

New Orleans Republican. OFFICIAL JOURNAL OF THE UNITED STATES. NEW ORLEANS, OCTOBER 27, 1870.

THE NEW ORLEANS REPUBLICAN HAS THE LARGEST CIRCULATION OF ANY REPUBLICAN PAPER IN THE SOUTH.

THE DAILY REPUBLICAN May be had of the following dealers: George Ellis, opposite the Postoffice. A. Simon, No. 94 Exchange Alley. C. C. Haley, No. 19 Commercial Place. C. G. D. Holl, No. 61 Exchange Place.

The hurricane in Cuba has supplanted much of the sugar cane. Nilsson is an auferent piece of femininity. She bagged \$6,668 in one Philadelphia concert.

Last Sunday there was about two inches of snow on the streets of Helena, Montana Territory. The weather has been recently weighed and found heavy, particularly around the coast of Florida.

Thirty minutes work will provide every man with a single chance in the ballot-box drawing on the seventh of November. All prizes.

The presidential policy of General Grant, as expounded by Vice-President Colfax at South Bend, is exciting much attention in England.

In consequence of the marked decline in cases of yellow fever, the daily mortality reports of the Board of Health will hereafter cease.

The German Republican Central Committee tender their thanks to the Republican auxiliary committee, for pecuniary aid rendered. See advertisement.

Dr. Foster Hooper, of Massachusetts, a delegate to the Unitarian National Conference at New York, died in that city, last week, of rheumatism of the heart.

Hon. Oakes Ames has been nominated for Congress in the Second, and Hon. Henry L. Dawes in the Tenth Massachusetts District. Mr. Ames has large interests in Louisiana.

The world wags on, and so do the Democratic ways, who continue to urge their friends to register, with the promise that if they do, the Democratic party will most assuredly carry the State this fall.

A mass meeting of the German Republicans of the Third District will be held at the schoolhouse on Dauphine street, between Union and Bagatelle, this evening. We hope the attendance will be large.

Governor Warmoth yesterday appointed J. Jules Bossier as clerk of the court in the parish of Natchitoches; Charles S. Randall, Supervisor of Registration in the parish of Tangipahoa; E. W. Dewees, Supervisor of Registration in the parish of Natchitoches.

Illinois and Indiana will soon have a powerful rival in the divorce business. Georgia is going to set up as a haven for unhappy wives and husbands, and, as a beginning, one of her progressive lawmakers has offered a bill making "dissatisfaction" a legal ground for divorce.

Police Officer Thomas E. Miles, who was convicted in the First District Court of false imprisonment, and sentenced to one month's imprisonment and fifty dollars fine, with an additional month's imprisonment in case the fine was not paid, has been pardoned by Governor Warmoth.

The report that J. C. C. Winch has been appointed judge for the Eastern District of Texas, vice Judge Watrous retired, proves to be incorrect. No appointment has yet been made. Hon. C. B. Sablin, of Houston, has been indorsed for that position by Governor Davis and almost the entire party of the State.

PROTECTION TO VOTERS.

When the people of the Union adopted the fifteenth amendment, and authorized Congress to pass appropriate laws for its enforcement, the power to protect voters at the polls was clearly brought within the scope of its legislative duties. Any precedent, or supposed precedent, prior to the adoption of the amendment is so much waste paper.

Congress has the power to declare who are entitled to citizenship, and it may follow up that declaration with ample provisions to enforce their rights. That body may not, however, as the Democratic papers insinuate, prevent any man from voting, who is, under the laws, entitled to do so.

General Grant is a safe guardian of his own rights. General Grant is a practical man. He considers that the ballot-box ought to be kept pure, even if a little force has to be used to do it.

What good citizen would complain if some officer shot a man who was attempting to blow up a house, without waiting for a warrant to arrest him. Suppose an evil disposed wretch should attempt to poison a fountain, and the only way to arrest the crime was to shoot the poisoner, would any citizen complain of the officer who fired the shot?

It is admitted to citizenship confers any rights at all, it gives a man a fair show at elections, not only as a candidate, but as a voter. Both these objects will be defeated if evil-disposed persons may take possession of the ballot-boxes and drive honest voters away.

THE FOUR CONSTITUTIONAL AMENDMENTS.

Our last Republican Legislature, by an almost unanimous Republican vote, adopted four constitutional amendments to be submitted to the people for ratification at the coming election.

Each and all of these amendments are necessarily Republican measures, and a part of the principles and platform of the Republican party of this State.

GRANT'S DAY OF DUTY.

