## WASHINGTON NEWS.

The Bill Allotting to Indians Land in Severalty Covers a Big Scheme of Indian Robbery.

Lodgings for Inauguration Week--Rosecrans on Grant--Six Busy Days Expected, Etc.

## INDIAN LAND SCHEMES.

Indian Agents Already at Work.

Special to the Sentinel.

WASHINGTON, Feb. 12.—This afternoon a couple of well-dressed gentlemen, beyond the meridian of life, and possessed of a very business-like air, stepped into a telegraph office, wrote a telegram, addressed to a far-Western Indian agent, and left the place in a hurry. On the desk they left a copy of the message. It read:

"Baiter keep Indians at home. The Department won't pay their expenses." Upon inquiry at the Interior Department I ascertained that these men are here lobbying for the passage of the bill before Congress providing for the allotment of lands to the Indians in severalty. They went to the Secretary of the Interior and asked to have representatives of certain tribes of Indians sent here for the purpose of stating their wishes to Congress in relation to the allotment of lands, but were refused.

The reason they have for having the lands set aside in the title of the Indians is that they can be bought for a song, almost. Some of the Indian agents, it appears, are into this scheme, also, and are probably negotiating the purchase of the lands if the bill allotting them is passed. The schemers would have the Government pay agents to act for them; the expenses of the Indians in coming here in the interest of the bill, and then take the Indians back as paupers after they have been cheated out of their lands. A few more exposures like this and the allotment of lands to the Indians in severalty will never be accomplished.

Preparing for the Inaugural Week.

Special to the Sentinel.

WASHINGTON, Feb. 12.—Hotel men say that the people who are engaging quarters for the inauguration are securing them for all the week of the 4th of March, and that it is expected that the festivities of the inauguration will continue until at least the following Saturday, the 7th. The inaugural ball-room is to be occupied for some entertainment or other every night during the week. Two nights will probably be occupied with fancy drills by the visiting military companies, and the other night may be taken in a band concert. So there will be attractions here all of the week.

The Inauguration Committee will take charge of illuminating the city on the night of the 4th of March. The fire-works will be very extensive and very fine. On the other two nights of the week the citizens will conduct the pyrotechnic display. Immense quantities of materials for the occasion are being received. A train load of fire-works, flags, banners and bunting will be used. The novelty stores are already flooded with them.

There is a great deal of warm Southern blood in Washington. The city is a Southern one, and the people are of Virginia and Maryland stock largely. So there has been lying dormant a vast amount of Democratic patriotism within this District, which, although ruled by Republicans, is overwhelmingly of the other party. A city was never so extravagantly decorated as this will be on the 4th of March, and it is unlikely that such a great upsurge of sentiment was ever unrolled as will be turned out upon that day.

Rosecrans on Grant's Retirement.

Special to the Sentinel.

WASHINGTON, Feb. 12.—"Do you think General Grant will ever be placed on the retired list of the army?" your correspondent inquired of General Rosecrans to-day.

"No," was the reply, sharp and firm. "Why?"

"Because," said the General, "there is no necessity for it, either in the name of justice or charity. If it is ever done, however, it will be by a burst of sympathy. General Grant is not popular with the masses."

"Don't the soldiers like him?"

"No better than the politicians; and you know what they think of him. But the private like him better than those who served as officers."

General Rosecrans has a difference with General Grant, it will be remembered.

Preparing for Work in the Last Six Days.

Special to the Sentinel.

WASHINGTON, Feb. 12.—It is intended by the House Committee on Appropriations that the appropriation bills shall be out of the way in time to admit of consideration of the River and Harbor bill and a number of public building measures. One of its members said to-day that it was likely that the last six days of the session would be open to the suspension of the rules, when the minor matters may be gotten out of the way so far as time will admit. There is yet hope for some work—just a little.

## NATIONAL MATTERS.

The World's Exposition and Memorial--Testimonials for Russian Officers--Other Interesting Items.

