

PROCEEDINGS IN CONGRESS.

In the Senate Business was Suspended to Enlarge the Late Senator Anthony, of Rhode Island.

Several Bills Were Introduced and the Counsel Jurisdiction Bill Called Up But Not Passed.

THE FORTY-EIGHTH CONGRESS.

WASHINGTON, D. C., Jan. 19.—Mr. Cooke introduced a bill to establish and regulate quarantine on live stock trails, and to regulate commerce between the States as to live stock.

At the conclusion of the morning hour Mr. Aldrich offered the following:

Resolved, That the Senate do hear with profound sorrow of the death of the late Henry B. Anthony, late Senator from Rhode Island.

Resolved, That the business of the Senate be now suspended to enable his associates to pay a proper tribute of regard to his high character and distinguished public services.

Addresses on the life and character of Senator Anthony were made by Messrs. Aldrich, Edmunds, Bayard, Pendleton, Garland, Ingalls, Manderson, Morrill, Hoar, Hawley, Butler and Sheffield. The latter seconded the resolutions offered by Mr. Aldrich, and they were adopted, and the Senate adjourned.

The House.

The Speaker laid before the House a communication from the Secretary of the Treasury, transmitting an estimate of appropriation of \$4,000 to meet the incidental expenses of the United States navy vessels attending the World's Industrial Exposition at New Orleans. Bills were introduced and referred.

By Mr. Henly: To indemnify California on account of indebtedness incurred in Indian wars.

By Mr. Townsend: A resolution requesting the President to furnish the House copies of the correspondence relating to the so-called Oklahoma lands in Indian Territory, together with information as to the present condition of the controversy growing out of the attempted occupation of said lands.

By Mr. Phelps: A resolution calling upon the President for information as to the imprisonment of Charles A. Vonbockon at Port An Prince, Hayti.

By Mr. Slocum: A resolution requesting the President to submit to the House a copy of the record of the trial of John Porter with accompanying papers.

By Mr. Ward: Amending the act to prevent the introduction of contagious diseases. (This is the bill prepared by the conference of national health officers.)

By Mr. Orr: To amend and revise the act to encourage and promote telegraphic communication between the United States and Asia.

By Mr. Broadhead: To establish a uniform rate of pension for pilots who served on United States gunboats during the late war.

By Mr. Mills: A resolution amending the rules so that a majority of the members present may suspend the rules and pass bills relating to revenue.

By Mr. Blount: To enforce the collection of taxes on distilled spirits in bonded warehouses.

Mr. Hitt, under instructions from the Committee on Foreign Affairs, moved to suspend the rules and pass the Senate bill providing for the exercise of the jurisdiction conferred on the United States in places of their territory and dominion, and repealing the Revised Statutes from Section 4038 to 4120, inclusive.

The reading of the bill consumed an hour and a half, and then the motion was seconded by 97 to 4.

Mr. Hitt explained that the purpose of the measure was to perfect regulating the extra territorial jurisdiction of the United States. It was a digest and arrangement of the present statutes. It placed many limitations upon the powers of Consuls, and greatly abridged the judicial authority of our ministers. The powers of Consuls acting as a consular court throughout North Africa were sharply defined, and an appeal was given to the United States Court for the Eastern District of New York. In China and Japan, where the transactions of American citizens amounted to millions of dollars, it was deemed necessary to take away from the Consuls and Ministers the power of life and death, which they now had, and establish the judicial tribunals.

Messrs. Cox, of New York, McAdoo and Holman opposed the bill.

Mr. Curtin favored it.

The motion to suspend the rules and pass the bill was lost—yeas, 149; nays, 104; not the necessary two-thirds in the affirmative.

The next committee on the list was the Military Affairs Committee, and it being understood it would bring forward the Great Retirement bill, Mr. Lowry interposed a motion to adjourn, and the yeas and nays were ordered.

At this moment the Anthony resolutions were received from the Senate, and the Chair asked that the yeas and nays be dispensed with and the House proceed to the consideration of the resolutions.

To this Bayne objected, and the clerk called the roll on the motion to adjourn, which was lost—yeas, 60; nays, 193.

The Chair then asked that the Anthony resolutions be considered, but Mr. Slocum objected.

The Speaker then called the Committee on Military Affairs and Slocum arose, but before he could make any motion, Mr. Lowry moved the House take a recess until to-morrow at 11:30.

Messrs. Mills and Washburn moved to adjourn, which was lost by yeas 118; nays, 153.

