MISCELLANEOUS.

HOMES FOR THE HOMELESS.

AND EMPLOYMENT FOR THE MILLION.

Hurray for Texas!

The attention of all emigrants who wish to secure permanent homes and remunerative employment, is called to the fact that the State of Texas has lately passed a law which donates one hundred and sixty acres of every actual and permanent settlement. With a territory stretching from the Red River on the north, to the Gulf of Mexico on the south, and from the State of Louisiana on the east, to the Rio Grande on the west, and possessing a great diversity of climate and soil, having a public domain of nearly two million acres of land vacant and unappropriated, subject to a pre-emption of three years, when a title in fee simple is acquired by the actual settler, there is no better place for emigration than Texas. The whole length and breadth of the State, with lateral branches to all thickly settled districts, all of which roads are now in want of laborers, and are paying good wages for such labor. Also wanted 500 school teachers and 50,000 farm laborers, to whom good wages will be given.

Wm. C. H. LIPPARD, one of the Commissioners of the Bureau of Immigration, appointed by the President of the United States, and by virtue of an act of the General Assembly thereof, passed at the regular session of 1870 and 1871, is in this city, and can be found at his office, No. 100 Barracks street, where all persons proposing to emigrate can apply for information, and where all letters of inquiry can be addressed. Oct 21m

THE CITY HALL.

A number of petitions, signed by over a thousand persons, have been filed in the Mayor's office, asking the City Council to take immediate action with regard to the storing of coal oil. Reference is made to the late fires in Chicago and elsewhere, and fears are expressed that there is sufficient inflammable oil stored in the central portion of the city to destroy the whole of the four original districts. The petitions are signed by the most eminent merchants and bankers and by the largest property holders. A note respectable and imposing list of names was never, perhaps, appended to any similar document, and the City Council can not fail to take immediate action on the subject. Dealers in petroleum are much excited on the subject of the new ordinance proposed by Colonel Lewis, Administrator of Police, and it is understood that a large number of them will meet in the Mayor's parlor to-morrow morning to discuss the matter.

Torpedoes.

A notice to the consignees of the Union torpedoes lately shipped to this city has been issued by the Mayor, warning in brief the detonating missiles in possession to remove them beyond the corporate limits, under penalty of confiscation.

Department of Improvements.

All that engineering skill can accomplish, by means of scientific and practical methods, has been done by the City Surveyor to drain the portions of the First and Fourth Districts, but to little purpose has all this labor and expense been incurred, unless more powerful machinery be provided to throw out the water collected in the canals.

The Melpomene draining machine may be said to be comparatively worthless for the draining of the portions of the city in the neighborhood of Fillmore square, for that locality, during the recent heavy rains, was entirely submerged for forty-eight hours, or longer. The region through which the drainage canal in the First District, was also under water, to the depth of two feet, during more than a week. Numbers of poor people having vegetable gardens, on the premises of many of the city, were deprived of their support, had their entire crops destroyed by the heavy rains of two week's ago.

Bienville street and Melpomene street draining machines are old and worn out. They should be replaced by new ones of quadruple power—this being the judgment of those competent to speak on the subject. The poor people who live on the periodically submerged lots in the rear of the city pay taxes for having their lots drained, and they have a right to be protected from overflow. Let the city administration see that these old and broken down draining machines are replaced by new ones, having four times their power, and which will remove the flood waters caused by rains, as fast as they fall.

Department of Finance.

The clerks and employes in and about the City Hall are complaining loudly, and very justly, of the delay in the certificates of appropriation, in which they are paid their wages and salaries. On such paper they have to suffer a discount of about one-third, which reduces their compensation to such an extent that they can not pay their current expenses. It is openly asserted that this state of affairs has been brought about by a ring, formed several weeks ago, with a view to the design of depriving the clerks—by their neglect in large quantities, and then by a bulling process, known only to the initiated, sell them out again at a large profit.

Money should be raised to pay off these employes at once, and there is financial ability enough in the City Hall to do it.

