NUMBER 48

TROOPS ARE HELD IN READINESS

Guardsmen Asked in Illinois, Iowa, Missouri, Kansas and Alabama.

Springfield, Ill.—State troops mobilized as a precautionary measure in anticipation of threatened violence at the Wabash shops in Decatur, were still under arms and ready to move upon short notice.

The governors of Alabama, Kansas, Missouri and Iowa also have been asked to send troops to scenes of disorders, according to reports received in Chicago.

National guard companies at Warrensburg and Booneville have been ordered to gather at their armories as a "precaution," Governor Hyde of Jefferson City announced. The governor stated that the order should not be construed as a mobilization command.

"We merely want to take all possible precautions," he said, refusing to amplify the announcement.

Several box cars in the yards of the Baltimore & Ohio railroad on the West side of Chicago were burned. Police investigating the fire expressed the belief that it was the work of strikers.

A state warrant was issued against T. Huntington, president, and Thomas Hillery, secretary of the Federated Shop Crafts Union No. 11 of Topeka, Kan., charging violation of the Kansas industrial court act in issuing the strike order which resulted in the walkout of shopmen in the Santa Fe shops here July 1.

MORE THAN ONE MILLION OUT

Million Workers Now On Strikes Over United States.

Washington—More than 1,000,000 men and women in the United States are out on strikes protesting against wage reduction.

Figures made public by government agencies revealed that approximately 9,000,000 hours of work a day are being lost because of walkouts.

Labor department figures show a total of 1,150,000 men on strike, including 400,000 railway men.

The strikes, ranging from the major coal and rail industries down to small congregations of workers, affect nearly every industry in the United States directly or indirectly. Labor department officials say the full force of the major walkouts is yet to be experienced.

MONTGOMERY WARD ROBBED

Cheap Jewelry and Three Shotguns Loot of Two Hour Raid.

St. Paul—Six youths, led by a striping with a piping voice, who overpowered and trussed up nine men in bandit style to do credit to a sub-treasury holdup, took possession of the huge Montgomery Ward & Co. plant in the Midway for two hours, ransacked the stocks—and got as the wage of their thrilling labor some cheap jewelry and three shotguns.

The robbery was a combination of melodrama and farce. Although the half dozen young gangsters appeared not to be more than 16 or 17 years old, they had no trouble in disposing of three armed watchmen and six clerks working on an inventory. With their victims bound and gagged the youths picked their way from floor to floor and department to department, looking over a bewildering array of goods.

PACIFIC TIMBER ON FIRE

Thousands of Men Rushed to Aid of Crews Fighting Flames.

Seattle, Wash.—Forest fires are raging in virtually every timbered area of the Pacific Northwest, and thousands of men were being rushed to augment the crews which have been working to control blazes constantly growing in number and size for the last week or 10 days.

Fires are burning in every county of Western Washington from the Canadian border to the Columbia river in Eastern Washington, Northern Idaho, Western Montana, Central and Western Oregon.

The situation is so serious that leading logging operators of Western Washington have with few exceptions abandoned all effort to work in the woods lest they add to the peril by the danger of setting new blazes in the tinder-dry areas.

Nebraska Congressman Dead.

Washington—M. P. Kincaid, member of the House of Representatives from the Sixth Nebraska district, died here the death of the Nebraska congressman occurred at Garfield hospital and resulted from complication of diseases from which he had been ill since early in May.

53 Days' Coal Supply.

Washington—Canvass of the coal stocks of electrical and artificial gas public utility concerns throughout the country showed an average of 53 days supply of coal on hand.

KIDDIES SIX
By Will M. Maupin

SMILE

WHEN you think life's not worth while

Sit straight up and force a smile. Smile and shake your head at fate. Hit the line; don't hesitate. Smile and say "World, how'd'y do; Here's a looking straight at you!" Shake yourself and force a smile—You'll see clear sky after while.

