LOSS OF TEETH SUPPLIED.—The best artificial teeth, manufactured in this city, are fitted at No. 7 Sharp street, on lower terms than at any other office, and on the most elegant and natural manner.—The advertiser has for 18 years past been constantly engaged in constructing for other dentists most difficult cases of teeth, and trusting to his own ingenuity and mechanical skill, he challenges any one in the city to produce of their make, teeth equal to his, either as single teeth, partial or complete sets, with or without artificial gums, in point of beauty, workmanship, and the imitable approach to natural teeth. Complete sets fixed by atmospheric pressure at half the charges made by other dentists, and warranted on every inferior to any in the profession.

ASTONISHING CURE. A MOUTH WITHOUT TEETH IS A MOUTH WITHOUT CHARMS.—DR. H. KNAPP, DENTAL SURGEON, 31 South Charles street, in Fayette street, would call the attention of the public to the preservation of TEETH. Millions of Teeth are now being yearly lost which might be preserved by timely and judicious treatment; those, therefore, who value the preservation of their Teeth, will please call on Dr. Knapp, who may require artificial ones inserted, and he warrants to perform his operations to the entire satisfaction of those who may honor him with their patronage. PRICE TWO DOLLARS PER BOTTLE.—THIS Medicine had been used for more than seven years before an effort was made to imitate it.—The great demand and its wonderful success have induced a great number of persons to imitate it in various ways.—Upwards of fifty different mixtures have been got up in imitation of it, which is a convincing proof of its being a medicine of great value.—Some are selling Sarsaparilla and other syrups, imposing them on the ignorant for the Panacea, at reduced prices; others are mixing the genuine medicine with molasses, &c., making 3 bottles for one; and others are selling their own inferior mixtures, and nominating a trustee or trustees, to be appointed for their benefit; and to give all the information in their possession to the said commissioners, to enable them to report to Baltimore county court, agreeably to an act of Assembly, passed at December session, 1831, entitled "an act relating to insolvent debtors;" and that the 3d day of July next, hath been fixed for the final hearing in his case, before the said commissioners.

PROSPECTUS FOR THE PILOT.—A Whig Newspaper, edited and published by DUFF GREEN. The undersigned proposes to publish in Baltimore, the PILOT EXTRA, in pamphlet form, of Double Royal size, from 1st May until the 15th November, for ONE DOLLAR, payable in advance. This paper will be devoted to the support of the election of the Whig candidates for Presidency and Vice Presidency, and this prospectus is issued under the expectation that efforts will be made to give it an extensive circulation, as the means of counteracting the influence of the Extra Globe. The Post Office Department also furnishes a corps of some fifteen thousand men, most of them active political partisans, organized for the distribution of the Globe. This influence may be counteracted by an active co-operation on the part of the young men. The Pilot is established under the auspices of the Whig party of Baltimore; of the Whig members of the State Legislature, and of the friends of Gen. Harrison in Congress, and the Whig Young Men's Association. It will resolve that, wherever the Post Office Department may send the poison of the Globe, the antidote of the Pilot shall be administered. All that we ask is to be heard by the people. It is for them we speak, and if we can get a hearing we have no apprehension of the result. The people will vindicate their own cause and hurl their oppressors from office. Baltimore is a central point. The Pilot will be surrounded by active, intelligent and ardent Whigs—old and young. The meeting of the Convention in May, will enable the young men, to complete an efficient party organization, and give to the editor the means of extended usefulness. He asks the press, throughout the country, to insert this prospectus, and the friends of the good cause, especially the young men every where, to exert their influences in obtaining subscribers, to be forwarded by the earliest possible day, through their friends in Congress, or directly to him in Baltimore. DUFF GREEN.

TERMS.—Payable in advance. Daily Pilot, - per annum, Six Dollars. Single Daily Paper, - Two Cents. Sent by mail, in advance, - Five Dollars. Extra, from May 1st to 15th November, in pamphlet, and Double Royal size, - One Dollar.

