glad to show you his stock and his crops, and his orchard. You will learn something from him, and be from you. At any rate, you will get recreation, and will return to your home and your daily labor with new zest.—American Agriculturist.

BLACKBERRY ROOT GOOD FOR SCUMMER COMPLAINT.—We have great faith in a decoction of fresh blackberry root for looseness of the bowels. Last summer I completely cured a severe case of chronic colic or army diarrhea, after the other remedies of the best physicians had proved unavailing, and it invariably cured in many other cases where it was afterwards recommended. Dig the green roots, rejecting those that are large and woody. Wash thoroughly clean, and steep in water at the rate of a quart to half a pound of the root. Boil down one-half, and then strain or pour off. Put the liquid in a bottle with about 2 1/2 of bulk of brandy, whiskey, or alcohol, to keep it from souring, and cork tight. A tablespoonful of this, three or four times a day, is to be taken three or four times a day, say before each meal time. We would not go from home, especially southward, without taking this preparation along. The blackberry berries or cordials made from the berries are of little account as a remedy for diarrhea. The virtue lies in the roots, not in the berries.—American Agriculturist.

A DAVIS LEADER PAROLED.—A letter just received in this city announces that Mr. Charles Russell, of Wheeling, West Virginia, late a member of the Confederate House of Representatives, has been pardoned by the President, and will be paroled in Baltimore. Before the war Mr. Russell was the attorney for the Baltimore and Ohio Railroad, at the west end of the road. He was twice elected to the Confederate House of Representatives, the second time by a small and mixed constituency, consisting of about a dozen West Virginians, who were entitled to vote, and about three hundred of Gregg's Texas Brigade, who were not, but being camped near the polls, cast their ballots by way of diversion. In the Confederate Congress he was the leader of the Davis party, and was recognized as the mouth piece of that factionary. After the grand collapse he went to Canada, where he was at last accounted. His pardon is said to have been obtained through the influence of the officers of the Baltimore and Ohio Railroad.—Richmond Republic.

THE TOMATO AS FOOD.—A good medical authority ascribes to the tomato the following very important medical qualities: 1st. That the tomato is one of the most powerful aperients of the liver and other organs; where calomel is indicated, it is one of the most effective and the least hurtful medical agencies known to the profession. 2nd. That a chemical extract will be obtained from it that will suppress the use of calomel in the cure of disease. 3d. That he has successfully treated diarrhea with this article alone. 4th. That when used as an article of diet it is almost sovereign for dyspepsia and indigestion. 5th. That it should be constantly used for food. Either cooked or raw, or in the form of catsup, it is the most healthy article now in use.

THE POPULATION OF UTAH.—The recent visit of Speaker Colfax and party to the Mormon world has made the public familiar with many facts concerning the condition of the progress of that people. A writer from Salt Lake city says: "Now a population of 100,000 is claimed for Utah and 20,000 for this city. Perhaps the last figures are too large, but already this is the most populous, as it is the most beautiful town between St. Louis and San Francisco. During the year ending June 1, Ben. Holladay's Overland Express took \$1,512,979 07 in gold dust hence to the States—though only a small fraction of the gold goes in by express. Last year a single merchant sold upward of \$1,000,000 worth of goods and paid for freight alone from the Missouri river over \$150,000."

A Louisiana paper declares that the town of Natchitoches has flour that can jump higher, quicker, bite harder, out dodge, run faster, than any other flour. They are larger, fatter, slicker, harder to rope, than any other flour. It takes two freedmen and a white boy to tree one of them, and suggests, as a last resort, to have them hung or shot with a Sharp's rifle.

There were numerous "pleasant incidents" at Grant's Faneuil Hall reception in Boston on Monday. A cute Yankee who had been through the mill and shaken hands with General Grant, was himself seen shaking hands with less fortunate people outside for ten cents a piece.

Want to see Grant mighty bad, do you? I'd send a blue-coated veteran to the people crowding about the care the other morning on their way to get a sign of our fine general. "W-s-a-l-l, why in thunder didn't you come down to the front, when he wanted to see you, hey?"

