Local Intelligence.

BRIEF MENTION.—Jack Kenny, corner of Religions and Celeste streets, was arrested at the instance of Kate Ward, who states that Jack cut her face without cause or provocation. The affair does not appear to be really serious, as the Recorder paroled accused to answer on the ninth instant.

P. Harrigan was before Recorder Houghton on complaint of Robert Dover, who is sure that accused stabbed him with a brick and shot him twice with a club, on Dryades street, early Sunday morning. Like the above, it occurs that the charge is huge, while the offense is really trifling. Harrigan must come up on the ninth instant to explain.

Henry Johnson, recently arrested on Rampart street, while in the suspicious act of extinguishing a street lamp, goes down to the Criminal Court for trial, as a silver watch found on him after his arrest proved to be the same stolen from Mrs. Munford that night. The circumstances were so flat against him that it is supposed he is the culprit, and intended committing a burglary when putting out the gas.

The barbeque of Iron Ferry No. 12 did not take place Sunday, in consequence of bad weather.

Mr. McGraw's dwelling was not entered by a burglar, somebody who had lost labor to perform did.

James Murphy and Hugh Evans escaped from the Boy's House of Refuge. At seven o'clock Sunday morning, a lad named DeBlanc accidentally fell from the Pontchartrain cars, head of Canal street, on the track, and two wheels passed over one of his legs, crushing it so badly that the limb must be amputated. He was sent to the Charity Hospital.

David Girard and John Lemon were arrested in the Second District for having obtained money from Charles Mathers by false pretenses. Recorder Stas rewarded them.

AT THE LAKE END.—For two weeks or more the Lake End of Pontchartrain Railroad has been infested with thieves of the sneak and pickpocket order, and they have rushed a pretty fair amount of rascally business. It was quite unsafe for a father to leave his clothing off his perspiring limbs to take a swim, consequently many complaints were made. Special Officer Boulosa went down to assist Captain Lewis, and yesterday took in three regulars and one irregular, a good citizen in bad company. It is thought that these arrests will give at least a temporary relief.

TWO MODEST REQUESTS.—Carrie Ketchum, the young woman who was stabbed in the City Park a year ago last month by Salvatore Collette, yesterday requested Captain Badger to give her her clothing; also that of Collette. The first request was correct enough, perhaps, but the second was more than strange. Salvatore's clothing, which should still exist as bloody evidence against him in the terrible deed, can not be found, and her dress and corset, also witnesses, were long ago thrown away. Why should she wish his clothing? The supposition has been that he is far from here, but this demand indicates that he must be close by.

THE BASIN STREET HOMICIDE.—James White was yesterday arraigned before Recorder Houghton, charged with having killed Augustus Tancy. He pleaded not guilty. Accused is about twenty-four years old, of a quiet disposition, and orderly habits, for which he is noted among his few acquaintances. His brother Benjamin was released, as he was in no manner concerned in the homicide. Coroner Roche has not completed the inquest, but will today. So far but little testimony has been obtained, and the trifling found is circumstantial. All the women in the house deny having seen any portion of the trouble, as they disappeared before deceased was wounded.

ALMOST A REMISS.—Between eight and nine o'clock last night, about one hundred Italians appeared at the Hall on Tremé, near St. Louis street, and declaring themselves Radical Republicans, deposited a vote each. Their conduct was not altogether pacific, so when they offered to vote the second time they were invited to retire. It was thought that they intended mischief, but they finally withdrew in good order.

WANTS ANOTHER PATROLMAN.—A well-known citizen residing on Louisiana avenue has been troubled with burglars on two occasions lately, and yesterday sent a note to police headquarters requesting that one more patrolman be placed on that beat, as he feared that unless something be done quickly the second burglar who visits his dwelling will find nothing to compensate him for his trouble.

