POLITICAL.

ADDRESS OF THE Whig Convention, held at Richmond on the 5th of October, 1840, TO THE PEOPLE OF VIRGINIA.

In the general exercise of the Executive patronage, during the whole course of the administration we are reviewing, we doubt if we trace can be found of any motive, object or principle, in the choice of public officers, but the reward of party devotion, or the punishment of independence, and the escalation in both ways, of the presidential power...

There is only one other point, intimately connected with those we have already presented to the consideration of our fellow-citizens, to which, for the present, we desire to call your attention. To curb and arrest the tendency of the Federal Government, to the concentration of all power in the Executive hand, no expedient has been suggested so likely to be efficient as the restriction of the Presidency to a single term of office...

How ARE YOU OFF FOR SOAP?—A Tennessee exchange relates the following: A census taker in a neighboring county, a very clever fellow by the bye, called on an old lady lately, and among other questions, asked her how much soap she made last year...

NEW INVENTION.—Among the new and useful improvements of the day, is a newly invented Grain Reaping Machine, by a Mr. Lamb. It is moved by horse power, like a common case, and cuts the grain by a series of horizontal revolving sickles...

Da WATLAND.—Among the passengers who sailed in the George Washington, for Europe, this morning, was President WATLAND, of Brown University. He will probably be absent about a year—having been sent by the University on a tour of literary observation.

Executive officers, dependent as they are on the absolute pleasure of the President, to take part in the business of electing, are to influence the votes of others in support of the administration. President Van Buren, we suppose, must hold the same opinions, we suppose, must hold the same opinions, we suppose, must hold the same opinions...

We turn now, with pleasure and with hope, to the solemn declaration of Gen. Harrison in a speech lately delivered at Dayton, in Ohio—"Should I ever be placed in the Chief Magistrate's seat, I will carry out the principles of economy and economy, and the performance of office without election, I will do more. While I will forbid their interference in elections, I will never do ought to prevent their going quietly to the polls and voting even against me and my measures. No American citizen should be deprived of the power of voting as he pleases."

We have presented these topics thus prominently, for the consideration of our fellow-citizens, because of their immense weight and importance in our own view of the state of the Republic. To correct those dangerous innovations to the exercise of the Executive veto, from which the Republican spirit of the Constitution revolts with aversion and alarm, and to restrain that power hitherto within due and ancient bounds of caution and moderation; to correct the abuses of the Executive patronage, whereby it has been perverted into a system of rewards and punishments, to aggrandize the Presidential office, and to sustain it in its aggrandized position, to rebuke and abolish the detestable and detested maxim, that "the spoils of the vanquished belong to the victors"; to restore the representatives of the People and of the States to their just dominion in our councils; and to counteract the tendency of the Government to a simple Elective Monarchy; these great objects constitute a ruling motive of our opposition to the re-election of President Van Buren, and of our preference of Gen. Harrison.

There is only one other point, intimately connected with those we have already presented to the consideration of our fellow-citizens, to which, for the present, we desire to call your attention. To curb and arrest the tendency of the Federal Government, to the concentration of all power in the Executive hand, no expedient has been suggested so likely to be efficient as the restriction of the Presidency to a single term of office...

It is not a mere change of men, but real, vital reform, that we desire and aim at. If what we have said upon the topics to which we have alluded, be founded in reason, this country ought to be decisive in its own wisdom, and to follow the dictates of its own conscience, uncontrolled by the circumstances, which he placed, he would have accomplished what Harrison is solemnly pledged to accomplish by his example, the restriction of it to one term.

How ARE YOU OFF FOR SOAP?—A Tennessee exchange relates the following: A census taker in a neighboring county, a very clever fellow by the bye, called on an old lady lately, and among other questions, asked her how much soap she made last year...

NEW INVENTION.—Among the new and useful improvements of the day, is a newly invented Grain Reaping Machine, by a Mr. Lamb. It is moved by horse power, like a common case, and cuts the grain by a series of horizontal revolving sickles...

Da WATLAND.—Among the passengers who sailed in the George Washington, for Europe, this morning, was President WATLAND, of Brown University. He will probably be absent about a year—having been sent by the University on a tour of literary observation.