NEW ORLEANS HYDRO-CARBON GAS COMPANY.—As will be perceived by a perusal of the notice which appears in another column, Mr. John Community has been elected a director and superintendent of this company. The election of so able and highly cultivated a scientific mechanic as Mr. Community, to the position of superintendent of the company, will be undoubtedly bring to bear in the construction of gas machines a degree of skill and experience in chemistry and mechanics not to be surpassed in this country. This should be gratifying news to all those who are interested in being able to procure a cheap and reliable as well as safe illuminator, as the Sloper patent hydro-carbon gas machine answers to all these requirements, and only requires to be well and skillfully made to far surpass all that is claimed for it.

SMITH'S PULMONIC SURE.—This new Creole remedy from our swamps is everywhere attracting attention. There can be little doubt of its intrinsic and remarkable merit. It is a subject of no small gratification to Louisianians that a substance has been found in our swamps which, as a blood purifier, has no equal, and which elicits from competent judges enthusiastic encomiums. The list of references the proprietors give comprises some of the first names in this city. The office is at No. 20 Baronne street.

ALEX'S HOUSE.—One of the most important events of to-morrow to the lovers of good liquors and cigars is the opening of a first class coffeehouse at No. 61 Front street, between Poydras and Latayette streets, by that popular and accomplished mixter, Aleck Decker, so well and favorably known professionally at Custer's branch of Hawkins', corner St. Charles and Gravier streets. The programme for Aleck's House is the very list of liquors and the most sumptuous of lunches. No wonder that the prospect of the opening of such a place creates a sensation.

C. C. Haley, the famous newsdealer and stationer of Commercial place and Poydras street, sends us a package of monthly magazines and weekly papers, specially adapted for Sunday reading. Everything new and fresh in the line of daily, weekly or monthly publications, including the New Orleans REPUBLICAN, can be found on Haley's counter. He is the model newsdealer of the United States, and understands exactly what the wants of the public are.

VALUABLE IMPROVED REAL ESTATE AT AUCTION.—Particular attention is called to the sale at auction to be made to-morrow, at noon, at the Merchants' and Auctioneers' Exchange, Royal street, by the Sheriff of the parish of Orleans, of a lot of ground, with the buildings and improvements thereon, situated on Basin, or White street, between Philip and Jackson streets, Fourth District. For particulars see advertisement.

GIMBEL'S FOURTH DISTRICT SHOE STORE. Residents of the upper part of the city will find in this establishment one of the best assortments of boots, shoes, hats and trunks to be seen in the South, all of which will be sold at remarkably low prices. These goods were made expressly for Mr. Gimbel's sales, and, besides being of the best workmanship and material, are all of the latest styles. Go there and look at them.

In the window of a New York restaurant is exhibited a huge gourd, labelled, "Mammoth pumpkin from Horace Greeley's farm—180 pounds."

THE TEMPERATURE.

The thermometer at Louis Frigerio's, No. 59 Chartres street, stood as follows: October 21—at 8 A. M., 65°; at 2 P. M., 78°; at 6 P. M., 70°.

MORNING GOODS AT LEVISO & JAMISON'S.—We invite attention to the advertisement of morning goods at Leviso & Jamison's, No. 136 Canal street, which will be found in another column. These goods consist of reps, tannin, bombazine, drap Victoria, albatrine, tulle and a half hundred other rich and beautiful fabrics, suitable for ladies' mourning dresses. Parties requiring such goods would do well to call and examine them previous to purchasing elsewhere.

The Ruby, that recherche and popular refreshment, at No. 136 Common street, has lately been thoroughly repaired and refitted, and now shines brilliant as a diamond from early morn till dewy eve. Mr. Samuel Monroe, so popular as the proprietor of the Charm, opposite the postoffice, has lately located himself at the Ruby as the lieutenant general of that sterling old veteran John Couret, the proprietor. If the Ruby, under such auspices, does not more than ever be the choice drinking saloon of the elite of our merchants, we will be surprised.

It was a pleasure to welcome back to the Crescent City yesterday, two of our associates of the New Orleans press—Mr. Marion A. Baker, who has within the past few months been making the tour of Europe, and his brother, Mr. Page M. Baker, who has been traveling in the North for the last few weeks, with the object of recruiting his health. We regret to state that he has not been fully successful in this object. Both these gentlemen have rendered themselves useful and honorable in the journalistic profession, and have always held the esteem of their associates.