After another dilatory motion the House adjourned.

Accident on the Wabash. St. Louis, Jan. 19.—The Wabash train from Chicago met with a serious accident about ten miles east of East St. Louis, this morning. It is reported here that twelve persons were more or less severely injured. No particulars yet.

The Wabash Toledo train, bound for St. Louis, struck a broken rail just north of Venice, four miles from St. Louis, this morning, demolishing the combination baggage and express car and smoker. Both were thrown into the ditch. The smoker was pretty well filled with passengers. There were eight or ten persons injured—United States Express Messenger J. J. Matlocks, an old man nearly sixty years of age, fatally. The others were only slightly hurt.

It Is a Cold Day. Chicago, Jan. 19.—This has been the coldest day of the year in this city. The thermometer ranged anywhere from 10° to 30° below zero, the Signal Service quoting at 19° below. The same condition of affairs prevails throughout the State, but in the north-west the weather is milder as compared with

that twenty-four hours ago. Winnepeg is quoted 14° below; Jamestown, 16° below; Fargo, 17° below; St. Paul, 19° below.

The Whisky Tax.

WASHINGTON, Jan. 19.—The bill introduced today by Representative Blunt, to enforce the collection of taxes on distilled spirits, directs the Secretary of the Treasury, immediately on the expiration of the three years allowed for the payment of such taxes, to proceed to collect the same, notwithstanding any action which may be begun after such time for its exportation.

Must Look Out for Itself.

OTTAWA, Ont., Jan. 19.—The Dominion Government has abandoned the idea of increasing the strength of the Northwest mounted police.

Obituary.

NEWBURGH, N. Y., Jan. 19.—Charles Downing, the eminent horticulturist, is dead, aged eighty-two.

The Supreme Court and Judicial Reform. [Communicated.]

Many criticisms have been spoken and written concerning existing evils upon this important subject to the Bench and Bar of the State. Some have been friendly to the court of last resort, and some have been freighted with malice characteristic of the small-bored pettifogger after being "sat down upon" or disconcerted in some disreputable scheme.

The writer is not unmindful of the fact that the long-eared, long-haired, phibian jackass that stands in the barn-yard, can make a louder noise than the monarch of the forest—the majestic lion; that the chronic grumbler and critic is generally a narrow-minded slyster as well, and hence, such criticisms fall to challenge the attention of the Legislature to a serious inquiry into alleged evils, or else that body deliberately resolves to endure the ills we have rather than fly to others we know not of.

To the wise legislator (who provides not only for this year and the next, but for many years to come), the great number of Indiana reports that have been issued in the past few years must demand serious consideration, both from an economical standpoint and to the end that the law may be more stable and better understood.

It is not unreasonable to say that under the present system, within twenty years from the time the decisions of the Supreme Court of Indiana will constitute a library of from 350 to 400 volumes. Passing by the expense to the State and to individuals, out of such an immense mass it will be exceedingly difficult to ascertain what the law really is, notwithstanding its great abundance. Though the State should have the good fortune to have in its service the most laborious and learned Judges, the number of cases pressing for speedy consideration will most certainly beget many conflicting decisions.

How are these evils to be avoided? The writer submits for the consideration of the Legislature that the number of cases that can, under the law, find their way into the Supreme Court and thereby necessitate consideration by that Court and publication, is enormously too great. That, in justice to the members of the court of last resort, they ought not to be tasked with the duty of examining the great piles of record that is constantly pouring in upon them from all quarters; that to increase to the legal profession, its members ought not to be taxed for the payment of the volumes that are being issued (and which must increase under the present system), and they ought not to be taxed with the loss of time necessary for the reading of the reports when issued.

The Legislature may take it for granted that, in this busy under and over-reaching world, with all its self-seeking greed, if, under the law, cases can get into the Supreme Court as easily as now provided, that Court will always be overfilled with business.

As to the remedy: One of two courses appears to the writer as available. The pruning knife should be applied sparingly, and either no appeal should be allowed from the trial courts as to many cases now appealable, or else (if it is thought wise) to trust so much power to the trial judges, a Court of Appeals should be created, which should be a court of last resort as to a great majority of cases. From 60 to 75 per cent. of the business taken up by the Supreme Court (as shown by statistics) ought to be legislated out of that Court.