IMPROVEMENTS IN DENTAL SURGERY.—It has for many years been a great desideratum among European and American Dentists to manufacture TEETH from incorruptible materials, which should be perfectly imitations of the natural. Many have devoted years to unsuccessful experiments, and others have succeeded in manufacturing Teeth of materials similar to the porcelain ware, but generally they have an opaque white appearance, by which they are easily distinguished from the most beautiful natural teeth by the most scrutinizing observer. After long and tedious experiments, the subscriber has succeeded in manufacturing Teeth of materials entirely equal to the most beautiful natural teeth. They have a semi-transparency and are made of various size and shades. In cases where absorption of the alveolar process, or other causes may render it necessary, he will cast of the same materials attached to the Teeth: artificial gums, which shall imitate the Gum and supply the loss of substance which would be given a pamphlet on the subject of worms. It is entirely impossible for these Teeth to change their color or cause decay. They will wear in use, in such a manner that they will retain the use of the voice perfectly, and materially assist in mastication, and to that they cannot be distinguished from the most beautiful natural teeth by the most scrutinizing observer. He also performs all the various operations in Dental Surgery, according to the latest scientific improvements in the art. The following testimonials from gentlemen whose respectability needs no eulogium, are very fully submitted to the public. From N. R. Smith, professor of Surgery in the University of Maryland. I have examined specimens of Dr. F. H. Knapp's, ingenious Teeth, manufactured by Dr. F. H. Knapp, an ingenious Dentist of this city. In their form, color, etc., they admirably imitate the natural teeth. Being completely incorporated in the jaw, which afflicts the Teeth, and also apparently very strong, they must be peculiarly fitted for the purpose for which they were designed. From Professor Ducloux. Having examined some Artificial Teeth prepared by Dr. F. H. Knapp, I learned from him what are the principal ingredients that enter into their composition, and the nature of the material by which they are colored, I am induced to say, that they will prove to be as durable as the natural teeth, and, in fact, more so, in that they are incorruptible. Dr. Knapp, having discovered the art of varying the colors of the enamel which covers his Artificial Teeth, is thereby enabled to impart to them the natural tints of the human Teeth. These Teeth are usually found to possess a circumstance that will doubtless render them more acceptable to the public, and that is, that they are perfectly incorruptible. From S. K. Jennings, Professor of Materia Medica Theophrastus, &c. in the Washington Medical College. Having been favored with an inspection of a considerable number of incorruptible Artificial Teeth, which were made by Dr. F. H. Knapp, I cheerfully concur in the opinion of N. R. Smith, to that they are Professor N. R. Smith and J. T. Ducloux. He has also received the Teeth from Prof. Thomas P. Jones, author of Conversations on Chemistry, Prof. F. May, Prof. H. Lindley, Professor J. C. Hall, and Prof. Thomas Sewall, of the Washington Medical College, and very many other gentlemen of the first standing in this country. He offers these Teeth for sale to Dentists on the most favorable terms. Teeth, Gold Foli, &c. sent per mail when ordered. P. H. KNAPP, Surgeon Dentist, 34 door from Charles street, in Fayette street, Baltimore. WATCHES! WATCHES! WATCHES! G. D. BALDNESS—A BEAUTIFUL HEAD OF HAIR is the grandest ornament belonging to the human face. How strangely the loss of it changes the countenance and prematurely brings on the appearance of old age. It is a disease which is not cured by any means, and sometimes even skin society to avoid the jests and sneers of their acquaintance, the remainder of their lives is consequently spent in retirement and gloom. The loss of property fills the generous thinking youth with being sinking gloom as does the loss of his hair. To remedy all these ailments, and to prevent the falling out of the hair, and to give it a luxuriant growth, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling out at the first application, and a few bottles restores it again. It likewise produces eyebrows and eyelashes, prevents the hair from turning gray, and cures curd beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtue of Oldridge's Balm, are particularly presented to the public. ROBERT WHARTON, Esq., late Mayor of Philadelphia, has certified, as may be seen below, to the high character of the following medicine, and that he has used it with success. The undersigned do hereby certify that we have used the Balm of Columba discovered by J. Oldridge, and have found it highly beneficial, and we are not only satisfied against the falling out of hair, but also a certain restorative. WM. THATCHER, Sen.