GROSS INSULT OFFERED TO FOREIGNERS.—We ask all foreigners to reflect upon Dr. J. J. Moore's remarks addressed to you in the Court House and other places. He tells you there is no necessity for your being naturalized to entitle you to a vote—and he tells you to claim the right, and have it "even if you have to wade to your knees in blood to obtain it." What is his object in making this statement at this particular time? We ask you what is his object? He knows that the Constitution of the United States, and of this State and the laws of the State forbid this. He knows the Supreme Court of this State has decided this question. He knows it is contrary to all established usage. He knows that no honest judge of an election will permit you to vote unless you are naturalized. We urge you to go to the polls and vote, even though you have to fight your way in blood to your knees. Dr. Duncan knows that he will be beaten if the legal voters of this city are polled. He wants to prevent this. He tells you that he will wade to his knees in blood to obtain it, as though you were wulves and desperadoes.

We want you to go to the polls, create a mob and shed your blood, that he may hold on to his office. We ask you, is not this a gross insult upon your character, your patriotism and your intelligence? Doctor Duncan is striving to make you his slaves.

BURNING OF THE CAROLINE.—The arrest and subsequent discharge of Mr. McLeod, accused of being concerned in the destruction of the steamboat Caroline of Schuylers, in 1837, seems to have revived, in some degree, the animosity that prevailed in Canada at that time. Mr. McLeod, who was lately Deputy Sheriff of the Lincoln District, has written a long letter to the editor of the Niagara Chronicle, relative to the matter. In speaking on the subject, the Montreal Herald says: "Since Canada proceedings have been adopted against British subjects, for unauthorized participation in an act which was committed by the express authority of the Colonial Executive, and subsequently sanctioned by the Imperial Government, it is high time that it should be made a national question, involving, as it does, the honour of Great Britain in no slight degree. Mr. McLeod was put to great personal inconvenience, and had to endure repeated insults from the Sovereigns of the United States, besides being put to the expense of about fifty pounds, without any hope or chance of reparation. Besides all this, he was not one of the individuals in the expedition against the Caroline, although he stated that had he been, he could at once have acknowledged it while in American custody. It was, however, a gross injustice to have subjected his participation in that honorable and daring act, and if he had taken part in it, no fear of consequences would have prevented him from avowing it at once."

BRITISH MILITARY MOVEMENTS.—We mentioned a short time since, says the New York Express of Monday, the head quarters of the British troops in the lower provinces were about to be removed to Fredericktown, New Brunswick, the command in chief having devolved on Sir John Harvey. The Fredericktown Sentinel speaks of the removal as a matter long resolved on, on account of the important position of New Brunswick as regards the Boundary, and says it has been made just now, as the appointment of a new Governor, Mr. Scott, gave opportunity for so doing, without giving any cause of remark to the American Government. Fredericktown is nearer the scene of possible danger, in case of any renewal of border difficulties. The Sentinel also mentions an intention of erecting a barracks at Woodstock, 12 miles from the American post at Houlton.

MARRIED.—On the 22nd August, at the Parish Church, Hibleton, by the Rev. John Vernon, James Hobbins, Esq. of Chaddesley Corbett, after a lengthened courtship of four days to Harriet, youngest daughter of Mr. William Chambers, of the new House, Hibleton. The youthful bridegroom was rather past his prime, being in his 71th year, and consequently had no time to lose his fair bride, (who has seen nearly sixteen summers) had pity on him and took him off-hand, "for better or worse," after he had settled upon her the whole of his property, amounting to upwards of £800 a year. It seems that the newly made Benedict offered his heart and hand to the previous Monday, to Miss Susan Ann Chamberlain, the bride's eldest sister, being refused, made overtures to the next sister, Miss Ann, from whom he also received a refusal; but determined not to be balked in his intention to obtain a young wife, and remembering that "fair hearts never grow fairly old," he tried a third time, and, as before stated, was successful. The bridegroom being unable to resist the pressing solicitations of the persevering wooer. The losing couple are now in this town, spending the honeymoon.—Montreal Herald.