OFFICIAL MORTUARY REPORT.—Dr. S. C. Russell, Secretary of the Board of Health, reports that the whole number of interments in this city, for the week ending Sunday morning, was 118. Eleven died of consumption, 1 of congestive fever, 2 of pneumonia, 1 of intermittent fever, 2 of brain fever, 1 of purpural fever, 1 of remittent fever, 2 of typhoid fever, 5 of heart disease, 6 of lockjaw, 8 of pneumonia, 3 were killed accidentally, and 5 were still-born.

Becket, the comedian of Lydia Thompson's troupe, sued for his last week's salary at Niblos, \$150, but the courts decided against him, because the defense showed that he addressed the audience in an improper manner, and had caused his friends to act as clique and call him out during the performance.

In Boston the inventors of a new store will undertake to bake one barrel of flour into bread, roast fifty pounds of beef, cook a bushel of potatoes, boil a barrel of water, etc., with only an ordinary sized hot coal.

Dickens expressly stipulated by deed, that his publishers should be reimbursed for any pecuniary loss which might come to them by reason of his sickness or death before the completion of "Edwin Drood."

On Lookout Mountain last Sunday General Robert Toombs and Jefferson Davis, after an amity of some ten or fifteen years, were reconciled, and were seen conversing pleasantly together.

DELEGATES TO THE STATE CONVENTION.

The following is the result, so far as we have learned it, of the election last evening for delegates to the Republican State Convention: First Ward—J. C. Miller. Second Ward—P. F. Herwig, David Wilson.

Third Ward—In this ward 1426 votes were polled, and it would take till daylight to count them. Fourth Ward—H. J. Campbell, 490 votes; E. Longpre, 350 votes; whole number of votes, 830.

Fifth Ward—William Vigers and Larrieu. Sixth Ward—Lorent Auguste. Seventh Ward—W. H. Green, J. Barrow, L. G. Mannel, by an average majority of 443.

Eighth Ward—Thomas St. Cyr, majority 44. Ninth Ward—C. Kinsella. Tenth Ward—W. C. Warmoth. Eleventh Ward—William Roy.

Fifteenth District (Algiers).—The counting of votes was not concluded when our reporter left. Sixth District (Jefferson City).—John Garstkamp, C. Augustus.

A special to the Louisville Courier-Journal says: WASHINGTON, July 28.—The President writes here that though pressed to do so from various quarters, he has decided not to call an extra session of Congress, unless one's own party is in the majority.

The President adds that he leaves Long Branch next week for a visit to St. Louis. A letter from another source says this visit is contemplated in part to get rid of a threatened combination of politicians and public men, who are gathering to represent to the President the necessity of the remodeling of his cabinet, so as to make the administration stronger in the fall elections. Probably this story has no other foundation than an effort of certain Pennsylvanians to get Secretary Robinson out of the Navy Department, and one from their own State appointed in his place.

The bolter candidates were Messrs. John A. Walsh and George Geddes. The regular Republican nominees were Messrs. P. T. Herwig and David Wilson. The regulars beat the bolters by a majority of two to one.

ROBBERING AN ADMINISTRATOR.—Saturday night a lad slipped into the residence of General West, and stole a few small articles, but failed to take some valuables in plain sight. It seems that some workmen near the house had seen the opportunity to steal, and put the boy on the trail. Anos Perre, about fifteen years old, was arrested by Special Officer Boulosa, but it appears he is not the real criminal.

Last night, approaching the small hour, the Seventh Ward Republican Club held at one office, and with exuberant huzzas, mingled with music of fire and drum, manifested their joy at the result of the election for delegates. We thank them for the serenade and the several times three cheers for the REPUBLICANS.

CHARITY HOSPITAL.—To the courtesy of Mr. P. M. Tourne, clerk of the Charity Hospital, we are indebted for the following report for July: Admissions, 584; discharged, 439; deaths, 76. Number of patients in Charity Hospital on the first of August, 648, in Marine Hospital, 61, Total, 709.

