BOARD OF HEALTH.

A meeting of the Board of Health was held last evening.

Present--Dr. C. B. White, president; Dr. C. S. Russell, secretary; Dr. B. Mass, Dr. W. H. Hise and John S. Walton.

The president acknowledged the receipt of the report of the Virginia State Board of Health for the present year, with compliments of Dr. J. L. Cabell, president.

Extracts from advance sheets of the report of the New York Board of Health, on the "Epidemic Influenza" were read.

Quite a number of maulances in various parts of the city were ordered to be abated.

A communication from James G. Clark, of Baltimore, on the subject of the garbage law and the utilizing of coal, etc., was acknowledged, received through the Mayor of the city.

A communication from Paul Waterman, foreman of the grand jury, transmitting a communication from Dr. J. J. Hayes, of the Louisiana Hospital, was read.

The opinion of the board is asked on the subject of two rival post-offices--that of complainant and of Dr. Anson.

Dr. White stated that suits had been instituted against several physicians of the city who have persistently neglected to report cases of small pox and other malignant diseases coming under their notice.

Quite a number of masters of vessels have also had themselves liable to prosecution for the same neglect.

These prosecutions are had by virtue of the following section of the health ordinance:

SEC. 28. All practitioners of medicine, masters of any vessel, hotel, boarding or lodging house keepers, principals or managers of any boarding school or seminary, the chief officers or persons in charge of any police institution of charity or any other institution, are hereby required to report, within twenty-four hours, to the office of the Board of Health, all cases within their cognizance of Asiatic cholera, scarlet fever, typhoid fever, malignant scarlet fever, small pox, varioloid, trichinosis, or any other case that may at any time be specified by the Board of Health, and in default of failure to report such cases, such person so failing or in default shall be liable to a fine not to exceed fifty dollars; provided, however, that said board may decline to prosecute in any such cases, when any disease shall have been pronounced epidemic.

The following communication was ordered to be forwarded:

To the Honorable Mayor and City Administrators:

The Board of Health have the honor to recommend that during the period in which the height of the river permits the flow of water through the locks, the various streets of the city the unsightly and expensive custom of dipping liquid and offensive mud from the gutters to be piled or spread upon the streets be wholly discontinued, as to the street water, which is now being crossed by these streams of fresh water.

It is recommended that in the localities mentioned the material of the gutters and the streets parallel with the river be not lifted by the gutter, but be simply scooped along the gutter in which the strong current of river water is flowing.

A large portion, probably seventy-five per cent, of the material is not heavier than water, or of a specific gravity so nearly the same that water in motion will remove it. It is not carried entirely away to the rear of the city, the true supply of fresh water afforded by the rapid current will oxidize and render innocuous the animal and vegetable matter brought into the street.

The Board of Health again call the attention of the city authorities to the totally useless, very expensive, excessively unhealthy and in every respect reprehensible custom of the Department of Improvements of baling out the filthy contents of the gutters into the streets.

The money paid for labor in lading out only the water, which is composed of about fifty per cent of this liquid mud, would put into grade many bad gutters, and in a brief space of time effect a large amount of valuable permanent improvement.

I have the honor to be, very respectfully, your obedient servant.

C. B. WHITE, M. D., President of the Board of Health.

An application from Dr. J. T. Newman, asking the appointment of sanitary inspector of the Fifth District, was read and laid over to await the action of a full board.

The meeting then adjourned.

End of the Bar Blockade.

Captain C. W. Howell, of the engineer corps, United States Army, writes us, dated United States Engineer's Office, New Orleans, March 21, 6 P. M., as follows:

The bar blockade was raised at 2 P. M. today, by the dredgeboats of Geason and McAlister, towing off to sea the steamer Vandalia.

After removing the Vandalia, the dredgeboats immediately deepened the channel, now to ported seventeen feet deep at extreme low tide, and at its narrowest point, for that depth ninety feet wide. All vessels detained by the blockade can now cross the bar without trouble. The dredgeboats will be retained on the bar deepening the channel, and to prevent further attempts to blockade.

A significant point is made in the concluding sentence of Captain Howell's note, which will effectually prevent any future attempts to blockade by the negligence or carelessness of parties connected with the merchant marine service.

Southwest Pass.