When you meet a brother smile; Grasp his hand walk double file. Smile and say "Hello, old chum; Cheer up; don't be sad and glum!" Smile and every time you do it pays interest to you. Waste of time salt tears to shed—Smile and keep on straight ahead.

In the crowded market place—Keep a glad smile on your face. Frown, and you give birth to doubt—Next thing you'll be down and out. Smile and say, "Things coming fine—Only carload lots in mine!" Waste of time to sigh and sob—Smile, and stick tight to the job. (Copyright.)

SHORTHORN Guernsey Cow and heifer 1 year and two months old; at a bargain if taken at once; cow milking 11 quarts a day; will give 22 quarts when fresh, the fore part of March. Joe Croft, Croftville. tf

Sunday, July 16
11:00 a. m.—Public Worship. Subject, "Jesus and Values."
Miss Borchardt will sing at this service.

HARDING ASKED TO ASSURE COAL

President Harding Asked to Exert Pressure Compelling Truce in Mine Fields.

Duluth—Pressure must be brought to bear to settle the prolonged strike in coal mines if a serious coal shortage in the Northwest is to be averted this fall and winter, the local fuel committee appointed at the request of Julius H. Barnes, president of the United States Chamber of Commerce, telegraphed President Harding after a meeting with the board of directors of the Duluth Chamber of Commerce.

Figures were presented to show that docks at the head of the lakes had 500,000 tons of bituminous free coal and 200,000 tons of anthracite on hand as compared with 4,300,000 tons of bituminous and 400,000 tons of anthracite at this same period last year.

Little or no coal has been coming up the lakes this season and the supplies on hand are being drained, regular shipments being made to lower lake ports, it was said.

The fuel committee pointed out that even if the coal strike is settled during the summer the supply of railroad cars will be insufficient to meet the demands from all parts of the Northwest. Plenty of lake tonnage will be available, it is believed, and if sufficient railroad cars are found, enough coal can be shipped up the lakes in 60 days to tide the Northwest over the winter.

Governor Preus, alarmed by the prospects of a coal shortage in Minnesota next winter, met with state department heads in the Capitol to arrange a survey of the wood supply in the state, to determine the feasibility of cutting thousands of cords of wood to meet the threatened emergency.

The Governor declared that the strike situation has created an unparalleled shortage for this time of year at the head of the lakes. He said that a coal famine must be seriously considered.

"I have no desire to frighten the people of Minneapolis or of the Northwest over this situation or any other," Governor Preus said, "but with all attending circumstances, the situation this year is unparalleled, and certainly demands immediate attention."

ROADS GRANTED INJUNCTIONS

Guardsmen Called in Seven States as Courts Intervene in Strike.

Chicago—The calling out of troops in Illinois, the assembling of soldiers in half a dozen other states and the intervention of the federal courts in the nation-wide strike of railway shopmen marked the close of the eighth day of the walkout.

An injunction against the picketing of the Chicago, Burlington & Quincy shops at Aurora, Ill., by striking railway shopmen was granted by Federal Judge George Carpenter. It was expected that other roads entering Chicago would file petitions for similar action immediately.

The plea for the injunction was presented by B. I. Scott, legal adviser for the road, and asked that the strikers be restrained from picketing, intimidating workers and destroying property.

Attorney Scott informed Judge Carpenter that the railway had issued an ultimatum to the striking employees warning them that unless they returned to work they would lose their seniority rights.

TORNADO WIPES OUT VILLAGE

One Killed, \$100,000 Property Loss, When Tornado Hits S. D. Town.

Sioux City, Ia.—St. Charles, S. D., was practically wiped off the map by a tornado, which swept the Southern half of Gregory county, according to reports received here. One man was killed and many persons were injured, several seriously, it was reported. The damage at St. Charles will reach \$100,000 while in the county it will reach nearly a million.

All of the buildings in St. Charles were wrecked, with the exception of a school house and one residence which escaped the path of the twister.

