## Good Roads Day Observed.

A number of our foremost citizens turned out yesterday to work on the village street which connects with the Maple Hill boulevard. Some of the business men declared a holiday in the afternoon and locked up their places of business and joined the road workers. They represented all trades—store keepers, bankers, county officials, fishermen and farmers. They all worked with a will and the results at the end of the day will always be a monument to the credit of the people of this community, as there was some permanent improvements made which will last for many years to come.

The men from Maple Hill are to be commended for the interest they showed by joining the village people in this work.