The foreign arrivals at Southwest Pass have been unusually numerous during the last two or three days. In addition to the vessels which have arrived and been ordered elsewhere, was reported as arrived yesterday the British ship Her Majesty, from London, January 16 and 17, and January 25, for Pensacola.

She was yesterday for Mobile; ship Ellen Southard, Woodworth, from Havre, January 12, sailed yesterday for Galveston, and ship Westward-bound, from Antwerp, January 17, sailed yesterday for Philadelphia.

Signe Distention and City Property as Auction.

Today, at twelve o'clock, at the Merchants and Auctioneers' Exchange, there will be a peremptory sale, by order of the United States District Court, by Messrs. C. E. Girard & Co., auctioneers, of the Campbell sugar estate, the McGill plantation, in the parish of St. Martin. Various valuable city properties will also be peremptorily sold at the same time and place. We commend this opportunity to the attention of our readers as one of the few which, if taken advantage of, will surely lead to fortune.

Escaped from Sing Sing.

Mr. Dominick Murray appeared again last night in the new and fascinating sensation of "Escaped from Sing Sing," and again displayed his wonderful versatility of dramatic talent by delineating five distinct characters in that play.

It is a pity that so many people flock to the St. Charles to see him night after night. As life is portrayed in it, rendered easy by the natural representations of lower life in which some of the stock company excel.

Miss Amelia Waugh is entitled to commendation for her delineations of character in the play.

Frederic Robinson.

Next Wednesday evening Mr. Frederic Robinson, the leading actor at the Varieties Theatre, will be the recipient of the esteem of his friends and admirers, before whom he will come in the person of a beneficiary.

He will appear as *Partner, Ill.*, in the affecting and interesting play of "Dora." Following this performance, will be a selection from "Othello," and the comedietta of the "Lady of Manster," in both of which members of the Shakespeare and Orleans Dramatic Clubs will assist.

Benefit of Roland Reed.

That bunch of all funny comedians, Mr. Roland Reed, announces that this evening is the time for his benefit at the Acad. of Music, where he is a special favor. He will appear as *Hans*, as *Nibson*, as *Griger*, in "Cousin Hans' Visit to Mardi Gras," "Nibson" and the "Lone Star of Texas." For the enjoyment of real genuine fun, and to encourage a talented and ambitious young artist, secure your seats to-day, for the house will certainly be crowded.

Valuable Improved and Valuable Real Estate at Auction by the Sheriff's--Particular attention is called to the sales at auction to be made this day at noon, at the Merchants and Auctioneers' Exchange, Royal street, by the sheriff of the parish of Orleans. Said sales comprise:

1. A portion of ground with all the buildings and improvements thereon, situated in the Fourth District of this city, on Seventh street, between Harmon and Dryades streets.

The Fusion Agitators--Destruction of a Newspaper Establishment.

A private dispatch was received here yesterday from New Iberia, stating that the printing office of the *Echo*, published at St. Martinville, parish of St. Martin, was thrown into chaos Tuesday morning by parties of unknown origin.

On Monday last the recorder, sheriff and clerk of the court, commissioned by Governor Kellogg, made demand for those of the present incumbents who are Fusionists, and they refused to give them up. Since then, it is stated, the Fusionists there have armed themselves and remained under arms to resist any attempt to take possession of these offices by force.

What connection, if any, the attempt of the parties commissioned by Governor Kellogg to induce themselves into office had with this demonstration of the power of a mob to destroy a newspaper office, is not known.

The *Echo* was conducted by Mr. J. F. Poin, and was moderate in its tone, though unequivocally a supporter of the Republican party and its officials.

Police-men's Rights With Deadly Weapons.

A case was before Judge Gilmore, a Baltimore, last Monday, where a police officer fired two shots into the back of a bench of the peace, but the testimony was conflicting as to whether the man did or did not resist. The court, in deciding the case, remarked that a police officer armed with deadly weapons ought to be very careful, and reflect seriously upon the necessity of using them. It was a difficult question to determine at what point an officer is justified in using a deadly weapon. It should not be resorted to except in cases of high felony, where it is necessary to secure the arrest of the offender. This should be the rule. In this case the man had committed no offense which deserved death, although he had leveled and disabled the policeman from whom he had stolen the goods. The large powers vested in the police commissioners, who could correct any uncalled for or injudicious use of deadly weapons, and also looking to the conduct of evidence, he would give Traverser the benefit of the contradictory evidence, and direct his acquittal.
