

New Orleans Republican.

OFFICIAL JOURNAL OF THE UNITED STATES

OFFICIAL JOURNAL OF NEW ORLEANS

THE DAILY REPUBLICAN

May be had of the following dealers:

- C. G. Haley, 19 Commercial place.
C. G. H. Holl, No. 61 Exchange place.
A. Simon, St. Louis street, between Royal street and Exchange alley (under St. Louis Hotel).

Variety news stand, No. 38 Dauphine street, between Catherine and Bienville streets.

JUDGE MONTAMAT BADLY WOUNDED—Last evening as Judge Montamat, Mr. Loran and Joseph Donnelly were on Royal street, soon after eight o'clock, a quarrel ensued between the Judge and Mr. Donnelly concerning nominations in the Liberal convention, which resulted in Montamat striking Donnelly with a loaded cane, when Donnelly drew his revolver and fired at him, one bullet striking Judge Montamat in his side, inflicting a wound that will perhaps prove fatal, as he bled profusely from his mouth after reaching his home. Donnelly was arrested. He is a delegate from the fourth ward.

WILL COME UP TO-DAY—Bennet, who is charged with the killing of Charles McCormack at the corner of Clio and St. Charles streets, will have an examination before Recorder Houghton to-day at 12 M.

J. J. Fish was looked last evening at the corner of Delta and Canal streets for embezzling a diamond ring, a gold watch and chain and thirty-two current dollars, all valued at \$350.

BROKEN BACK—Pierre Lawatier, yesterday, when dumping a load of refuse on Metairie ridge, was caught under the load and his back was broken. An inquest was held.

Old Irberville Good for 2500 Republican Majority—Reception of Bishop Perche. (Special Correspondence of the Republic.)

PLAQUEMINE, October 12, 1872. Senator Kellogg and party were welcomed here to-day by a large concourse of people. Thousands turned out, full of enthusiasm. He was escorted to the courthouse square, where a grand mass meeting was held, by not less than 700 mounted men and about 2000 on foot.

The Senator says he is much wearied by the protracted labors of his campaign through the State, but he looks hearty and vigorous, especially when on the rostrum.

His speech, lasting about two hours, was attentively listened to, and he was very evidently made many new converts among the white citizens of old Irberville.

This evening, that venerable and honored prelate of the Catholic church, Bishop Perche, was welcomed on a short pastoral visit, by a procession of our citizens. He was received on the outskirts of our town by a large cavalcade, and escorted to the church amid salvos of artillery, joined to anthems of praise. The bishop is much beloved and honored in this section of his diocese, and his visit here causes universal rejoicing.

Hon. C. B. Darrall is rapidly taking the lead in this parish, and will roll up fully 2000 majority. Major Wharton, also, for State Senator, will keep up with the solid Republican vote of the parish.

DR. ROBERT T. CREAMER. An O'Connor Organ. The Terrebonne Bonnet, for some time published by Hon. J. P. O'Hare, has changed hands. Mr. Philip Winfree, formerly connected with the press of this city, has bought the establishment and has come out in advocacy of the election of O'Connor and Adams. We have more admiration for the enterprise of Mr. Winfree than for his judgment. In the number before us we find the following paragraph, which will convince our reader that all the armies are not in the field:

A call has been published by the delegates elected to the Louisville convention for a meeting of the friends of O'Connor and Adams, to be held in the city of New Orleans, at the Louisiana Hotel, on Wednesday next, the sixteenth instant, for the purpose of nominating an electoral ticket, and to appoint a straight Democratic executive committee, and to introduce every friend of the movement who can possibly attend will do so.

The following well known names are mentioned as suitable persons for electors: Messrs. C. W. Williams, of West Feliciana; R. A. Hunter, of Rapides; J. R. Head, of Bienville; E. C. Kelly, of Orleans; W. R. Boote, of Iberville. We do not know whether these gentlemen have consented that their names should be used or not, but their acceptance of the nomination would bring out the full force of the untried, and secure for the ticket a large vote.