From the Pittsburg Daily American.—AN ANECDOTE OF THE DAY.—We will tell an original anecdote of much interest. Some hardy roughkins, from the pine knots up the Alleghany, were sauntering up town, and had their wild unpractised ears arrested by the sounds of a piano. They could not make it out—it was neither a new play, nor a new song, and they were being overcome with curiosity. The pianist, a young fellow, had been in the alley, and had been playing and singing a Tippecanoe song. "The Mountain boys hoped no offense, but wanted to hear their play 'on that thing.'" "Yes, yes," said they, "but it can't be anything but a Tippecanoe song, but it can't be anything but a Tippecanoe song. Are you for Harrison?" "Yes, all of us," said they. And away she went—rattling off and singing some of her own more favorite Harrison songs. The lads appeared delighted. "If Jim only heard that, do you think he would vote for Mr. Van Buren?" said one to the others. "No, no," said our heroine. "He is a comrade of ours, and a loco democrat, but I think if he heard that song, it would turn him." "Go fetch him," said she, no way daunted; and the three started off, and directly returned with their stubborn and incredulous comrade. The young lady had now her position crossed, and the young men being disappointed, they played and sang some of the most lively and popular Harrison songs, while Jim himself had to join in the chorus, (tanked the lady, and said he was no longer a Van Buren man, but would go the "whole figure" for Tippecanoe from this out. They all departed, highly pleased. So much for a Pittsburg Whig girl!

UNION OF NEW-BRUNSWICK AND NAVY SCOTIA.—The St. John Chronicle of the 23rd inst., says:—A report has just reached us that a proposition for the Union of these Provinces has been made, and that inquiries will immediately be instituted to ascertain the best means of doing so. ST. JOHN IS NAMED AS THE CAPITAL OF THE UNITED PROVINCES! The late hour at which the information reaches us prevents our making any comment, but we hasten to lay the important news before our readers.

There is a prodigious crying and blowing of noses among the 40,000 office-holders. The price of pocket-handkerchiefs has doubled within the last two weeks. The whole stock will soon be exhausted, and the poor Louis will have to wipe their eyes upon their coat-tails.—Louis Jour.

HOLLZMAN'S MANNING HOUSE.—The subscriber having taken that large and commodious house, with a granite front, corner of St. Paul's and Capote streets, has it now open for the reception of boarders. The house has undergone a thorough repair, and it is believed that there is no house in this city, that is better arranged for the convenience of boarders, and more adapted to the wants of the family. It has two large parlors for ladies and gentlemen's parties, and about forty chambers well arranged, neat and airy. The subscriber pledges himself that neither party or expense shall be wanting on his part to give satisfaction to his guests. In conclusion, he pledges himself to set a good table, and have clean beds and good and comfortable furniture, and to make his charges to correspond with the times. JOHN T. HOLLZMAN, Baltimore, June 20, 1840—334-1/2

REMOVAL.—RICHARD DUVALL respectfully informs his friends and the public generally, that he has removed to No. 218 Broadway, five doors West of his former stand and nearly opposite Hanover street, where he has on hand and still continues to keep a large and choice selection of CARPETING, &c. CHEAPEST AND BEST—AND IN FACT THE ONLY FIRE PROOF ROOF SLATE! SLATE! SLATE!!! WILLIAM BAYLEY, Slater, has received a supply of these beautiful WELSH SLATE, the roofs of which, (the put on last fall) have been so much admired, in order to obtain the best article in his line, the subscriber has gone to the expense of an experienced judge of the article, in England, visiting all the Welsh quarries and purchasing the best, without regard to price, and invites an examination of his present stock, being satisfied it will compare advantageously with any other of the kind ever brought to this market. He has also constantly on hand a large supply of AMERICAN SLATE, from the best quarry known on the continent, and trusts he will be able to give entire satisfaction to those who may favor him with their work. To those not acquainted with the quality of his slate, that the cost of a slate roof is very little (if any more) than that of a shingle, and considerably less than those pretended to be fire proof roofs, which are made of iron, or of brick, get into a melting wood, and disappear, leaving the property they were intended to protect, an easy prey to the devouring element. The subscriber's yard is on Lindo Dock, below Fleet street bridge; dwelling, Front st., next to the Theatre. WILLIAM BAYLEY, Fire and Marine Insurance Agent, as above. oc 10