AGENTS WANTED FOR THE SECRET SERVICE, THE FIELD, THE DUNGEON, AND THE ESCAPE.
BY ALBERT RICHARDSON
N. Y. Tribune Correspondent.
The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years traveling through the South in the secret service of the "Tribune" at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seven different rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It will abound in stirring events, and contain more of the fact, incident and romance of the war than any other work yet published. Teachers, ladies, emigrants, men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition. We have agents clearing \$100 per month, which we will prove to any doubting applicant. Send for circulars. Address JONES, BRON & CO., N. E. corner SIXTH and MINOR STS., Philadelphia Pa. June 22-5m

DR. JOHNSTON, BALTIMORE LOCK HOSPITAL, OFFICE NO. 7 SOUTH FREDERICK STREETS, THE ONLY PHYSICIAN ADVERTISING.
Has discovered the most certain, Speedy, and Effectual Remedy in the world for
DISEASES OF IMPURITUDE.
Relief in Six Hours! No Trifling!
Persons Ruined by Ignorant Pretenders, or by Deadly Poison, Mercury, should apply Immediately.
A CURE WARRANTED OR NO CHARGE IN FROM ONE TO TWO DAYS.
Weakness of the Back, Involuntary Discharges, Stricture, Affections of the Kidneys and bladder, Impotency, General Debility, No venous, Dyspepsia, Langor, Loss of Memory, Confusion of Ideas, Palpitation of the Heart, Trembling, Fainting, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose, or Skin, Abdominal Pain, Liver, Lung, Stomach or Bowels—these Terrible Disorders arising from Solitary Habits of Youth—the venereal and solitary practices more fatal to their victims than the most violent of the venereal diseases, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.
YOUNG MEN.
Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps an untold number of thousands of our young men, of the most talented and brilliant intellect, who might otherwise have embraced illustrious Senates with the laurels of eloquence or taken an exalted living, may call with full confidence.
TAKE PARTICULAR NOTE.
These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pain in the Head, Dimness of Sight, Loss of Memory, Confusion of Ideas, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.
Necessarily, the fearful effects on the mind are not to be dreaded—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, and a host of other ailments, which are the result of Solitary Vice, Solitude, Love of Solitude, Timidity, &c., &c.
MARRIAGE.
Married Persons, or young men contemplating marriage, aware of Physical Weakness, Organic Debility, Wasting of the Organs, Deformities, &c., should apply immediately to the most eminent and skillful Physician, who places himself under the care of Dr. J. who will reliably condescend in his honor as a gentleman, and confidently rely upon his skill as a Physician.
ORGANIC WEAKNESS, IMPOTENCY, IMPEDIMENTS TO MARRIAGE.
By Dr. Johnston's marvelous treatment, Weakness of the Organs is speedily cured, and full vigor restored. Thousands of the most nervous, debilitated and impotent, who had lost all hope, have been immediately relieved.
All impediments to marriage, Physical or Mental, such as, Want of Procreative Power, Nervous Irritability, Tremblings, and Weakness, or Exaltation of the most fearful kind, speedily cured.
DR. JOHNSTON,
Member of the Royal College of Surgeons, London, England, and of the most eminent medical Societies in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most remarkable cures of the most difficult and many troubled with ringing in the head and ears when asleep, great nervousness, he alarmed at sudden noises, head-ache, with frequent shivering, attacks sometimes with derangement of the mind, were cured immediately.
YOUNG MEN
Who have injured themselves by certain practices indulged in when alone—a habit frequently practiced from evil companions, or at school, the effects of which are nightly felt, even when asleep, and, if not cured, will ruin the most nervous, debilitated, and impotent, who had lost all hope, have been immediately relieved.
What a pity that a young man, the hope of his country, and the darling of his parents, should be snatched from all the prospects and enjoyments of life by the consequence of deviation from the path of nature and indulging in a certain secret habit, such persons must, before contemplating
MARRIAGE.
reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness indeed. Without these the journey through life becomes a weary and painful one, and the prospect darkens to the very end; the mind becomes shadowed with despair and filled with the melancholy reflections that the happiness of another is blighted with their own.
DISEASES OF IMPURITUDE.
When the misguided and imprudent votary of pleasure finds he has labored the seeds of this painful disease, it often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can alone be trusted. He falls into the hands of ignorant and designing pretenders, who, incapable of curing him, fill his pecuniary and soul, keep him trudging month after month, or a long and unprofitable journey, until he has exhausted his resources, and in despair he has him with ruined health to sigh over his galling disempowerment; or, by the use of that deadly poison, Mercury, hastens on to the grave, and leaves behind him a childless wife, such as Affections of the Head, Throat, Skin, &c., progressing with frightful rapidity until death puts an end to his dreadful sufferings.