President Grant has signified to the Georgia State Fair Committee that the dates of his office will detain him at Washington for the present. The New York World thinks the President might have found this announcement profitable to the country while he was enjoying himself at the sea-side.

IT IS AGGRAVATING THAT THE PRESIDENT WILL ENJOY HIMSELF ON THE SEA-SHORE WHEN HE HAS NOTHING TO DO, AND THAT HE WILL BUSY HIMSELF AT WASHINGTON WHEN THERE IS WORK TO BE DONE.

It is aggravating that the President will enjoy himself on the sea-shore when he has nothing to do, and that he will busy himself at Washington when there is work to be done. It is Grant's way, and it must be endured while it can not be cured.

ONE CONSCIENTIOUS OFFICER.

As an evidence of the superior obedience to law of Republican officers, it is only necessary to refer to the action of United States Commissioner Osborne, in New York, a strong Republican and an honest and intelligent man.

The following from the Houston Union is rather hopeful than prophetic. Doubtless the people have become anxious for a railroad at last. After a sleep of a quarter of a century they have now awakened and are anxious for somebody else to make up for the time they have lost.

WAITING FOR THE RAILROAD.

The meaneast suggestion ever made to a party that professed a particle of liberality, is that paragraph in the address of the Democratic Parish Committee where the people are advised to vote against the constitutional amendment allowing the Governor to be elected for more than one term.

AN EDITOR WANTED.

Claborne parish is under the weekly infliction of the Claborne Advocate. A Mr. Hayes has, unfortunately, concluded that he has been called to the post of adviser to the community of Homer.

A newspaper called the National Intelligencer, and claiming to be the veritable old, but sterling, journal established seventy years ago by Gales & Seaton, has just been received.

Registration will close to-morrow, and those who have not provided themselves with certificates will regret it when the difficulty can not be remedied. A license to vote is like Mr. Toodle's door-plate, good to have about the house.

Says a down town sheet, "Our friends will not expect us to see them all personally before the day of election." It is probably waiting to be "seen."

A Christian Crownwell in the Senate would be a power, but not a Radicalism (imitation) Crownwell from the Second District.

ON CARONDELET STREET.

Quite an improved feeling was noted in business circles yesterday. A marked demand was noted for several kinds of stocks, particularly in new city seven per cents, which could not be supplied.

Money, though still tight enough, in all conscience, as it has been for two months past, begins to ease up as the receipts of sugar and molasses commence arriving.

The receipt of the cane product relieves the market more than receipts from cotton, because such remain in the city, while cotton payments go at once back to the interior.

Money, though still tight, and most men have to lean largely on their bankers, these days. The difference between the sums drawn out and the sums paid in during these days, to some banks, is in favor of the drawer and not of the banker.

The following from the Houston Union is rather hopeful than prophetic. Doubtless the people have become anxious for a railroad at last. After a sleep of a quarter of a century they have now awakened and are anxious for somebody else to make up for the time they have lost.

There was greater demand for city new seven per cents than supply. The following sales were noted: \$2900 in small lots at 73; \$1500 at same; \$1500 at 73; two lots of \$900 each, and \$500, \$2300, \$1000, \$1100 and \$700 at 73, while \$4000 was reported at 75, though it was offered at the evening board at 73.

A sale of 100 shares Slaughterhouse was made at \$17 25. In new State warrants two sales were reported, \$4500 at 72, and \$7500 at 72 1/2. A share of the Pneumatic Propelling Company's old stock brought \$70, while two shares of the Barbairn Gas Light Company sold at the high figure of \$110, an advance of twenty per cent in two weeks.

No sales were made at last evening's Board of Brokers. The following is a list of the offerings and bids: New Orleans Gas Company \$131.00 bid. Levee Steam Cotton Press 60.00 bid. Crescent City Slaughterhouse 17.25 bid. Barbairn Gas Light Company 120.00 bid. Sugar Street Company 21.00 bid. Jackson Railroad 100.00 bid. Crescent City Railroad 60.00 bid. Merchants Bank 40.25 bid. Bank of New Orleans 120.00 bid. City Ten per cents 1.00 bid. Citizens Bank 140.00 bid. Ibernia Bank 20.00 bid. Jackson Railroad second mort. 100.00 bid. State of Louisiana 25.00 bid. Railroad rights 25.00 bid. City seven per cents 7 1/2 bid. City ten per cents 10 bid. City seven thirty certificates 75 bid. City Ten per cents 1.00 bid. Metropolitan Police warrants old 11.15 bid. American halves 1.00 bid.
