PROCLAMATION

To the Citizens of Baton Rouge

THROW PHYSIC TO THE DOGS.

PULVERMACHER'S HYPO ELECTRIC VOLTRIC CHAINS, Producing instant relief from the most acute pain, and permanently curing all Neuralgic Diseases.—Rheumatism, painful and swollen Joints, neuralgia of the Face, Deafness, Blindness, St. Vitus Dance, palpitations of the Heart, periodical Headache, pains in the Stomach, Indigestion, Dyspepsia, Urinary pains.

THESE CHAINS were first introduced in the city of New York, less than a year since, and after being subjected to the most thorough trial in every hospital in the city, by Drs. Valentine Mott, Post, Carnochan and Van Buren, it was discovered that they possess strange and wonderful power in the relief and cure of the above class of diseases, and they at once recommended, through the papers of the city, their general use, and their sale and the success that has attended their use is unparalleled.

Previous to their introduction into this country they were used in every hospital in Europe, and are secured by patents in France, Germany, Austria, Prussia and England; and also in the United States.

"Think close and ponder well." The principles upon which it is claimed that the Chains produce their marvelous cures, are, first—that all nervous diseases are attended and produced by a deficient supply of nervous fluid, and an agent that resembles closely electricity, or electric magnetism; and second—that the electric magnetic chains, by being worn over and upon the part and organ diseased, furnish to the exhausted nervous system, by its powerful stimulating effects, the nervous fluid which is required to produce a healthy action through the entire system. No disgusting nostrum is allowed to be taken while using the Chains, but a rigid observance of the general laws of health are required. Brisk Friction upon the part diseased, adds much to the effect of the chains, by increasing their magnetic power.

1000 Dollars will be given to any person who will produce so many well authenticated certificates of cure, both from intelligent patients and scientific physicians, as have been effected by the use of Pulvermacher's ELECTRIC CHAINS. They never fail to perform what they are advertised to do, and no person has ever been dissatisfied who has given them a trial.

In Female Diseases, more than one hundred permanent cures of profluous *stris* have been effected within the last year by the use of these chains. By applying one end of the chain over the region of the abdomen and the other upon the spine just above the hips, the usual severe symptoms incident to that disease are at once removed.

Mode of Use. The chain should be moistened before use with common vinegar, and then one end of the chain should be applied directly to the seat of the pain or disease, and obtain a pamphlet (gratis). It will explain their mode of use to all who may desire it. Physicians are respectfully invited to call and investigate their merits.