It is thought an appellate system is better than cutting off the right to appeal from the trial Courts, as to criminal cases where imprisonment is a part of the punishment; the appeal should go out once to the Supreme Court. As to all other business, it should be so distributed that not more than 25 or 30 per cent. of the cases, as now shown by the docket of that court, could get into the Supreme Court. The decisions of the Appellate Court should not be published, and should be final up to certain sums, except on a certificate of division of the judges. The sting of defeat will smart no less if the case ends at one appeal than if the litigant had the right to appeal to many courts, and the chances of a correct decision are not increased.

The decisions of the Supreme Court of Massachusetts for the year 1884 are contained in less than three volumes, and yet seven judges are proffered under the law of that State to do the work.

The deservedly high reputation acquired by Judge Blackford is doubtless largely due to the fact that he had ample time for the consideration of every case he was called on to decide, and hence, when decided, the questions involved were usually put to rest. During the thirty-five years he sat on the Supreme Bench, the decisions of the court are contained in ten volumes, while it requires ten volumes to contain the decisions of our Supreme Court made now in one year.

It has been written in history that Caligula, a Roman Emperor, wrote his laws in very small characters and hung them upon very high pillars, the more effectually to ensure the people. A system that compels the Supreme Court to decide, and the publication of their decisions, until the interpretation of the laws is hid away on the thousands of pages in some hundreds of volumes, has little room to recommend it than the short route taken by Caligula.

The fact is not with the court, but in the adherence to and continuation of a system that may have been wise thirty years ago, but wholly vicious now and for the future. Please publish in behalf of

JUDICIAL REFORM.

January 14.

Centrifugal machines for separating the milk from cream are now in general use, and as an aid to bee keepers a machine has been invented for extracting honey from the combs by centrifugal force, the combs being uninjured during the process.

George Conklin, the Hon-saxer, says he will have nothing to do with cross-eyed animals, nor use any other remedy for his coughs and colds but Dr. Ball's Cough Syrup.

DR. DAVID KENNEDY'S FAVORITE REMEDY

For the Cure of Kidney and Liver Complaints, Constipation, and all disorders arising from an impure state of the BLOOD. To women who suffer from any of the ills peculiar to their sex it is an unfailing friend. All Druggists. One Dollar a bottle, or address Dr. David Kennedy, Rondout, N. Y.

A THRILLING STORY.

As Told by a Merchant in Troy, N. Y.—A surgical operation avoided. Ever since a Father, Wife and Daughter Escaped an Awful Doom. Of the hundreds of accounts of remarkable cures wrought by DR. KENNEDY'S FAVORITE REMEDY, none have appeared so purely astonishing as the following: The persons mentioned are among the most highly respected in the city of Troy, and the story as told by the father will prove interesting to all our readers.—E. N. TROY, N. Y.

Dr. Kennedy, Rondout, N. Y. DEAR SIR—My daughter was afflicted with a severe growth of tumors. To remove it we had resorted to almost every remedy and consulted the most prominent surgeons and physicians. Dr. of Troy said that a surgical operation would be necessary, but fearing fatal results I hesitated. Some of the physicians claimed that it was caused by one thing and some by another. The tumors proceeded and increased her looks. Having heard of Dr. Kennedy's Favorite Remedy working so thoroughly on the blood I determined to try it, to see if this medicine could do what doctors had failed to do and surgeons had hardly dared to undertake. I can say in truth that the result of this trial was the complete cure of my daughter of this dreadful malady. Dr. Kennedy's Favorite Remedy alone effected it. We used nothing else for other things had completely failed. My daughter to-day enjoys vigorous health, and to Favorite Remedy alone is the greatest blessing that has come to me and my family. My wife also was very poor in health, due to liver difficulty with which she had suffered a long time until she became very much reduced in strength. Dr. Kennedy's Favorite Remedy has resulted in the complete restoration of her health, which she had not enjoyed for years. She had gained in flesh and strength and thus secured perfect health, and this is due entirely to Dr. Kennedy's Favorite Remedy. As for myself, being engaged in the grocery and commission business, which makes it necessary for me to test the quality of different articles, like butter, etc., my sense of taste and my stomach and general health, which seemed to nauseate me, and fearful of dyspepsia in its most severe form, I tried Dr. Kennedy's Favorite Remedy. The first bottle afforded immediate relief, and from that day to this I can say that Favorite Remedy has restored me to perfect health. These facts which I claim prove that Dr. Kennedy's Favorite Remedy is the best medicine in the world for those afflicted with the above difficulties. If any one in the city of Troy doubts the truth of these statements let him come to me and I will prove them. I have recommended Favorite Remedy to hundreds and with the same good results. Yours, etc., WILLIAM WINDSOR, Corner Canal and Mount streets, Troy, N. Y.

