AUCTION SALES THIS DAY.

UNITED STATES MARSHAL PACKARD, at 12 o'clock, at Courthouse in Natchitoches, Natchitoches parish, the "Pre aux Ours Plantation," tract of land attached to that plantation, divided half of a tract of land and an other tract of land—Jacob Taylor vs. Thomas Hunter. At 3 o'clock, at Gretna, near the ferry landing, stock of steamboat.

C. E. GIRARDEY & CO., at 12 o'clock, at Merchants and Auctioneers' Exchange, square of ground and buildings on Franklin street—John N. Clay vs. Barbara Ann Plattner; three arpents of land on Grand Isle, Barataria, Jefferson parish—Charles Boudin vs. Bernard Aragon. At 5 o'clock, at the establishment of Fr. Smith, lot of ground and buildings on Common street, lot of ground and building on St. Charles street, lot of ground on Lacource street; lot of ground in same labouring—succession of Christoval Toledo.

Y. SHERIFF MAXWELL, at 12 o'clock, at Merchants and Auctioneers' Exchange, lot of ground and buildings on Franklin street—John N. Clay vs. Barbara Ann Plattner; three arpents of land on Grand Isle, Barataria, Jefferson parish—Charles Boudin vs. Bernard Aragon. At 5 o'clock, at the establishment of Fr. Smith, lot of ground and buildings on Common street, lot of ground and building on St. Charles street, lot of ground on Lacource street; lot of ground in same labouring—succession of Christoval Toledo.

LOCAL INTELLIGENCE.

BAFAR MENTION—The single sensation yesterday was created by the unpleasantness between Judge Cooley and the Board of Police Commissioners, for particulars of which see another column. Hagan is tied up because B. H. Isaacs accuses him with having obtained a writ under false pretenses. A serious charge pending against P. J. lately a patrolman, was to have been examined before Recorder Houghton yesterday, but accused did not appear, therefore Recorder Houghton requested the bondsman to walk up and settle.

OFFICER PITTS, in the same affair, goes down to the Criminal Court. Leon Purdeville, fifty-five years old, committed suicide by shooting himself yesterday, on board the steam-ship Ocean, lying at Algiers. The cause is unknown. Many citizens in the Third District are not pleased with the style governing fifty dairies in that section. There is solid foundation for serious complaints. Recorder Massicot sends a large portion of his prisoners to the Workhouse under a city law, thus avoiding the trouble now existing in the Criminal Court. The river is about two feet three inches below high water mark.

NOT A LARVINE—Yesterday, Messrs. J. Lockwood and T. Jeff Hall were arraigned before Recorder Houghton on a charge of larceny, entered by Moses Eastman. The case was concerning the accused having made an effort to obtain possession of books and property in the hands of the defunct Second Drainage Commission. The prosecution failed to show that defendants had committed any larceny, hence they were discharged. A DAY GOODS THEFT—Mary Argentin, only seven seventeen, is under arrest and awaiting an examination before Recorder Massicot, on the charge of larceny, preferred against her by Johanna Miller. It appears that Mary had a longing desire to start herself in business, but being poor, adopted the rogue's profession, in which she completely failed, as that larceny officer, Rupp, of the fifth precinct, arrested her immediately after committing the theft. The following forms a part of the valuables taken off, and identified by Mrs. Miller as her property: fifteen dresses, three petticoats, three waists, two pieces calico, sixteen chemises, two joes, one piece linen, pillow cases, handkerchiefs, towels, shoes, stockings, and a variety of other articles; in fact, enough to start a small millinery shop.

FATAL ACCIDENT ON A STEAMBOAT—While the steamboat B. L. Hodge No. 2, was at or near the mouth of Black river, on her way to this city, one of her cylinder heads was blown out, by which accident a deck hand named Thomas Shaw, was so badly injured that he died at this port yesterday morning. At the time of the accident another deck hand, Thomas Davis, jumped into the river, frightened, and was seen no more. RECORDER WEBER'S COURT—William Lemon, for violating city ordinance by riding a horse furiously through the streets and upon the side walks, was fined five dollars. Ellen Murphy, who claims to be a physician, and whose manner indicates her to be rather strong-minded, is charged with insult, abuse and disturbance of the peace. Not being prepared for trial, she was remanded to the tender care of Sheriff Wurzbarger, in default of \$250 bonds for her appearance. O. Wade, charged with assault with a dangerous weapon with intent to kill, was discharged, the pistol not being loaded, and consequently not dangerous. He was required to furnish peace bonds, however, for six months. LOUISIANA CONFERENCE OF THE AFRICAN METHODIST EPISCOPAL ZION CONNECTION—Sixth Annual Session—The Louisiana Conference convened in Lee's Hall, on Tremé street, Wednesday, and was called to order at four o'clock P. M., by Bishop Clinton, who opened the exercises by reading the fourth chapter of second Corinthians. The whole conference united in singing the hymn commencing "How beautiful are thy feet," etc., subsequent to which all present joined in repeating the Lord's prayer.

