

New Orleans Republican

OFFICIAL JOURNAL OF THE UNITED STATES OFFICIAL JOURNAL OF NEW ORLEANS

THE DAILY REPUBLICAN

May be had of the following dealers: George Ellis, opposite the Postoffice. C. C. Haley, No. 19 Commercial place. C. G. D. Holle, No. 61 Exchange place. A. Simon, St. Louis street, between Royal and Exchange alleys (under St. Louis Hotel).

AUCTION SALES TO-MORROW

BY ADMINISTRATION: FURNISH, at twelve o'clock, in the hall of the revenues of the public markets for the month of February. BY SHERIFF HAPPER, at 12 o'clock, at Merchants and Auctioneers' Exchange, all the interest of M. Labourey in a note for \$100,000, which falls due on the 1st of March next.

Local Intelligence

FIRE—Thursday afternoon Officer Wolf extinguished a fire in a two-story frame house, corner of Enterprise and Franklin streets, occupied by Mrs. Davis and family, and owned by Mrs. Torr. Damage slight and no alarm given.

Officer E. Duffy also put out a fire without giving an alarm, which broke out on the roof of house No. 189 Chippewa street, at 11 A. M. yesterday. Fire caused by a stove-pipe running through the roof. Damage about \$50.

FIRE—Loss \$500.—Friday night at twenty-five minutes to eleven o'clock a fire, originating in the frame house on Seguin, between Villere and Patterson streets, Algiers, occupied by Eli Batiste, destroyed that and the adjoining house occupied by James Sammerwell. Both were owned by Edmund Kohll, whose loss is estimated at about \$500, whether insured or not could not be ascertained.

FIRST DISTRICT RECORDER'S COURT—Recorder Houghton presiding.—Aorton Frazier, charged by Captain George H. A. Bevan, of ship Kate, with larceny of about 150 pounds of cotton on board the ship, was committed, in default of \$150 bonds, to appear before the Criminal Court.

THE LITTLE SISTERS OF THE POOR.—We copy the following from the Morning Star of today:

Among the many monuments of Catholicism erected in our city to the honor of God as the spacious and magnificent brick building of the Sisters above named which is almost completed. This institution will be a public asylum and permanent home for the aged of both sexes, under the roof of which many of our poor will find shelter, and be rescued from a state of actual starvation.

THE 870th CONGRESS.—Old quorum calls to delude the air of Odd Fellows' Hall, for he is very backward in coming forward. The hour set for assembling arrives, passes and another hour sometimes passes before a quorum is announced. Finally a member, it is intimated, answers double and then business goes on joyfully.

THE LONE STARS.—At a meeting of the members of the first nine of the Lone Star Base Ball Club, held last evening, Martial H. Redon, their crack second baseman, was elected captain of the team, vice Tracy, who resigned. Martial, as he is more generally known, is a whole-souled, noble and generous fellow, and with him directing the boys in the diamond field, they need never fear defeat, for the "little Frenchman" knows no word but victory.

THE LONE CHARGE.—Messrs. E. B. Malone, familiarly known as "Kinoh," William Foley and William Fulton, being gentlemen living without the necessity of honest employment, caused Special Officer Smith to believe them to be dangerous and suspicious characters, and to arrest them yesterday morning. On being arraigned before Recorder Houghton, "Kinoh" stated that he thought he had had "about enough of this sort of thing, and didn't propose to stand it any longer." On the thirty-first he will have an opportunity to propose a remedy.

THE LITTLE SISTERS HAVE RESTING UPON their new building a grand and noble monument to the memory of the Little Sisters of the Poor, who have spent their lives in the service of the poor. The building is a masterpiece of architecture, and is a credit to the city. The Sisters are in urgent need of the most essential and indispensable articles of both clothing and furniture, and it is hoped that the public will contribute liberally to their needs.

heavily in debt. Hence their pastor was compelled to call upon the generous people of America to assist their brethren in Ireland. Father McKenna has received the permission of his grace the most reverend Archbishop of New Orleans to call upon our citizens for these charitable purposes.

THE HIBERNIAN ASSOCIATION.—Since its organization in 1870, says the Morning Star, the Hibernian Association has rapidly increased in strength and influence till it is now the largest benevolent association in the South. The Star gives from the yearly report of the officers of the central board for the year 1872, the following extracts as showing the condition and works of the association in this city:

Number of branches January 1, 1872, eleven, consisting of 1692 active members. During the year three new branches have been admitted, and the membership of the association increased to 1201; 395 new members have been admitted, 215 have been expelled, 40 have resigned, 51 have died, making the total loss of members 286.