RETURN OF DR. ANSELL.—We were pleased to meet yesterday Dr. J. G. Ansell, the popular and skillful dentist, who has been absent from the city during the past summer. The doctor appears to be much benefited by his trip, and informs us that he has lost no time while away, as he missed no opportunity of acquiring a knowledge of everything appertaining to his profession in the cities which he visited, and comparing notes with all the able practitioners he met with.

LADIES' COSTUMES.—Mrs. H. Mogridge, No. 76 Canal street, whose taste and skill as a maker of ladies' costumes, cloaks, etc., is proverbial in this city, notifies her friends, through our columns this morning, that she has received an installment of her fall stock. These goods consist of walking, dinner and evening dresses, riding habits and cloaks, and we feel assured that they must be superb. Our lady readers should call and see the new things at once.

FARRAGUT ALOFT.—Our neighbor Gresham has an exhibition one of Prang's magnificent chromo-lithographs, which represents our lamented naval hero in the rigging of the Hartford. It is copied from a \$10,000 painting by Kaufman.

RELIGIOUS NOTICE.—Rev. J. C. Harzell, pastor of Ames church, corner of St. Charles and Callopie streets, will address his people this morning on the "Destruction of Chicago." Mr. Harzell witnessed the burning of the ill-fated city, and will speak from what he saw personally.

FOURTH DISTRICT CARPET HOUSE AND DRY GOODS STORE.—It is now pretty well settled, among the residents of the Fourth District, that the place to buy carpets and dry goods is at Croner's, corner St. Mary and Magazine streets, opposite the market. Their stock is large, well selected, and they sell cheap. What more could be asked?

RETURN OF DR. J. R. WALKER.—The numerous friends and patrons of Dr. J. R. Walker, D. D. S., will be pleased to learn that he has returned from his visit to Virginia, whither he had gone to attend the session of the National Dental Association, and that he can now be found daily at his office, corner of Napoleon avenue and Coliseum street.

The Mobile Register of the fifteenth instant says: "Many of the seedling peach trees in the neighborhood of Mobile are now out in pretty full bloom, and we noticed large numbers of blossoms on the pear trees this week. Budded or grafted peach trees do not seem to be making such fools of themselves."

NEW BOOKS.

BERTHA, THE BEAUTY. By Sarah J. C. Whittelsey. Philadelphia: Claxton, Remond & Haffelfinger. For sale in New Orleans by Ellis & Brother, No. 82 Camp street.

The author has woven a rather entertaining, gossip story under the above title, Bertha, a North Carolina girl of half Yankee parentage and remarkable beauty, witty, of course (all heroines of female writers are witty), is led through a series of domestic and civil wars, including battles, sieges, skirmishes and surrenders, beginning with adolescent offerings to the beauty in the one case, and the battle of Manassas in the other, and finally landing everybody and everything safely to the satisfaction of the author. The readers will have a chance to judge for themselves.

S. N. D. B.

We refer our readers to the advertisement of the "Industrial School of Our Lady of Holy Cross," under the patronage of the most Reverend Archbishop of New Orleans, which is now opened for the reception of boys desiring of learning trades, and at the same time of receiving instruction corresponding with the position which they are to occupy in the world. Two classes of boys, entirely distinct, are admitted into the school. The advertisement names the conditions of admission for each class. Address the Reverend Superior of the Industrial School of Our Lady of Holy Cross, Third District, near the Ursuline Convent, New Orleans.

Carrollton Gardens—Fete Champetre.

To-morrow the Fete Champetre at Carrollton Gardens, for the benefit of the Odd Fellows' Rest, will commence and continue six days. The object of these pleasant entertainments is so eminently worthy, and the arrangements so perfect for a season of real enjoyment, that we can earnestly urge upon our readers to visit the gardens frequently during the fete.

THE PRESIDENT RETURNING.

St. Charles Theatre.

This evening will be positively the last Sunday night performance of the Linger and their final representation of "From Front," with its magnificent cast. To-morrow evening the new sensation of "Una," William Horace Lingard's character impersonations conclude the entertainments. "From Front" was presented last night to a good audience, and was well received. "Una" was played to a crowded audience at the matinee yesterday.