WASHINGTON, Feb. 12.—The President to-day transmitted to Congress the report of the Board of Managers of the World's Industrial Centennial Exposition at New Orleans, and also the memorial of the United

## STATES COMMISSIONERS TO THE EXPOSITION.

requesting an additional appropriation to extinguish the deficit in its accounts, and asking authority to reopen the exposition during the winter of 1885-86. The President, in his message of transmittal, says:

A feature on the part of the management to carry out the original intent in regard to the exposition might reflect on the honor of the United States Government, since twenty-one foreign nations and forty-six States and territories have joined in the enterprise through faith in the action of the Government. In view of this fact, and in consideration of the value of the exhibition to the cause of material progress and general education, I respectfully submit the report mentioned for favorable consideration by Congress.

Senator Miller, of California, from the Committee on Foreign Relations, to-day reported an amendment to the sundry civil appropriation bill, to appropriate \$15,000 to enable the President to bestow testimonials on those officers and subjects of the Russian Government who aided the survivors of the Jeannette expedition, or who aided the search of the parties sent after members of the expedition. This appropriation was also recommended for the purpose of enabling the President to convey to the Government and people of Russia an expression of the high appreciation in which the Government and people of the United States hold the humane service so rendered.

The House Committee on Foreign Affairs, to which was referred the various resolutions relative to the recent dynamite explosions in London, to-day decided to report that it was unbecomingly the dignity of the House to assume that American citizens had been in any way connected with the crime where no charges had been made, and that the committee was unwilling to request any officer of the Government to search for proof of guilt where there was no charge.

The Senate Committee on Indian Affairs, which recently investigated the leasing of lands by the Indians to cattle men, will make a report in a few days. It will recommend that sub-committees be appointed to visit the Indian Territory and Montana during the summer to investigate the policy of the Indians. It will also report that the officials in the Interior Department, except certain Indian agents and traders, have not been guilty of improper conduct in connection with the leases of Indian lands. Two agents, Townshend and Pollock, it will say, interested themselves in leases while Government officials contrary to law.

In the Swain Court-martial to-day the counsel for General Swain objected to all Colonels on the Court-martial on the ground of inferiority of rank. The Court overruled the objection, and the accused pleaded "not guilty" to the charges and specifications on which the trial was ordered, and are in effect that Swain drew more force for his horses than he was entitled to. Several witnesses were examined, their testimony showing that the force in Swain's recognition was sent to the stable where Bateman and Swain had horses. Adjourned.

Senator Sherman to-day introduced an amendment to the Sundry Civil bill by a proposition to appropriate \$50,000 for the construction of a third story to the public building at Columbus, O.

## BURNING OF AN INSANE HOSPITAL.

Nineteen Insane Inmates of a Hospital Incinerated.

PHILADELPHIA, Pa., Feb. 12.—A fire broke out in the Insane Department of the County Almshouse of West Philadelphia to-night. The flames spread rapidly, and before the 300 inmates could be released nineteen of them were burned to death. Others were left to roam about the grounds at will, and many of them were picked up by the police throughout the city. The buildings at 11 o'clock to night were still burning, and other departments are in great danger.

## ILLINOIS SENATORSHIP.

Each Party Afraid of Being Outwitted by the Other.

CHICAGO, Feb. 12.—The Daily News special from Springfield, Ill., says the Republicans of both houses in a body refused to recognize the action of the Democrats in the Democrats in the matter of voting for Senator. A few members of each party are still absent. The morning hour in the House was idle away, the Republicans making several ineffectual efforts to adjourn. At 11 o'clock the Doorkeeper announced the attendance of the Senate, and twenty-two Democratic members of that body filed in and took their seats. When the vote for Senator was directed only one vote was recorded, the Democrats fearing that the Republicans were there in greater force than seemed apparent, and could, if the Democrats at once voted, appear and give their candidate a clear majority. An adjournment was taken till noon to-morrow.