General Inspection of the Army. A general order from the War Department detaches each of the inspectors general of the army as serving at division or department headquarters from their present duties, and places all five of them under the immediate orders of the Secretary of War and the General-in-Chief, for the purpose of exercising a general and comprehensive observation over the whole army, to enforce economy, induce efficiency, promote discipline, discover and remove the inefficient and to elevate the whole tone of the service by the introduction of such reforms and modifications as may be suggested by close inspection of the present establishment. The stations of the inspectors-general are not yet designated, but it is probable that General M. D. Barry, executive officer, will take post at New York; General Sackett at Washington, General Schriver at New Orleans or Atlanta, General Hardie at Chicago, and General Darrat at San Francisco. The three assistant inspectors-general are assigned to the headquarters of the three military divisions of the Atlantic, the Pacific and Missouri, and each military department headquarters. Every effort should be made from the line to supervise the military service within department limits, especially the matters of disbursements and accounts.

The Shreveport Times says: Some of our railroad men predict that in twelve months from this time ten trains a day will be running into Shreveport. The river has obstinately persisted in remaining down at the most inconvenient time possible. With a river Shreveport would now be alive with people—planters from the interior and railroad employees from the West. A gentleman who reached here a few days since from Louisville, expressed the opinion that if we had a good river not less than 5000 people would arrive here within the next two months, some to look out for investments or settlement in the city, and others to go into Texas. He remarked that all through the West Shreveport was talked about by all classes as one of the most promising places in the South. But the low stage of the river prevents us from realizing from all this the many advantages that would result if we enjoyed high water navigation.

The Red River News, published at Natchitoches, says: The cotton crop in the hill lands of the north-western part of the State will average about half the usual yield. The long drought and caterpillars have cut it off one-half. The corn crop is splendid, and the farmers generally have made more than sufficient to supply their wants. This year has been abundant, and also enable them to supply themselves with a large amount of pork.

THE PEOPLE'S COLUMN.

(Brief Communications Published—Long Ones Invariably Rejected—The Editor not Responsible for the Sentiments Expressed in the Communication.)

The Board of Health and Yellow Fever.

At the last session of the Board of Health, reported in the Republican of the thirteenth instant, we find a statement of Dr. Perry, health inspector of the Fourth District, in which he gives a description of purifying rooms from contagious diseases as follows:

I have used a large steam atomizer to throw a very dilute solution of pure carbolic acid, in the form of a fine spray, on to everything in the rooms—walls, ceiling, furniture, bedding, carpets, etc. This is done without wetting or soiling, or otherwise damaging anything. Disinfection in this manner is almost certain to reach and destroy the living, organized germs upon which yellow fever depends for its propagation.

From experiments which I have tried, I found that a diluted solution of pure carbolic acid, one to fifty parts of rain water, does not stain or injure the most delicate calicoes or cloths.

Dr. Perry, so well read an experimenter, ought to know that vibriones and other minute organisms, after having been in contact with a diluted carbolic acid of the strength of one to ten parts of water, do come to life again. How can he, then, be in earnest to assert that he is able to destroy life with a solution of one to fifty, where a solution of one to ten has failed? No doubt a solution of one part of carbolic acid to fifty parts of water will not do injury to mules, etc., but can he, with such a solution, destroy the living organized germs of yellow fever? And where are the proofs of the existence of his living organized germs? If Dr. Perry has found the real living organized germs, the propagators of yellow fever, in the search of which so many have failed, he has made a most important discovery. If he has in reality become the Pasteur of the prairie of yellow fever without making it known to the scientific world, I must submit his modesty to be equal to the importance of his discovery. Though being myself opposed to the theory of spontaneous generation, and believing that all contagious diseases, like measles, scarlet fever, smallpox, diphtheria, cholera, have living germs for the source of their propagation, yet, with the exception of smallpox, they have not been proved, and, as long as this has not been ascertained beyond doubt, scientific men ought not to give parentage to erroneous views which may lead to improper hygienic measures. What we know of the nature of vibriones does not by the force of inductive reasoning permit us to place any confidence in the atomized distribution of diluted carbolic acid as used and recommended by Dr. Perry.