Crosby Represents Millers.

Chicago—Franklin M. Crosby of Minneapolis was named the millers' representative on a committee of seven appointed by Robert McDougal, president of the Chicago board of trade, to make a study of grain trade problems and suggest means of improving nationwide marketing facilities. The committee was recommended at a conference of representatives of grain exchanges, millers, the department of agriculture and the Chamber of Commerce of the United States. Its report will be acted upon at a second general conference next fall.

Bugle Corps Averts Panic. Hoboken, N. J.—A bugle corps of girls and a brass band of boys stirred fire-fighters to greater activity and quelled a possible panic in an all-day battle against flames.

County Farm Bureau Column

By the County Agent.

CANNING DEMONSTRATIONS COMING

One-day Canning Schools will be held at several points in the county during the week of July 24th-29th. Miss Inez Hobart, home economics demonstrator will conduct the canning work in which all who attend will take part. It will not be the ordinary canning demonstration with the demonstrator doing the work and the talking, telling how to do it, but all will take part in actually canning honest-to-goodness vegetables and fruits. Canning problems will be discussed and the program a thoroughly practical one. It is hoped some will be able to attend more than one of the sessions and afterward act as leaders in communities which are not reached during the coming series. As a guide in making proper provision of material for the schools, the county agent would be glad to hear from any who may plan to attend.

FARM MANAGEMENT MEETINGS

Feeding and cropping plans for a larger production of home-grown feeds will be discussed at meetings to be held during the week of July 24th-29th. These meetings will coincide with the canning demonstrations as to date and location. While the ladies are studying and discussing the most efficient methods in food preservation, the men will study ways and means for growing more feed on the farm and so saving the heavy outlay for feeds bought outside the county. This is a subject well worth every farmer's consideration. With the present high freight rates on rail and water, freight and handling charges present nearly fifty cents out of every dollar paid for feed. And this situation exists generally in northern Minnesota. A banker in one locality made the statement that the farmers' cream checks had gone to pay for feed and that he had loaned four thousand dollars additional for the same purpose.

Mr. S. B. Cleland, in charge of extension service in the northeastern counties, will be present at all the meetings. Every farmer, whether a member of the Farm Bureau or not, is urged to attend and help discuss the problems in which he is interested.

Cook County Day at the Northeast Experiment Station

August 5th, a Saturday, will be Cook County Day at the Northeast Experiment Station, located on the Snively Road about three miles from the terminus of the Woodland car line.

Supt. M. J. Thompson, in charge of the experiment station, cordially invites all Cook county farmers and their wives, too, if convenient for them to attend, and others interested in agricultural development, to visit the experiment station on that day. Arrangements will be made at the farm to care for those who wish to stay over night.

The day will be spent in inspecting the fields, experiment plots, orchard, livestock and buildings. One of the main topics discussed will be poultry keeping. A culling school will be held in which all visitors interested will be able to take part. The principles in culling will be explained and the birds handled by all the "pupils." Those who wish to learn how to cull a flock so as to pick out with certainty the poor layers or good layers will have the opportunity to learn how by actually doing. As at present planned, an early start will be made the morning of the 5th, so as to arrive at the Experiment Station not later than noon. The return trip will be made Sunday. This will mean the use of only one work day. Plan to attend and, if possible, let the county agent know that you will go. That will allow advising the Station as to how many to provide for.

RAINBOW DIVISION REUNION IN MINNEAPOLIS JULY 14-15

Members of the famous Rainbow Division from every State in the Union will meet in Minneapolis July 14th and 15th for the 3rd Annual Convention of the Rainbow Veterans Association. Minnesota is particularly interested in the Rainbow Division for to that division was attached the 151st Field Artillery composed entirely of Minnesota men, and the only Minnesota Regiment which served overseas as a unit. Minnesota officials of the Rainbow

Association are making an effort to have every man who served in the 42nd Division in the State attend the Minneapolis convention. George E. Leach, who was colonel of the regiment, is now mayor of Minneapolis. He is president of the National Association and is making a personal appeal to former members of his regiment to make the trip to Minneapolis for the Rainbow Convention.