## A Political Necessity.

ALBION, Ill., Feb. 12.—This afternoon fifteen men went out to the residence of State Senator Brown, Republican, who is very ill, and carried him in to Grayville, a distance of six or seven miles, on a stretcher. He will remain in Grayville to-night, and to-morrow morning he will leave for Springfield in a special car. He is very weak but his friends think he will stand the trip. He is paired with Senator Bridges till to-morrow, and upon his presence or absence in the capitol, the election of United States Senator may depend. Without him, the Republicans are one in the minority on joint ballot.

## Fatally Shot.

HILLSDALE, Mich., Feb. 12.—Two twelve-year old boys, named Davidson and Parker, of Grosvenor, Linwood County, yesterday, after reading a time novel, prepared a show trial. Davidson had a hatbox and Parker a revolver, which was accidentally discharged, striking Davidson on the forehead, killing him instantly.

## Sensational Divorce Trial.

CLEVELAND, O., Feb. 12.—At the trial of Miss Tillie King it was shown that a conspiracy has been entered into to ruin her character with her husband, A. A. King, connected with one of the most extensive firms of the city. He left her recently and sued for a divorce. She was the daughter of

## a prominent citizen at Warren, Ohio, and was always regarded as an excellent woman.

Last week a man named Jewell telegraphed her to come here on business connected with the divorce, promising her a friend of King, she came, promising her family to return that night. Jewell took her to a cheap hotel, and, by misrepresentation, caused her to miss the train. He, to-day at the trial, admitted the plan was to keep the woman here all night. The plan worked, and she remained at the hotel, where Jewell had registered as J. H. Moore and wife. The next day she was arrested on a charge of adultery. It was proved to-day that Jewell did not occupy her room, and that the whole thing was a conspiracy. She was honorably acquitted. The developments of the trial caused a great sensation here and in Warren.

## SENTEL SPECIALS.

Thanks for Contributions.

Special to the Sentinel.

BRAZIL, Ind., Feb. 12.—The citizens of Brazil desire to return to the wholesale men of Indianapolis through the Sentinel their sincere thanks for their prompt and generous contribution to alleviate the suffering caused by the explosion in the rolling mill. The following are the firms that responded so liberally, without solicitation, and will always be remembered by the citizens of Brazil: Robertson & Perry, Byram, Cornelius & Co., Jones, McKee & Co., Hollweg & Reese, A. B. Gates, Indiana Paper Company, Seven, Ostermeyer & Co., A. H. Wright & Co., H. B. Smith, Browning & Sloan, New York Store, Model Clothing Company, Drew & Watson Mining Company, Gibbs Tailoring Company, Paul H. Kraus, Wilson Clothing Company, Ward Bros., R. R. Parker, Elmer Drummond, Taylor & Smith, Mulany & Hayes, Joseph Allerding, Layman, Carey & Co., M. O'Connor & Co., Milwaukee Bottling Company, Klipp Bros.

## Fire--Railroad Project.

Special to the Sentinel.

GREENFIELD, Ind., Feb. 12.—A fire at Hoodburry, on the Bee Line Road, a few nights ago, burned the store of David Brown. Loss, \$1,200; insurance in Eastern company covers the loss.

The North and South Railroad project has been revived by Manager Norman Beckley, of the C. W. and M. Road, writing to parties here stating that if the subsidy voted to a defunct company is transferred to his road that it will extend the C. W. and M. from Anderson to Shelbyville. The matter is to be looked after with a view to secure the road.

Lee Linn, the Shooting Editor, Discharged.

Special to the Sentinel.

WARREN, Ind., Feb. 12.—After a long and tedious preliminary trial before Mayor Stephenson, Lee Linn, who shot Bill Hickey on Saturday last, was discharged. The City Hall, in which the Court was held, was thronged at the hour the decision was rendered, and the building was shaken to its foundation by the applause of the crowd, who rushed forward almost to a man to shake hands with Mr. Linn. To-night congratulations by wire are coming in from all directions, and a few admirers presented him with a purse of fifty dollars.

## The Blockade on the Pan-Handle.

Special to the Sentinel.

