Reason Why Carney Refused to Entertain the Glories of That Particular Subject.

"Andy" Roban, the detective-lieutenant, was a good fellow, in his lifetime originated many stories of his quaint fellow-countrymen.

"A visitor to the city was struck by the beautiful sunset reflected on Lake Michigan, and, as long as he bought drinks, Carney listened to his ravings about the glories of nature.

FIXED IT IN HER MEMORY

Ingenious Method by Which Lawrence Hutton Cured Waitress of Her Forgetfulness.

The late Lawrence Hutton used to say that having to take a little trouble would impress a fact on anyone's memory so that he would never be able to forget it.

"Our waitress, Maggie, could never remember to put the salt on the table, and time after time Mrs. Hutton would remind her to do it.

"Maggie brought it in with a look of wonder on her face.

"Put it right beside the table," I commanded; and when she had done so I added: "Now, I want you to climb up to the top of it, look all over the table and see if there is any salt there."

"Maggie never forgot the salt again."—Youth's Companion.

Burning of the canoes at Camp Tekakwitha is a good example. The use of these extremely frail, unstable and therefore dangerous craft should be everywhere restricted to expert swimmers.

While canoes may still be used by those who are fitted and ready at any moment to swim ashore, it would be better if they were put out of use altogether.

They serve no purpose that is worth while. An expert may derive some pleasure from paddling a canoe about, but to persons who want to enjoy a ride upon the water they offer neither security nor comfort.—Albany Journal.

5 Women Avoid Operations

For years we have been stating in the newspapers of the country that a great many women have escaped serious operations by taking Lydia E. Pinkham's Vegetable Compound, and it is true.

We are permitted to publish in this announcement extracts from the letters of five women. All have been recently received unsolicited. Could any evidence be more convincing?

- 1. HODGDON, ME.—"I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached and I was so nervous I could not sleep, and I thought I never would be any better until I submitted to an operation, but I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman."—Mrs. HAYWARD SOWERS, Hodgdon, Me.
2. SHELBYVILLE, KY.—"I suffered from a severe female trouble. My right side hurt me badly—it was finally decided that I must be operated upon. When my husband learned this he got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and after taking it a few days I got better and continued to improve until I am now well."—Mrs. MOLLIE SMITH, R.F.D., Shelbyville, Ky.
3. HANOVER, PA.—"The doctor advised a severe operation, but my husband got me Lydia E. Pinkham's Vegetable Compound and I experienced great relief in a short time. Now I feel like a new person and can do a hard day's work and not mind it."—Mrs. ADA WILT, 803 Walnut St., Hanover, Pa.
4. DECATUR, ILL.—"I was sick in bed and three of the best physicians said I would have to be taken to the hospital for an operation as I had something growing in my left side. I refused to submit to the operation and took Lydia E. Pinkham's Vegetable Compound—and it worked a miracle in my case, and I tell other women what it has done for me."—Mrs. LAURA A. GRISWOLD, 2437 East William Street, Decatur, Ill.
5. CLEVELAND, OHIO.—"I was very irregular and for several years my side pained me so that I expected to have to undergo an operation. Doctors said they knew of nothing that would help me. I took Lydia E. Pinkham's Vegetable Compound and I became regular and free from pain. I am thankful for such a good medicine and will always give it the highest praise."—Mrs. C. H. GRAY, 1508 E. Pleasant St., Cleveland, O.

Covering Cream Cans. A great part of the value of keeping cream cool on the farm and at the station or creamery is lost if the cream is exposed to the direct rays of the sun while being hauled from the farm to the point of sale. Far too few people stop to realize the importance of covering their cream cans when bringing them in to town. Expensive jacketed cans are not a necessity to keep the cream cool. In summer weather just an ordinary piece of wet burlap thrown over the cans will keep the temperature of the cream as much as 20 degrees below what it would rise to if left uncovered while being transported over the average hauling distance.