The report of the finance committee gives the total receipts from January 1, 1872, to December 31, 1872, as follows: Cash from ex-treasurer, January 1, 1872, \$ 916 00 Cash from people, 325 36 Cash for initiation fees, 135 25 Cash assessments, 12 00 49 Total receipts for the year, \$1409 24

Printing, advertising, stationery, 420 00 Paid salaries of deceased officers, 4 00 25 Total, 464 25 Cash balance on hand, \$1275 20

THE DEATHS in the association during the past year have been unusually large. Assessments paid in 1870, twelve, and amount to \$436; in 1871, ten, and amount to \$438; in 1872, twenty-eight, and amount to \$12,062 40.

It will be seen by the above that the large sum of \$12,062 40 has been given to the families of those members who died during the year.

BALL OF ORLEANS FIRE COMPANY No. 21.—The members of this game old company may plume themselves on the pleasure experienced at the ball last night in Perfect Union Hall. The ball was given to increase a fund with which to purchase a steam engine, and the fund is fatter for the experiment. The ladies in attendance seemed to enjoy themselves as if it was the last opportunity this season. Many of the toilettes were in excellent taste. The members have fair prospects of procuring a new steamer.

FIRE—A fire broke out about 5 P. M. yesterday in the house of P. T. Delacour, No. 29 S. Andrew street, caused by a defective chimney. The fire was extinguished without an alarm. The roof was slightly damaged.

THE 870th CONGRESS.—Old quorum calls to delude the air of Odd Fellows' Hall, for he is very backward in coming forward. The hour set for assembling arrives, passes and another hour sometimes passes before a quorum is announced. Finally a member, it is intimated, answers double and then business goes on joyfully.

THE LONE STARS.—At a meeting of the members of the first nine of the Lone Star Base Ball Club, held last evening, Martial H. Redon, their crack second baseman, was elected captain of the team, vice Tracy, who resigned.

THE LONE CHARGE.—Messrs. E. B. Malone, familiarly known as "Kinoh," William Foley and William Fulton, being gentlemen living without the necessity of honest employment, caused Special Officer Smith to believe them to be dangerous and suspicious characters, and to arrest them yesterday morning.

joyed themselves reasonably, dancing, promenading and conversing vivaciously. The party passed off with much spirit, which is in great part due to the committee.

Rex, he of the Carnival, permitted a very thin shadow to cross his jolly brow, one day last week, when he was informed that storekeepers were advertising their holiday wares as if with his sanction. For the first time in many years a cloud darkened his good-humored countenance, and probably he never before was so near the boundary of anger—one of the passions not marked in his dictionary.

RECORDER BILLINGS SUBVENED.—He Is Acquitted.—Last Thursday or Friday Valentine Schantz visited the office of Administrator Brewer, complaining that he found that Recorder Billings, Fourth District, had not made proper return of \$10. Mr. Schantz was arrested, on the sixth instant, for an assault and battery, but the complainant soon after asked to withdraw the charge. As she had given to the court and the police considerable trouble, they were told that costs to the extent of \$10 must be paid. Accused paid half and the woman the other half. Mr. Schantz, on looking at the lines reported as returned by the recorder last Monday, discovered that the Fourth District was blank. He then informed Administrator Brewer, when a meeting of the City Council was called.

Last Friday a formal charge was made against Mr. Billings, when he was suspended and Alternate Recorder Draper took possession of the office. Yesterday the case was heard, all the Administrators present in the Mayor's office, Mayor Wilts presiding. Witnesses for the sides were heard. The defense showed that previous to the time the prosecutor withdrew her complaint, the case had been fixed for the twenty-first instant, and consequently the administrator of Police for last week; it was put aside to go in as received on the twenty-first, and would not show until next Monday's returns were in. The affidavit had in returnments on it proving such as the administrator in the Mayor's office. Mr. Billings, in a very few minutes after the testimony was all in, and he was instantly reinstated.

THE LONE STARS.—At a meeting of the members of the first nine of the Lone Star Base Ball Club, held last evening, Martial H. Redon, their crack second baseman, was elected captain of the team, vice Tracy, who resigned.

closed. Captain Flanagan was of the opinion that the key had been turned before the door was entirely closed, and therefore been left open by carelessness.

ACCIDENT ON THE MOBILE AND TEXAS RAILROAD.—T. J. Cowen, conductor of train No. 6, reports that about five minutes past ten o'clock last evening, when near Montgomery station, the train ran over and instantly killed a man, supposed to be J. G. Collins. The body was brought to the city on the train.

FIRST PRECINCT.—Ella Sanders is locked up for careless driving on Magazine street, by which violation of the city ordinance he succeeded in breaking the wagon of John Lee.

