

**REDUCTION OF WAGES.**—We have before had occasion to refer to the "Pennsylvania German," a weekly journal, devoted to the Democratic cause of Harrison and Tyler, and conducted by F. J. Grund, Esq., a gentleman of extensive literary reputation both in this country and Europe. The following admirable article is taken from the last number of that paper. We commend it to the attention of our workman.

**Mr. Buchanan's remarks on the Sub-Treasury.**  
"In Germany," says Mr. Buchanan, "where the currency is purely metallic and the cost of every thing REDUCED to a hard money standard, a piece of broadcloth can be manufactured for fifteen dollars: the manufacture of which, in our country from the expansion of paper currency, would cost one hundred dollars.—What is the consequence? The foreign French and German manufacturer imports this cloth into our country, and sells it for a hundred dollars. Does not every person perceive that the redundancy of our currency is equal to a premium of one hundred per cent. in favor of the foreign manufacturer?"

**Advantages:**  
"The comparative LOW PRICES of France and Germany have afforded such a stimulus to their manufacturers, that they are now rapidly extending themselves, and would obtain possession in no small degree, even of the English home market. IF IT WERE NOT FOR THEIR PROTECTIVE DUTIES. While British manufacturers are now languishing, those of the Continent are springing into a healthy and vigorous existence."

We would request the Hon. M. Buchanan to inquire a little more deeply into German history and political economy, before he commits himself, on the floor of Congress, with such wholesale absurdities as the above. If the Germans manufacture broadcloths and other articles cheaper than the Americans, it is not owing to the HARD MONEY CURRENCY; but to the excessive competition of labor, which not only reduces the prices of goods but also that of living below the standard of the United States. A man may live in some parts of Germany on \$800 a year and keep a carriage; but does this cheapness enrich the mechanic or the husbandman? Suppose a German earns 12 1/2 cents a day, and is able to live on 10 cents; and an American, owing to the high price of every thing, earns a dollar, but requires 80 cents to live upon? Will the American, in course of time, not be able to buy out the German? And as for the hard money currency, which the Hon. Senator lays such a stress upon, does he not know that the two largest German States, Prussia and Austria, have a paper currency; the Prussian *Treuer Scheine* being in circulation all over Germany, and the *Notes of the Austrian National Bank* equivalent to cash from the Rhine to the Danube!

The fact is that the great stimulus given to the industry of the Germans, by the Tariff-Union, the wisest and best measure that ever emanated from the Cabinet of Berlin, has, in every part of Germany, so far increased the demand for a convenient medium of exchange as to call a number of Provincial Banks into existence, which now flourish in the principal towns of Germany. Did not the English, with their flush paper currency, undersell the Germans in their own marts at Leipzig and Frankfurt on the Main, in spite of the hard currency of the latter, until the wisdom of the king of Prussia protected the German manufacturer, through the medium of the *TARIFF LEAGUE*, from the dangerous and fearful competition of Great Britain? And what is the moral Mr. Buchanan and his confederates wish to draw from these facts which ought to speak in a voice of thunder to the American mechanic and laborer? Why, just the reverse of that which every reasonable man would draw from it, viz: let's have an exclusive SPECIE CURRENCY, AND AWAY WITH THE TARIFF!

The Westchester Star forcibly and justly observes:—"The proclamation of the Governor, convening the Houses on the 17th inst., is the severest rebuke we recollect ever to have seen from an Executive to a Legislature, and what adds to its poignancy is its palpable justice."

**IMMENSE SNAKE.**—The Hon. W. W. Bird had, on the part of Esauign Bird, 4th N. L., presented the Asiatic Society the skin of an immense snake, which he styled a Boa, but the curate's opinion was that it was a Python. It was stated to have been shot by Esauign Bird, after it had swallowed a spotted deer. The snake was twenty-one feet in length; and that part of his body where the deer was, when he was shot, measured upwards of three feet in breadth.—East India Telegraph.

A clerical friend who has had occasion recently to make enquiries on the subject, sends us the following table of the number of churches in New Jersey, including all denominations, as far as he could ascertain. The number is believed to be correct:

Presbyterian,	90	Episcopalian,	40
Baptists,	65	Dutch Reformed,	57
Methodists,	74	Quakers,	67
Other denominations,	10	Total,	383

According to the calculations of a German author, of the 1000 English travelling on the continent, 333 are officers on half-pay, 100 ruined gamblers, 50 Greeks, 200 grooms, jockies, ladies' maids, and governesses, and to pass over the rest of the statistical table, one only who goes abroad "in order to improve his mind and his heart."—Penn. Inq.