LOGANSBURG, Ind., Feb. 12.—The snow blockade on the north end of the Pan-Handle was the most serious ever known in the history of the company. Seven trains were snowed in at different stations along the Kanawha Prairie and more than 100 passengers were delayed for three days. A relief train loaded with provisions was sent to their rescue. Last night the work of several hundred shovellers was crowned with success and the track was cleared. The snow bound trains came in one after another.

## The Blizzard at Delphi.

Special to the Sentinel.

DELPHI, Ind., Feb. 12.—This week's blizzard has been the most severe in these parts that was ever known. Railroad and overland travel is practically suspended on account of the drifts of snow, and the suffering and loss of property has been great. The first mail of the week was received to-day.

## ASPHYXIATED.

Five Men Stilled to Death by Deleterious Gas in a Chicago Sewer.

CHICAGO, Feb. 12.—Five men were asphyxiated in a sewer late this afternoon. Several days ago the main sewer in Kinzie street, five feet in diameter, became clogged, and to-day a gang of eleven men were sent to clean it. Nine went into the sewer with a scraper fitting the conformation of the sewer, bringing it from the main hole to the man-hole, while the other two remained above ground to draw up the mud and dirt through the man-hole. Between Halstead and Union streets an unusually long time was consumed. Finally the foreman, bending down at the mouth of the man-hole, heard a cry for aid, and on going down found the men near the opening, some of them gasping for breath and others lying dead. There was a very strong smell of gas. A rope was passed down to him, and the survivors were unable to climb up the ladder. After two had been assisted up the foreman found himself falling from the effects of the gas and was obliged to go to the surface. Another man went down and rescued three and a third assisted the remaining four. Four were dead when brought up and another died soon afterward. The names of the dead are Michael Laski, Joseph Gill, James Grady, Daniel Curtis and Matthew Mason. All are married except Gill. The survivors say the first intimation that anything was wrong was when Gill dropped dead. It is not known whether the gas in the sewer was the accumulation of ordinary sewer gas, or illuminating gas from a leaking pipe, or what is known as fire damp.

## Railroad Accident.

ALEXANDRIA, Va., Feb. 12.—By the breaking of a rail on the Washington, Ohio and Western Railroad, between Guilford and Farmwell Station, this morning, four freight cars were thrown from the track and the conductor was killed.

## SUDANESE MATTERS.

Gordon's Fate Not Yet Ascertained--Spies Being Sent to Khartoum to Obtain Reliable Information.

The New Campaign From Suakim--Courbet Instructed to Watch Certain Steamers.

## THE SUDANESE WAR.

Nothing Reliable Yet Ascertained in Regard to the Fate of Gordon.

LONDON, Feb. 12.—Lord Wolseley telegraphs again to-day, from Korti, to the Government that no reliable particulars about the fate of General Gordon have yet been received. He assures the Ministry that the press reports have all been based on rumors, and states these rumors were collected by Colonel Wilson's party upon their return down the Nile from its futile attempt to reach Khartoum. In addition to these statements, Lord Wolseley informs the Government that the Mudir of Dongola and all the natives thereabouts persist in the belief that Khartoum has not yet fallen. Colonel Wilson, however, is positive. There is little or no doubt on this point, he writes himself, to receive in a few days specific and reliable information concerning the situation at Khartoum, and the fate of Gordon from trusty spies whom he dispatched up the Nile for the purpose of ascertaining the exact facts. These messengers are expected to soon reach Korti on their return.

## General Earle's Last Charge.

LONDON, Feb. 12.—Telegrams from Duika Island, on the Nile, give the particulars of a fight in which General Earle was killed. The British troops advanced to attack the enemy, who left a strong position on the hills. After some fighting the enemy was completely surrounded. Finding it impossible to dislodge the rebels from their fortified positions, General Earle ordered the troops to charge. General Earle was killed while leading the attack. The Black Watch regiment captured the position at the point of the bayonet, the cavalry taking possession of the enemy's camp. General Eriksenburg, upon the fall of General Earle, assumed command and ordered the remaining positions to be stormed. The troops acted promptly, made a gallant attack, and soon captured all the enemy's positions. The fight lasted five hours. There was great slaughter among the enemy. Those who survived escaped by swimming the river.

