

PILOT & TRANSCRIPT.

BALTIMORE, OCTOBER 31.

GENERAL INTELLIGENCE.

MASSACHUSETTS. The engineers employed on the route of the Western Railroad, have expressed an opinion that the whole distance from Springfield to Albany, with the exception of two miles at the summit, may be completed for use by the 1st of July next.

PENNSYLVANIA. WEATHER AND RIVERS.—We had a hard frost last night, says the Pittsburg American of the 29th inst., and to-day we experience all the rigor of winter weather.

FOUR feet water is reported in the channel, and falling; boats of 150 and 200 tons are departing, carrying from 60 to 75 tons each.

NEW YORK. FORGE AND IRON WORK.—We mentioned in a paragraph in our yesterday's paper, says the N. York Commercial, that Messrs L. B. Ward & Co. were making a wrought iron shaft, which, when completed, would weigh four thousand pounds, and in the manufacture of which six thousand pounds of scrap and bar iron had been used. Large as that amount appeared to us, we learn this morning that it is only one-half the actual weight; it should have read six tons used in the manufacturing, and its weight, when completed, four tons.

GEORGIA. The Augusta Chronicle announces that the Hon. Richard H. Wilde, of Georgia, who has been for some time residing in Europe, having accomplished the object of his visit, is about to return to Georgia.

BUSINESS AT SAVANNAH.—The Savannah Georgian of the 19th instant, says: "Our wharves are nearly lined with shipping. Above and below our office, for a long distance, there is one continuous line of masts and spars, and floating pennons. Merchandise of all descriptions encumbers the wharves, a great portion of it being intended for the up country, via the rail road. Two hundred wagons are actively employed at the 122 1/2 mile station in removing it, and even this transportation is inefficient. The spacious store-houses of the rail road company are full to the brim of goods to be forwarded. The autumn business has seldom commenced so early, we presume, as the present year. Our city is still healthy, and visitors are returning from the colder climates of the North by hundreds."

MICHIGAN. A letter from Union City, Michigan, dated Sept. 19, states that the Potawatamians, who have been ordered by the Government to be removed beyond the Mississippi, manifest great reluctance at leaving the State. They say that the treaty, under which the Government is acting, by which their lands were exchanged for lands beyond the Mississippi, was made by a few unauthorized chiefs, who were cheated by the whites while they were drunk. Gen. Brady, with about two hundred regulars, and one hundred horsemen, are quartered at Marshall, from whence they have been making various excursions through the forest in pursuit of the Indians. They are secured without bloodshed, and attempts to remove them have already been taken.

MISSOURI. TROOPS.—A company of one hundred dragoons, under the command of Major Graham and Lieutenant Hallam, arrived at St. Louis on the 19th inst., from Pittsburg. Their destination is Fort Leavenworth.

TEXAS. San Antonio, the Mexican frontier town of Texas, has quite a feudal aspect, and its churches and towers, and moats and bridges remind one of some of the dilapidated cities of Old Spain. It was settled by Spaniards, and by emigrants from the Canary Islands as early as 1730, and once contained a population of some 12,000 or 15,000 souls. It is built chiefly of stone.

CENSUS OF BALTIMORE.—We learn from N. Snyder, Esq. Marshal, that the census of the City of Baltimore has been completed, and that the total population is 101,490 souls—being an increase of 20,865 since 1830.

Allegheny County.—The population of Allegheny County, according to the census just taken, is 15,636—being an increase of 5084 since 1830.

Montgomery County.—The population is 14,659—being a decrease of 5157 since 1830.

Prince George's County.—The population is 10,476—being a decrease of 997 since 1830.

WHERE WERE "THOSE PAPERS"?—A friend from Greenfield, Massachusetts, states that no whig papers were received there, until several days after the arrival of the locofoco papers containing the ex parte statements of the pretended election frauds in this city. Where were they detained?—N. H. Paper.

NORTH WESTERN TERRITORY. THE AMERICAN FUR COMPANY have lately erected in St. Louis a fire-proof warehouse, four stories in height, and 162 feet in length. The value of the furs and peltries obtained by the company the last year, consisting of beaver, buff, otter, deer skins, &c., is about \$250,000. Their operations have been very much circumscribed recently, on the west, by the Hudson Bay Company, who possess the great advantage of introducing the goods required for carrying on the trade free of duty. In the Rocky Mountains expedition, undertaken two or three years since, by the American Fur Company they sustained a loss of \$50,000, being unable to compete with the Hudson Bay Company, for the reason above stated.

The branch of the latter company, in the Columbia, has obtained the present season, about one hundred packs of beaver, worth at least \$40,000, two thirds of which has been taken on the territory claimed by the United States. With this competition, the American Company have found it necessary to confine their trade to the Missouri river and its tributaries, leaving the uncontrolled possession of the Rocky Mountains and the Oregon Territory to the English Company.

The Hudson Bay Company now extend their trade on this side of the mountains, even to within fifty days' travel of that city; and many of the free hunters, who were formerly in the service of the Americans, have found it necessary to apply for employment to the British Company.

This is a branch of trade which is entitled to the same protection from our government that our commerce receives on the ocean, and yet it is entirely neglected. If a drawback were allowed upon the duties on goods employed in the trade we might be able to come in competition with the Hudson Bay Company, but even this is denied.

ATTENTION FIRST WARD.—The five hundred and thirty-four good and true Harrison voters of the First Ward are requested to meet at the Market street, Fall's Point, on Saturday next, at 6 o'clock, for the purpose of attending the Grand Rally at Monument Square. By order, A. B. CHAMBERLAIN, Sec'y.

SYPHILITIC DROPS. TO THE AFFLICTED.—Those who are laboring under the effects of the bad disorders are apprized that a medicine has been discovered, which is sure, and speedy cure for the Venereal disease ever yet discovered. It has long been in use, bestowed blessings and relieving pain—it has superseded all the other remedies, and what they have sunk into oblivion, never more to be remembered, the Syphilitic Drops are rescuing thousands of the afflicted from an untimely grave. In a word, it removes the disease radically in a few days, without effecting the most delicate constitution, or causing any disagreeable effect on its operation. It is so concentrated as to render it efficient in small doses, consequently it is portable and safe, in performing a cure much sooner than any other medicine in the United States, and is sold under the pure name of No cure no pay. Price \$1 per bottle. Also, a medicine for the cure of Gonorrhoea, and a powerful extractor. This infallible Syrup is the discovery of an old veteran in medicine, and has long been in use in private practice, both in England and America, and has never been known to fail in effecting a cure in all cases of mercurial diseases, and where persons had given up the thought of ever getting well. It is indeed an invaluable medicine, and what they have sunk into oblivion, never more to be remembered, the Syphilitic Drops are rescuing thousands of the afflicted from an untimely grave.