The Bishop delivered his episcopal address, which was listened to with marked attention. Several of the members made interesting remarks in reference to the prosperous condition of the fields of labor. Adjourned to meet Thursday morning at ten o'clock. Thursday morning the conference met pursuant to adjournment, Bishop Clinton presiding. The devotional exercises were conducted by the Bishop. P. M. Gurtoux was appointed secretary. The examination of characters was entered upon. The same

of Elder Joseph Dutch being called, it was reported that he had been suspended from all official standing in the interval of the conference; first, for interfering with the trustees of Zion Church while in the discharge of their duty; second, for inciting the members of the Church to rebellion; third, for falsehood. The case will be tried to-day and disposed of. The bishop announced the usual committee. The committee on rules for the government of the conference, made their report, which was adopted. The presiding elders made their reports on finance, for the bishop, the conference and mission fund. Also, on members in Sabbath-school, on new societies, on members in societies. Adjourned to meet Friday morning, at ten o'clock. Yesterday morning the conference convened agreeable to rule, Bishop Clinton, presiding. After the conclusion of the devotional exercises the minutes of the previous meeting were read and approved. The examination of characters was continued, subsequent to which the discipline questions were entered upon: Question first—Who are admitted on trial? George Washington, William McMillen, Henry Glare, George Agelo and John Mickens were presented by the presiding elders, and examined according to discipline, and admitted on trial. Adjourned to meet this morning, at ten o'clock.

ASSEMBLING THE PICTURES—To illustrate how to break a trust Gabe Mitchell took a lot of pictures from Alexander Whitehill to sell on commission, but Gabe has utterly failed to render any cash or other account, consequently there will be a hearing before Recorder Houghton on the eleventh. BOARD OF HEALTH—A regular meeting of this body was held last evening, and present, Dr. White presiding; and Drs. Smyth, Payne, Ligars, Davis, and Messrs. Pierce and Walton. Reports from Drs. Mathien, Albert, Jackson, Berry, Ames and H. Smith, First, Second, Third, Fourth, Fifth and Sixth Municipal Districts, were read, but contained nothing of great interest to the public, except that two men were killing diseased cattle at the old stock landing, and that the locality was still filthy. The subject of dry earth closets as a sanitary measure, was discussed, Dr. Smyth holding that it was an improvement on the old process. No final action was taken, as the members were not prepared to vote on it. Sanitary laws to govern in this city were adopted. The sections imposing fines for violations are strong, and will be strictly enforced. OFFICER SMITH'S CONDITION—It is with reluctance that we state that Mr. Smith's condition is considered so bad as to induce the belief that he can not survive more than two or three days. Yesterday he began to sink, and at times was quite unconscious, but he may yet rally, as his constitution was a strong one. BASE BALL PARK—The Chicago players appear to have as much, or more, science as the Red Stockings. Yesterday the Athletics failed to make a count, while the Chicago gentlemen scored fifty-one. Apparently there exists an inequality. GONE INTO BUSINESS—The enterprise displayed by Johanna Swain, entitles her to a front cell in the Parish Prison, if it be true that she stole nineteen dresses, a lot of silverware and a small variety store. A search warrant in the hands of sergeant Bancho and officer O'Connor, second precinct, found a mine of miscellaneous articles in Johanna's den, No. 187 Tchoupitoulas street, which are declared to be stolen property. In fact several persons have already identified most of the articles. Miss Swain was permitted to honor Paganer station with her recorder, and to-day she will be sent before Recorder Houghton, where her accusers will make an effort to secure a Parish Prison ticket for her benefit. HE WAS TIED UP HER—Yesterday a doleful looking woman, carrying an infant, appeared at the first precinct station to inquire toward the man who had once sworn to love, protect and cherish her, but who had recently turned her from his home. She stated that for some reason another female had taken unto his bed and board a female whose character was worse than bad, and that, once in possession, she not only refused to permit the rightful wife to enter, but threatened to take her miserable life. Doubtless Recorder Weber will look into this Harmony street scandal, and perhaps succeed in inducing the "bigamy man" to live a more respectable life hereafter. IN THE CRIMINAL COURT—Business in this tribunal is at a halt just now, and yesterday District Attorney Luzeberg moved the discharge of several persons by *noie prosequit*. He declares his inability to proceed in prosecuting cases of a certain date, because, as the law now exists, he possesses no power to proceed. As the subject does not appear to be clearly understood, Judge Abell did not join with Mr. Luzeberg, preferring to wait a day or two, in the hope that some definite conclusion might be arrived at, whereby the accused may be held. However, some trifling cases were dismissed, among them one which accuses Eugenia Thompson with infanticide. The poor girl has the sympathies of nearly all who are acquainted with the case, and we think justice is not seriously outraged by her release. So much can not be said in other suits. A thorough investigation will, perhaps, result in an arrangement whereby criminals of all degrees can still be held in default and made to answer for their crimes. It will, however, make but little difference whether some portion of the prisoners are discharged or not, as they will be likely to commit some other crime in a day or two, and be rearrested, as Billy Little was, shortly after he was pardoned by the Governor. THE FIRE LAST NIGHT—A few minutes before twelve o'clock last night, fire was discovered in a carpenter shop near the corner of Delta and Poydras streets, but the firemen subdued the flames before any damage was done. A stockbroker sued the Abbe Peyer in Paris for differences amounting to 2600 francs on various Bourse operations. The Emperor's review came into court in his robes, and pleaded that stock-gambling being an immoral transaction, the law could afford no relief; but the court held that a priest could not be supposed to do anything immoral, and therefore he must pay.