When General Earle ordered the men to charge, he put himself at the head of the column. The fort was finally captured, but at a terrific cost. In addition to General Earle, three of the officers and eight men were killed, and thirty wounded.

## A Rumor From Matameh.

LONDON, Feb. 12.—It is reported that General Graham, in the War Council to-day, advocated an advance from Suakim without waiting for the laying of a railway. General Wolseley has sent orders to Colonel Butler, commander at Gubat, to send a steamer up the Nile on a reconnaissance toward Khartoum. Spies left Gaklan on Monday for Omdurman to ascertain the fate of General Gordon.

A rumor from Korti is that Colonel Butler attacked the Arabs, entrenched at Metemneh on Tuesday, and carried the position by assault. No official confirmation has been received.

## A Council of War.

LONDON, Feb. 12.—A Council of War was held at the war office at noon to-day. The Duke of Cambridge, Commander in Chief, presided. The principal officer thus far selected for service in the new expedition to Suakim was present. The Duke of Cambridge will, on next Saturday, review the guards previous to their departure for Egypt. All members of the guards absent on leave have already reported for duty.

## A Hard Year for Correspondents.

LONDON, Feb. 12.—A dispatch from Korti states that the correspondent of Reuters's Telegram Company was severely wounded in Tuesday's action. He is with the rest of the wounded at Duika Island.

KORTI, Feb. 12.—Captain W. H. Gordon, of the Welsh Fusiliers, correspondent of the Manchester Guardian, has been missing since January 16. On that date he was seen twenty miles south of Korti on his way along to Gakdul wells.

## GENERAL FOREIGN NEWS.

Courbet to Watch for Steamers--Nationalists' Convention--Death of a Russian Agent.

PARIS, Feb. 12.—The government has ordered Admiral Courbet to watch for the steamers Atlantis, from Hamburg, and the Maipiedra, from Liverpool, both for Shanghai, with guns and munitions of war. The steamers will be warned at the Suez Canal against proceeding to any Chinese port. The delegates of the Irish Nationalist Conference at Paris invited James Stephens, ex-Head Center, to preside over the deliberations. He declined, unless they would exclude all resolutions in favor of dynamite.

George Brown, the reputed paid agent of the Russia agitators, died from erysipelas in the Paris Hospital and was buried to-day. Ten delegates to the conference attended his funeral.

## Eva Mackay's Marriage a Gorgeous Affair.

PARIS, Feb. 12.—Miss Eva Mackay was married to-day to Don Ferdinand Julien Colonna, Prince of Galatro. The ceremony was private, performed with the pontifical high mass, by Mgr. De Reusse, Papal Nuncio, in the Nuncio's Chapel, this city. But forty persons were present. The nuptial benediction was administered by Mgr. De Reusse, who also delivered the marriage address. The civil ceremony of marriage, which is required by the French law, was performed yesterday. The witnesses to this were Prince Colonna Doris, Prince of Colonna, United States Minister Morton, and Duke De Ceres. After the celebration of the religious rite to-day, Mrs. Mackay, mother of

## the bride, gave a grand bridal reception, which, in every respect, must rank with the most magnificent festivals of French history.

The reception was especially distinguished by the quality of the guests, among whom were included about every person of distinction and worth in French society. conspicuous among these were General Comte Menabrea, the Italian ambassador to France, Count Camonis, and Madame Wyse-Bonaparte.

## Lord and Lady Byron's Unpublished Letters.

LONDON, Feb. 12.—A number of unpublished letters of Lord and Lady Byron are offered for sale at public auction. In one letter Lady Byron writes: "Lord Byron married me with the deepest determination of revenge, which he avowed on the day of our marriage, and which he has executed ever since with systematic and increasing cruelty." There are other letters in the same strain, also the correspondence of Lady Byron with Augusta, the poet's sister, referring to the family differences. The letters suggest nothing to support the scandalous charges of Mrs. Harriet Beecher Stowe.