M. SCHUPPERT. Meteorological and River Report. The signal service, United States army, reports, for the benefit of commerce, the meteorological record, and rise or fall of the rivers, at 3-45 P. M., local time, yesterday, as follows:

Table with columns: Place, Bar, Wind, Weather, Rain, etc. for various locations like Baton Rouge, Natchitoches, etc.

THE RIVERS. Above low water mark.

Table with columns: Station, Rise, Fall, Water mark, etc. for various river stations.

RIVER MAN DEAD.—Mr. Samuel Hancock, one of the oldest engineers on Red River, died at the Charity and Marine Hospital in Shreveport last Tuesday night. He was about fifty years old. This will be sad news to his many friends in New Orleans and elsewhere. He was a man highly esteemed by all who knew him. Poor Sam, you have turned the handle of your last throttle-valve, and tested the water in your boilers with your last gauge-stick, and to appoint a straight Democratic executive committee, and to introduce every friend of the movement who can possibly attend will do so.

The following well known names are mentioned as suitable persons for electors: Messrs. C. W. Williams, of West Feliciana; R. A. Hunter, of Rapides; J. R. Head, of Bienville; E. C. Kelly, of Orleans; W. R. Boote, of Iberville. We do not know whether these gentlemen have consented that their names should be used or not, but their acceptance of the nomination would bring out the full force of the untried, and secure for the ticket a large vote.

General Inspection of the Army. A general order from the War Department detaches each of the inspectors general of the army as serving at division or department headquarters from their present duties, and places all five of them under the immediate orders of the Secretary of War and the General-in-Chief, for the purpose of exercising a general and comprehensive observation over the whole army, to enforce economy, induce efficiency, promote discipline, discover and remove the inefficient and to elevate the whole tone of the service by the introduction of such reforms and modifications as may be suggested by close inspection of the present establishment. The stations of the inspectors-general are not yet designated, but it is probable that General M. D. Barry, executive officer, will take post at New York; General Sackett at Washington, General Schriver at New Orleans or Atlanta, General Hardie at Chicago, and General Darrat at San Francisco. The three assistant inspectors-general are assigned to the headquarters of the three military divisions of the Atlantic, the Pacific and Missouri, and each military department headquarters. Every effort should be made from the line to supervise the military service within department limits, especially the matters of disbursements and accounts.

The Shreveport Times says: Some of our railroad men predict that in twelve months from this time ten trains a day will be running into Shreveport. The river has obstinately persisted in remaining down at the most inconvenient time possible. With a river Shreveport would now be alive with people—planters from the interior and railroad employees from the West. A gentleman who reached here a few days since from Louisville, expressed the opinion that if we had a good river not less than 5000 people would arrive here within the next two months, some to look out for investments or settlement in the city, and others to go into Texas. He remarked that all through the West Shreveport was talked about by all classes as one of the most promising places in the South. But the low stage of the river prevents us from realizing from all this the many advantages that would result if we enjoyed high water navigation.

The Red River News, published at Natchitoches, says: The cotton crop in the hill lands of the north-western part of the State will average about half the usual yield. The long drought and caterpillars have cut it off one-half. The corn crop is splendid, and the farmers generally have made more than sufficient to supply their wants. This year has been abundant, and also enable them to supply themselves with a large amount of pork.

AMUSEMENTS.

Academy of Music. Those who desire to see a splendid play, abounding in sensation, may have their wishes gratified by going to the Academy of Music this evening, where Oliver Doud Byron appears in the drama of 'Across the Continent.'

Varieties Theatre. The Varieties Theatre will reopen for the season next Monday evening. The initial feature will be 'The Great Escape,' a new comedy, written by the late Henry Bowdler, supported by a carefully selected company of comedians. Box office open to-morrow.