FIRE ON TRITON WALK.—The alarm of fire last night was caused by the burning of a building occupied as a rail manufactory and blacksmith shop, between Dryades and Rampart streets. The house in which the fire broke out was owned by Mr. Werner. Owing to the determined and energetic efforts of the firemen, the flames were held in check, and a whole square of wooden buildings were saved from destruction. The premises of Mrs. Mary Fitzgould adjoining the burning property, were damaged to the extent of \$500.

A Sweet Revenge. The Plymouth (Mass.) Memorial and Rock gives currency to a most reliable story. Illustrative of the sweet revenge which a return of good for evil sometimes affords, even when the opportunity is long deferred. It seems that one of the most industrious citizens of Plymouth, who rarely leaves his avocations, had been invited to a fancy ball given by the owner of the field. On the day of the monument celebration in Plymouth, the Duxbury man visited Plymouth with horse, carriage and lady. The lady, who was a widow, had been married, and took him in to dinner with the lady, opened his sitting room for their accommodation, stabled and fed his horse to a fence which he came to Duxbury again, to a fence which he came to Duxbury again, to a fence which he came to Duxbury again.

WE HAVE A LITTLE more about the yacht race, from a New York dispatch: The Cambria reached the light ship off Sandy Hook, at forty-six minutes past four o'clock P. M., and the Cambria, which was in the lead, was seen at five minutes past five, losing the lead by one hour and fifteen minutes. During the morning it appears that both yachts were in sight of each other and in a dead heat, the Cambria being completely out of sight, and the Cambria being completely out of sight, and the Cambria being completely out of sight.

PAY ROLLS.—These documents are of great importance to the police force, as their pay depends entirely on the manner in which they are made out. In some precincts the pay rolls are repeatedly sent back for correction, and the men are compelled to wait for their pay long after it is due.

In the fifth precinct this has never occurred, although a large number of men are on the roll and an immense number of passages may occur. Still the report always passes muster. No small share of the credit is due to the skill and ability of Mr. J. M. Tourney, the private clerk of Captain Schaefer.

This gentleman is not only posted on police affairs, but he is also a thorough book-keeper.

The massacre in Japan was recently reported by telegraph. The New York Tribune says: Another terrible massacre is reported, this time from Japan. We have been led to doubt the truth of similar reports by previous descriptions and exaggerations, and though the present statement is positive enough as to the fact, we are left to conjecture who were the victims, while even the motives are not clearly explained.

The Mexican Legation has issued a circular, received here from Juarez, stating that the necessity which exists for supplies of corn in the United States, and the fact that the President of the Mexican Republic to admit free duty, for six months, supplies of corn and flour into said State. Six hundred pounds of corn are admitted for every ten thousand pounds of corn.

The Texas Gazette has this crop report: We have carefully inquired of planters this week how the cotton was doing, and from all we can learn, the prospect is not near so good as it was a few weeks ago. In some portions of the parish, they have had better seasons than in others, and where they have been favored their prospects are as good as ever. The cotton on the sandy land is shedding considerably, while on the black land it is holding its forms very well. We are having rain nearly every evening, and the plants are looking very green, but causing a shedding of the forms. We hear of no one who has actually seen any of the cotton worms, though some people say they have seen them, and others say they have not. No alarm has been expressed about their coming. Open bolls are being brought in every few days since Monday last.

WE LEARN THIS FROM ST. JAMES SENTINEL: Mr. Decarret was standing on the levee, and the colored man came riding by on horseback, and in passing the horse rubbed against the white man, whereupon Decarret drew his pistol and deliberately shot Hunter, the horse and rider. The wound is a painful one, but not considered dangerous.

The colored people gathered around the wounded man, and became very much excited, and in a body attempted to arrest Decarret, who retreated to his house. It is alleged that the approach of the colored men was met with a volley of bullets, which killed one man on the spot, and wounded the report soon became current of the shooting, and the colored men reinforced during the night and surrounded the house, and remained there until next morning, when they arrested the man, and took him to the residence of the Parish Judge, at which place they surrendered the prisoner to the Sheriff.