**A SLEEPER.**—A story is told in a London paper, of a person named Bradley, aged 22 years, who had been in one continued nap for the last 27 weeks. He is kept alive by gruel and other liquids, which his mother pours into his mouth. His body is described as much wasted; and the faculty had not been able to explain his mysterious case.—Ibid.

Proposed to publish by subscription,  
**A POLITICAL PAMPHLET,**  
TO BE ENTITLED  
**THE TIPPECANOE TEXT BOOK**  
AND  
**LOG CABIN CABINET,**  
COMPRISING a biographical memoir, a mass of facts, official documents, accounts of battles and anecdotes and events, illustrative of the character and services of Gen. Wm. H. Harrison, the people's candidate for the presidency of the United States, compiled from "NILES' REGISTER" and other historical works.

BY WM. OGDEN NILES,  
LATE Editor of "NILES' REGISTER,"  
AND respectfully dedicated to the  
YOUNG MEN OF THE UNITED STATES.

The character and services of no man that ever lived have been so slightly appreciated, or so little understood, by a large portion of the American people, as those of GEN. WM. HENRY HARRISON, for they have regarded him merely as a victorious general, whose highest merit is success in contests in the field, and whose chief glory is the splendor which illumines the warrior's brow. But as great and enduring as is the fame which he has won in fighting the battles of his country, we believe that his fellow-citizens owe him a deep debt of gratitude for his zeal and ability in defending our civil institutions—for the heart-felt patriotism he has manifested in promoting the national honor and interests, and the humanity he has displayed in advancing the welfare and happiness of all who have served under him in the tented field, or been thrown in his path by poverty or misfortune in social life. Indeed, as deeply as we have been impressed with the extent and value of his services in the battle field and in the councils of the nation, we have been surprised, on referring to the official records of impartial history, that an individual so pre-eminently distinguished by all those qualifications which should adorn the chief executive officer of this great republic, has been so long permitted to remain in the obscurity of a "LOG CABIN," and finally doomed to drink "HARD CIDER," as the only reward for his services, by the parasites of power, who, feasting on costly viands and clothed in purple and fine linen, dare insult honest poverty which scorned wealth if purchased at the expense of the country.

To exhibit the character and services of GEN. HARRISON as they are recorded in "NILES' REGISTER" (admitted by all parties to be a fair and impartial record), by extracts from his official correspondence—incidents illustrative of his coolness, bravery and decision in the field and intelligence and wisdom in council—his utter disregard of all selfish considerations when he had an opportunity of promoting the interests or contributing to the happiness of his fellow-citizens—his generosity and humanity—will be the chief objects of the "Tippecanoe Text Book," which will be so arranged as to enable every friend of the people's candidate for the presidency, on the hustings, or in private debate, to refute slander or establish truth by reference to official facts and documents which no man will dare deny. In short, to place within the reach of every lover of truth, a complete history of Gen. Harrison's acts and sentiments for a period of nearly thirty years. "NILES' REGISTER" is daily referred to by politicians and is the principal source from which the materials to be used in the present contest must be drawn; and, independent of the vast benefit which must result from the "Text Book" in enlightening the public mind, it will save much labor and research.

"THE TIPPECANOE TEXT BOOK AND LOG CABIN CABINET" will be published on the first of May next, and comprise ninety six pages, closely printed, and illustrated with handsome engravings, at \$10 00 per hundred—single copies 12 1/2 cts. payable in advance.

Address DUFF GREEN or WM. OGDEN NILES, (who will superintend the publication,) postage pa.  
Baltimore, May 17, 1840.

Note.—The Text Book will be published in pamphlet form, but as a newspaper, and will be subject to newspaper postage only. This will enable clubs and booksellers at a distance, who order it for sale or distribution, to receive it on terms that will place it within the reach of almost every reader.

**RESOLUTION OF THE STATE CENTRAL COMMITTEE**  
At a meeting of the State Central Committee, held at North Bed, April 17, 1840, it was unanimously

**Resolved,** That the pamphlet to be published by DUFF GREEN, and compiled by Wm. Ogden Niles, late Editor of "NILES' REGISTER," from the materials contained in that work, and in other authentic records, to be entitled "THE TIPPECANOE TEXT BOOK, AND LOG CABIN CABINET," be earnestly recommended to the State Committees and Tippecanoe Associations of the Union, as a most valuable auxiliary in aiding the election of the People's candidate to the Presidency, by exhibiting by OFFICIAL DOCUMENTS his great services in behalf of his country, in the cabinet and in the field, and his peculiar fitness for that high office;—and that they be earnestly invited to extend its circulation in every quarter of the Union.

N. F. WILLIAMS, Chairman.  
(Test) GEO. W. KREBS, Sec'y.