Lezurier, the man who was attested for shooting "Cayenne" in the face of the Emperor a review, has written a penitent letter, pleading his own insanity. This is an improvement upon the favorite American defense, for our criminals have the grace to let somebody else urge the plea for them.

THE COURTS.

The Jackson Railroad Case—Another Movement of the New Board of Directors—A Quo Warranto on the Old Directors. State ex rel. H. S. McComb et al., vs. G. T. Beauregard et al. In this case yesterday, H. S. McComb and the new Board of Directors of the Jackson railroad filed a petition in the Eighth District Court, praying that a writ of quo warranto issue to inquire by what authority G. T. Beauregard and the old board of directors exercise the offices and franchise of directors of the Jackson railroad, and as such administer the affairs of the company, since said defendants are declared to be usurpers, and prohibited from performing the duties of directors, and that for the ensuing year the directors be entitled to act as lawfully directors of said company, and such to administer its offices. Judge Dible issued an order that the defendants show on Thursday, the nineteenth instant, by what authority they hold the offices hereinbefore referred to. Simeon Belden, Attorney General, Semmes & Mott; Randolph, Singleton & Brown, Hays, New, and Billings & Hughes, Attorneys for relators.

An Injunction in the Sixth District Court. In this court, yesterday, an injunction was issued against J. W. Swords, H. L. Key, Joseph H. Gray, James O'Neal and E. A. Bonzoni, who claim that they were elected State Tax Collectors in April, 1868, to serve until November 1870, or until their successors should be elected and qualified. They ask a judgment for damages in the sum of \$3000 in solid against defendants, and also ask that James Graham, Auditor of Public Accounts, be enjoined not to audit the accounts of the defendants, and that judgments, as prayed for, Cotton & Levy, of counsel for relators.