## The Congo Country.

LISBON, Feb. 12.—It is announced that the government of Portugal and the International African association have been enabled through the mediation of France, England, and Germany, to reach an understanding in regard to the rights claimed by each along the river Congo. This understanding is in complete harmony with the status secured by the association in its conventions with the powers which need their offices in mediation, and it is understood that Portugal is preparing to sign an agreement with the association similar in every essential respect with those already signed by Russia, England, Germany and France.

## British and German Rights.

BERLIN, Feb. 12.—The British and German Commissioners, appointed for the purpose, will soon meet in London to discuss the modes of adjustment of the disputes between England and Germany, concerning their respective rights in the South Sea Island, New Guinea and Fiji Islands.

## A Missive Policeman.

WADSWORTH, Feb. 12.—Policeman St. Cherb was sent to Kirvelvik, on special duty, during the meeting of the three Emperors at that place, and has not been seen since. It is feared he was murdered for political reasons.

## A Forger Sentenced.

VIENNA, Feb. 12.—A man named Coleman, charged with forging English notes, was sentenced to eight years penal servitude. He was previously convicted of forgery at Rochester, N. Y. His aliases are Miller and O'Donovan.

## THE WEATHER.

The Snow Blockade Has Been Generally Removed, and Trains are Again Running--News from Many Points.

CHICAGO, Feb. 12.—The weather throughout the Northwest continues very cold, but the railway blockade appears to have been generally lifted, and trains are beginning to move in all directions. Passenger trains which left for the West and Southwest are reported as having made good time.

The resumption of freight traffic is expected to begin on all roads to-day. The temperature here at 8 o'clock was 6 degrees below zero, at Omaha 6 below, at Dubuque 15 below, at Fargo 29 below, at Winnipeg 25 below. The embargo on traffic caused much distress among the poor, and many manufacturing were compelled to haul coal several miles. A coal and milk famine was threatened.

Owing to the freight blockade most of the live stock that has arrived in Pittsburg since Monday was drawn from a radius of fifty miles of Pittsburg. Unless the weather moderates sufficiently in the West to permit of rapid transportation a flesh famine is imminent.

Some of the delayed stock trains reached the yards during the day, and it is believed now about all of them, in regard to which there were fears, or their loads have been put into safe quarters.

Freight traffic in and out has been resumed to the extent of transporting necessities at least. There are but two other minor roads and a few small branch lines yet in drifts. At 11 o'clock to-night the thermometer indicated 9 degrees below zero. It was clear, with a sharp cutting breeze from the west.

TRON, N. Y., Feb. 12.—The Schuylerville train on the Boston and Housatonic and Western Railroad, which left Mechanicville Tuesday morning, is snowbound between Mechanicville and Stillwater. Four engines could not rescue the train, which was then abandoned. The passengers, however, returned to Mechanicville.

NEW ORLEANS, Feb. 12.—A special to the Times Democrat reports the snow storms at Montgomery and Tuscaloosa, Ala., as the heaviest snow ever known. The snow at Vicksburg last night delayed railroad trains, and a fog on the river checked the movements of boats. There is snow also at Shreveport La.

CHATTANOOGA, Tenn., Feb. 12.—A heavy snow storm here to-day, and the snow is still falling. Dispatches to the Times from the principal points in Alabama and East Tennessee state the storm is general. There has been a heavy fall of snow at Meridian, Miss.

MONTGOMERY, Ala., Feb. 12.—The snow began falling here at 5 o'clock this morning, and is still at it (11 p. m.) The ground is hard frozen, and the depth of snow greater than known in many years.

## Train Wreckers at Work.

MARSHALL, Tex., Feb. 12.—An attempt was made to wreck the passenger train on the New Orleans division of the Texas Pacific Railroad late last night below Marthaville, La. The rail on the bridge was taken up. Fortunately a wild freight struck the bridge half an hour ahead of the passenger, which carried 300 lives. The engine and eleven freight cars were hurled from the bridge. The entire freight was badly wrecked. The engineer and fireman McCloskey escaped unhurt.

There was a grand Democratic banquet at the Monongahela House, Pittsburg, last night to rejoice over the victory last November.
