BEWARE OF BOGUS LOTTERIES. DRAWING OF THE LOUISIANA STATE LOTTERY FOR MARCH 19, 1873.

THE STATE OF LOUISIANA.

CARPENTER'S ELECTION BILL.

SENATOR FLANAGAN'S STORY.

It will be recalled by our readers that on the memorable night session of the Senate, when Senator Carpenter's Louisiana election bill was under discussion.

We reproduce extracts from that speech, including Flanagan's story.

Referring to the point in the bill, providing that Judge Woods should discharge the duties imposed upon him therein, and requiring him to appoint two competent and suitable persons for State registrars.

That is very fair, indeed; it is remarkably fair. It stands too correct. What political party? Does it invite our attention to the Republican party, to the Democratic party?

Those are facts that I am familiar with; there is no mistake about them; they are unchangeable and they are true.

My distinguished friend, the Senator from Vermont, said that he would not have done thus and so in the past. Very well; but we are in the present, and the question is now what are you to do?

Now, Mr. President, when we reflect that there is a republican government organized in Louisiana, it will be seen that we have got to get on with it.

My interest is my interest, and I feel for them, because in feeling for them I feel for the South, because the sympathies of Texas and Louisiana, the one and the other, are in the hands of the people.

I was again amused at the remarks of my distinguished friend from Vermont, Mr. Edmunds, who said that he would not have done thus and so in the past.

Why, sir, in the South during the days of secession they were proclaimed from the housetops, "Any government that we give you a king; give us anything rather than such a government as we were living under before we were free."

They now say: "Hands off, so far as the United States is concerned, and we will ride over Kellogg roughshod, and will have no difficulty about that."

Who is it that pretends to say there is a free election in the State of Louisiana? The fact does not exist. It will only be quainted with many of the citizens, white and black, in the town of Shreveport, and have been for thirty years. It is the largest city in the State of Louisiana, outside of New Orleans.

THE STATE OF LOUISIANA.

would have needed; they loved the Union; but interested demagogues for the moment, as the great Lee said when he was surrendering before the Reconstruction Committee, and was interrogated as to the reason of the war.

Thousands and thousands of good men as blood ever ran through the veins of life in the South today, and believe that secession is the only way to get on with these politicians.

When I came on here through Shreveport, what I thought seemed to me a wonderful thing, there were Democrats on that occasion in the town of Shreveport that were good men, and they are to be found everywhere in the town of Shreveport.

Those are facts that I am familiar with; there is no mistake about them; they are unchangeable and they are true.

My distinguished friend, the Senator from Vermont, said that he would not have done thus and so in the past. Very well; but we are in the present, and the question is now what are you to do?

when they are a little out of latitude, called his attention directly to the fact, "it is thus and so; do not get away too fast; do not declare too much because when you do we can not very readily get you out of this pit now look at this thing; the reason is this and so."

Thousands and thousands of good men as blood ever ran through the veins of life in the South today, and believe that secession is the only way to get on with these politicians.

Verdict Against the Bank.

WASHINGTON.

Mr. Casey's Confirmation Probable--Minister to China Resigned--Hon. James Brooks Sinking Daily--Loyal Credit Mobs--Barnes' Extras--Nominations--No Confirmation.

WASHINGTON, March 19.--The fight over Colonel Casey, as collector of customs, was the topic this morning. He will probably be confirmed by two votes; if Flanagan leaves by one, it is somewhat probable that Messrs. Carpenter and West have traded, Mr. West voting for Dillingham as naval officer, and Mr. Carpenter voting against him.

Mr. Lowe, Minister to China, has resigned. Hon. James Brooks is reported to be sinking daily from a malarial disease contracted during his trip around the world. The census takers for 1870 are to be paid without proof of levity. The Credit Mobilier books, which were called for by the Bureau of Justice, are astray.

Nominations--S. H. Elbert, Governor of Colorado; C. D. Thomas, pension agent, Little Rock; H. C. Honck, collector of the fourth Texas district; C. E. Newman, register of the land office. Mobile; C. L. Case, receiver of public money, Jackson, Mississippi.

Senator Flanagan delays his departure to vote for Colonel Casey. The Commerce have reported unanimously in favor of Colonel Casey. There are assurances from prominent supporters of the administration that there is no doubt of a favorable result for Colonel Casey, when it comes to a vote. Senators Schurz, West and some other Liberal Republicans will speak in opposition. The following, supposed to have been intended by General West, appears in the Short-story:

The nomination of Mr. Casey to be collector of the port of New Orleans has already caused some debate in the executive session of the Senate, and it is likely to lead to a protracted discussion, as Mr. West, the only Senator from Louisiana, intends to make a vigorous fight against him, and has so notified both the President and Mr. Casey. His reasons are, that, while Mr. Casey is personally agreeable to him, politically, the collector and his friends are inimical to the President and the best interests of the Republican party in the State.

It is from what Senator disengages himself from what the Senator designates the ring or corrupt element of the Republican party in the State, he (Mr. West) would have no objection to the confirmation, but as Mr. Casey has not signified his intention of leaving the office of the President, and the Democrats and Liberal Republicans intend to bring before the Senate the report made by the congressional committee sent to Louisiana, which shows that the President's chairman, upon which the President depended Mr. Casey's resignation.

Lieutenant Fred Grant has been assigned to duty on General Sheridan's staff at Chicago. In the Senate Mr. West asked to take up his resolution authorizing the Committee on Levees of the Mississippi to sit during the recess, with a view to an inquiry into the propriety of the national government assuming the care and maintenance of the same.

Mr. Ferry, of Connecticut, raised the point of order that the resolution was in the nature of legislation, and could not be entertained. The Vice President sustained the point of order.

NEW YORK.

Erie Officials Suspended--Case of Phelps, Dodge & Co. Settled--\$271,000 Paid to Government--New York Times Unhappy--Democratic Sympathizers in Louisiana--Italian Bark Foundered--Steamship Touched at Bermuda--Shipsmen from St. Thomas--Porto Rico Emancipation.