Additional Local News

THE PASSING OF THE INDIANS

Week before last one of the Ashwance girls died. She was one of the two sisters who have always been seen together and who during the life of the two were inseparable. They were beautiful girls of fine character, though they lived a primitive life. Now one has gone. Together they were sufficient unto themselves, it would seem, for each bore a happy countenance. Years of such companionship without the diversions that come into most lives and then to have it terminated with one left to mourn is a sad plight. The natural beauty and grace of these girls whose lives have been spent for the greater part away back in the interior of a wooded wilderness caused universal admiration for them and their poise surely evidenced real refinement. For this sorrowing sister life will be very hard. She has the sympathy of the people hereabout to which ours is added. But another sister, older and married, has experienced perhaps a more severe ordeal except that a person is capable of only so much suffering and live. We refer to Mrs. David Cariboo. She recently lost her husband and now her only child, a daughter, is gone. For her also the News-Herald joins a generous public in extending its sympathy. May those who understand them and speak their language see that want of bodily comforts is not added to their already great burden of sorrow.

Fred Bramer of Wales, Minn., is visiting in Grand Marais this week.

Dr. Robertson's Dental Office in the Cabin will be open about Aug. 1. Appointments for work will be made for a short time.

Mr. Thompson and son Bud, of Duluth, arrived on the America Wednesday night. They left here Thursday morning for a trip through the north woods.

Dr. Clio J. McNaughton, eye sight specialist, of Duluth, was a guest of Dr. Graham several days this week.

Mr. Pearson of the Ellice & Pearson Garage of Two Harbors is in town today.

Paul and Billy LaPlante of Grand Portage were in this burg yesterday. Tom Floorman made a trip to Port Arthur Tuesday, returning the next day.

A. L. Wright and family of Duluth are spending their summer vacation in their cottage in Grand Marais.

Ed Toftey and family drove to Grand Portage this morning and are expected to return tonight.

Peter Nelson of Maple Hill is spending the week in town with his sister, Mrs. Matt Lanktree.

Alex Bushman of Grand Portage was in Grand Marais the first of the week.

The Messrs. Jas. and Jack Woods and the Misses Gilbert, McCarthy and Thelma Woods made a trip to Canada Wednesday.

Mr. and Mrs. Peter Rasmussen and Mr. and Mrs. Al Peterson of Aitkin, Minn., spent a week with Mrs. Rasmussen's brother, Hans K. P. Hall at Lutsen.

John M. Blackwell won the quart of ice cream in the guessing contest at Jackson's store last week.

Val Dalbec has been in from the north road camp for three days as a witness in court.

Mr. and Mrs. Frank Bissel of Duluth are visiting Mr. and Mrs. Nels Dalbec on Good Harbor Hill.

Mr. and Mrs. J. H. Winger left for a trip to Duluth yesterday.

SUNDAY SCHOOL PICNIC

Sunday afternoon at 2 o'clock at Brule River. Will meet at 1:30 at the Congregational church. Everybody invited. No Sunday school in the forenoon. Eat your dinner at home. Bring a little lunch along for the afternoon. Several short talks on the Sunday school lesson will be made. All parents are urged to come and help the children have a good time.

C. O. BACKLUND.

At the Congregational Sunday school picnic Sunday afternoon the pastor, Rev. F. W. Stowe will deliver a short address. Subject, "The Force That Unites."

Beginning Monday, anyone who buys a quart of ice cream at Jackson's store gets a guess at the number of beans contained in a glass. The one coming the nearest to the correct number gets a quart of ice cream free. The contest closes a week from Saturday.

FRED JACKSON.
