Two of our most enterprising young men have been caught by the lure of the West and like Jason and Orpheus have started out on the hunt of the 'Golden Fleece.' They are N. P. Parsons, one of the prominent and successful teachers of this community, who has also within the past year built up a large and remunerative insurance business, which during his absence will be attended to by his father, J. W. Parsons, and Arthur Saylor, a young merchant, seeking a wider field for his energies than is afforded by the Narrow Valley of the Cumberland. That they may meet with the success they deserve is the earnest and heart felt prayer of their many friends.

STEAMERS REGISTER IN U. S.

Twelve Foreign-built Vessels Purchased for American Trans-Atlantic Trade—Policy Held Legal.

Washington, July 31.—Admission to American registry of 12 foreign-built steamers purchased for the American trans-Atlantic trade was assured when Secretary Lansing transmitted to the department of commerce a written memorandum holding that neither international law or policy stood in the way of the transfer. Registration is expected to be granted without delay. Despite the information of the bureau of navigation that the transactions were financed by Hugo Stinnes, a capitalist of Essen, Germany, the state department took the position that neither this government nor the prize courts of belligerent nations, could go behind the bona fide ownership of the vessels by an American company, and that a mortgage held by a citizen of a belligerent country on a ship would not justify its seizure if the ownership was neutral.

Receive Black Hand Threats. Santa Monica, Cal., July 31.—Cut-outs representing black hands and pasted upon the windows of the residences of Delphin M. Delmas, the attorney; Robert Farquhar, an architect and a son-in-law of the late United States Senator John P. Jones of Nevada, and a prominent banker whose name was withheld, started a police search for men believed to be engaged in a plot against the three men. Threatening letters were said to have been received by Delmas and the other men.

CARRANZA FORCES RETAKE CAPITAL

OFFICIAL CONFIRMATION OF RE-OCCUPATION OF MEXICO CITY BY GONZALES RECEIVED.

TROOPS GUARD RAILROADS

Are Stationed On Outskirts of City to Protect Property—Further Assurances That Order Will Be Maintained Are Given.

Washington, Aug. 2.—Official confirmation of the report of the re-occupation of Mexico City by General Gonzales was received in a statement from General Carranza's headquarters at Vera Cruz. It says further immediate efforts will be made to send foodstuffs by rail to the starving people of the capital. The state department had no direct advices as to the situation there.

Heavily guarded trains, it was reported, are being prepared to leave Vera Cruz with provisions to supplement those being taken into the city by the army. Washington officials are hopeful that General Gonzales has protected the railway line so trains can get through with but slight delay.

Roads Re-Open. Re-opening of the railroad will furnish an important test of the effectiveness of Carranza's operations to protect transportation from the east coast to the capital, officials here believe, while the United States government is determined to relieve the Mexican city famine if Carranza cannot do it.

Information of Carranza's plans came to Washington agency in a message from Jesus Acuna, Carranza minister of foreign affairs, who announced also that the railway between Queretaro and Aguas Calientes, connecting Gonzales with General Obregon's forces, would be re-opened. Unofficial reports say an advance guard of Gonzales' army has taken possession of Mexico City without meeting resistance and that General Gonzales will arrive there at once. Troops have been stationed on the outskirts to guard the railroad lines and water works and assurances have been given that order will be maintained and normal conditions restored.

No News of Villa. Since the announcement, officially confirmed in state department dispatches, that General Gonzales drove Villa's flying column under General Fierro from Pacluca, little has been heard of this southern division of Villa's army. Whether it may again menace Mexico City and obstruct the program upon which Carranza is to base an appeal for recognition by the United States, is a matter of speculation.

The Villa agency issued a statement saying the flying column was operating in the states of Hidalgo, Vera Cruz, Puebla and Mexico. In this it may be able to menace the railroad to Vera Cruz.

Mrs. Becker's Attacks Halted. New York, Aug. 2.—The police, it was announced, have removed from the coffin of Charles Becker, the silver plate placed there by his widow, on which was inscribed the charge that the former police lieutenant, electrocuted at Sing Sing prison, was "murdered by Governor Whitman."

After a police conference Mrs. Becker was informed that the inscription was a criminal libel on the governor and she was prevailed upon to permit its removal. At the rectory of the church at which the funeral services for Becker will be held, it was stated that the coffin would not be received unless the plate in its present form was removed.