Vital Statistics. Dr. J. M. Tower, connected with the government educational bureau at Washington, has devoted time and research to this subject, and the result has been the elation of some singular facts.

In our country it is demonstrated, that there is a marked decline in the population of marriageable age who are living in wedlock. The census of 1850 shows twenty-eight persons to have died in every 2000 of the population, which mortality ten years later is reduced to twenty-five per 2000.

A law of nature, almost uniform throughout the world, produces a greater number of male than female births. The excess ranges, in different countries, and at different periods, from one to twelve in the hundred. The rate of excess in the United States is about six to the hundred.

Dr. Tower advances no theories in the pamphlet which he has promulgated, but simply suggests that children "are either born with exceedingly feeble constitutions, or there is something radically wrong in the present mode of rearing them."

One of the most interesting facts which has been arrived at in this investigation is the constant decrease of births in our country in proportion to the population.

Taking the whole number of white children under the age of fifteen, in proportion to the number of females between fifteen and fifty years of age, there is undoubted evidence of decline. Dr. Tower has arranged the statistics of each State in the Union, and it is falling off is shown to be the case in every one of them except California, Minnesota, Wisconsin and Texas.

This table shows the proportion of white children of both sexes, under fifteen years of age, to the 1000 white females between fifteen and fifty years of age in this decade.

THE ARISTOCRACY OF THE SOUTH.—It must be but a very superficial student of the histories of England, Ireland and Scotland, in connection with that of this continent, who does not know that we have in the Southern States representatives of some of the noblest of the ancient aristocracy of those countries.

LETTER FROM SAN DIEGO. Increase in Population—Salubrious Climate—Shipments of Bullion—Coal Discovered—Productive Sulphur Mines—Railroad Information—Whites, Blonnes and Herring.

San Diego, Cal., January 9, 1873. Following in the path of the lamented Greeley, I would say to the more youthful portion of your readers, "Young men, come West." And if you propose to come West, this is the point to strike.

Hardly five years have elapsed since the first buildings in the new town of San Diego were erected. The population then numbered only fifteen or twenty persons. There are now nearly eight hundred buildings, and a population of more than three thousand in the city.

The climate is salubrious, and temperature even. The minimum temperature of the coldest month, January, is 38°, and the maximum temperature of the hottest month, August, is 80°, making a difference of only 42° between the two extremes.

The bullion shipments from this city have greatly increased during the past year, the figures being as follows: Bullion from San Diego county mines \$488,670; from Lower California \$50,775, or a total shipment from the port of San Diego of \$539,445 in 1872.

The number of passengers arriving at San Diego in 1872 by sea was 2942, by land 1341—a total of 4276. The departures during the same period by sea were 1285, by land 337—a total of 1622. Excess of arrivals over departures 2654.

Strawberries, pump and peas, were ripe here at Christmas, and grass is growing rapidly. Oranges, peaches and kindred fruit thrive here and are cultivated easily and successfully.

Feathered game is very abundant here at the present time. Curlew, brant and other water fowl are in season and sportsmen bag them every day. The San Diego whalers have just captured their first whale of the season, and celebrated the event by a grand picnic.

Extensive coal fields have been discovered recently in the vicinity of Temecula, in this county. The deposits are large, and veins of coal can be found in all the hills in the vicinity of Temecula and San Jacinto.

The sulphur mines of Lower California, located at the southern end of the Coachella mountains, twelve miles in a direct line from the Colorado river and sixty miles below the frontier boundary line, are very productive. The sulphur is found in ledges similar to coal veins, but somewhat broken and lying at different angles of inclination.

The Texas Pacific railroad surveys are progressing. The line surveyed by the Crawford party was from San Geronimo Pass across the desert to Fort Yuma.

THE TEXAS PACIFIC RAILROAD SURVEYS are progressing. The line surveyed by the Crawford party was from San Geronimo Pass across the desert to Fort Yuma.

Bernardino and Santa Barbara. It is his intention to publish engravings of the four cities of Southern California.

National City, further up the bay, has advanced simultaneously with the growth of San Diego. Here enterprise is manifest in a splendid seven mile avenue for public use, a wharf that has no superior below San Francisco, warehouses, postoffice, and many fine residences.

The Nabstein Concerts. The Nabstein concerts have attracted the attention of the admirers of music in Boston, New York, Chicago, St. Louis and the principal cities of the entire country.

Of all the creations of the great author, "Maebeth" holds the first rank. This fact is shown in the eagerness with which people have approached the box office for the first presentation of "Maebeth" to-morrow night.

"A Dose in Time," Etc.—If a "itch in time does you no harm," it is equally certain that a dose of healthy tonic like Hostetter's Stomach Bitters taken at the outset of the year will save many an unpleasant twinge.