The Utley Cotton Press. The rapid introduction of every description of cheap labor-saving plantation machinery into this State, has been a subject of much remark among agriculturists of late. With the abolition of slavery came the necessity on our plantations for economy of time and labor. Every utensil or machine which would have a tendency toward rendering the planter independent, has been hunted up with eagerness, and employed at once; and it takes no prophet to foresee a more extensive use of machinery on farms in the South than has yet been employed in the North or West. The market here for all classes of these agricultural appliances is already great, and is growing daily. There is a great demand for cheap and portable machinery, and we would advise manufacturers, getting up goods for this market, to always bear in mind that the days of cumbersome machines, which would cost a small fortune, is past, they must send us light, serviceable, low priced articles. At the State fair, just closed, there was a large display of agricultural machinery, suited to the sugar or cotton plantation, rice or wheat farms, and these all found their hundreds of attentive observers. In the way of cotton presses, we noticed a large number on exhibition, and it was interesting to notice the progress made in them since the use of the old screw which was to be found on every plantation. Since the fair, another press (intended to be exhibited there, but arrived too late) has been put up at the cotton pickery of Mr. Kiplinger, corner of Chipewana and Terpsichore streets, and, agreeably to an invitation politely extended to us through Messrs. Sizer & Owen, we yesterday, in company with other representatives of the press, went up to see it in operation. Two hands only were employed, and those, without extra exertion, pressed a five hundred pound bale of cotton, and had the press ready for another in about fifteen minutes from the time they first began putting in the loose cotton. This exceedingly light, simple and cheap machine is called the "Improved Utley Cotton Press." It can be taken down and put up in an hour, and can be transported upon an ordinary plantation wagon, complete. One of these presses costs only \$200, and requires never more than three hands to work it at the rate of forty or fifty bales per day. The power is obtained by means of levers, and is entirely sufficient. Its small size admits of its being placed immediately under the lint room in the gin house, so that the cotton can be dropped into it immediately from the gin, and the wonderful power of the levers places it in the power of the planter to employ upon it only three class laborers. It appears to us to be just the thing for our planters, and we advise those who are going to go and examine it, and judge of the work it can be made to do.

PURSUIT OF A HUSBAND UNDER DIFFICULTIES. A Worthy Lady of New Orleans Marries a Carpet Bagger, who Robs Her of all Her Property and Leaves Her a Miserable Widow. (From the Milwaukee Wisconsin, April 18.) Our Milwaukee last Mrs. Henry A. Smith came to this city from New Orleans, where she lives, in search of a truant husband, who deserted her some weeks ago. Mrs. Smith brought letters from the Chief of Police, all of which show that she is an estimable lady, who has been the victim of a base and designing man, and her case cannot fail to draw the sympathies of all who read it. Her story, as she told it here, is to the following effect: She is forty years of age, and possesses a handsome competency, her property consisting of several real estate buildings in the city. Smith came to New Orleans from the interior of Wisconsin some five years ago, and was engaged in various speculations. The two men met at the residence of a mutual acquaintance, Smith, although several years younger than his wife, possessed the greatest love for her, and in a short time Mrs. Smith says she believed in his devotion and sought to marry him. He was a man of property, and she was a woman of property, and they were both well-to-do. The matter was talked over between the two and finally decided upon. The insurance money was paid over to Smith, the barn, district, with several other lots, and all the money received passed into Smith's hands. He proceeded as if about to build a bargain for the real estate, contracted with builders, and everything appeared to be well, and all was going on as usual. Mrs. Smith found that her husband had deserted her, and what was worse, had taken every cent of money she had in the world, leaving her worse than penniless. Mrs. Smith says the citizens here that she very soon found that her husband had left the city, and had taken with him a young girl, the daughter of a neighbor, whose acquaintance he had made, and who, to her regret, she was unable to recover a portion at least, of her money. Mrs. Smith set out in pursuit of the deserter, and followed him to this city. From the city she traced him to the interior of the State, and at once left to follow the chase.

REV. DR. PATON SAID TO CHASE THE WIND.—Rev. Dr. Paton said, in Chicago, last week: "Rich men do not give anything to the cause of Christ were they to inherit the earth; and God permitted burglars to invent tools, including glycerine, to burst open the safes of men who would not give money to God." After this, we may expect burglars and other pickers and stealers to be busier than bees in prosecuting their vocations; and if anybody knows of any such person, he should think that Dr. Paton for saying they are acting "upon the Lord's side."—New York Express.

RECORDED DEEDS.—A deed was recorded yesterday in the Parish of Orleans, in favor of the Louisiana Conference of the African Methodist Episcopal Zion Connection, for the purchase of a lot of ground on Tremé street, for the purpose of erecting a church building. The deed was recorded in the name of the conference, and was witnessed by several of the members of the conference. The purchase was made by the conference, and the deed was recorded in the name of the conference, and was witnessed by several of the members of the conference.
