THE HIGH SCHOOL. We, the seniors of the Central High School, would wish to correct an error which occurred in your issue of yesterday morning, wherein you reported our school as having given their annual exhibition on last Friday evening. The occasion in question was merely the delivering of our regular Friday evening exercises. We would attach no importance to the mistake were it not for the fact that we would feel very humiliated indeed should it be supposed that the members of the High School could not bring forward better exercises for their annual exhibition than those recited last Friday.

THE TEMPERATURE. The thermometer at Louis Frigero's No. 50 Chartres street, yesterday, stood as follows: At 8 A. M., 50; at 2 P. M., 58; at 6 P. M., 58. Rain during the night of November 29, one inch. Lowest point during the night of November 29, 47.

REMOVED BY GAS.—A young man named Edward, waiter at Sier's eating stand in the Beef market, yesterday met with an unexpected accident. Below one of the tins a large gas burner in a tight box, used for heating purposes. Through carelessness the gas had not been entirely turned off when the light was put out, consequently the box was filled with the fluid. In attempting to ignite the flame the superheated gas exploded, burning the young man badly. He was taken to his home, No. 38 Maine street, suffering intense pain.

DEAD.—B. Lacoste, the man who was run over by a train of lake cars, died yesterday. It does not appear that the employees of the road are to blame, deceased having laid himself across the track in a locality where the grass was so high that a man's body could not be seen readily.

A POEM.—There is no poetry in being imprisoned, although a poem was the cause of John W. Thomas' incarceration. This young man was arrested on a warrant from Recorder Houghton, as S. F. Gantner makes a charge of breach of trust and embezzlement. Accused had been entrusted with a number of new books to sell, but failed to make satisfactory financial returns.

RETURNS OF FINES BY RECORDERS.—The six Recorders have made the following returns to Administrator Lewis, for the week ending November 18, 1871: First District, Recorder Houghton, \$357 00 Second District, Recorder McArthur, 127 00 Third District, Recorder Leclercq, 40 50 Fourth District, Recorder Parsons, 13 00 Sixth District, Recorder Campbell, 36 00 Total, \$573 50

AUTOMATON.—Superintendent Weeks has placed one more automaton fire alarm box, the last at the corner of Claiborne and Poydras streets—an important post. The number is 5-15.

A NEW IMPROVEMENT.—Prisoners should feel grateful toward the city for a new Black Maria has been furnished. The seats are the softest kind of steel iron, and the entire vehicle is similarly upholstered. Tickets are free, to pay the price of the wagon, \$1000.

AMUSEMENTS. Academies of Music. The entertainment provided for the patrons of the Academies last night was fully appreciated by a large and gratified audience. "The Field of the Cloth of Gold" always was a popular musical extravaganza in the estimation of our theatre goers. This evening the Oates comic opera troupe will produce the last English burlesque, "Poli and Partner Joe."

THE RICHMOND OF MR. EDWIN FORREST last night afforded the most intense satisfaction to a large audience. This evening the eminent tragedian will appear in the great play of "Damon and Pythias." As Mr. Forrest's engaging recitation, but three nights more, the opportunity to see him, perhaps for the last time, should not be lost.

THE OPERA HOUSE. To-morrow evening, Verdi's grand opera of "Rigoletto" will be produced, for the second time this season.

THE PLAQUEMINES REPUBLICAINS says. The rolling season has now fairly commenced. Those of our planters who began operations some time since complained that the yield of sea-island matter per acre was unusually light. Since cooler weather has set in, we hear that the yield is satisfactory.

THE WASHINGTON PATRIOT says of the latest international money order system: During the four weeks from October 2, when the international money order system with Great Britain went into operation, to the twenty-first of the same month, the amount of money transmitted through its agency from this country to Great Britain was \$16,000, and the amount received \$14,000. It will be seen that the amount sent of this country is about four times as great as the amount received, and that it will, although the orders are limited to ten pound sterling in Great Britain and fifty dollars currency here, amount to a considerable sum in the course of the year.

OF COURSE it was never intended to make the money order system one of commercial exchange, but rather that it should be an accommodation to the poorer classes who have no occasion to do business at the banks, and to prevent the practice of enclosing small amounts of money in letters sent through the domestic money order system had the effect desired, and the amount now transmitted in currency has materially diminished. It is believed that equally favorable results will follow the establishment of the international system; in fact, the amount of money transmitted the past month indicates that result is almost certain.

FRIENDSHIPS which are born in misfortune are more firm and lasting than those which are formed in happiness.