Some one is in possession of the original pen-wiper. It is a handkerchief, formerly the property of William Penn.

Medical Bubbles.—Columns would be required to enumerate the medical bubbles that have risen to the surface and burst since Hostetter's Stomach Bitters became the standard tonic of the West. Several failures have been the lot of each and all. The reputation of the Bitters as a preventive of epidemics, a stomachic, an invigorant, a general restorative and a specific for indigestion, bilious affections, rheumatism, nervous debility, constipation, weakness, procyonal fever, and all complaints which the most sensitive of us are exclusively liable, is established upon the sound basis of more than twenty years' experience, and can no more be shaken by the clap-net nostrums of unscientific pretenders than the everlasting hills by the winds that rustle through their dens.

New Orleans Merchants should Advertise in the TERREBONNE PATRIOT, Houma, Louisiana, it will pay. del 1y

Deliver Hair Dye.—This splendid Hair Dye is the best in the world. It is the most perfect dye. Harmless, reliable and instantaneous. It restores the hair to its original color, and cures the itching and falling out of the hair. It is the only hair dye that is not injurious to the scalp, and does not require the use of any other preparation. It is the only hair dye that is not injurious to the scalp, and does not require the use of any other preparation. It is the only hair dye that is not injurious to the scalp, and does not require the use of any other preparation.

THE 'Terrebonne Patriot.' Published at Houma, Louisiana, it will pay. del 1y

Political Notices. People's Candidate for Mayor. The many friends of LEWIS ADAMS hereby announce him as a candidate for the above office at the election to be held on the 15th inst. We have the hearty support of thousands of our citizens. del 1y

For Nomination.—The friends of Mr. J. A. MASTON announce him as a candidate for the office of Mayor at the election to be held on the 15th inst. We have the hearty support of thousands of our citizens. del 1y

Please Announce P. Harman as Candidate for the office of Administrator of Public Improvement, subject to the nominating convention of the Republican party. MANY FRIENDS. del 1y

Headquarters Campaign Committee. For the purpose of making the following arrangements for the campaign, the committee deem it proper to make the following arrangements: 1. To hold a meeting on Wednesday, October 17, at 7 o'clock, at the residence of Colonel D. B. Penn, corner Eugene and Bienville streets, to discuss the respective parishes as follows: 1. Bayou Sara. 2. Tuesday, October 22. 3. Lake Charles. 4. Wednesday, October 23. 5. Lake St. Louis. 6. Thursday, October 24. 7. Lake St. Louis. 8. Friday, October 25. 9. Lake St. Louis. 10. Saturday, October 26. 11. Lake St. Louis. 12. Sunday, October 27. 13. Lake St. Louis. 14. Monday, October 28. 15. Lake St. Louis. 16. Tuesday, October 29. 17. Lake St. Louis. 18. Wednesday, October 30. 19. Lake St. Louis. 20. Thursday, October 31. 21. Lake St. Louis. 22. Friday, October 31. 23. Lake St. Louis. 24. Saturday, October 31. 25. Lake St. Louis. 26. Sunday, October 31. 27. Lake St. Louis. 28. Monday, October 31. 29. Lake St. Louis. 30. Tuesday, October 31. 31. Lake St. Louis. 32. Wednesday, October 31. 33. Lake St. Louis. 34. Thursday, October 31. 35. Lake St. Louis. 36. Friday, October 31. 37. Lake St. Louis. 38. Saturday, October 31. 39. Lake St. Louis. 40. Sunday, October 31. 41. Lake St. Louis. 42. Monday, October 31. 43. Lake St. Louis. 44. Tuesday, October 31. 45. Lake St. Louis. 46. Wednesday, October 31. 47. Lake St. Louis. 48. Thursday, October 31. 49. Lake St. Louis. 50. Friday, October 31. 51. Lake St. Louis. 52.