PRICKLY ASH BITTERS. CURES ALL DISEASES OF THE LIVER, KIDNEYS, STOMACH AND BOWELS. PRICE, ONE DOLLAR.

Dyspepsia, General Debility, Jaundice, Habitual Constipation, Liver Complaint, Sick Headache, Diseased Kidneys, Etc., Etc.

It is not an intoxicating beverage, and can be used as such, by reason of its Chemical Properties.

PRICKLY ASH BITTERS CO. Sole Proprietors, ST. LOUIS AND KANSAS CITY.

OLDEN TIMES

The formula by which Mishler's Herb Bitters is compounded is over two hundred years old, and of German origin. The entire range of proprietary medicines cannot produce a preparation that enjoys so high a reputation in the community where it is made as

MISHLER'S HERB BITTERS.

It is the best remedy for Kidney and Liver Complaints, Dyspepsia, Cramp in the Stomach, Indigestion, Malaria, Periodical Complaints, etc. As a Blood Purifier, it has no equal. It tones the system, strengthening, invigorating and giving new life.

The late Judge Hayes, of Lancaster Co., Pa., an able jurist and an honored citizen, once wrote: "Mishler's Herb Bitters is very widely known, and has acquired a great reputation for medicinal and curative properties. I have used myself and in my family several bottles, and I am satisfied that the reputation is not undeserved."

MISHLER HERB BITTERS CO., 525 Commerce St., Philadelphia. Parker's Pleasant Worm Syrup Never Fails.

HEALTH PRESERVING CORSETS. THE ONLY CORSET MADE THAT CAN BE RETURNED BY THE PURCHASER. PERFECTLY SATISFACTORY. Made in a variety of styles and prices. Sold by first-class dealers everywhere. For thirty years I have suffered almost death from that horrible disease, scrofula. For years I was unable to do anything in keeping up my domestic affairs. Last October I was induced to try SWIFT'S Specific, and used two bottles, and was so much benefited by it that I purchased four more from Messrs. Northcutt & Johnson, which has almost entirely relieved me. I feel like a new person, and can do all my own household work. Before I took the S. S. my life was a burden, my entire person was covered with sores, and in this miserable condition I did not care to live. I had tried every known remedy, and was generally regarded as incurable. I was then treated by the best physicians to no avail. I most heartily recommend Swift's Specific to the afflicted.

SCROFULA

Vanderbilt's Money Couldn't Buy It. The Acworth News and Farmer of this week says: Mrs. Elizabeth Baker, residing within three miles of Acworth, remarks that Vanderbilt's fortune could not buy from her what six bottles of Swift's Specific has done for her. Her statement is almost a skeleton, and not being able to walk even with crutches. I was induced to try Swift's Specific, and it acted like a charm, and I am to-day entirely relieved. Have turned away my crutches, and am in excellent health. I believe Swift's Specific will cure the worst cases of rheumatism.

Rheumatism Twenty Years. I have been afflicted from rheumatism for twenty years, at times with almost intolerable pain. I had the best medical treatment, and took all sorts of remedies, but without relief. Being unable to get about, and not being able to walk even with crutches. I was induced to try Swift's Specific, and it acted like a charm, and I am to-day entirely relieved. Have turned away my crutches, and am in excellent health. I believe Swift's Specific will cure the worst cases of rheumatism.

Communication. WETUMPA, Ala., Sept. 28, 1884.—About six years ago I became afflicted with a very disagreeable skin disease, with large, dry sores and many crusted pimples on my face, hands and feet. The sores on my shoulder cut out a hole nearly an inch deep, and the cancerous appearance of one of the sores near my ear almost rendered me blind. I tried all kinds of treatment, but found nothing that seemed to affect the disease. I finally decided to try Dr. S. S. on advice of a physician, and in a short time the sores dropped from the sores and left my skin smooth and well. I consider S. S. the greatest blood medicine made, and the only thing that will cure the disease, which I will never be afflicted. I think my trouble was the result of a perils attack of malarial fever, contracted while residing in the Tropics, where I was employed at my office in the court-house at Wetumpka. You can refer to me.

J. L. RICHES, Dry Goods Store, Wetumpka, Ala. Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC COMPANY, Drawer 3, Atlanta, Ga.
